G. C. MOOKERJEE,
Registrar, Bengal Council of Medical Registration Returning Officer.

GROSVENOR HOUSE.
The 18th August 1917.

BENGAL COUNCIL OF MEDICAL REGISTRATION.

Notice of Elections to be held under Clauses (*d*) to (*f*) of Section 4 of the Bengal Medical Act, 1914 (Bengal Act VI of 1914).

WHEREAS in the Financial Department (Medical Branch) Notification No. 933 Medl., dated the 30th April 1915 (published at pages 835-843 of Part I of the *Calcutta Gazette* of the 5th May 1915), the Governor in Council has, in exercise of the powers conferred by sub-sections (1) and (2) of section 33 of the Bengal Medical Act, 1914 (Bengal Act VI of 1914), made rules to regulate the elections to be held under clauses (*c*) to (*f*) of section 4 of the said Act,

And whereas for the purposes of elections under clause (*d*), clause (*e*) and clause (*f*) of the said section 4, the said rules—

(*a*) appoint the Registrar of the Bengal Council of Medical Registration to be the Returning Officer.

(*b*) empower the Returning Officer—

(*i*) to notify in the *Calcutta Gazette* the day on which the term of office of the members elected on the 1st day of September, 1914, will expire and to take steps to hold fresh elections to fill vacancies, and

(*ii*) to appoint and notify the dates and also the times and places for the various stages of the elections,

Now, therefore, in compliance with the said rules, it is hereby announced—

(1). That the term of office of the following first elected members of the Bengal Council of Medical Registration, which under section 11 of the Bengal Medical Act, 1914, was declared by the Local Government in Notification No. 4727 Medl., dated the 20th October 1914, to have commenced on and from the date of that Notification, will expire on the 19th of October 1917 :—

Name.	By whom elected.
Colonel E. H. Brown, I.M.S. (retired), M.D., M.R.C.P., F.R.C.S., D.P.H.	Elected under section 4(*d*) by Medical Practitioners qualified to be registered under the Medical Acts.

Rai Haridhan Dutt, Bahadur, L.M.S.	Ditto ditto.
Dr. Kedarnath Das, M.D.... ...	Ditto under the proviso to section 4(*e*).
Dr. Saratkumar Mallik, M.D., C.M ...	Elected by other Medical Practitioners under the proviso to section 4(*f*).
Rai Saheb Giris Chandra Bagchi, Assistant Surgeon.	Ditto under section 4(*f*).

(2) In pursuance of rule 7 of the said rules, all persons whose names are included in the Register of Registered Practitioners and who are qualified to vote at the forthcoming elections under clauses (*d*) to (*f*) respectively, are hereby called upon to elect the member or members to be elected thereunder before the 1st of October 1917.

Any person whose name is included in the Register of Registered Practitioners and who is not disqualified for election to the Council under section 6 of the Bengal Medical Act, 1914, may be nominated as a candidate for election under clause (*d*), clause (*e*) and clause (*f*) of section 4 of the Act. Such nomination shall be made by means of a nomination paper, which will be supplied by the Returning Officer to any elector who may apply for the same. Each nomination paper shall be subscribed by two electors as proposer and seconder.

(3) In pursuance of rule 22 of the said rules, it is hereby announced—

(*a*) That the scrutiny of nomination papers of candidates under rule 14(1) shall be made at the Meeting-room in the Office of the Bengal Council of Medical Registration, Grosvenor House, 21, Old Court House Street, Calcutta, at 11 A.M., on the 3rd September 1917.

Nomination papers which are not received by the Returning Officer before 6 P.M. on the 2nd day of September 1917 shall be invalid.

(*b*) Voting papers shall be sent to the electors under rule 15 (3) on or before the 10th September 1917.

(*c*) Electors who desire to record their votes shall send in their voting papers to the Returning Officer under rule 18 on or before the 28th September 1917.

Voting papers which are not received by the Returning Officer before 6 P.M. on the 28th September 1917 will be rejected.

(*d*) The Returning Officer shall attend at the said Meeting-room at 11 A.M. on the 29th September 1917 for the purpose of counting the votes under rule 18(1).

Every candidate may be present in person or send a representative, duly authorised by him in writing, to watch the process of counting.

G. C. MOOKERJEE, *Returning Officer*,
Registrar, Bengal Council of Medical Registration.

CALCUTTA UNIVERSITY.

NOTICE.

THE Senate will proceed in the month of August 1918, to the election of a Tagore Professor of Law for a term of one year, to commence on the 1st of August 1919.

The salary of the Professorship is Rs. 9,000 per annum, and the Professor will be expected to deliver a course of not less than twelve lectures on one of the following subjects :—

(*i*) The Law of Pre-emption in British India.
(*ii*) The History of Hindu Law in the Vedic Age and in Post-Vedic times down to the Institutes of Manu.
(*iii*) Principles of Criminology with special reference to their application in India.

The salary of the Professor will be paid in twelve equal monthly instalments, the first instalment to be paid on the first day of the month following that in which the first lecture is delivered.

Candidates for the Professorship are requested to forward their applications to the Registrar on or before the 1st May 1918, stating on which of the above-named three subjects they are prepared to lecture. Each candidate will forward with his application one hundred copies of a brief Synopsis of his proposed lectures; and, if he so pleases, the same number of copies of his Introductory Lecture.

The Professor will, not later than the month of August following his election, forward to the Registrar a complete copy (manuscript or typewritten) of the lectures which he proposes to deliver. The copy will be forthwith referred to a Committee of the Faculty of Law, consisting of not more than three members to be chosen by the Faculty, who will examine the same, and, before the expiry of two months from the date of the submission of the copy by the Professor to the Registrar, report to the Faculty whether the work is complete and ready for the Press. If, upon such report, the Faculty are satisfied that the work is complete, the Professor will commence to deliver his lectures within three months from the date of the resolution of the Faculty and shall complete the delivery thereof in another three months. The copy of the lectures delivered will remain in the custody of the Registrar and shall be sent to Press as soon as practicable after delivery thereof.

If the Professor fails to submit the copy of the lectures, or if the copy submitted be found, on examination, to be incomplete and not ready for the Press, the matter will be referred to the Faculty of Law, upon whose recommendation the Senate may either extend the time or cancel the appointment.

Notice.

THE Bengal and Madras Service Family Pension Fund which is provisionally managed and assisted by Government has for its object the provision of monthly pensions for the maintenance of the widows and children of subscribers and is open, with certain exceptions, to all active and pensioned members of the Uncovenanted Service of Government (except those serving under the Government of Bombay), and to Local Fund servants earning pensions from Government. Some of the special features of the Fund are—(1) that widowed daughters incapable of remarriage or children labouring under such mental or bodily infirmities as incapacitate them from earning their livelihood or preclude the possibility of marriage (in case of a daughter) are admitted to its benefits; and (2) that subscribers to the Widows' and Daughters' branches are entitled to a refund of 30 per cent. of the premia paid, should the nominees predecease them after five years of admission. The Fund is now of ten years' standing and has a balance of over three and-a-half lakhs with Government on four per cent. interest. For forms of applications and rules of the Fund apply to the Comptroller, India Treasuries, Imperial Secretariat Buildings, Calcutta.

THE INDIAN LAW REPORTS.

Published in FOUR SERIES viz.

CALCUTTA, MADRAS BOMBAY AND ALLAHABAD.

THE Indian Law Reports, published under the authority of the Governor-General in Council are printed in monthly Parts, which are issued, as soon as possible after the first of each month, at Calcutta, Madras, Bombay and Allahabad, respectively.

The Reports comprise four Series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court.

The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depôt: and the Madras, Bombay and Allahabad Series are distributed direct from Madras, Bombay and Allahabad, respectively.

Persons desiring to subscribe for or purchase the Reports should apply to—

the Officer in charge Bengal Secretariat Book Depôt, Calcutta, or

the Superintendent, Government Press, Madras, or

the Superintendent, Government Central Press, Bombay, or

the Curator of Government Books, United Provinces of Agra and Oudh, Allahabad.

REPORT ON THE WORKING OF THE LICENSED WAREHOUSE AND FIRE BRIGADE ACT I OF 1893.

NOTIFICATION.

No. 1506M.—The 18th August 1917.—The following is published for general information under section 41 of the Licensed Warehouse and Fire Brigade Act, (Bengal Act I of 1893.)

L. S. S. O'MALLEY,
Secy. to the Govt. of Bengal.

No. 95M., dated Calcutta, the 18th July 1917.

From—THE HON'BLE MR. F. J. MONAHAN, I.C.S., Commissioner of the Presidency Division,

To—The Secretary to the Government of Bengal, Municipal Department.

I HAVE the honour to submit herewith copies of the reports on the working of the Licensed Jute Warehouse and Fire Brigade Act, I (B.C.) of 1893, for the year ending the 31st March 1917, in the Cossipore-Chitpore, Maniktala and Garden Reach Municipalities.

No. 670, dated Talla, the 8th June 1917.

From—Rai Kripa Nath Dutt Bahadur, Chairman, Cossipore-Chitpore Municipality,

To—The Magistrate of the 24-Parganas, Alipore.

With reference to your letter No. M. 306—1-17, dated the 17th May 1917, I have the honour to submit the following report on the working of Jute Warehouse and Fire Brigade Act within the Municipality during the year 1916-17, together with the statements of receipts and disbursements and of the licensed warehouses in the forms prescribed by Government.

2. The rate of the license fee levied on the warehouses in the year of report was 7½ per cent. on the annual valuations of warehouses—the same as was levied in the previous year.

3. The total receipts from the fees and the rates specified in Statement I amounted to Rs. 29,619-9-6. The demand of the Commissioner of Police for the year as contribution towards the cost of maintenance of the Metropolitan Fire Brigade payable by this Municipality being Rs. 39,261, the Municipal Commissioners had to pay Rs. 9,641-6-6 from the General Fund, out of which Rs. 4,971- was refunded by the Commissioner of Police as surplus.

4. No rates were levied under sections 25 (1) (*b*) and (*c*) of the Licensed Warehouse and Fire Brigade Act during the year of report, but Rs. 3-9-6 was realised under section 25 (1) (*a*) of the Act.

A sum of Rs. 685, being the fines inflicted on persons using warehouses without license, was received from the Police Magistrate, Sealdah, during the year of report, as will be seen from the statement submitted herewith.

5. The warehouses licensed during the year of report are shown in Statement II put up herewith.

No. 94 G.M., dated Calcutta, the 26th May 1917.

From—PRINCE M. DILAWARJAH BAHADUR, Vice-Chairman, Garden Reach Municipality,

To—The Magistrate of the 24-Parganas.

WITH reference to your letter No. 306—1-17 of the 17th instant, I have the honour to report as follows on the working of the Licensed Jute Warehouse and Fire Brigade Act in this Municipality for the year 1916-17 and to submit Statements I and II in the prescribed form.

2. During the year under report, the total income from jute warehouse fees and from rates under section 25(*b*) of the Fire Brigade Act as shown in Statement I was Rs. 2,592-10-8 against Rs. 2,897-5-10 in the previous year. The amount of contribution paid to the Fire Brigade Fund was Rs. 6,429 against Rs. 6,138 in 1915-16.

In levying the jute warehouse fees the limitations prescribed by the provisos under section 10 of the Fire Brigade Act were strictly followed.

3. The rates at which the fees were levied were 6 per cent. on the annual value of all large warehouses, 8 per cent. on the annual value of wood and straw depôts, and ½ per cent. on the annual value of all bustis lands with huts, if any, on them. A list of licensed warehouses within this Municipality during the year under review is given in Statement II.

LIBERALITY OF BABU A. P. GHOSH.

No. 1397Medl., dated Calcutta, the 18th August 1917.

From—THE HON'BLE MR. J. DONALD, Secretary to the Government of Bengal, Financial (Medl.) Department,

To—The Commissioner of the Presidency Division.

I AM directed to acknowledge the receipt of your letter No. 54Mis.-G., dated the 11th August 1917, in which you report that Babu Annoda Prosad Ghosh, of Nawapara, in the district of Khulna, placed a sum of Rs. 17,414 at the disposal of the District Board of Khulna for the establishment and maintenance of a charitable indoor dispensary at Nawapara to be called the "Bindu Basini Hospital." You further report that the building for the hospital has been constructed at a cost of Rs. 7,414 and that the balance of Rs. 10,000 has been invested in Government securities for the creation of a fund for the maintenance of the hospital.

2. In reply, I am directed to request that you will be so good as to convey to the donor the thanks of Government for his liberality and public spirit.

DISTRICT REPORTS ON WEATHER AND CROPS

For the week ending on the 20th August 1917.

Summary.—During the week under review light to moderate rainfall was general throughout the province. Harvesting of autumn paddy and jute continues briskly. Transplanting of winter paddy is approaching completion. Weeding is in progress. The standing crops are doing well excepting in a few places where they have been affected by insect-pests, or heavy rainfall or floods. The flood water is reported to be going down and in places the affected areas are being re-transplanted with winter rice. Cattle-disease is reported from eight districts. The average price of common rice for the Province has fallen by about 0·25 per cent. as compared with that of the previous week.

POLITICAL.

No. 2111.

Simla, the 20th August, 1917.

The following announcement is being made this day by the Secretary of State for India in the House of Commons and is published for general information :

Announcement by the Secretary of State for India.

The policy of His Majesty's Government, with which the Government of India are in complete accord, is that of the increasing association of Indians in every branch of the administration and the gradual development of self-governing institutions with a view to the progressive realization of responsible Government in India as an integral part of the British Empire. They have decided that substantial steps in this direction should be taken as soon as possible, and that it is of the highest importance, as a preliminary to considering what these steps should be, that there should be a free and informal exchange of opinion between those in authority at home and in India. His Majesty's Government have accordingly decided, with His Majesty's approval, that I should accept the Viceroy's invitation to proceed to India to discuss these matters with the Viceroy and the Government of India, to consider with the Viceroy the views of Local Governments, and to receive with him the suggestions of representative bodies and others.

I would add that progress in this policy can only be achieved by successive stages. The British Government and the Government of India on whom the responsibility lies for the welfare and advancement of the Indian peoples must be judges of the time and measure of each advance, and they must be guided by the co-operation received from those upon whom new opportunities of service will thus be conferred and by the extent to which it is found that confidence can be reposed in their sense of responsibility.

Ample opportunity will be afforded for public discussion of the proposals, which will be submitted in due course to Parliament.

J. H. DUBOULAY,
Secretary to the Govt. of India.

The following notification issued by the Government of India, in the Army Department, published in the *Gazette of India, Extraordinary*, dated the 20th August 1917, is republished for general information.

J. H. KERR,
Chief Secy. to the Govt. of Bengal.

NOTIFICATION.

APPOINTMENTS.

Announcement by the Secretary of State for India.

No. 1367.—The following telegram has been received from the Secretary of State for India and is published for general information :

Begins. The Secretary of State for India has announced in House of Commons the decision of His Majesty's Government to remove bar which has hitherto precluded admission of Indians to commissioned rank in His Majesty's Army and steps are accordingly being taken respecting grant of commissions to nine Indian officers belonging to Native Indian Land Forces who have served in field in present war and whom Government of India recommended for this honour in recognition of their services. Their names will be notified in *London Gazette* and in same Gazette they will be posted to Indian Army

The Secretary of State and Government of India are discussing the general conditions under which Indians should in future be eligible for commissions. In due course the Army Council will be consulted with a view to introduction of a carefully considered scheme to provide for the selection of candidates and for training them in important duties which will devolve upon them. *Ends.*

Dacca Collectorate, the 15th August 1917.

S. G. HART, Collector.

Advertisement of Sale.

NOTICE is hereby given that the undermentioned plots of land, no longer required by Government, situated along the Bankura-Damoodar River Railway in the district of Bankura, will be put up to sale at 11 o'clock on the 22nd September 1917, corresponding with the 6th Aswin 1324 B. S.

The purchasers of the several plots of land will be subject to the following conditions :—

1st.—The purchasers will have no power to make any excavations on the land nearer than fifteen feet from the railway boundary, or to plough the land nearer than three feet from the same.

2nd.—If the amount of the purchase-money does not exceed Rs. 100, the whole amount must be paid down at once.

3rd.—If the amount of the purchase-money exceeds Rs. 100, one-fourth of the amount must be immediately deposited. If the balance be not paid by the noon of the fifteenth day after the sale, reckoning the day of the sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale shall be cancelled, the sum deposited being forfeited to Government, and the lot again put up for sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.

4th.—The plots of land will be sold revenue-free to the highest bidders.

5th.—The sale will become final on receipt by the Collector of the orders of the Commissioner confirming it and a regular conveyance will then be granted to the purchaser.

DISTRICT ROAD FUND.

Notification, dated 21st August 1917.—The subjoined abstract of the annual report and accounts of the District Road Committee of the Darjeeling district for the year 1916-17, together with the remarks of the Commissioner of the Rajshahi Division thereon, is published for general information.

C. P. WALSH,
Secy. to the Govt. of Bengal.

Extract from letter No. 386P.W., dated the 14th July 1917, from H. F. SAMMAN, ESQ., I.C.S., *Commissioner of the Rajshahi Division, to the Secretary to the Government of Bengal, Public Works Department.*

* * * * * *

2. The best feature in the year's working has been the increase in capital expenditure on communications from less than Rs. 2,000 to more than Rs. 13,500. Even this amount is small considering the income of the Committee.

* * * * * *

3. The Committee has again failed to spend even the income that it received during the year. The closing balance has therefore increased from Rs. 58,000 to nearly Rs. 61,000, which represents nearly a full year's receipts.

* * * * * *

4. Attendance at the District and Branch Road Committees has fallen off, especially at Kurseong. The Subdivisional Officer of Kurseong was Vice-Chairman of the Terai Branch Road Committee throughout the period under report. Since the close of the year the Subdivisional Officer, Siliguri, has been appointed Vice-Chairman in place of the Subdivisional Officer, Kurseong, who has no immediate interest in the Terai and is not in a position to supervise the work effectively.

Abstract of the Report by the Chairman, District Road Committee of Darjeeling, on the operations of the District Road Fund of the district for the year 1916-17.

[*Vide* letter No. 60 R. F., dated the 29th May 1917, from J. T. Rankin, Esq., I.C.S., Chairman of the District Road Committee, Darjeeling, to the Commissioner of the Rajshahi Division.]

1. **Working of the Committee :—**

(*a*) **District Road Committee.**—There were 18 members of the Committee. 6 official and 12 non-official. Eight meetings were held during the year. The average attendance was 9 or 50 per cent. at a meeting.

(*b*) **Kurseong Branch Road Committee.**—The total number of members of this Branch Committee was 9, 3 official and 6 non-official. Four meetings were held during the year. The average attendance was 4·75 or 52·77 per cent. at a meeting.

(*c*) **Terai Branch Committee.**—There were 18 members of this Branch Committee, 4 official and 14 non-official. Seven meetings were held during the year. The average attendance was 8·85 or 49·20 per cent. at a meeting.

2. The year opened with a cash balance of Rs. 41,193-9 and an outstanding advance of Rs. 16,724-10-1, making a total of Rs. 57,918-3-1. This amount together with receipts of Rs. 69,504-11-4 or a total amount of

Rs. 1,27,422-14-5 was available for expenditure during the year. The actual expenditure during the year was Rs. 66,547-5 excluding the unadjusted advance of Rs. 4,389-9-1. The actual cash balance on the 31st March 1917 was Rs. 56,486-0-4. The closing balance of Rs. 60,875-9-5. including the unadjusted advance of Rs. 4,389-9-1 exceeds one quarter's kist of the annual receipts. Portion of this unadjusted sum was expended, but no accounts having been received within the year it could not be adjusted. The closing balance is, however, expected to be reduced to its normal proportion when the proposed District Engineer and his staff are appointed.

Receipts.

3. **Provincial Rates.**—The road cess was levied in the district during the year 1916-17 by the Committe at the maximum rate of 6 pies in the rupee. Rupees 55,640-0-5 was collected under the head "Cesses on lands" during the year against Rs. 56,531-8-5 in the preceding year. The decrease is mainly due to the reduction made by the Commissioner under section 37 of the Cess Act.

4. **Miscellaneous.**—A sum of Rs. 1-10-4 was credited under this head on account of sale-proceeds of one fallen tree and refund of a certain excess payment.

5. **Contribution.**—

(*a*) **Grant from Government.**—A sum of Rs. 6,680-0-7 was received from Government, including Rs. 3,310 on account of augmentation of resources of the Committee against Rs. 7,850-1-2 of the preceding year. The decrease is mainly due to the less amount granted for augmentation.

(*b*) **Contribution from Darjeeling Improvement Fund.**—A contribution of Rs. 7,183 was received under this head towards communications and its share as usual of the cost of the Joint Cess and Towjee Establishment against Rs. 7,110 in the preceding year. The slight increase is due to the increased expenditure incurred for the appointment of an orderly peon of the Chairman at the joint expenses of the Road and Darjeeling Improvement Funds.

Expenditure.

Communications.

6. **Original Works.**—Rupees 13,516-2-3 was charged under this head on account of dismantling and re-erecting the Singbali Suspension Bridge on a new site.

7. **Repairs.**—The sum of Rs. 30,963-0-9 as per details below was spent for repairs to roads and bridges against Rs. 31,826-3-7 in the preceding year. The decrease is mainly due to the non-receipt of certain accounts for repairs actually done during the year.

8. The entire length of metalled roads measuring 9 miles and 360 miles out of 393 miles of unmetalled roads and 2 miles out of 11 miles of village roads were actually repaired during the year 1916-17 at a cost of Rs. 1,126 or 125·1 per mile, Rs. 43,109 or 119·74 per mile and Rs. 244 or 122 per mile, respectively, including Rs. 2,559-14-6 spent for maintenance of certain important bridges thereon.

9. **Sign-boards.**—A sum of Rs. 378-13 was spent for certain sign-boards by the Terai Branch Road Committee.

10. **Iron Railings.**—Only Rs. 34-2-6 was expended under this head during the year for certain urgent purposes of protection from danger.

11. **Public Works Establishment.**—There was no District Engineer under the District Road Committee as before during the year 1916-17. All the works in the hills and most of them in the Terai were as usual executed by the members of the Committees and by the managers of tea gardens and other private gentlemen, for which the thanks of the Committee are due to them. The important road cess bridges were maintained by the P. W. D. as heretofore at the cost of the Road Fund. A sum of Rs. 1,068-15-6, including travelling allowances and contingencies or 2·38 per cent. of the total outlay on works under the head 45—Civil Works was spent for the entertainment of an overseer and a peon under the Terai Branch Road Committee. The pay of the overseer was Rs. 60 *plus* a fixed horse allowance of Rs. 20 which has since last February been changed to Rs. 50—2—70 and a fixed travelling allowance of Rs. 27-8. The pay of the peon was the same as before, viz., Rs. 8 per mensem.

12. **Contribution to Darjeeling Improvement Fund.**—Rupees 8,194 was contributed to the Darjeeling Improvement Fund out of the Public Works Cess surrendered by Government towards medical aid and water-supply.

13. **Loan.**—No fresh loan was taken during the year. A sum of Rs. 6,179-15-2 as principal and Rs. 1,131-2-6 as interest were paid during the year 1916-17 under the terms of the loans granted by Government in 1900 and 1901 for reconstruction and repairs of bridges destroyed and damaged by the cyclone in September 1899.

14. **Administration.**—There were two Branch Road Committees, viz., Kurseong and Terai under the District Road Committee. Mr. J. T. Rankin, I.C.S., Deputy Commissioner of Darjeeling, was *ex-officio* Chairman of the District Road Committee and of Terai Branch Road Committee throughout the year. The following gentlemen who were Senior Deputy Collectors of Darjeeling were the Vice-Chairman of the District Road Committee, viz., Mr. F. G. E. Piffard, from 1st April to 1st May, Mr. C. H. Crosse, from 2nd May to 9th October 1916, and Mr. L. Burrows, from 10th October 1916 to 31st March 1917. Mr. H. G. Blomfield, I.C.S., the Subdivisional Officer of Kurseong, was the *ex-officio* Chairman and Vice-Chairman of Kurseong and Terai Branch Road Committees, respectively, throughout the year. Dr. R. V. Dixon was the Vice-Chairman of the Kurseong Branch Road Committee for the whole of the year. The work of the District Committee and that of the Branch Committees were performed satisfactorily. The Committee's thanks are due to the above-named gentlemen and other members of the District and Branch Committees for the care and interest taken by them in the discharge of their duties.

15. **Audit of Accounts.**—The Examiner of Local Accounts, Bengal, has audited the accounts up to February 1917 and the members of the Audit Sub-Committee have audited them for the whole year of 1916-17.

THE INDIAN LAW REPORTS.

Published in FOUR SERIES viz.

CALCUTTA, MADRAS BOMBAY AND ALLAHABAD.

THE Indian Law Reports, published under the authority of the Governor-General in Council are printed in monthly Parts, which are issued, as soon as possible after the first of each month, at Calcutta, Madras, Bombay and Allahabad, respectively.

The Reports comprise four Series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court.

The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depôt: and the Madras, Bombay and Allahabad Series are distributed direct from Madras, Bombay and Allahabad, respectively.

Persons desiring to subscribe for or purchase the Reports should apply to—

the Officer in charge Bengal Secretariat Book Depôt, Calcutta, or

the Superintendent, Government Press, Madras, or

the Superintendent, Government Central Press, Bombay, or

the Curator of Government Books, United Provinces of Agra and Oudh, Allahabad.

RESOLUTION ON THE DEATH OF THE HON'BLE MR. A. RASUL.

HIS EXCELLENCY THE PRESIDENT said :—

"Gentlemen, it will, I am sure, be your desire before we enter upon the regular business of the day that this Council should place upon record its sense of deep sorrow at the loss which it has sustained by the death of the Hon'ble Mr. A. Rasul. Among the members of this Council there must be many to whom the late member was intimately known and who mourn his loss upon personal as well as upon public grounds. I cannot claim to speak with the same authority as they will, for I had not, until quite recently, the privilege of personal acquaintance with him. But from my very limited opportunities of knowing him I can well believe that he was a man who endeared himself to all those with whom he was brought into contact. But apart from all personal considerations we cannot but feel that by his death Bengal has lost a brilliant and a valued son. Following upon a successful career at Oxford University he became a prominent member of the Bar, where his work for nearly 20 years marked him out as a man of character and ability. We can well believe that with his personality, his talents and his industry he was destined, had he lived, to play a large and a distinguished part in the public life of his country.

We mourn his loss on many grounds but in particular do we, as members of the Legislative Council, mourn his loss as a valued and respected colleague. I submit therefore the following resolution :—

'That this Council hereby places upon record its sense of deep sorrow at the loss which it has sustained through the sudden and untimely death of the Hon'ble Mr. Abdul Rasul.'"

The Hon'ble MAULVI ABUL KASEM said :—

"My Lord, we the members of this Council, and the Muhammadan members in particular, are grateful to you for the graceful reference made to one of our colleagues, the late Mr. Rasul. By his death the country has lost one of its brilliant sons, but the loss to the Muhammadan community is irreparable. It is well known that among the Mussalmans there are very few workers, and very few men, who occupy a position which the late Mr. Rasul occupied, and it is very hard for them that in this case they have lost one of the foremost men among them. With these words I associate myself with the resolution that has been moved by Your Excellency."

Resolution.

Maulvi A. K. Fazl-ul-Huq; Rai Radha Charan Pal Bahadur; Dr. Deba Prasad Sarbadhikari; the President.

The Hon'ble MAULVI A. K. FAZL-UL-HAQ said :—

"My Lord, after all that has been said by Your Excellency, it was hardly necessary for me to say anything, but I feel that I cannot let this occasion pass without adding one more tribute, however humble, to the memory of our departed friend. My Lord, our grief on this occasion is too acute and too fresh to allow an adequate expression in words, and I think therefore that it is better that we should not try to clothe in words the sorrow that we feel at heart. His was really a noble soul and I can testify from close personal contact with him, and from old acquaintanceship, that I have hardly come across a man who has taken part in the public life in this country who had that singleness of purpose, that honesty and boldness and that firmness of conviction which characterised the public life of the late Mr. Rasul. I do not wish to take up the time of the Council any more. His was a noble soul and he has now gone to nobler regions and to the life eternal and everlasting joy."

The Hon'ble RAI RADHA CHARAN PAL BAHADUR said :—

"My Lord, on behalf of the Hindu members of this Council I desire to associate myself with the resolution which Your Excellency has gracefully moved on this mournful occasion. It is needless to say that by the untimely death of our lamented colleague Bengal has lost one of her greatest sons. To the Hindu members he endeared himself not only by his sterling honesty, his thorough independence, his earnestness and his identification with the interest of the country, but also by his broad views, his catholicity of sentiment with which he considered all questions whether affecting Hindus or Muhammadans. He was a worthy representative of the intellect of the Muhammadan community, and in him we have lost a colleague whose like we shall not possibly soon see again."

The Hon'ble DR. DEBA PRASAD SARBADHIKARI said :—

"My Lord, I desire to associate myself with the expression of grief in all sincerity and in doing so I shall not attempt to take up the same ground which has been taken up by other speakers. I mourn the loss as of a devoted and worthy coadjutor in the field of education. His many-sided activities did not prevent his taking a real and active interest in all that appertained to the educational question of the country. It was not given to him long, for reasons which I need not detail here, to associate himself largely with the higher education of the country. But in fields that are well known to many of us his activities were greatly felt. There is another feature of his activities to which attention might well be drawn. In the crisis through which we are now passing, none worked more whole-heartedly in bringing Hindus and Muhammadans together and in trying to reconcile the conflicting interests of both the communities than the late Mr. Rasul. All the good work in this direction that the country will profit by was largely due to Mr. Rasul's self-effacing endeavours. We mourn his loss as that of a public man and also as that of a friend, but most do we mourn his loss as that of a man. A more genuine, sincere and single-minded man it is not always one's lot to come across and he won all hearts. When I attended his funeral nothing struck me more than the assembly of Hindu friends whose number was almost as large as that of his Muhammadan friends. The loss was as sudden as tragic. His daughter was to have been married on the following Friday and within almost forty-eight hours before that he was called away."

HIS EXCELLENCY THE PRESIDENT said :—

"I would suggest that you signify your assent to the resolution by rising in your places."

The resolution was carried in silence, all standing.

LIST OF BUSINESS ITEM NO. 1.

STARRED QUESTIONS.

By the Hon'ble RAI RADHA CHARAN PAL BAHADUR :—

Trial of a certain Abinash Chandra Bhuttacharjee.

* 1. (*a*) Will the Government be pleased to state the facts of the case relating to the trial of one Abinash Chandra Bhuttacharjee for perjury and for making contradictory statements?

(*b*) Is it true that the trying Magistrate, Mr. S. C. Roy, Deputy Magistrate of Khulna, tried the case at night?

(*c*) Is it a fact that the accused was undefended?

(*d*) Is it a fact that in their decision Justices Teunon and Newbould held that the accused did not commit perjury?

(*e*) Is it a fact that on the 4th April last while the same Magistrate was in camp at Madugram in thana Bumuria for the purpose of trying a bad-livelihood case, he charged one Patiram Chattopadhaya, a witness for the defence, with the offence of giving false evidence immediately after his deposition had been over?

(*f*) Is it a fact that Patiram was ordered to give bail of Rs. 2,000 to appear on the 10th April, and that the accused could not furnish a bail of such a heavy amount?

(*g*) Is it a fact that Mr. Mellor, Sessions Judge, Khulna, held that the amount of the security demanded was unreasonable, especially as the trial was being held in camp, where it was difficult for the accused to get persons of substance to stand bail for him?

(*h*) Is it also a fact that the said Sessions Judge stated that the Magistrate had appeared to have acted with undue haste and that his conduct showed an excess of zeal in the interests of the prosecution?

(*i*) What action, if any, are the Government taking in regard to the conduct of the said Deputy Magistrate?

Answer by the Hon'ble MR. KERR :—

"(*a*) A petition was presented to the District Magistrate of Khulna by Abinash Chandra Bhuttacharjee and others praying for the prosecution of certain persons under section 110 of the Code of Criminal Procedure. The Sadar Subdivisional Officer, Babu Sarat Chandra Roy, tried the case at Senhati. During the trial the Court Inspector drew the attention of the Subdivisional Officer to a certain statement made by Abinash Chandra Bhuttacharjee in cross-examination. The Magistrate considered that this statement conflicted with the evidence he had previously given. Treating the written request for prosecution put in by the Court Inspector as a police report, he took cognizance of the matter under section 190 (*b*) of the Code of Criminal Procedure. He ordered Abinash Chandra Bhuttacharjee to wait ouside the court room until he had finished a case in which he was then engaged, and during this time it appears that Abinash's hands were tied by a constable with his pagri. On finishing the case the Subdivisional Officer sent for Abinash, drew up a charge against him under section 193 of the Indian Penal Code and recorded the statements of some witnesses and of the accused, who pleaded guilty. The accused was imprisoned until the rising of the Court and fined Rs. 20.

(*b*) The case was tried at about 5 P.M.

(*c*) to (*h*) The answer is in the affirmative.

(*i*) The matter is under the consideration of Government."

Cooking of food of Hindu prisoners in jails.

* 2. (*a*) Will the Government be pleased to state whether it is a fact that in some jails the Hindu prisoners are compelled to take food cooked by non-Hindu prisoners?

(*b*) If so, in how many jails does this condition prevail and what action, if any, are the Government taking to put a stop to it?

(*c*) In how many jails have separate kitchen arrangements been made since the assurance given by the Government in this connection in 1914?

Answer by the Hon'ble MR. KERR :—

"(*a*) and (*b*) It is not a fact. Even in jails where no separate cooking places are provided for Hindus and Muhammadans, the food for Hindu prisoners is prepared by Hindu cooks.

(*c*) Separate kitchen arrangements have been made in all cases where kitchens have been reconstructed or new kitchens built since 1914. These are four in number, viz.—

Rampur Boalia,
Pabna,
Comilla and
Barisal.

Separate arrangements now exist in all jails in Eastern Bengal."

By the Hon'ble RAI MAHENDRA CHANDRA MITRA BAHADUR :—

Death of Babu Sashi Bhusan Sen.

* 3. (*a*) Are the Government aware of the fact that the late Babu Sashi Bhusan Sen, B.A., formerly Head Master of the Hindu School, Calcutta, who subsequently retired as an Assistant Inspector of Schools, Rajshahi Circle, while passing by the road near Ray Sahib's Bazar, Dacca, on the 10th June last, was knocked down by a motor cycle that had neither a bell nor a brake?

(*b*) Is it a fact that the above-mentioned gentleman died in consequence of the shock he received?

(*c*) Is it a fact that Babu Nagendra Nath Sen, Sadar Subdivisional Officer of Dacca, was present at the time of occurrence?

(*d*) Is it a fact that the said Sadar Subdivisional Officer was not examined by Mr. H. N. Nandi, the Deputy Magistrate who tried the case?

(*e*) Will the Government be pleased to lay on the table a statement containing the details of the case?

Answer by the Hon'ble MR. KERR :—

"(*a*) The facts are as stated, except that the motor cycle was furnished with brakes which were in good working order.

(*b*) Babu Sashi Bhusan Sen died 16 days after the accident. The evidence of the medical men who attended him shows that his death was due to natural causes. The Civil Surgeon, who saw him about a week before his death, found no sign of shock and is of opinion that his death was due to cardiac failure and had nothing to do with the accident. The only injuries he received in the accident were contusion of the right hip-joint and some slight abrasions of the face.

(*c*) and (*d*) Babu Nagendra Chandra Sen, officiating Sadar Subdivisional Officer, Dacca, was standing near the scene of the accident at the time but did not see the occurrence. He was not sent up as a witness in the case but his evidence was recorded by the investigating police officer and formed part of the report which was submitted to the Magistrate.

Questions and Answers.

(*e*) The investigation showed that Babu Sashi Bhusan Sen did not hear the motor cycle until it was close to him. He then moved quickly to one side, but the rider of the motor cycle in trying to avoid him moved the same way, and Babu Sashi Bhusan Sen was pushed over by the body of the rider as he passed. The rider immediately dismounted and came to Babu Sashi Bhusan Sen's assistance. He was then arrested by a European Inspector of Police, and a case of rash driving under section 279, Indian Penal Code, was instituted. The Magistrate, however, found that the motor cycle was not being driven at an excessive speed, that it was under control and that the rider was not to blame for the unfortunate accident. He accordingly entered the case as a mistake of law. This order was recorded on the 10th June. After Babu Sashi Bhusan Sen's death, the Additional Magistrate asked the Superintendent of Police to look into the matter further, but his report and the medical evidence above referred to showed that there was no reason to modify the previous order."

By the Hon'ble RAI MAHENDRA CHANDRA MITRA BAHADUR :—

Alleged unhealthiness of Amta

* 4. (*a*) Are the Government aware of the opinion that has been expressed that, of all the rural thanas in Howrah district, Amta is the most unhealthy?

(*b*) Is it a fact that in 1873, Colonel Haig, Chief Engineer of Bengal, strongly recommended the Amta scheme for the reclamation of the unhealthy swamps of the locality?

(*c*) Are the Government aware of the opinion that has been expressed that malarial fever threatens to be endemic, owing to stagnant water being the breeding ground of the malaria-bearing anopheles mosquito, in the water-logged area of Amta thana?

(*d*) Will the Government be pleased to state whether they are considering the desirability of taking the necessary steps for the completion of the project for the drainage of the district of Howrah by carrying out the Amta scheme?

Answer by the Hon'ble MR. COWLEY :—

"(*a*) Yes.

(*b*) In 1873 Colonel Haig as Secretary to Government wrote :—'It appears to the Lieutenant-Governor desirable that a definite project should be framed for the drainage of that part of the Hooghly district bounded on the north by the Kana Nadi, on the south by the Uluberia Canal, on the east by the Hooghly and on the west by the Damodar.' The Amta area is included within these boundaries.

(*c*) Yes. Government are, however, advised that the water-logged portion of the Amta basin is relatively free from malaria.

(*d*) The Hon'ble Member is referred to paragraph (*d*) of the answer given by the Hon'ble Mr. Green to question No. XVI (unstarred) asked by the Hon'ble Member at the Council meeting of the 4th September, 1916."

By the Hon'ble RAI MAHENDRA CHANDRA MITRA BAHADUR :—

Improvement of the condition of villages in Howrah district

* 5. Will the Government be pleased to state the amount spent by the District Board of Howrah for improving the sanitary condition of the more important and populous villages within its jurisdiction under the following heads :—

(*i*) proper drainage of rain-water into the neighbouring khals and rivers ;

(*ii*) excavation or re-excavation of tanks and wells for good drinking water ;

(*iii*) clearing of jungles and filling up of insanitary *dobas*; and

(*iv*) improvement of the silted-up nullas or khals?

Questions and Answers.

Answer by the Hon'ble MR. DONALD :—

"Government regret that they are not in a position to supply the figures asked for without some definite information as to the criterion by which to determine which are the more important and populous villages in the district."

By the Hon'ble RAI MAHENDRA CHANDRA MITRA BAHADUR :—

Embankments in the district of Howrah.

* 6. (*a*) Is it a fact that the Government now maintain the following embankments in the district of Howrah, namely :—

(*i*) the Hooghly right embankment, from the Botanical Gardens to Mahisdhara khal, and the Chakkasi embankment from Chakkasi khal to Sijberia ;

(*ii*) the Damodar left embankment, through the whole length of the district, and the right embankment from the Begua breach to the Maja Damodar, and from the mouth of the Gaighata khal to the outfall into the Hooghly ;

(*iii*) the Rupnarayan left embankment from the mouth of the Bakshi khal to the outfall in the Hooghly ;

(*iv*) the embankment on the south of the Bakshi and Gaighata khals, joining the Rupnarayan left with the Damodar right embankment ; and

(*v*) a takavi embankment along the left bank of the Madaria khal from Dilakhas to Amta ?

(*b*) Will the Government be pleased to lay on the table a statement showing the amount actually spent by them on the above embankments, separately, during the last five years ?

Answer by the Hon'ble MR. COWLEY :—

"(*a*) (*i*) A length of about 20 chains is maintained by the District Board of Howrah as it is used for vehicular traffic. The embankment is a part of the Howrah drainage works which are maintained by Government. The Chakkasi embankment is maintained as part of Rajapore drainage works which are maintained by Government.

(*ii*) to (*v*) The answer is in the affirmative.

(*b*) A statement and a map are placed in the Library giving the information required in so far as it has been possible to compile from the abstracts of bills paid. In the time available, it has not been possible to obtain more exact figures of expenditure, as the accounts are not compiled district by district."

Death of Dhirendra Kanjilal in the lock-up at the Muchipara thana.

IV.—(*a*) Are the Government aware that one Dhirendra Kanjilal died recently while in the lock-up at the Muchipara thana in the town of Calcutta?

(*b*) Is it a fact that some police officers of that thana have been suspended with reference to the death of Dhirendra Kanjilal?

(*c*) If the answer to clause (*b*) is in the affirmative, will the Government be pleased to state what was the immediate cause of their suspension?

(*d*) Will the Government be pleased to state whether they contemplate taking any steps to remove all iron-bars and other things in police lock-ups which make it possible for prisoners to commit suicide by hanging?

Answer by the Hon'ble MR. KERR :—

"(*a*) In the early hours of the morning of 30th May, 1917, Dhirendra Nath Kanjilal was arrested on the charge of being drunk and disorderly and lodged in the lock-up at Section "J" Town, Muchipara. About 5 A.M. he was found dead in the lock-up. He had hanged himself in a sitting posture by slipping the end of his *dhoti* round one of the bars of the lock-up, against which he was leaning, and drawing the other end tight round his neck. There were several other persons in the lock-up at the same time, but none of them saw the act take place. The deceased was addicted to drink and was well known to the police of the section. Information of his arrest was sent to his home with a request that some one might attend at the section to bail him out, but a message was returned that the members of his family would not have him back until he was sober, as they were afraid he would make a disturbance.

(*b*) and (*c*) The constable who was on duty at the lock-up at the time of the occurrence was suspended for failure to observe sufficient vigilance. He has since been reduced one grade for a period of a year and was also awarded eight days' punishment drill.

(*d*) It is impossible to remove all iron bars from the lock-ups in Calcutta, but arrangements are being made to render it as difficult as possible for an occurrence of this nature to take place again."

Amendment of the Bengal Tenancy Act.

V.—(*a*) Will the Government be pleased to state when the proposed Bill for the amendment of the Bengal Tenancy Act, 1885, will be brought before the Council?

(*b*) Will the Government be pleased to state whether the opinion of any public body representing tenants has been taken with reference to the amendment of that Act?

Answer by the Hon'ble MR. KERR :—

"(*a*) Government cannot yet make any statement as to the probable date on which the Bill to amend the Bengal Tenancy Act in respect of the transfer of ordinary occupancy holdings will be introduced.

(*b*) Although Government did not invite a direct opinion from any public body professing to represent tenants, all Commissioners were asked to ascertain the opinions of different classes of the agricultural population, and this was done."

(*b*) Will the Government be pleased to state the percentage of acquittals and convictions in all such cases?

(*c*) Will the Government be pleased to state what steps, if any, have been taken by the police during the last five years to prevent the commission of such offences?

(*d*) Are the Government aware of the opinion that has been expressed that the accused in such cases, even when innocent, plead guilty to avoid harassment and vexation?

(*e*) Will the Government be pleased to state the amount of fines realized after conviction in such cases, during the last five years?

Answer by the Hon'ble MR. KERR:—

"(*a*) and (*b*) A statement is laid on the table giving statistics for the last three years. Monthly figures could not be compiled without a disproportionate amount of labour and expense.

(*c*) The police on duty in the streets have instructions to report all breaches of the provisions of these Acts or of the rules framed thereunder.

(*d*) No.

(*e*) The statistics are being compiled and will be laid on the table at a subsequent meeting of the Council."

Answer by the Hon'ble MR. KERR :—

"(*a*) Yes.

(*b*) A copy is laid on the table.

(*c*) No communication has as yet been received from the Government of India.

(*d*) and (*e*) These questions do not arise."

Copy of letter referred to in the answer by the Hon'ble MR. KERR *to question No. VII (unstarred) asked by the Hon'ble* BABU BHABENDRA CHANDRA RAY *at the Council Meeting of the 7th August, 1917.*

No. 380 C., dated Delhi, the 25th January, 1917.

From—THE HON'BLE SIR JAMES DU BOULAY, K.C.I.E., C.S.I., Secretary to the Government of India, Home Department,

To—The Chief Secretary to the Government of Bengal.

In continuation of the correspondence ending with the Home Department telegram No. , dated the January, 1917, intimating that the Report of the Royal Commission on the Public Services in India will be published on the January, 1917, I am directed to address you on the subject of the procedure which the Government of India have decided, with the approval of the Secretary of State, to follow in dealing with the recommendations contained in the report.

2. Over a year has elapsed since the report was signed and many of the subjects with which it deals are in varying degrees and for various reasons so urgent and important that it is desirable to make special efforts to deal expeditiously with the Commission's recommendations and reach definite decisions to which effect may be given, as financial conditions permit, in a pre-considered order of precedence. The ordinary procedure of reference to local Governments, who in turn make a reference to their local officers, leads to voluminous correspondence and is necessarily slow, and the Government of India have decided to adopt the following method of treatment in order to minimise the delay which has attended the consideration of former reports.

3. In the first place the Government of India will as expeditiously as possible form provisional conclusions regarding the Commission's recommendations involving general principles and of general application, and His Excellency the Governor in Council will be informed without delay of these conclusions as a definite indication of the lines which the examination of the report should follow and the limits to which the discussions thereof should be confined. His Excellency in Council will at the same time be requested to favour the Government of India within a specified time with his views on the general principles provisionally accepted. On receipt of these opinions the Government of India will consider whether they should modify their conclusions and the principles finally settled after such reconsideration will, subject to the Secretary of State's approval, govern the treatment of all the detailed recommendations.

4. Simultaneously the Government of India will commence their examination of the detailed proposals contained in the annexures to the report in accordance with the general principles provisionally adopted, and will endeavour to carry through this examination as rapidly as possible in order to place the local Government at an early stage in possession of their tentative views on the Commission's detailed recommendations. During this interval the local Government should aim at collecting information and completing preliminary work on the same lines, in order to be in a position to deal without delay with the references from the Government of India when they are received.

5. In all cases where the issues are not so simple as to render such a course unnecessary His Excellency the Governor in Council will be requested in these references to nominate an officer or officers to represent his views on the various points to be considered at a series of conferences which the Government of India will hold with representatives of all the local Governments and Administrations. After the conferences have completed their work the Government of India will again examine their tentative conclusions in the light of the recommendations made and will then communicate their considered views to His Excellency the Governor in Council for a further expression of his opinion. On the receipt of the replies of the local Governments and Administrations to this final reference the Government of India will once more consider their position and will decide on the definite recommendations which they will place before the Secretary of State.

6. While the Government of India trust that the scheme outlined above will enable all the recommendations in the report to be dealt with in a reasonably short time they do not desire that this endeavour after celerity in disposal should obscure the necessity for observing a proper perspective in giving effect to the several proposals. Some of the subjects to be dealt with are obviously more urgent and important than others, and questions concerning the increased employment of Indians in the higher public services are among those calling for an early settlement in the former class. In dealing

Questions and Answers.

with each branch of the report, therefore, the necessity for expediting or the possibility of postponing till financial conditions are easier, the operation of the decision finally reached should be carefully considered and the due precedence which should be observed in giving effect to each scheme should be specifically indicated so that this matter may be discussed at the conferences referred to in the previous paragraph.

Explanations of *détenus*.

VIII.—With reference to the statement made in answer to my unstarred question Nos. XXXVI and XXXVII at the meeting of the 3rd July 1917, will the Government be pleased to say :—

(*i*) in how many instances were the entire written explanations, or parts thereof, in the handwriting of the *détenus* themselves ; and

(*ii*) how many persons arrested under Rule 12 A of the Defence of India Rules have been released as a result of their explanations?

Answer by the Hon'ble MR. KERR :—

"With reference to the first part of the question, an analysis has been made of the written explanations received in answer to charges since the 1st January, 1917. It is found that 20 per cent. of such written explanations are in the handwriting of the *détenus* themselves and 64 per cent. have been vouched as correct by the *détenus*' signature while in 16 per cent. the *détenus* have acknowledged the charges by their signatures, but have not signed their explanations as recorded. As regards the second part of the question, the details of persons released without the issue of any order of domicile were given in the answer to clause (*a*) of the Hon'ble Member's unstarred question XLV on the 3rd July, 1917. Such orders of release as have been passed have been based upon a consideration of the whole facts of the case, and not simply on any explanations provided by the *détenu*."

By the Hon'ble BABU BHABENDRA CHANDRA RAY :—

Explanations of *détenus*.

IX.—Are the Government considering the desirability of directing that in the case of every *détenu* able to read and write, all explanations and statements required from them shall be made in their own handwriting?

Answer by the Hon'ble MR. KERR :—

"The Hon'ble Member is referred to the answer to clause (*f*) of unstarred question No. VI asked by the Hon'ble Babu Akhil Chandra Datta at the meeting of the 13th December, 1916. It is open to any *détenu*, who desires to do so, to file his explanation in his own handwriting ; and it is thought preferable that the method of communication should be at his option."

Alleged compelling of *détenus* to wear convict dress.

X.—With reference to the answer to unstarred question No. XXXVIII of the meeting of the 3rd July, 1917, will the Government be pleased to state whether it is not a fact that immediately after being taken to Dullunda House a very large number of *détenus* were, at one time at least, made to wear short *janghiyas* like convicts?

Answer by the Hon'ble MR. KERR :—

"The Hon'ble Member appears to have been misinformed regarding the facts of the case in question.

A *détenu* had attempted to commit suicide at Dullanda by means of his *dhoti*, and it was on the advice of Major N. P. Sinha, I.M.S., the Police Surgeon

of Calcutta, that he and a small number of *détenus* detained in the same place were directed to wear shorts of the pattern issued to soldiers instead of *dhotis*. The suggestion that a large number of *détenus* were put in prison dress is incorrect."

By the Hon'ble BABU BHABENDRA CHANDRA RAY :—

Alleged torture of *détenus*.

XI.—(*a*) With reference to the reply to unstarred question No. XXXIX of the meeting of the 3rd July, 1917, will the Government be pleased to state whether all the four instances mentioned by Sir Reginald Craddock in the Imperial Legislative Council on the 21st March, 1917, in which petitions were received alleging torture at the hands of the police, refer to Bengal?

(*b*) What period did the said statement made by Sir Reginald Craddock comprise?

(*c*) Have the Government received any other petitions or complaints of a similar nature, since the period covered by the said statement? If so, how many?

(*d*) What is the nature of the inquiry usually made into these allegations and by what agency is such inquiry conducted?

(*e*) Is any medical officer deputed to examine the *détenus* concerned as soon as the complaints are received?

Answer by the Hon'ble MR. KERR :—

"(*a*) The four cases mentioned by Sir Reginald Craddock, in which torture had been alleged but which were found after full and searching inquiry to be entirely false and groundless, refer to Bengal.

(*b*) The four instances in question related to allegations made between the 12th November, 1916, and the 12th January, 1917.

(*c*) One further such allegation has been received.

(*d*) The statements of the persons alleged to be concerned are recorded, and are considered by Government.

(*e*) No Medical Officer was deputed to examine the *détenus* concerned as the complaints were made in one case 2 months, in three cases 4 months and in one case 6 months after the alleged occurrence."

By the Hon'ble BABU BHABENDRA CHANDRA RAY :—

Health of *détenus*.

XII.—(*a*) Have the Government received any information as regards any instance of deterioration of general health, loss of weight or diminution of eyesight of *détenus*?

(*b*) If so, in how many instances of each character, and in connection with what *détenus*?

(*c*) What action has been taken in these cases and with what effect?

Answer by the Hon'ble MR. KERR :—

"(*a*), (*b*) and (*c*) Government have received information, either by direct reports from their own officers or through petitions, regarding sickness, loss of weight, diminution of eyesight, etc., and, through their own officers, have endeavoured to secure amelioration in such cases. Where the climate of one place has not been found suitable, the *détenu* has been transferred. *Détenus* have been brought into hospitals, or medical attendance has been sent to them, and in the cases of defective eyesight, some have been brought into Calcutta for treatment.

Every attention has been paid to the complaints of *détenus*, so far as they were found to be justified in fact.

It is not practicable within the limits of this answer to give full details of such cases; nor are Government prepared, in accordance with the policy explained in the reply given to question 6(*a*) asked by the Hon'ble

Questions and Answers.

Babu Surendra Nath Banerji at the Council meeting of the 26th July, 1915, to publish in the proceedings of this Council details of the cases of particular *détenus*.

Government have no reason for believing that the proportion of ill-health among *détenus* is any greater than it would be if they had been pursuing their normal occupations."

By the Hon'ble BABU BHABENDRA CHANDRA RAY :—

Confinement of *détenus* in solitary cells.

XIII.—Have the Government ascertained the opinion of medical and other authorities as to the suitability of solitary cells for keeping *détenus* confined therein, especially with regard to their sanitary aspect?

Answer by the Hon'ble MR. KERR :—

"The answer is in the affirmative."

By the Hon'ble BABU BHABENDRA CHANDRA RAY :—

Medical inspection of *détenus*.

XIV.—With reference to the answer to unstarred question No. XXIV (*d*) and (*e*) of the meeting of the 3rd July, 1917, are the Government considering the desirability of making arrangements for the regular medical inspection of *détenus* who are either confined in jails or domiciled elsewhere?

Answer by the Hon'ble MR. KERR :—

"As regards *détenus* who are temporarily confined in jails, such arrangements exist at present, and as regards those domiciled in districts, it is believed that the rules for the inspection of such *détenus* by various officers of Government are sufficient to ensure that any *détenu* who is really ill does receive medical help when necessary."

By the Hon'ble BABU BHABENDRA CHANDRA RAY :—

Regular inspection of *détenus* by a body of non-official visitors.

XV.—(*a*) With reference to the answer to unstarred question No. XL of the meeting of the 3rd July, 1917, will the Government be pleased to state whether non-official visitors do generally visit persons confined in jails under the Defence of India Act?

(*b*) Are the Government considering the desirability of instituting a system of regular inspection of the *détenus* in jails and in Dullunda House by a body of non-official visitors, who may be specially nominated by Government for this purpose?

Answer by the Hon'ble MR. KERR :—

"(*a*) Government have no information as to whether non-official visitors generally visit *détenus* confined under the Defence of India Act in jails, but there is no prohibition against such visits.

(*b*) The answer is in the negative."

By the Hon'ble BABU BHABENDRA CHANDRA RAY :—

Grant of allowances to families of *détenus*.

XVI.—(*a*) In the case of the grant of allowances to family members of *détenus* is there any rule or practice whereby the grant is made with effect from the date of their arrest?

(*b*) If not, are the Government considering the desirability of laying down such a rule, particularly in the cases of *détenus* who happen to be the bread-winners?

Answer by the Hon'ble MR. KERR :—

"(*a*) and (*b*) In the case of the grant of allowances to the family members of *détenus*, the practice is that such are granted with effect from the date of the *détenu's* arrest, except for special reason in special cases."

The Provincial Judicial Service.

XVII.—(*a*) Has the attention of the Government been drawn to the fact that the present scale of pay of the Provincial Judicial Service as appears in the report of the Public Services Commission (*vide* Schedule IV of Annexure X to the report of the Public Services Commission) is very different from and higher than the actual scale of that Service as appears in the Quarterly Civil List of the 1st April, 1917?

(*b*) Are the Government aware that the present scale of the Provincial Judicial Service as shown in the Public Services Commission Report bears a close resemblance to the actual present scale of the Provincial Executive Service?

(*c*) Will the Government be pleased to state the circumstances under which the present scale of the Provincial Judicial Service as appears in the Public Services Commission Report was placed before the said Commission?

(*d*) Will the Government be pleased to state whether any scheme such as the scheme put forward by the Public Services Commission was sanctioned or proposed before or after the commencement of the investigation by the said Commission and if any attempt was or is being made to place the Provincial Judicial Service on the same footing with the Provincial Executive Service?

(*e*) If so, will the Government be pleased to state whether it was in the contemplation of the Government to give effect to the scheme?

(*f*) Is it still in the contemplation of the Government to give effect to that scheme? If not, when was the scheme abandoned?

(*g*) Are the Government aware that even the present scale shown in the report of the Commission as distinguished from the improved scale proposed by the said Commission will satisfy the members of the Provincial Judicial Service?

(*h*) Will the Government be pleased to state whether it is in their contemplation to give effect to the scheme proposed by the Public Services Commission for increase of the pay of the Provincial Judicial Service during the next financial year?

(*i*) If not, are the Government considering the advisability of affording some temporary relief to the Munsifs by granting them such personal allowances as would make their pay approximate to the present scale as shown in the report of the Public Services Commission?

Answer by the Hon'ble MR. KERR :—

"(*a*) The Royal Commission seem to have been under some misapprehension in regard to this matter. The present scale of Munsifs shown in the table on page 225 of their report is not the actual existing scale, but a scale which was proposed by the High Court in 1914. At the request of the High Court, the scheme was forwarded to the Government of India for consideration along with the report of the Royal Commission.

(*b*) The object of that scheme was to assimilate conditions in the Provincial Judicial Service with those in the Provincial Executive Service, particularly in regard to the pay of the lowest grade and the number of years required to reach the Rs. 400 grade. As a matter of fact, however, the average rate of pay in the Judicial Service would have been raised by the High Court's scheme from Rs. 378 to Rs. 395 per mensem. The average rate of pay in the executive service is now Rs. 377 per mensem.

(*c*) The report of the Royal Commission does not show how the High Court's scheme came to be placed before the Commission, but presumably it was communicated to them by the Government of India.

(*d*) No orders were passed on the High Court's scheme, as consideration of the whole question of improving the prospects of the Provincial Judicial Service was deferred pending the receipt of the report of the Royal Commission. For the reasons given in paragraph 64, annexure X, of their

Questions and Answers.

report, the Royal Commission have proposed that the Judicial Service should be given substantially higher rates of pay than the Executive Service.

(*e*) Provision was made in the budget of 1914-15 for raising the pay of the lowest grade of Munsifs to Rs. 250, but owing to the decision to postpone action pending the report of the Royal Commission, effect was not given to the proposal.

(*f*) The whole question will now be re-examined in the light of the Royal Commission's report, and Government have not decided on any scheme.

(*g*) Government have no information on the subject.

(*h*) It is impossible to say when orders will be passed on the Royal Commission's proposals.

(*i*) The answer is in the negative."

Conduct of Kanungoes and other Survey and Settlement Officers.

XVIII.—(*a*) Are the Government aware that the Kanungoes and other officers of the Survey and Settlement Department are in the habit of asking and of compelling villagers, even in spite of refusals, to hold umbrellas over their heads and tables, and to carry their tables from place to place?

(*b*) Are the Government aware that this treatment is resented by the villagers?

(*c*) Are the Government aware that there have been instances in which the Kanungoes and other officers have abused and assaulted the villagers for refusing to do them this service?

(*d*) Is it a fact that such insistence on the part of the Kanungoes and other officers has, in some instances, led to disturbances giving rise eventually to criminal cases?

(*e*) Is it a fact that there was recently a criminal case of this type at Brahmanbaria, in the district of Tippera, in which Babu Hiranmoy Roy, a Kanungo, was the complainant, and that there was a counter-case brought against him for assault upon a villager?

(*f*) Are the Government aware that there exists a feeling amongst the Kanungoes and other officers that they have acquired through custom a right to this service from the villagers?

(*g*) Are the Government considering the desirability of taking action with a view to expressing their disapprobation of the conduct of the officers of the Settlement Department as complained of and of preventing its continuance?

Answer by the Hon'ble MR. KERR :—

"The facts of the specific case referred to in this question are set forth in the appellate judgment of the Sessions Judge, a copy of which is laid on the table. The story discloses faults on both sides. Government have no reason to believe that Settlement Kanungoes are habitually discourteous or oppressive, or that villagers are habitually averse to rendering small services such as one man is ordinarily willing to render to another irrespective of station, nor do Government contemplate taking any further action."

HEADING OF JUDGMENT OF APPELLATE COURT.

COURT OF SESSIONS, APPELLATE JURISDICTION.

Criminal Appeal No. $\frac{43}{1917}$ of 1916, sections 147, 323 and 353, Indian Penal Code. Appeal from the order of Babu B. K. Das, Deputy Magistrate, Brahmanbaria, dated 11th June, 1917.

Munjar Ali and 2 others ... ... *Appellants.*

The appeal in this case is against a sentence only as the appellants pleaded guilty in the Lower Court.

Questions and Answers.

The complainant is a Kanungo engaged on settlement work. When working in the heat of the day it is necessary to have an umbrella held over the table on which papers and maps are put for otherwise the glare of the sun light makes it almost impossible to read small figures. A small boy was holding the umbrella for the Kanungo, but as he was inefficient the Kanungo called to the appellant Munjar Ali to hold it. This appellant is a nephew of one of the leading men of the village and resented being asked to do what he looked on as a menial duty. He refused to hold the umbrella. The Kanungo then abused him calling him a *Suar* and when appellant took a step forward, the Kanungo gave him a slap.

About two hours later the Kanungo was returning home and happened to pass along an *ail* near which Munjar Ali appellant was working with some other men. There is some suggestion that the Kanungo gave further provocation, but this has not at any rate been proved. The appellants and some others then attacked and beat the complainant knocking him down and then beating him with the bulks of their *kodalis*.

The appellants have pleaded guilty to an offence under section 353, Penal Code, and we must take it therefore that the offence falls technically under this section, but complainant was clearly attacked purely in his private capacity in revenge for the insult and blow he had given to Munjar Ali.

The appellants had provocation, but their combined attack on an unarmed man was quite inexcusable. In consideration, however, of the fact that considerable provocation had been given, I think that the sentences are rather severe.

I therefore set aside the sentences of fine. The fine, if paid, must be refunded.

The sentences of imprisonment are in each case reduced to one month's rigorous imprisonment only.

The order passed under section 106, Criminal Procedure Code, will remain undisturbed.

Right of municipalities to elect their own Chairmen

By the Hon'ble BABU AKHIL CHANDRA DATTA :—

XIX.—Will the Government be pleased to state the principles on which, and the reasons for which, the right to elect their Chairmen has recently been granted to 11 Municipalities, and the reasons for withholding the same right from 14 Municipalities in Bengal?

I AM directed to refer to your

(4) letter No. 3765 G., dated 26th May, 1916,
(5) letter No. 1596 M., dated 12th June, 1916,

submitting a report on the four questions relating to the nomination and election of Municipal Chairmen which were raised in this department circular No. 10 M., dated the 17th February, 1916, viz.—

(1) What municipalities included in Schedule II are desirous of being removed from that schedule, and which of them can be allowed to elect their own Chairmen without injury to the welfare of the ratepayers whom they represent.

Questions and Answers.

(2) Whether in the event of any municipality included in Schedule II not desiring or not obtaining removal from that schedule, it would prefer the powers of nomination vested in Government to be exercised solely in the appointment of a non-official as Chairman.

(3) Whether the Commissioners of municipalities not included in Schedule II desire to retain the option of electing officials to the post of Chairman.

(4) Whether for the purposes of election to the post of Chairman, professional gentlemen whose services are retained by Government, such as Government Pleaders, should be classed as officials or non-officials.

I am now to communicate the following orders of the Governor in Council on these questions.

2. The case of every municipality in Schedule II of the Bengal Municipal Act has been carefully considered, and orders have been issued removing from that schedule 11 municipalities which can, in the opinion of the Governor in Council, be allowed to elect their own Chairmen without injury to the welfare of the ratepayers. Consequently, only 14 municipalities will be left in Schedule II, of which 8 have at present officials as Chairmen. The circumstances of these municipalities are exceptional, and it is considered undesirable to make any change in their constitution. The Commissioners of some of these municipalities are averse to exclusion from the schedule, and the Governor in Council does not wish to force on them an autonomy which they themselves do not desire.

3. As regards the question whether officials should be elected as Chairmen in municipalities not included in Schedule II, the Royal Commission upon Decentralization in India were of opinion that Government officers should not be allowed to stand for election, since this would, in many places, virtually imply their return. The Governor in Council considers, however, that such an argument cannot apply to the large number of Government servants who exercise no executive control; and he is of opinion that it will be sufficient to lay down that in future District and Subdivisional Officers are not to be allowed to stand for election as Chairmen. At the same time he recognizes that cases may arise in which the Municipal Commissioners may consider that the appointment of a District Officer or Subdivisional Officer as Chairman is in the best interests of the municipality. In such cases it will be open to the Municipal Commissioners to request the Local Government to appoint a Chairman under section 23 (2), Bengal Municipal Act, and to recommend the appointment of the District Officer or Subdivisional Officer. Due weight will be given by Government to such recommendations.

4. I am to add that if the District Officer or Subdivisional Officer is a Municipal Commissioner without being Chairman, a position may be created which will lead to difficulty, and that therefore Government propose in future not to appoint any District or Subdivisional Officer as a Municipal Commissioner.

5. I am also to state that the Governor in Council desires that those Subdivisional Officers who have already been elected Chairman after being appointed Municipal Commissioners by Government should continue to serve as Chairmen till the expiry of their term of office. Similar instructions are not required in the case of District Magistrates, as no District Magistrate is at present an elected Municipal Chairman.

6. With regard to the question whether in the case of municipalities included in Schedule II Government should appoint only non-officials as Chairmen, there is a good deal of difference of opinion on the subject among the Commissioners of the municipalities concerned, and Government consider it advisable that their choice should not be restricted either to officials or to non-officials.

7. As regards the fourth question, whether gentlemen who serve Government in a professional capacity, such as Government Pleaders, should be placed in the category of officials or non-officials, I am to say that Government have no objection to their offering themselves for election and being elected as Municipal Chairmen.

Appointment of junior Deputy Collectors as Sadar Sub-divisional Officers.

XX.—(*a*) Is it a fact that junior Deputy Collectors have been appointed Sadar Subdivisional Officers in several districts in Bengal and that Deputy Collectors senior to them have to work under them?

(*b*) Is it a fact that junior officers in their capacity as Sadar Subdivisional Officers in those districts transfer cases to senior officers and pass orders on them asking them to record confessions, make local inquiries and to do other work?

(*c*) Are the Government aware that this system is causing great discontent among the senior Deputy Collectors?

(*d*) Has it been brought to the notice of Government that the discontent has been so keen that there have been instances in which senior officers have taken leave to escape the indignity of working under junior officers?

Questions and Answers.

(*e*) Will the Government be pleased to state whether the practice of appointing junior officers as Sadar Subdivisional Officers is in conformity with the Government scheme about Sadar subdivisions?

(*f*) If not, will the Government be pleased to state whether they are considering the desirability of discontinuing this practice?

Answer by the Hon'ble MR. KERR :—

"Sadar Subdivisional Officers have to do a considerable amount of touring and it is essential that they should be active and energetic officers. It may happen therefore that the Sadar Subdivisional Officer is junior to some of the other Deputy Collectors at head-quarters, and, in so far as the latter are employed upon criminal work arising within the subdivision, they are under section 17(2) of the Code of Criminal Procedure subordinate to the Sadar Subdivisional Officer, subject to the general control of the District Magistrate. A staff of Deputy Magistrates and Sub-Deputy Magistrates is allotted to the Sadar Subdivisional Officer by the District Officer in proportion to the amount of criminal work to be done in the subdivision, while the rest of the head-quarters staff is employed on revenue or other work directly under the District Officer. Government are not aware that the existing arrangements have given rise to any general discontent among senior Deputy Collectors, though in one or two instances it seems to have been imagined that some slight to senior men was implied by the present practice. This was never intended nor is it necessary that any such deduction should be drawn. The system of Sadar Subdivisional Officers possesses various advantages and in selecting for these posts Government must be guided by the suitability of different candidates for the duties to be performed. There is no wish needlessly to hurt the feelings of senior officers, and while it cannot be guaranteed that the Sadar Subdivisional Officer will always be the senior Deputy Magistrate in the station, every endeavour will be made to lessen the risk of friction."

respectively?

Questions and Answers.

(*b*) In how many of the passenger steamers is there any arrangement for rendering of medical aid to passengers?

(*c*) Are there any rules which determine whether steam-vessels are to have a medical officer on board; if so, what are they?

(*d*) Are the Government aware of any complaints as to the difficulties which are sometimes felt from want of proper medical aid for passengers on board steam-vessels?

Answer by the Hon'ble MR. COWLEY :—

"(*a*) It is not consistent with the public interest to publish these statistics in war time.

(*b*) and (*c*) The Hon'ble Member is referred to the rules on pages 236-238 of the Marine Manual and to rule 165 of the rules framed under the Assam Labour and Emigration Act, VI of 1901.

(*d*) The Steamer Companies have from time to time brought to the notice of Government difficulties which have been experienced in connection with the rules in the Marine Manual. Government have taken steps to meet these difficulties and to improve the working of the rules."

Prevalence of kala-azar in Eastern Bengal and especially in Tangail and Mymensingh.

XXVIII.—(*a*) Is it a fact that kala-azar has, for some time, been prevalent in certain parts of Eastern Bengal, notably in Tangail and Manikganj?

(*b*) If so, are the Government considering the desirability of making an inquiry into the extent and causes of this outbreak?

Answer by the Hon'ble MR. DONALD :—

"(*a*) and (*b*). A few cases of kala-azar are reported to have been brought to the notice of the Civil Surgeons in the districts of Chittagong, Faridpur and Bakarganj. No other cases have been reported to Civil Surgeons in Eastern Bengal this year and there appears to be nothing of the nature of an outbreak."

Effect of war on hospitals and dispensaries.

XXIX.—(*a*) To what extent has the supply of medicines in Government District Board and Municipal hospitals and dispensaries been affected since the outbreak of the war?

(*b*) Has any instruction been given to these dispensaries for using indigenous drugs?

(*c*) If so, to what extent has the shortage of imported medicines been made up thereby and with what result?

Answer by the Hon'ble MR. DONALD :—

"(*a*) Apart from glycerine and carbolic acid, which are no longer obtainable, the supply of medicine has not been affected since the outbreak of war except to the extent caused by a rise in prices.

Questions and Answers.

(*b*) Yes. Orders have been issued directing the use of indigenous drugs as far as possible.

(*c*) Government have no information as to the extent to which indigenous drugs have been used in accordance with these instructions, but as stated, there has been a shortage only of glycerine and carbolic acid, for which substitutes are employed."

SUPPLEMENTARY QUESTIONS.

The Hon'ble MAULVI A. K. FAZL-UL-HAQ asked the following supplementary question :—

"Is it a fact that some questions have been withheld this year also?"

The Hon'ble MR. BEATSON BELL replied :—

"I do not quite understand what the Hon'ble Member means by 'withheld.' No question was withheld in 1914, nor this year. Ninety-six questions have been admitted for reply for this meeting: we are answering 90, and 6 questions have been postponed to the next meeting, as it was impossible to obtain information to enable us to reply to them to-day. Three questions are being replied to at this meeting which were postponed from a previous meeting."

The Hon'ble MAULVI A. K. FAZL-UL-HAQ said :—

"I was not quite right in using the word 'also.' What I mean is this. Have any questions been held back this year except for the reason that they were out of time?"

No. 302, dated Simla, the 29th March, 1917.

From—THE HON'BLE SIR E. D. MACLAGAN, K.C.I.E., C.S.I., Secretary to the Government of India, Department of Education,

To—The Secretary to the Government of Bengal, General Department.

I AM directed to refer to paragraph 3 of the Finance Department letter No. 410 F., dated the 3rd March, 1917, intimating that the Government of India have decided to make a recurring grant from Imperial revenues of Rs. 9,00,000 for the improvement of the training and pay of teachers in primary and secondary schools in the Bengal Presidency with effect from the year 1917-18.

2. As regards the specific objects on which the grant may be expended, attention is invited to the following statement on the subject made by the Hon'ble Sir Sankaran Nair in the Imperial Legislative Council on the 10th March, 1917 :—

"The grant made to each province will be available at its discretion for training or for pay or both. It will be recurring. The grant can be utilised for primary or secondary education as desired, but we hope that a predominant share will be given to primary teachers. It is intended primarily for male teachers as it will probably be best to deal with female education on a separate footing, but there will be nothing to prevent Local Governments from using such part of it as they may wish for female teachers. The grant will be available for use during the coming year, and we expect it as far as possible to be so used."

3. I am also to observe that as stated in their letter No. 166, dated the 23rd February, 1916, the Government of India attach considerable importance to the establishment of provident funds for teachers in non-pensionable service, and that they trust that it may be found possible to earmark a portion of the present grant with a view to starting such funds as soon as it is possible to do so.

4. I am further to request in this connection that the Government of India may be supplied, by the 15th of May next, with a brief account of the action taken up to date to carry out the programme set forth in the reply furnished to this Department circular letter No. 838-849, dated the 9th May, 1913, so far as this relates to the training of the teachers and the improvement of their pay.

Questions and Answers.

5. I am to request that the proposals of the Local Government for the utilisation of the present grant may be submitted to the Government of India for approval before expenditure is undertaken.

XLIII.—(*a*) Will the Government be pleased to make a statement detailing the circumstances that led to the enforcement of a deposit of Rs. 1,000 as security under the Press Act from the new publisher of the vernacular weekly newspaper *Sanjibani*?

Security demanded from the *Sanjibani*.

(*b*) Is it a fact that the requisite declaration under the Press and Registration Act, 1867, by the new publisher, was occasioned by the death of the former incumbent?

(*c*) Is it also a fact that the conductors of the *Sanjibani* had not before now been called upon to furnish any security under the Press Act, nor warned on any occasion?

(*d*) Are the Government aware that the *Sanjibani* is a paper of over thirty years' standing?

Answer by the Hon'ble MR. KERR :—

"(*a*) and (*b*) Owing to the death of the former publisher of the *Sanjibani*, the new publisher became liable under section 8 of Act I of 1910 to deposit security unless exempted by the Magistrate for special reasons to be recorded by him. The Chief Presidency Magistrate, after considering the circumstances of the case, ordered the publisher to deposit the sum of Rs. 1,000 as security.

(*c*) The *Sanjibani* having been in existence before the commencement of Act I of 1910, has hitherto been exempt from furnishing security under section 3 of the Act. The paper was twice warned in 1916 for publishing objectionable articles.

(*d*) Government are aware that the paper has been in existence for many years, but have no precise information regarding the date of its foundation."

Questions and Answers.

By the Hon'ble BABU BHABENDRA CHANDRA RAY :—

Deposits under the Press Act.

XLIV.—(*a*) What are the circumstances that determine the amount of deposit to be demanded in each case under the Press Act?

(*b*) Will the Government be pleased to state the considerations that led to the fixing of the security in the case of the publisher of the *Sanjibani* at double the minimum laid down in the Act?

(*c*) What is the exact procedure followed by the Magistrate in these matters and upon what principles or considerations does he proceed to fix the amount of deposit?

(*d*) Is it usual for him to call for police reports before fixing the deposit?

(*e*) Is the intending declarant informed about the purport of the police report when it goes against him and given an opportunity for explanation?

(*f*) Have the Government framed any rules for the guidance of Magistrates in this behalf?

(*g*) Did the matter of the *Sanjibani* come up before Government for consideration? If so, will the Government be pleased to state the reasons for upholding the order of the Magistrate?

Answer by the Hon'ble MR. KERR :—

"(*a*) The amount of security is a matter for the decision of the Magistrate.

(*b*) The order of the Chief Presidency Magistrate does not disclose the grounds on which it was made, but it appears from the papers of the case that the paper had recently been twice warned for publishing objectionable articles and that the new publisher is a man of little education or position, who has hitherto been working as a compositor on Rs. 19 a month in the *Sanjibani* Press.

(*c*) and (*d*) The Magistrate calls for reports from the Police regarding the history and standing of the printer and publisher, and considers these reports together with the general tone of the paper and the subject-matter with which it deals.

(*e*) Government have no information, but the intending declarant is entitled to make any representation he wishes to the Magistrate.

(*f*) No rules have been framed, but general instructions have been issued from time to time for the guidance of Magistrates.

(*g*) The case was not referred to Government by any of the officers dealing with it, but late on the 19th June, an informal representation was received by Government stating that the matter was coming up before the Chief Presidency Magistrate on the following day and asking that Government should examine the case. On the 20th June, however, the Chief Presidency Magistrate passed orders on the case, the papers of which were subsequently examined by Government with the result that they decided that they would not be justified in moving the Chief Presidency Magistrate to revise his orders."

XLV.—Will the Government be pleased to state whether it is their intention to insist on security being deposited in cases of *bona fide* change of publisher occasioned by death, as in the instance of the *Sanjibani*?

Questions and Answers.

Answer by the Hon'ble MR. KERR :

"The law on the subject is contained in section 8 of Act I of 1910, which makes the publisher in such cases liable to furnish security unless exempted by the Magistrate for special reasons to be recorded by him."

Motor service between Aricha and Manikganj.

XLVI.—Has any proposal been recently submitted by any party to the District Board of Dacca for permission to open a motor service between Aricha and Manikganj? If so, will the Government be pleased to state what action has been taken thereon by the Board?

Answer by the Hon'ble MR. DONALD :—

"Yes. The District Board passed the following resolution at a meeting held on 18th June, 1917 :—

'Considered the proposals of C. A. M. M. Anis, Esq., to open a motor service from Aricha to Manikganj.

Resolved that on Mr. Anis depositing half the estimated cost of initial work and annual repair the District Board will carry out the work provided that Mr. Anis executes an agreement that if further expenditure is necessary for the improvement of the road or facilitation of traffic he will share the cost equally with the District Board. The opinion of the District Board shall be final and conclusive as to the necessity for any such work, *e.g.*, the bridging of one or more breaches. On the above conditions being complied with, the District Board will exempt Mr. Anis' cars from ferry charges on the road. The Board further resolves that should any new bridge be subsequently constructed and the cost be enough to make tolls leviable tolls will be levied and Mr. Anis' cars will be exempted on the ground of his paying half the cost.'"

Lapsed deposits or landlords' fees in the Dacca, Rajshahi and Chittagong Divisions.

XLVII.—(*a*) With reference to the answer to my unstarred question No. XVII, at the meeting of the Council of the 3rd July, 1917, regarding the lapsed deposits of landlords' fees in the Dacca, Rajshahi and Chittagong Divisions, has the attention of the Government been drawn to a statement at page 95 of the report of the Dacca University Committee to the effect that almost the whole of the landlords' fees paid under Chapters III and IV of the Bengal Tenancy Act, becomes forfeit to Government under section 18 C?

(*b*) If so, will the Government be pleased to state whether the said statement is based on facts?

Answer by the Hon'ble MR. KERR :—

"(*a*) Yes.

(*b*) During the years to which the Dacca University Committee presumably referred the percentage of the amount paid out in landlords' fees to the amount received as such was as follows in the Dacca, Rajshahi and Chittagong Divisions :—

	Dacca Division.	Rajshahi Division.	Chittagong Division.
1908-09	0·55	6·35	16·68
1909-10	1·66	4·56	20·17
1910-11	23·93	31·09	24·36

Questions and Answers.

For subsequent years the figures have been :—

	Dacca Division	Rajshahi Division.	Chittagong Division.
1911-12	53·08	59·00	37·9
1912-13	59·87	33·69	98·71
1913-14	50·83	66·82	72·7
1914-15	66·39	51·75	107·6
1915-16	56·79	35·24	78·02

Under section 180 of the Bengal Tenancy Act landlords' fees held in deposit may, unless accepted or claimed within the prescribed period, be forfeited to Government. Forfeiture does not, however, take place by lapse of the prescribed period, but only on a declaration by the Collector that specific fees have been forfeited and until such a declaration has been made the sums liable to forfeiture are treated as lapsed deposits, *i.e.*, although they are provisionally treated as an item of public revenue, they are still held by Government at the disposal of the persons to whom they are due, and will be paid with the sanction of Government on application being made. There are at present considerable sums still held as lapsed deposits which are liable to forfeiture, but have not yet been forfeited."

Uniformity of text-books in the two Bengals.

XLVIII.—(*a*) Has the attention of the Government been drawn to the fact that the text-books prescribed in the Zilla Schools in Eastern and Western Bengal are different?

(*b*) Are the Government aware that this causes great difficulty to boys who are compelled to take transfer, owing to movements of their guardians from Eastern Bengal to Western Bengal, and *vice versa* in the middle of a session?

(*c*) Are the Government considering the advisability of making text-books in the two Bengals uniform?

Answer by the Hon'ble MR. HORNELL :—

"(*a*) There are different curricula for Eastern and Western Bengal. Consequently the text-books in use in Eastern Bengal are not identical with those in use in Western Bengal.

(*b*) and (*c*) Government consider it desirable that there should be a uniform curriculum for the whole Presidency. Such a curriculum is now being prepared, and it is proposed to make uniform arrangements for text-books when a uniform curriculum is brought into force."

(*c*) Is it a fact that two posts of Deputy Superintendent of Bengal Veterinary College, one 1st grade and one 3rd grade, have been kept vacant for a pretty long time? If so, what is the reason for the delay?

Questions and Answers.

Answer by the Hon'ble MR. KERR :—

"(*a*) No.

(*b*) Yes.

(*c*) No post of 1st grade Deputy Superintendent has been kept vacant. A post of 3rd grade Deputy Superintendent was vacant from September, 1916, to July, 1917 ; the post was kept vacant while an Inspector was being trained and tested in teaching methods."

Answer by the Hon'ble MR. KERR :—

"The Principal makes frequent visits to the various classes and gives help and advice both to the teachers and to the students. The Governor in Council is satisfied that this is 'teaching work' of much value, and he does not propose to order any further inquiry."

Agricultural societies in Bakarganj.

LIII.—(*a*) How many agricultural credit societies were in existence in the district of Bakarganj in 1915-16 and 1916-17?

(*b*) How does the total membership of such societies in the district stand at present?

(*c*) Are the Government in a position to state how far such societies have succeeded in solving the difficulties of agricultural credit in the district since the outbreak of the war?

(*d*) Are the Government aware that the want of an agricultural credit society under police-station Bamna is keenly felt by the people of the locality concerned?

Answer by the Hon'ble MR. KERR :—

"(*a*) Eighty-four in 1915-16 and 114 in 1916-17.

(*b*) Accurate figures are not available pending receipt of annual statistics : the number is estimated at 4,000.

(*c*) Government are not aware that the difficulties of agricultural credit in Bakarganj which is a district with a comparatively small area under jute, have been materially affected by the War. Government are satisfied, however, that the societies have lightened the difficulties of their members ; unfortunately, less than 1 per cent. of the families of the district have as yet joined Co-operative Societies.

(*d*) Government are informed that the area of Bamna police-station has hitherto been found unsuitable for co-operation. If a desire for societies is manifested and is supported by local voluntary effort, an attempt will be made to organize societies in that area."

Railway between Dacca and Aricha.

LIV.—(*a*) With reference to the project stated to have been submitted to the Railway Board regarding a Railway between Dacca and Aricha, will the Government be pleased to say what is the estimated total capital expenditure and probable recurring charges thereof?

Questions and Answers.

(*b*) Has any estimate been made, either on behalf of Government or of any private party, of the probable passenger and goods traffic that the Railway might carry, and the earnings that may result therefrom? If so, what are the estimated profits thereof?

Answer by the Hon'ble MR. COWLEY :—

"(*a*) The estimated cost of a meter gauge railway from Dacca to Aricha, 46 miles in length, arrived at after carrying out a reconnaissance survey in 1914-15 is Rs. 88¼ lakhs; this includes a sum of nearly Rs. 28½ lakhs for a bridge over the Dhalleshwary river. No provision is however made for a ferry at Aricha. The recurring charges have not been estimated.

(*b*) No specific estimate has been made of passengers and goods traffic, but it is stated in the Report on the Reconnaissance Survey that the line might pay 4 per cent. on the Capital Outlay."

LV.—(*a*) Will the Government be pleased to state whether Mohsin scholarships for Muhammadan students are tenable in schools and colleges outside the Bengal Presidency? Mohsin scholarships.

(*b*) If so, will the Government be pleased to state the names of such schools and colleges and the number of scholarships tenable therein?

Answer by the Hon'ble MR. HORNELL :—

"(*a*) and (*b*) There are 7 senior and 5 junior Mohsin scholarships in addition to 30 Mohsin fund stipends which come under the head of senior scholarships and 51 Mohsin fund stipends which come under the head of junior scholarships. No scholarship is assigned to any particular institution. With the approval of the Director of Public Instruction, senior scholarships may be held at any affiliated University College, which has been approved for the purpose by the Director of Public Instruction, and in the United Kingdom. LVI.—(*a*) Will the Government be pleased to state the progress that has been made in the water-works improvement and drainage schemes of the Mymensingh Municipality? Water-works improvement and drainage schemes of Mymensingh Municipality.

(*b*) Have the Government promised any financial help towards these two schemes? If so, on what conditions?

(*c*) Will the Government be pleased to state whether any additional taxation was imposed on and realised from the rate-payers of Mymensingh to finance any of these schemes? If there has been any such tax, will the Government be pleased to state what course it is propsed to follow, should any of the schemes be not taken in hand?

Answer by the Hon'ble MR. DONALD :—

"(*a*) Sketch projects for the improvement of the Mymensingh water-works and for a drainage scheme at an estimated cost of Rs. 1,37,000 and Rs. 97 000, respectively, have been prepared. They were submitted to Government in December, 1916, with an application for administrative approval. In reply the Municipality was informed that no provision for a grant or loan by Government had been made in the budget for the year 1917-18 and that

the grant of assistance must be deferred until the restoration of more favourable financial conditions. On this account, and also because further information about the financial basis of the schemes was required, administrative approval was withheld, but the preparation of detailed plans and estimates was allowed.

(*b*) No.

(*c*) In March, 1916, the Municipal Commissioners raised the tax on persons from annas 12 to Re. 1 per cent. in anticipation of Government giving a grant and a loan for the drainage scheme. Government are not aware of the intentions of the Municipality as to the increased rates in the event of the schemes, or either of them, being abandoned, and they cannot therefore state what action they themselves will take in such a contingency."

(*d*) Will the Government be pleased to state the number of steamers that had to unload during the last three years before they could reach Chittagong, and the proportion of these arrivals to the total register of inward vessels at the port of Chittagong?

Answer by the Hon'ble MR. COWLEY :—

"(*a*) Government have in contemplation, but have not decided on, any scheme for improving the channel to the port of Chittagong.

(*b*) and (*c*) The schemes which have been placed before Government include the provision of a new dredger and extensive training works. The question of the provision of funds for the purchase of the dredger is now before the Government of India, but in view of the present war conditions it is not possible to say when a suitable dredger will be procurable. At present, even if funds are placed at the disposal of the Port Commissioners, it is impossible to build a dredger. A sum of one lakh of rupees has been provided in the current year's budget of the Commissioners for the Port of Chittagong towards the cost of training works, but before these training works can be commenced the advice of Sir George Buchanan who is expected to visit Chittagong in September or October next is being sought.

LXVI.—(*a*) What was the date of the establishment of the Comilla Yusuf School? If Government are in a position to do so, will they make a statement regarding the normal income and expenditure of the school and the amount of its accumulated funds?

Donation to the Comilla Yusuf School.

(*b*) Are the Government aware that the Inspector of Schools of the Chittagong Division offered both a monthly aid and a donation to the same school? If so, what was the object in view for such an offer?

Answer by the Hon'ble MR. HORNELL :—

"The Comilla Yusuf School was established as a High School in 1899. The average monthly income is Rs. 985 and the average monthly expenditure is Rs. 936. The amount of the accumulated fund standing to the credit of the school is reported to be Rs. 480.

(*b*) Government have ascertained that the Inspector of Schools, Chittagong Division, is now in correspondence with the School Committee on the question whether a monthly grant-in-aid and a capital grant towards the construction of the new buildings cannot be provided. The object of any grant which may be sanctioned will be the improvement of the school."

Constitution of the Sanskrit Examination Board.

LXVIII.—(*a*) Will the Government be pleased to explain the principle underlying the present constitution of the Sanskrit Examination Board?

(*b*) Are the different branches and interests of Sanskrit learning and culture in Bengal represented on the Board as at present constituted? If so, how?

(*c*) Is there any learned Pandit of North Bengal on the said Board? If not, why not?

(*d*) Is it a fact that the President of the Board is also the President of the Sanskrit College Committee and the Secretary to the Board is the Principal of the Sanskrit College?

(*e*) Is it a fact that the conduct of the examination is practically in the hands of those two members and their subordinate staff in the Sanskrit College?

(*f*) Are the Government aware of any public dissatisfaction regarding the constitution of the present Board and the way in which the Sanskrit examinations are managed and conducted?

Answer by the Hon'ble MR. HORNELL :—

"(*a*) The principle underlying the present constitution of the Sanskrit Board is :—

(1) the representation of the interests of the different branches of Sanskrit learning;

(2) the representation of the interests of indigenous Sanskrit education in its relation to Sanskrit general education;

(3) the representation of the interests of indigenous Sanskrit education in the various districts of the Presidency.

(*b*) Yes, so far as possible. A copy of Notification No. 450, dated 14th July, 1917, in which the Board was last constituted is laid on the table.

(*c*) Yes. The Hon'ble Member is referred to the abovementioned notification.

(*d*) Yes.

(*e*) No. The paper setters and paper examiners are appointed by the Board and the persons so appointed include pundits from all parts of Bengal. After the results have been sent in by the examiners, the examiners meet and report to the Board who declare the results. The staff of the Sanskrit College has no special functions with regard to the conduct of the examination.

(*f*) Certain comments have been received from time to time. These have been investigated and found to be unsubstantial. Government have under consideration the reorganization of the agency for dealing with Sanskrit examinations."

LXIX.—Will the Government be pleased to state what steps are being taken to improve the pay and status of teachers in Bengal? Status of the teaching profession.

Answer by the Hon'ble MR. HORNELL :—

"Since 1914 the Government have effected the following improvements :—

(*a*) the salaries of untrained and trained teachers of aided primary schools and *maktabs* for boys have been increased by Re. 1 and Rs. 4 respectively at a total annual cost of Rs. 5,68,972 ;

(*b*) the sum of Rs. 1½ lakhs is distributed annually for the enhancement of the salaries of the teachers in aided high and middle English schools ;

(*c*) pending the introduction of a general scheme for the improvement of secondary education, local allowances have been granted, as a temporary measure, to Head Masters and Head Mistresses of Government high, middle English, and middle vernacular schools and also to Assistant Head Masters and Assistant Head Mistresses of Government high schools, at a total annual cost of Rs. 33,120 ;

(*d*) the stipends of teachers of primary schools while under training in guru-training schools have been raised to Rs. 10 per mensem, at an annual cost of Rs. 77,360.

The Government of Bengal hope to effect further improvements if their proposals for the utilization of the grant of nine lakhs are accepted by the Government of India."

LXX.—(*a*) Will the Government be pleased to state what are the duties of the Proctor of Dacca, and the monthly expenditure on this officer's establishment, including his own pay? Proctor of Dacca and his establishment.

(*b*) Is it a fact that conflicts in opinion have often arisen between the heads of educational institutions in Dacca and this officer?

Questions and Answers.

Answer by the Hon'ble MR. HORNELL :—

"(*a*) The Proctor is the Executive officer of the Dacca City Educational Council which is the authority responsible for the general control of the residence of students for the maintenance of discipline among those living in the town of Dacca outside school and college premises. His duties are of a two-fold character. In the first place he assists in matters such as the selection and equipment of houses, the appointment of superintendents of messes, the provision of servants, medical aid, etc. In this capacity also he advises students on arriving in Dacca as to the best arrangements for their accommodation. His other functions are those of an inspecting officer. It is his duty to see that hostels are well kept, that rules are observed and that the well-being of the students is promoted and discipline is maintained. In the case of messes recognized and subsidised by the Council he is in the position of the Principal or Head Master for the enforcement of the hostel and mess rules. The cost of the post and of its establishment is Rs. 383-8 a month.

(*b*) Not so far as Government are aware."

LXXVI.—(*a*) Will the Government be pleased to state whether it is insisted on by the Civil Courts in Mymensingh that fresh Vakalatnama and certified copies of both the decree and the plaint should be submitted by any party applying for the execution of a decree?

Practice of submitting vakalatnama and certified copies of decree and plaint in execution cases before Civil Courts in Mymensingh.

(*b*) Are the Government aware of the opinion that has been expressed that this practice is against the ruling of the High Court and that it involves the litigants in additional expenditure of money?

(*c*) Are the Government considering the desirability of putting a stop to this practice?

Answer by the Hon'ble MR. KERR :—

"Government have no information on the subject. The control of the Courts in regard to matters of this kind rests with the High Court."

LXXVII.—(*a*) Will the Government be pleased to state the reasons for the discontinuance of the Government aid of Rs. 150 per month to the Brahmanbaria George School?

Grant to the Brahmanbaria George School.

(*b*) Is it a fact that an aid of Rs. 150 was offered by the Divisional Inspector of the Chittagong Division to the Kasba High English School with the condition that Babu Sashi Kumar Bal should be appointed as Head Master, and that the school authorities declined to avail themselves of the aid unless their old Head Master was allowed to stay on?

Questions and Answers.

(*c*) Is it a fact that thereafter the same offer was made by the said Divisional Inspector and on the same condition to the Edward Institution, Brahmanbaria, whose proprietor also declined the offer on the same ground?

(*d*) Is it a fact that thereafter the said Divisional Inspector asked the Chiora High English School, in the district of Tippera, to take in the said Babu Sashi Kumar Bal as their Head Master, and that accordingly he has been appointed as Head Master of the said High English School?

(*e*) Will the Government be pleased to state whether any aid was offered by the said Divisional Inspector to this last-mentioned school?

Answer by the Hon'ble MR. HORNELL :—

"Government have not got full information on the subject, and inquiries will be made."

Decline in the number of students in the Overseer and Sub-Overseer classes in the Ashanulla School of Engineering, Dacca.

LXXVIII.—(*a*) Is it a fact that the number of students in the Overseer and Sub-Overseer classes in the Ashanulla School of Engineering, Dacca, has been gradually declining? If so, what is the cause of this decline?

(*b*) Is it a fact that the majority of the students who have passed the Upper Subordinate examination from the above school remain unemployed?

(*c*) How many of these students have found employment in the Upper Subordinate grade under the Public Works Department?

(*d*) How many guaranteed posts, if any, are there for students passing the Upper Subordinate examinations from the Sibpur College and the Ashanulla School of Engineering, respectively?

(*e*) Is it a fact that Overseer and Sub-Overseer examinations of the above two institutions are held under the Joint Technical Board and that the questions are the same, but the results of the above examinations are published separately and not according to the merits of the students of the two institutions taken together?

(*f*) Is it a fact that, in the distribution of appointments under the Government and Local Bodies, preference is usually given to students passing from the Sibpur College?

(*g*) Is it a fact that the Ashanulla School of Engineering has been placed under the direct supervision of the Principal, Dacca College? If so, why?

Answer by the Hon'ble MR. HORNELL :—

"(*a*) Yes. The decline in the number of students in Overseers and Sub-Overseers classes is not confined to the Dacca School of Engineering, but appears to be general. Government have not at hand a full explanation of the cause of this decline, which is part of the general problem of technical and industrial education.

(*b*) It is reported that the majority of students who have passed the Upper Subordinate examination obtain employment, but mostly in posts of lower qualification and pay.

(*c*) Ten of these students are reported to have found employment in the Upper Subordinate grade under the Public Works Department.

(*d*) Sibpur College ... One.
Ashanulla School of Engineering ... None.

(*e*) Yes.

(*f*) No.

(*g*) The School of Engineering is regarded as an institution attached to the Dacca College, as the two institutions are in the same compound. This arrangement appears to have been in force since the school was founded."

Local taxation by Union Committees in Dacca Division.

LXXIX.—(*a*) Will the Government be pleased to state the amount of local taxation imposed by each of the Union Committees in the Dacca Division?

Questions and Answers.

(*b*) Were the Union Committees in the Dacca Division authorised to spend any money on primary education?

(*c*) If the answer to clause (*b*) is in the negative, are the Government considering the desirability of issuing instructions to the effect that the Union Committees should take up the question of primary education in their respective areas as allowed under the Bengal Local Self-Government Act?

Answer by the Hon'ble MR. DONALD:

"(*a*) A statement is laid on the table.

(*b*) The powers of Union Committees in regard to primary schools are defined in sections 104 and 112 of the Local Self-Government Act, which should be read with section 62 of the Act and the rules made thereunder. So far as Government are aware, the District Boards of the Dacca Division have not made special grants to the Union Committees for expenditure on primary education.

(*c*) The position of Union Committees in regard to primary schools was discussed by the Commissioners' Conference in 1915, and it was agreed that each District Board should be allowed to delegate such powers as it might think fit to Union Committees under its control. It was therefore proposed that a rule should be issued giving the Boards discretion to entrust Union Committees with powers in regard to primary education. The educational rules under the Local Self-Government Act are now under revision."

Payment of pensions in Dacca.

LXXX.—(*a*) Is it a fact that the Collector of Dacca has issued a notice to Government pensioners dividing them into four classes and specifying different dates ranging from the 4th to the 27th day of every month for the submission of their pension bills?

(*b*) What are the circumstances that have led to the issue of this circular?

(*c*) What was the previous practice and what were its drawbacks, if any?

(*d*) Has any complaint been made that the new scheme works to the inconvenience of the pensioners concerned?

(*e*) Has any necessity been felt for a similar departure from previous practice in any other Collectorate?

Answer by the Hon'ble MR. DONALD :—

"(*a*) A notice has been issued informing persons drawing pensions from the Dacca Treasury that they are divided into four classes for the purpose of payment, and that two days are allotted to each class between the 4th and 11th, inclusive, of each month, on which payments will be made: further, that a pensioner who does not draw his pension on any of the two days allotted to his class can draw it on any day between the 12th and 27th of each month irrespective of class.

(*b*) and (*c*) Before the system of classification came into force, no special arrangements were made. There are about 1,400 pensioners paid from the Dacca Treasury and the number of bills presented at the Treasury during the first three days of the month was so large that it was not possible to pay them on these days. There was considerable overcrowding, some pensioners had to go away without payment, and others were kept waiting for hours. An arrangement similar to the one in force in the Accountant-General, Bengal's office was accordingly adopted.

(*d*) Two objections signed by eight pensioners were presented.

(*e*) No."

Closing of offices and Courts at Suri.

LXXXI.—(*a*) Is it a fact that the offices and Courts at Suri, Birbhum, were closed on the following occasions :—

(*i*) Joydeb Mela,
(*ii*) Bakeshwar Mela,
(*iii*) Rath Jatra,
(*iv*) Bhatri Ditia,
(*v*) Gostha Astamai,
(*vi*) Mukhtar's Kali Puja, and
(*vii*) Suri Cattle Show.

(*b*) Is it a fact that these holidays were sanctioned by Government on the recommendation of the Collector of Birbhum?

(*c*) Will the Government be pleased to state what is the distance between Suri and the places where the Joydeb Mela and the Bakeshwar Mela are held?

(*d*) Will the Government be pleased to state on what date the Mukhtar's Kali Puja was celebrated?

Answer by the Hon'ble MR. DONALD :—

"(*a*) The Criminal and Revenue courts and offices at Suri were closed on all the occasions mentioned with the exception of the Mukhtars' Kali Puja. The Civil courts and offices were closed only on the occasion of the Bakeshwar mela, Rath Jatra and Bhatriditya.

(*b*) Yes.

(*c*) Twenty-four miles and 12 miles, respectively.

(*d*) The 14th April, 1917."

Alleged refusal of leave to Muhammadans on the *Shabi-barat*.

LXXXII.—(*a*) Is it a fact that the Muhammadan employees of the Collector's office in the district of Birbhum applied, on the 1st June last, for leave of absence on the 5th of that month, which was the day of the Muhammadan festival *Shabi-barat*?

(*b*) Is it a fact that the office Superintendent in his note said that the office being open the absence of the Muhammadans would cause the office work to suffer?

(*c*) Is it a fact that the Muhammadans were refused leave and had to attend their offices on the day of the *Shabi-barat*?

(*d*) Is it a fact that the Muhammadans were asked to attend office on that day from 6-30 to 10-30 while the usual office hours are from 6-30 to 11 A.M.?

(*e*) Has the order passed by the Collector of Birbhum on the petition of the Muhammadans for leave, the approval of Government?

(*f*) Is there any truth in the statement that the Collector of Birbhum has always refused applications from Muhammadans for leave on the days of their festivals whenever his permission for such absence was necessary?

Answer by the Hon'ble MR. DONALD :—

"(*a*) Yes.

(*b*) Government are not prepared to answer a question which appears to be based on information obtained in contravention of the Government Servants' Conduct Rules, which forbid the communication to non-official persons of official documents or information.

(*c*) Yes.

(*d*) The office was open from 6-30 to 11-30 in the morning on the 5th June, 1917, and Muhammadan employees were allowed to leave office at 10-30 A.M. on that day.

(*e*) The matter is still under the consideration of Government.

Subordinate Educational Service.

LXXXIII.—(*a*) When was the Subordinate Educational Service organised? With how many grades and what values? With whom did the final sanction of the Subordinate Educational Service cadre rest?

(*b*) Will the Government be pleased to lay on the table a copy of the Director of Public Instruction's Circular No. $\frac{5A}{7P-26-16}$?

(*c*) Will the Government be pleased to state whether similar artificial restrictions of promotions have ever been imposed on officers in any other graded service?

(*d*) Will the Government be pleased to state whether promotions in any other graded service are determined by the nature of certain classes of posts only in the service or by the seniority and efficiency of officers in the several posts in which they are employed by the department?

Answer by the Hon'ble MR. HORNELL :—

"(*a*) The Subordinate Educational Service in its present form was organized in 1897. It consists of the following classes. The value of the appointments in each class is noted below :—

	Rs.		Rs.
Class I ...	... 250	Class V	... 100

Circular referred to in the answer by the Hon'ble Mr. Hornell *to clause* (*b*) *of Question LXXXIII* (*unstarred*) *asked by the* Hon'ble Maulvi A. K. Fazl-ul-Haq.

No. $\frac{5A.}{7P-25-16}$, dated Calcutta, the 9th January 1917.

From—The Hon'ble Mr. W. W. Hornell, M.A., Director of Public Instruction, Bengal,

To—The Secretary to the Government of Bengal, General Department.

I have the honour to address Government on the subject of the desirability of defining the prospects of promotion of the various classes of officers in the Subordinate Educational Service.

2. The only authoritative ruling in this regard is that contained in paragraph 8 of Government Resolution No. 1281, dated the 30th March, 1897, on the subject of the reorganization of the Subordinate Educational Service, in which the following principles were laid down :—

(1) Promotion from class to class will not be determined by seniority alone. Seniority is only one of the conditions which render an officer eligible for promotion. Efficient service in the posts hitherto held, the nature of the appointments in which officers are serving, the capacity to fill posts of higher responsibility and other determining factors of equal importance are to be considered as well as seniority.

(2) The promotion of an officer to a post of greater responsibility will not necessarily imply promotion to a higher class on high pay. An officer's selection for a post of greater responsibility will be an indication of his fitness for promotion at some future time, and in this way he will indirectly be a gainer.

3. Experience shows that it is difficult to follow these principles without leaving ground for complaint. The Subordinate Educational Service is composed of heterogenous elements—men possessing different qualifications and doing different kinds of work. It is therefore difficult to balance their claims at the time of promotion. So long as the terms of their service are not clearly defined, each officer expects to rise to the highest grade and when promotion is refused to any one, who does good work in his own sphere, although the character of his duties does not entitle him to higher remuneration, he considers that he has a grievance. It therefore seems worth while making a definite pronouncement about what prospects each class of officers can reasonably expect.

4. Accordingly, I submit the following proposals for the consideration and orders of Government. It is deemed necessary to obtain the orders of Government in the matter in spite of the fact that the Director of Public Instruction is under existing orders competent to make or refuse promotions in individual cases throughout the Subordinate Educational Service, because the present proposals involve the practical alteration of the terms of service of the officers concerned.

5. I think promotions to classes I and II should be open only to a few classes of officers performing very responsible duties. I have carefully considered the cases of all officers in the Subordinate Educational Service and am of opinion that only the following officers should be eligible for promotion to classes I and II :—

(1) Lecturers (including Lecturers of the Oriental Department of the Sanskrit College).

(2) Demonstrators.

(3) Head Masters and Head Mistresses of Government High Schools.

Questions and Answers.

(4) District Deputy Inspectors of Schools (including the Deputy Inspector of Schools, Calcutta).
(5) Superintendents of Technical Schools and the Assistant Head Master, Dacca School of Engineering.
(6) Foremen Instructors, who are ordinarily appointed to class II.
(7) Two senior teachers of each of the European schools, who can temporarily be entrusted with the duties of the Head Master and the Head Mistress.
(8) The Librarian, Presidency College.
(9) Deputy Keeper, Art Section of the Indian Museum.
(10) Head clerks of important subordinate offices, such as the offices of all Inspectors of Schools (including the Inspector of European Schools) and the Principals of the Presidency, Dacca and the Civil Engineering Colleges.

6. The following classes of officers should not get promotion beyond class III :—

(1) Assistant Head Masters and Assistant Head Mistresses of High schools.
(2) Deputy Inspectors of Schools other than District Deputy Inspectors of Schools.
(3) Head clerks of the offices of all Principals of colleges (other than those mentioned in clause 10 under paragraph 5 above) and of the Principal, Calcutta Madrassa.
(4) All Assistant teachers of European schools other than those mentioned in clause 7 under paragraph 5 above.
(5) Senior English teachers of reformed Madrassas.
(6) Assistant Maulvis (Arabic teachers) of Madrassas.
(7) Assistant Masters of the Dacca School of Engineering.
(8) Laboratory Assistants.
(9) Teachers of the Government School of Art.

7. In the case of other officers in the Subordinate Educational Service promotion should be restricted to Rs. 100 in class V. The following is a list of such officers, but it may change from time to time owing to the promotion to the Subordinate Educational Service from the Lower Subordinate Educational Service and ungraded services of other officers not mentioned therein :—

(1) Assistant Masters of High schools.
(2) Head Masters of Middle English schools and Assistant Masters of Technical schools.
(3) Sub-Inspectors of Schools.
(4) Drawing Masters (other than those employed in the School of Art).
(5) Drill Masters.
(6) Gymnastic Masters.
(7) Pandits (teachers of Sanskrit).
(8) Maulvis (teachers of Arabic or Persian).
(9) Clerks other than those mentioned in clauses 10 and 3 under paragraphs 5 and 6 above, respectively.
(10) Cashiers.
(11) Draftsmen.
(12) Librarians of colleges other than the Presidency and Dacca Colleges.

LXXXIV.—(*a*) Will the Government be pleased to state whether it has finally been decided to abandon the present site of Noakhali town? Abandonment of site of Noakhali town.

(*b*) If the answer to the above question is in the negative, will the Government be pleased to state what steps, if any, have been taken to fight against the erosion of the town by the river?

(*c*) If any such preventive scheme is being worked, will the Government be pleased to state the success which has up to now been achieved by this measure?

Answer by the Hon'ble MR. KERR :—

"(*a*) The position in regard to the possible removal of the head-quarters station of Noakhali was fully explained in the answer to the question put on this subject by the Hon'ble Babu Akhil Chandra Datta at the meeting of this Council held on the 3rd July. Government have no intention of abandoning the present station unless the erosion of the Meghna should render this course necessary.

Questions and Answers.

(*b*) and (*c*) No measures have been taken because none are feasible. The magnitude of the erosion which extends over several miles of the coast and of the forces of nature causing the erosion makes the cost of any remedial measures absolutely prohibitive and out of all proportion to the value of the property to be protected."

ORDERS.

Extract from a letter from the Hon'ble Mr. L. Birley, C.I.E., I.C.S., Officiating Secretary to the Government of Bengal, Revenue (Miscellaneous) Department, to all Commissioners of Divisions.

Nos. 1314-18T.R., dated Darjeeling, the 29th June, 1916, referred to in the answer to clause (*b*) (*iii*) of Question No. LXXXV.

* * * * * * * *

Paragraph 4—

The Governor in Council is accordingly pleased to lay down the following rules in supersession of the existing rules in section VII, Chapter III, of the Board's Rules, 1910, for the guidance of the Commissioners of Divisions in making arrangements for the recruitment and training of candidates for district kanungoship :—

(1) Appointments to the post of district kanungo shall be made from among—

(*a*) approved settlement kanungos, and

(*b*) registered candidates on the lists maintained by Divisional Commissioners.

(2) No age-limit is fixed in the case of appointments of settlement kanungos. Candidates registered by Commissioners must not be over 25 years of age on the date of registration, but no minimum age is prescribed beyond which a registered candidate may not obtain a permanent appointment.

(3) Commissioners will register candidates according to the following scales :—

		Cadre.	Maximum number of registered candidates.
Burdwan Division	... ...	11	4
Presidency „	... ...	16	5
Dacca „	... ...	14	5
Chittagong „	... ...	5	2
Rajshahi „	... ...	8	3
	Total ...	54	19

(4) No candidate will be registered unless (*a*) he has passed the Intermediate Arts or the Intermediate Science Examination ; (*b*) has undergone a nine months' course of survey at the Comilla Survey School ; (*c*) can produce evidence of strong constitution and active habits.

* * * * * * * *

No. 8153, dated Calcutta, the 25th August, 1914.

* * * * * *

Rules for the appointment of Kanungos in the Settlements of the Bengal Presidency referred to in the answer to clause ( ) (*iii*) of Question No. LXXXV.

1. At least three-fourths of the selections of settlement kanungos will ordinarily be made by the Director of Land Records annually on or before the 15th July on the nominations of district officers and of district settlement officers after such personal examination as he may think fit. The remaining selections, if any, will be made by the Director of Land Records direct. The total number of selections so made will be 25 per cent. more than the estimated number of vacancies likely to occur during the ensuing year.

2. Applications will be received by district officers and district settlement officers for appointment. Applications addressed to the Director of Land Records will ordinarily be sent to the district or district settlement officer concerned.

3. Nominations will be reported annually on the 1st July to the Director of Land Records.

4. Each district officer will have two nominations, except Dacca, Mymensingh, Howrah and the 24-Parganas, which will have four each. Each district settlement officer will have four nominations.

5. In the districts of the Dacca, Chittagong and Rajshahi Divisions, one nominee at least should be a Muhammadan, whilst in the districts of the Burdwan and Presidency Divisions, one Muhammadan nomination, whenever a suitable candidate is available, should be made. At least one-third of the selections made by the Director of Land Records should be Muhammadans.

Questions and Answers.

6. Nominations will be made in the accompanying form. Nominees should be men of good character, strong physique and active habits who have obtained a Bachelor's degree.

In exceptional cases candidates may be taken who have only passed the Intermediate or Matriculation Examination, but such nominations should be rare. Candidates should be at least 21 and not more than 25 years of age and residents of the district. For this purpose near relations of a Government officer who is serving in a district will be treated as residents of that district. Nominations of office clerks should be avoided as far as possible.

7. Selected nominees will be sent at their own expense for two months' training to a major settlement. Those who pass the examination held at the end of that training will be sent, provided there are vacancies, to major settlements on probation for six months on Rs. 75 per month. At the end of that period if they have rendered satisfactory service they will be confirmed as kanungos and given the initial pay of Rs. 100 per month. If there are insufficient vacancies, passed candidates will be provided with appointments later.

Minimum salary of the ministerial staff in Commissioner's, Collector's and District Judge's offices and starting pay offered to officers of certain educational services.

LXXXVI.—(*a*) Will the Government be pleased to state what considerations have moved the Government of Bengal to raise the minimum initial salary of the ministerial staff in the Commissioner's, Collector's and District Judge's office to Rs. 30.

(*b*) Will the Government be pleased to state what starting pay is now offered to Educational officers of the Subordinate Educational Service and the Lower Subordinate Educational Service?

(*c*) Will the Government be pleased to state the average educational qualifications of the recruits in the ministerial services mentioned in clause (*a*)?

(*d*) What circumstances led the Government of Eastern Bengal and Assam to recruit graduates direct on Rs. 50 and above in supersession of previous circulars?

(*e*) Will the Government be pleased to state what are the orders issued by the Director of Public Instruction's office from time to time on the subject of initial pay referred to in the Director of Public Instruction's Circular No. $\frac{188}{4A-58-16}$? Will the Government be pleased to lay all these Circulars on the table?

Answer by the Hon'ble MR. HORNELL :—

"(*a*) The salary of the ministerial staff in the Commissioners', Collectors' and District Judges' offices is regulated by orders passed before the constitution of the Presidency in its present form. The minimum salary in Commissioners' offices was fixed at Rs. 30 in 1909 in Western Bengal districts, and in 1911 in Eastern Bengal districts, on the recommendation of the Ministerial Officers' Salaries Committees of the two provinces of Bengal and Eastern Bengal and Assam. This rate of pay was considered to be the minimum at which competent clerks could be secured for Commissioners' offices. The minimum pay of clerks in Collectors' and District Judges offices' was fixed at Rs. 50 in Eastern Bengal districts and Rs. 25 in Western Bengal districts, on the recommendations of the Ministerial Officers' Salaries Committees. These rates were the lowest sums which could be taken to represent a living wage for men of the clerical class in the respective provinces of Eastern Bengal and Assam and Bengal.

(*b*) Except in special cases, educational officers are appointed on the following initial rates of pay :—

(1) Foreman Instructors on Rs. 200, in Class II of the Subordinate Educational Service.

(2) Lecturers and Demonstrators in Colleges on not less than Rs. 100 in Class V of the Subordinate Educational Service.

Questions and Answers.

(3) Deputy Inspectors on Rs. 75 in Class VI of the Subordinate Educational Service.
(4) Laboratory Assistants in Colleges on Rs. 50 in Class VIII of the Subordinate Educational Service.
(5) Sub-Inspectors on Rs. 50 in Class VIII of the Subordinate Educational Service.

Circulars referred to in the answers by the HON'BLE MR. HORNELL, *to clause* (*e*) *of question No. LXXXVI* (*unstarred*) *asked by the* HON'BLE MAULVI A. K. FAZL-UL-HAQ.

CIRCULAR NO $\frac{188}{4A-68-16}$, dated Calcutta, the 9th November, 1916.

From—the Hon'ble Mr. W. W. HORNELL, M.A. (OXON.), Director of Public Instruction, Bengal,

To—all Divisional Inspectors of Schools; all Principals of Government Colleges; the Principal, Calcutta Madrassa; the Principal, Bethune College; the Lady Principal, Eden High School for Girls, Dacca; the Secretaries, Madrassa Committees at Dacca and Chittagong, and Inspectresses of Schools.

I HAVE the honour to inform you that on a review of the orders issued by this office from time to time, on the subject of the initial pay on which persons with various qualifications should be appointed, I find that orders are not clear. Accordingly I lay down, in supersession of the previous orders on the subject, that persons of the qualifications mentioned below should be appointed on the initial pay noted against them—

M. A.s or M. Sc.s when they are appointed in high schools or to posts of Laboratory Assistants in colleges ...	Rupees 50 in Class VIII of the Subordinate Educational Service.
B. A.'s or B. Sc.'s	Rupees 35 in Class I of the Lower Subordinate Educational Service.
I. A.'s or I. Sc.'s	Rupees 25 in Class III of the lower Subordinate Educational Service.

2. No person should be appointed on a higher initial pay than that indicated above, without the special sanction of this office. Applications for such sanction can be made only in very exceptional cases, for instance, when Muhammadans have to be appointed and they cannot be obtained on the terms indicated above. Special reference should be made to this office, when occasions arise for the relaxation of the above limits.

3. The cases of B. T.s and L. T.s are difficult. It would appear fair and reasonable to offer them higher initial salaries than those who have not passed these examinations, and that a teacher in the Lower Subordinate Educational Service who is deputed to the training college for a course of training, has, on coming out successful, a claim to special and immediate promotion. This is, however, not practicable. If, for example, an outsider B. T. or L. T. is appointed on a higher salary than the officers already in Government service who possess similar qualifications, the latter will have a just grievance.

4. It is not possible to fix the initial pay of B. T.s and L. T.s, but I do not wish to discourage training. The case of an officer of this Department (teacher or inspecting officer) who improves his qualifications by passing

Questions and Answers.

successfully through a course of training will be specially considered in the matter of promotion so far as this can be done without prejudice to the claims of other deserving officers. It is also proposed that there should be certain posts, viz., Head Masterships of the improved *guru*-training schools for which the B. T. will be an indispensable qualification.

5 As regards the appointment of outsiders to teaching or inspecting posts, *preference should always be given* to B. T.s and L. T.s if such candidates are available, and if they can be appointed without prejudice to legitimate claims of certain communities for a share of Government patronage. I would suggest that you should make this clear in advertising a vacancy. If a B. T. or L. T. is forthcoming, he should ordinarily be appointed on the initial pay to which he is entitled according to his general academical qualification as indicated in paragraph 1. If, however, it is proposed to appoint an experienced B. T. or L. T. in the first instance to Government service, his case must be referred to this office if he is not prepared to accept the ordinary terms.

6. Another matter which I should impress upon you is the fact that the more outsiders are appointed to the Subordinate Educational Service or to the higher grades in the Lower Subordinate Educational Service, the fewer will be the chances of promotion of the deserving officers from the Lower Subordinate Educational Service. It is perfectly true that it is difficult to secure suitable graduate teachers on the terms that can be offered under existing conditions, but one cannot have it both ways, and if appointments are made direct in higher grades, we diminish proportionately the prospects of promotion of the officers in the lower grades. The generally unsatisfactory conditions of Government schools in the matter of staff have been pointed out to Government over and over again, but the remedy which is a costly one, cannot be considered until the financial position has been readjusted.

CIRCULAR NO. $\frac{246}{7P.-71-13}$ dated Calcutta, the $\frac{19th}{26th}$ November, 1913.

From—W. C. WORDSWORTH, ESQ., Assistant Director of Public Instruction, Bengal,
To—all the Divisional Inspectors of Schools and all Principals of Government Colleges (including the Principal, Calcutta Madrassa, the Lady Principals, Bethune College, and the Eden Female School, Dacca).

I HAVE the honour to invite your attention to this office Circular No. 13, dated the $\frac{14th\ February}{20th\ March}$, 1903, in terms of which a B. A. graduate with Honours should ordinarily begin on no higher pay than Rs. 40 and a pass B. A. on Rs. 30 a month. Subsequently to that date almost all the ungraded officers of the Department drawing salaries below Rs. 50 a month were included in a classified service called the Lower Subordinate Educational Service, and graduates are now generally appointed in Class II (Rs. 30—1—35) of that service and occassionally even in the lower grades.

2. As such appointments interfere seriously with the prospects of promotion of non-graduate officers in the Lower Subordinate Educational Service, it has been ruled that until further orders graduates should not without the previous sanction of this office be appointed to any educational posts for which the pay available is less than Rs. 35 in Class I of the Lower Subordinate Educational Service.

Circualr No. 13, dated Calcutta, the $\frac{14th\ February}{20th\ March}$, 1903.

From—A. PEDLER, ESQ., F.R.S., C.I.E., Director of Public Instruction, Bengal,
To—All Inspectors of Schools; Principal of Colleges (including the Calcutta Madrassa and the Civil Engineering College, Sibpur); the Principal of the Government School of Art; the Secretaries of the Dacca and Chittagong Madrassa Committees, the Bethune College Committee, and the Eden Female School Committee, Dacca; and the Vice-Presidents of the Boards of Management of the Alipore and Hazaribagh Reformatory Schools.

I HAVE the honour to inform you that I have made proposals to Government with a view of improving the pay and prospects of the ungraded officers

Questions and Answers.

of the department by including them in a classified service to be designated "Lower Subordinate Educational Service."

2. In view of this proposal a list of the ungraded officers on salaries varying from Rs. 45 a month downwards has been prepared in this office, a copy of which (with ten spare copies for the Divisional Inspectors, and one copy for other officers) is herewith enclosed.

3. I have to request that you will be good enough to carefully verify the entries in the statement and correct and complete it up to the 1st April next, so that no officer other than a menial may be left out. The list so revised should be submitted to this office *not later than the 15th of April next.*

4. The seniority of the officers should be determined by the date from which they have been drawing their present substantive pay, those drawing any pay substantively *pro tempore* being placed below the former. In revising the list the principle laid down should be scrupulously followed.

5. It is also desirable that henceforth in making promotions regard should be had to the claims of officers not as serving under different Inspectors of Schools, Principals of Colleges, etc., but as belonging to one common service for the whole province. Accordingly, when a vacancy takes place in an institution under your control, the vacancy may be filled up by you and the arrangement reported to this office for sanction. The man newly appointed should not necessarily get the pay of the vacant post, but he must begin on such pay as one of his qualifications may usually expect on his first appointment. For instance, a B. A. graduate with Honours should ordinarily begin on no higher pay than Rs. 40, a pass B. A., Rs. 30, an undergraduate, a Sanskrit Pandit, or a Drawing Master trained in the School of Art, Rs. 20, and a Pandit who has passed the Vernacular Mastership Examination only from a Training School, Rs. 15 a month. The higher pay that may thus be available should go to one of the senior and deserving officers in the combined list, the promotions being made by this office. To enable me to make these promotions I have to request you to be good enough to enter in the column for "Remarks" in the printed list your opinion against the name of each officer subordinate to you as to whether he is deserving of promotion or not. The list should be treated as confidential, and returned to me in a cover marked "Confidential."

6. Similar lists will be forwarded to you half-yearly in future for return to this office after correction, and in the remark column you will, as on the present occasion, fill up personally your views as to desirability of promotion of each officer serving under you.

Discontinuance of publication of appointments, etc., of officers of Subordinate Educational Service in *Calcutta Gazette.*

LXXXVII.—(*a*) Will the Government be pleased to state the reasons for discontinuing the publication of appointments, promotions and transfers of Subordinate Educational Service officers in the *Calcutta Gazette* and for continuing the publication of postings of such officers as Sub-Registrars?

(*b*) Will the Government be pleased to state the reason why the gradation lists of officers of the Subordinate Educational Service are recently being published in a manner quite different from the tabulated form observed in other graded lists?

Answer by the Hon'ble MR. HORNELL :—

"(*a*) The practice of publishing the appointments, promotions and transfers of the Subordinate Educational Service officers in the *Calcutta Gazette* was discontinued in order to reduce the bulk of the *Calcutta Gazette* and so effect an economy in the consumption of paper. The posting of Sub-Registrars are notified in the *Gazette* because the information is considered to be useful for the public.

(*b*) The gradation lists of the Subordinate Educational Service are being published in a tabular form, like those of certain other services, for reasons of economy."

The Bengal Tenancy (Amendment) Bill :

Resolution.

Mr. Beatson Bell ; Mr. Altaf Ali.

LIST OF BUSINESS—ITEM No. 2.

THE BENGAL TENANCY (AMENDMENT) BILL, 1917.

The Hon'ble MR. N. D. BEATSON BELL moved for leave to introduce a Bill to supplement and amend the Bengal Tenancy Act, 1885.

He said :—

"My Lord, this Bill is comparatively small and I hope comparatively non-contentious. As the House is aware, we contemplate larger legislation on the general question of the transfer of occupancy holdings throughout the province. That is an extremely difficult problem and we have already made several attempts to solve it. We are now engaged on a fresh draft and we hope to have it ready before very long. It is obviously a question which demands care and caution. The Bill that is now before us is a much smaller measure. It deals with the aboriginal tribes who are found in a few places in Bengal, chiefly on the outskirts of the province. These simple aboriginal folk, unless they are protected against themselves, are in great danger of losing their ancestral lands and becoming reduced to a position not far removed from serfdom. We have given the problem our anxious consideration. Following similar legislation which is already in force in neighbouring provinces we have drafted this Bill which, we hope, will meet with general acceptance. The main principle of the Bill simply is that, while within certain limits we allow transfers of land in the form of sub-letting and mortgaging as between one aboriginal and another, we try to prevent the land from passing from the hands of an aboriginal into the hands of a member of another race. The Statement of Objects and Reasons explains concisely why we have brought forward this Bill, and the detailed notes on clauses explain more fully what we propose to do in each specific case. I shall not detain this House now by going over the clauses. The papers will be circulated to all who are interested in this question, and on a future occasion I hope to have an opportunity of moving for permission to send this Bill to a Select Committee. On the present occasion, my object is purely formal. I move for leave to introduce this Bill."

The motion was put and agreed to.

RESOLUTIONS.

(under the Rules for the discussion of matters of general public interest).

The Hon'ble MR. ALTAF ALI moved the following resolution :—

"This Council recommends to the Governor in Council that the experiment of appointing a non-official as Chairman of the Murshidabad District Board be tried in at least one district of each of the five divisions of the Presidency.

He said :—

"My Lord, as a representative of the District Boards I feel it my duty to express gratitude to the Government for having taken the first step towards what I may venture to call a somewhat belated reform by appointing a non-official as the Chairman of a District Board. My Lord, we have often heard it said that local self-government has not been a remarkable success in

Resolution.

Mr. Altaf Ali.

this country. I must admit the charge, but considering all the drawbacks with which we have worked, the success on the whole has not been quite unsatisfactory.

If we closely examine the reasons for this result, we shall find them to be many, far too many, to enumerate during the short time I have at my disposal. In short, Lord Ripon's magnificent idea was never given a fair trial and a genuine attempt to foster real self-government has not yet been made.

The Boards, as now constituted, consist of men, some of whom are elected in some districts and appointed in others, and are presided over by District Officers, who, by virtue of their position as the chief executive officer of the district, possess such an enormous influence that to attempt to carry any project against his wish is as difficult and impossible as the proverbial knocking of one's head against the wall. The whole work of administration is practically done by the Chairman, and the Board merely endorses the matters already disposed of by him in anticipation or approves matters about which his opinion has been expressed one way or the other. The entire proceedings of the District Board are sometimes mere formal sanction of the proposals made by the Chairman.

It would be useful to recall here the exact words of Lord Ripon's Despatch on the aims and objects of local self-government. 'The task of administration,' thus runs his resolution, 'is yearly becoming more onerous as the country progresses in civilization and material prosperity. The annual reports of every Government tell us of an ever-increasing burden laid upon the shoulders of local officers. The cry is everywhere for increased establishments. Under these circumstances, it becomes imperatively necessary to look around for some means of relief; the Governor-General in Council has no hesitation in stating his convictions that the only reasonable plan open to the Government is to induce the people themselves to undertake, as far as may be, the management of their own affairs and to develop and create, if need be, a capacity for self-help in respect of all matters that have not, for Imperial reasons, to be retained in the representatives of the Government.' And the resolution went on to point out: 'It is not primarily with a view to improvement in the administration that this measure is put forward and supported. It is chiefly desirable as an instrument of political and popular education.'

These are words well worth recalling to-day when there is as insistent a cry at least of the over burdening of the District Officers as in 1882 and certainly as great a need for shifting a part of the burden on 'the intelligent class of public spirited men which has been rapidly growing up.' It is also as necessary to-day as then to insist that it is of far greater importance in this matter to consider the need for the education of the people in self-government than more efficiency of administration.

The introduction of local self-government and the entrusting of the management of their own affairs to local people have not had the effect of reducing the burden of the District Officer—it has, if anything, increased it. The reason is that contrary to the principles emphasised by Lord Ripon's Government, District Officers have been made Chairmen of District Boards. And for that very reason the education of the people in local self-government has not advanced as far as might have been expected. Lord Ripon's Government clearly recognised that in order to lead to any good results there must be real self-government from the very start and they emphasised that the District Officers must not be Chairmen or even members of the Boards, and that to quote their expression, 'Care must be taken that the Boards are left unfettered in the initiation and direction of operations and that the Engineer is placed in the position of their servant and not of their master.'

Resolution.

Mr. Altaf Ali.

The real aim of the Government, my Lord, was to train the people in the art of self-government, to call forth the best energies of the people to be devoted to public life, to create and foster a healthy civic life by which persons of local knowledge and experience, men of public spirit and interest, may be largely interested in the administration of the district. It is not efficiency that was sought, nor was it considered that good government would be a substitute for popular government with all its defects.

The boldness and the breadth of Lord Ripon's ideas proved too much for the heads of Government that followed and in their hands these principles were dwarfed in their application. The District Board was so organised as to have the District Officer at the helm of affairs. Every precaution was taken to see that the District Boards did nothing except what the District Officer, the Commissioner, in fact the entire bureaucracy, approved. This, my Lord, was supposed to be a safe method of teaching the people self-government. It was like teaching a child to walk without letting his feet touch the ground.

A man wanted to buy a horse, but had no money to buy it with. A shrewd neighbour advised him to buy it by instalments and to begin by buying the tail. This sort of getting self-government by instalments is like getting a horse by instalments. This, my Lord, I beg to submit, is impossible. You cannot possibly acquire full capacity for self-government unless you have the very first requisite of self-government, *i.e.*, full responsibility.

One of the first things you have to do, my Lord, if you want to promote real self-government would be to take the responsible head of the District Board from among the members of the Board themselves, and I congratulate the Government on having taken this step with regard to the Murshidabad District Board. As I have said in the course of my last budget speech, Rai Baikuntha Nath Sen Bahadur would more than justify his appointment, and I am equally confident that if Your Excellency's Government will accept my present Resolution there would not be any difficulty in finding suitable men.

My proposal before the Council is that the experiment should be tried on a much wider scale and several districts should be selected from different parts of the Presidency or one from each Division to give the experiment a really decisive character. I beg leave to assure Your Excellency that the experiment stands an equal chance of success in districts other than Murshidabad. If Your Excellency's Government want to make this the beginning of a decisive forward step in the history of local self-government, I submit that it is unsafe to let the ultimate decision rest on an experiment made in only one district in Bengal. It goes without saying that instances of success or failure in one part of a province is a very unsafe criterion to go upon in these matters. Personally, I feel that it is best to have, even now, non-officials as Chairmen of every District Board in the Presidency. This may be a temporary set-back in some districts, a temporary falling off in the standard of efficiency in one or two places, but the ultimate benefit that will follow everywhere would be striking. But, my Lord, I am not asking for such a radical change without due care and attention, without testing the ability of the men that we would ask to preside over our Boards.

The Government have, by this appointment at Murshidabad, already accepted the principle that non-official Chairmen would be useful, if only possible.

The proposal that I am now placing before your Excellency is a very modest one. I only ask your Excellency to test the possibility of having non-officials as Chairmen of all the District Boards by an experiment on a larger scale—an experiment which can be decisive, if only it is tried on the lines I have suggested."

Resolution.

Maulvi Abul Kasem ; Sir S. P. Sinha.

The Hon'ble MAULVI ABUL KASEM said :—

"My Lord, I beg to support the resolution just moved by the Hon'ble Mr. Altaf Ali. In doing so I do not think that I need add to it many words of mine to commend it either to your Excellency's Government or to this Council. I have got one particular grievance in this matter. It was reported some time back that Burdwan was one of the two districts selected by Government for the trial of the experiment of a non-official Chairman of the District Board. The appointment was offered to a nobleman who, on account of his age and ill-health, had to refuse the offer of the highest office open to an Indian and it was not reasonable to expect that he would take upon himself the arduous duties and responsibilities of the office and Burdwan consequently lost the honour and the privilege of having a non-official Chairman of the District Board. What we, the people of Burdwan, feel is that it has been remarked in official quarters that we were denied the privilege because no man was available there who was willing and able to take up the work. In this connection I may say, my Lord, that we have amongst us nearly half-a-dozen men who can discharge the duties of the office as well and as efficiently as, if not better than, the Magistrate-Chairman of that district. We have, in the person of the present Vice-Chairman, Rai Bahadur Bonwari Lal Hati, a gentleman who has worked as such for over a quarter of a century which I believe is a record in the Presidency and the fact that he has been elected Vice-Chairman year after year proves that he has been an efficient administrator of the District Board and is very popular with his colleagues and the people of the district, and the fact that his work has been favourably commended year after year in Government resolutions shows that it has also been highly appreciated by Government. In these circumstances it is only reasonable that we should ask your Excellency to try the experiment in that district among others. In another district of my division we have in the District Board a member who has been Chairman of one District Board or other for more than 20 years. Can we not have his services? I think my Lord, that the resolution moved by my friend is a very moderate and a too modest one and it might have gone much farther. We may try the experiment in such districts where the Government may think it proper. Experiment in one or two isolated districts is neither safe nor fair to my countrymen. The experiment may succeed or may fail but isolated cases cannot give us sufficient data to come to a definite conclusion. It has been said, my Lord, that if a non-official is appointed as Chairman of the District Board, the efficiency of the administration will suffer. But I submit, my Lord, that efficiency is not a monopoly of the Indian officials. It is argued that non-officials cannot or will not devote much time for the work of the Board. I want to know how much time can a District Magistrate, who is said to be a very hard worked officer, spare for the District Board and what attention and care is given by the Magistrate and the other official members of the Board to the work of the Board. Those who have any experience about District Boards will agree with me when I say that most of the administrative work is done by the non-official Vice-Chairman and greater interest is taken in the affairs of the Board by non-officials than officials. With these words I commend this resolution to this Council and hope that Your Excellency's Government will see their way to accept it."

The Hon'ble SIR S. P. SINHA said :—

"My Lord, if I intervene at this early stage, I do so in the expectation that what I am going to say will probably meet with the approval of hon'ble members and cut short the debate which otherwise might last longer. My Lord, I desire, on behalf of Government, to express my sympathy with the feeling which prompted the mover to bring forward this question, as we have already decided to try the experiment on a larger scale and to extend it

Resolution.

Sir S. P. Sinha.

almost immediately at least to one other district. We have further decided that that experiment should be somewhat different from what it was on the last occasion in the case of Murshidabad, namely, that instead of our appointing a non-official Chairman we should leave it to the members of the District Board or Boards selected to elect their Chairman. That, I think, is a very distinct advance on what has been the invariable practice ever since the Act was enacted. As Hon'ble Members know, this Act—the Local Self-Government Act in Bengal—was enacted shortly after the memorable resolution of Lord Ripon on Self-Government and is Act III of 1885. The section, which deals with the appointment of Chairmen of District Boards, is section 22 of the Act and enacts as follows :—'Every District Board shall be presided over by a Chairman who shall be appointed by the Lieutenant-Governor,' that is to say, that is the normal rule with regard to District Boards, 'or should the Lieutenant-Governor in any case so direct, be elected either by name or by virtue of his office by the members of such Boards from among their own number, subject to his approval.' Since 1884 the normal rule has invariably been followed in Bengal until it was departed from only in the beginning of this year or rather at the end of last year when Rai Baikuntha Nath Sen Bahadur was appointed Chairman of the District Board of Murshidabad. It is not necessary that I should go back further than the recommendations of the Decentralisation Commission in that respect. But, before I refer to that, I would just say one word to express, on behalf of Government, its entire approval of the principles underlying that memorable resolution of Lord Ripon. There is not one word in that resolution with which this Government is not in entire sympathy. Now the matter was dealt with by the Decentralisation Commission. I only refer to it to show that it is not out of any desire on the part of Government to retain control through the District Officers that the section in the Act has been always applied in practice as it has been. The Report of the Decentralisation Commission, making a distinction between District Boards and Municipalities, recommended that the Chairmen of District Boards should continue to be District Officers, whereas the normal rule with regard municipalities was to be that they should be presided over by non-official elected Chairmen. The Government of India, after having consulted all the Local Governments in India, dealt with that recommendation in paragraph 28 of the well-known resolution on Local Self-Government of the 28th April, 1915. I would draw the attention of Hon'ble Members to that paragraph. 'The Commission were of opinion that an official should remain, as he usually is at present, Chairman of every District and Sub-District Board. They consider that the removal of the District and Subdivisional Officer from the presidentship of rural boards would have the effect of dissociating them from the general interests of the district in such matters as roads, education, sanitation, etc., and would divorce them from healthy contact with instructed non-official opinion. They differentiated the circumstances of rural boards from those of municipalities, in that the latter are less connected with general district administration, that they have reached a higher level of political education, and that the jurisdictional area is much smaller and more compact. All Local Governments have accepted this view with which the Government of India are in agreement, though they will have no objection to non-official Chairmen being retained where such exist or appointed where a Local Government or Administration desires to make the experiment'. In other words, in April, 1915, the Government of India gave the option to the Local Government to try the experiment of having non-official Chairmen in District Boards. This Government was not slow to avail itself of the liberty thus left to itself. The matter was almost immediately after the resolution taken in hand, various opinions from officials and non-officials obtained, and on the 12th June, 1916, it was decided that Rai Baikuntha Nath Sen Bahadur should be appointed Chairman of the District Board of Murshidabad, and he assumed office from December, 1916. Now it

Resolution.

Sir S. P. Sinha ; Mr. Altaf Ali ; Maulvi A. K. Fazl-ul-Haq.

is not a year yet since that appointment was made, i.e., since the experiment was begun. I should have thought that it was not yet time to move any further resolution with regard to it ; but at the same time, I am glad to be able to say that though the time since Rai Baikuntha Nath Sen Bahadur's appointment is so short, we have every reason to hope that his administration will prove fairly successful. In that hope and in that belief, we have taken up the matter again, and as I announced in the very beginning, we have decided to extend the experiment not necessarily to one district, but at least to one other district and further to leave to the members to elect their own Chairman instead of appointing one ourselves ; and if it be the fact, as previous speakers have said, that there is not only reasonable expectation but the certainty of finding men of position, capacity and leisure, willing and able to give their time and energy to public affairs, I can assure Hon'ble Members that there will be no disinclination on the part of Government to avail themselves of the opportunity in such districts to put in operation the experiment at once. At the same time, I feel bound to say that I am not equally confident with my friends who have spoken before me that it is possible to find at least in one district in every division such men as we hope the District Board members can elect themselves when the chance is given to them. But, in our desire that the experiment should be a success and that we should be able to extend it even further, we have got to go, as my friends themselves will be the first to admit, with caution and care. I should have been glad, on behalf of Government, if I could accept the resolution as it stands, namely, that we should try at least the experiment in one district of each of the five divisions of the Presidency. But it is not as if the matter had not been considered : it was considered only a year ago and it was then considered that it would not be conducive to the success of the experiment that there should be hard and fast rules of that kind. The reason is obvious. You may have in one division two districts where you can easily get men of the type and character that are necessary. But you may have a division in which there is not a single district in which such men are available. Is it not desirable in the interests of both Government and the District Boards that the experiment should be conducted under the best auspices and with the best chance of success ? With the assurance that we are favourably considering the possibility of extending this experiment as much as possible and as soon as possible, I hope that the Hon'ble Member will feel satisfied."

The Hon'ble Mr. ALTAF ALI said :—

"In view of the assurance given by the Hon'ble Member in charge I beg to withdraw my resolution."

The resolution was then, by leave of the President, withdrawn.

LIST OF BUSINESS—ITEM No. 4.

The Hon'ble MAULVI A. K. FAZL-UL-HAQ moved the following resolution :—

"This Council recommends to the Governor in Council that a few of the important government departments to be selected by the Governor in Council be permanently located at Dacca."

He said :—

"My Lord, it is with some diffidence that I rise to say a few words in support of this resolution. While on the one hand I am weighted down by the heavy responsibilities of the task that I have taken upon myself, on the other hand I feel that I will have to contend against somewhat appalling odds

Resolution.

Maulvi A. K. Fazl-ul-Haq.

in recommending this resolution for the acceptance of your Excellency's Government, I think I can detect in the eyes of some of my friends opposite, from the western districts of the Presidency, a lurking suspicion that if this resolution is accepted, Calcutta will be further shorn of a portion of the remnants of its departed glories. But more than this I am afraid that there will be a solid phalanx of official opinion which would be pitted against me and whose exponents are some of the ablest members of the permanent Civil Service in the country who think that I am going to raise a sacrilegious hand against the sacred preserves of a privileged bureaucracy. With the boldest heart I bend before the task, but I am encouraged in the thought that in your Excellency I shall have a very fair and impartial judge. As the poet said, my Lord, my strength lies in the fact that my cause is just. My Lord, before I proceed to the consideration of this resolution I think I had better try to analyse some of the questions that arise in connection with this resolution. I have made a hurried attempt in setting forth some of the questions that I think ought to be answered before we can approach the considerations of the issues that are raised by this resolution. In the first place let us consider if there is a general demand on the part of the people of the Eastern Bengal, who, I submit, constitute the majority of the population in this Presidency, for a request like that contained in my resolution. Secondly, my Lord, let us consider if there is any justification for this insistent demand on the part of the people. Thirdly, would it be so unprecedented a measure as to be avoided just as one avoids a leap in the dark. Fourthly, what are the possible objections to the location of some of the Government Departments at Dacca, and lastly, what are the possible departments which can be located in the Eastern capital of the province.

In answering the first question I will take leave of your Excellency to remind this Council of what happened when the annulment of the partition was decided upon and the solemn pledges that were given to us—the people of Eastern Bengal, the Muhammadan community in particular—by His Majesty the King-Emperor who was induced by his advisors to take so momentous a step. It is necessary that I should do so because in the words of the great Anglo-Indian poet 'lest we forget.' Besides, as I remarked on a previous occasion if human memory is short, official memories are very much shorter, and it is not a matter of surprise that within the last few years my official friends have managed to forget their special obligations to the people of Eastern Bengal. I am sorry that I have not got sufficient time at my disposal to take them through the history of events that followed the administrative measure known as the partition of Bengal. I cannot take up the time of this Council by reminding my official friends of the solemn pledges, no less than solemn promises, that were made to the people of this part of the country, nor can I take up your Excellency's time by taking them word by word through the memorable despatch which attempted to justify a measure which, on the face of it, appeared to the people of Eastern Bengal as nothing short of a breach of faith to the Muhammadan community in particular. My Lord, to begin with, this is what his Excellency the Viceroy in Council said in the despatch to the Secretary of State. I am reading one of the sentences of the despatch: 'The simple rescission of the partition and a reversion to the *status quo ante* are manifestly impossible, both on political and on administrative grounds. The old province of Bengal was unmanageable under any form of government, and we could not defraud the legitimate expectations of the Muhammadans of Eastern Bengal who form the bulk of the population of that province, and who have been loyal to the British Government throughout the troubles without exposing ourselves to the charge of bad faith.' Then, my Lord, the despatch goes on to say:—'Anxious as we are to take Bengali feeling into account, we cannot overrate the importance of consulting at the same time the interests and the sentiments of the Muhammadans of Eastern Bengal. It must be remembered that the Muhammadans

Resolution.

Maulvi A. K. Fazl-ul-Haq.

of Eastern Bengal have at the present an overwhelming majority in point of population, and that if the Bengali speaking divisions were amalgamated on the lines suggested in our scheme, the Muhammadans would still be in a position of approximate numerical equality with a possibility of a small superiority over the Hindus. The future province of Bengal, moreover, will be a compact territory of quite moderate extent. The Governor in Council will have ample time and opportunity to study the needs of the various communities committed to his charge. Unlike his predecessors he will have a great advantage in that he will find ready to hand at Dacca a second capital with all the conveniences of ordinary provincial headquarters. He will reside there from time to time just as the Lieutenant-Governor of the United Provinces frequently resides in Lucknow, and he will in this way be enabled to keep in close touch with Muhammadan sentiment and interests. It must also be borne in mind that the interests of Muhammadans will be safeguarded by the special representation which they enjoy in the Legislative Councils, while as regards representation on local bodies they will be in the same position as at present. We need not, therefore, trouble your Lordship with the reasons why we have discarded the suggestion that a Chief Commissionership or a semi-independent Commissionership within the new province might be created at Dacca. We regard the creation of a Governor in Council of Bengal as a very important feature of our scheme.' If we turn to the documents that passed between the Government of India and the Secretary of State on the question of the territorial redistributions, there can not be left any shadow of doubt that the maintenance of the importance of Dacca as the capital of Eastern Bengal was laid down as the *sine qua non* of the administrative rearrangements. 'It is certain' said the Secretary of State 'that the Provincial centre of gravity had been unduly diverted to the western portion of the area, and to Calcutta itself, with the result that the Muhammadan community of Eastern Bengal were unintentionally deprived of an adequate share of consideration and attention.' My Lord, it was this deplorable negligence of Eastern Bengal which necessitated the territorial changes brought about by Lord Curzon. In view of the unfortunate state of things which prevailed before the partition I would ask, my Lord, whether it is not time to consider whether the people of Eastern Bengal and the Muhammadans particularly are not justified in asking your Excellency's Council to act, not merely to the letter but to the spirit of the recommendations contained in that famous despatch."

We come back, my Lord, to the first question—is there any genuine demand on the part of the people for the location of some of the departments of Government at Dacca? Your Excellency will find that three years ago, on the occasion of the first sitting of the Legislative Council in this city, I moved an identical resolution. That resolution was, however, defeated, but the reply that was offered on behalf of Government was, if I may respectfully say so, so halting, at least in some particulars and the reasons adduced were so obviously untenable as regards some of the departments concerned, that I thought that better counsels would prevail and that in the course of time I would get what I wanted. I waited three years, my Lord, but I waited in vain. Only a month ago in the addresses of welcome that were presented to Your Excellency, an unmistakeable expression was given to the wishes of the people of Eastern Bengal that some of the departments of Government should be permanently located at Dacca. Added to this, your Excellency will find that the *Herald* of Dacca, the only organ of public opinion in Eastern Bengal, has repeatedly drawn the attention of your Excellency's Government to the desirability of having some of the departments located at Dacca. In the issues of the *Herald* of the 13th, 14th and 15th July there are series of articles on this subject, and I do not think I can do better than commend to the notice of this Council the arguments advanced

Resolution.

Maulvi A. K. Fazl-ul-Haq.

by that paper for the location of some departments at Dacca, and I do not think I can improve on the arguments that have been advanced by that paper. I think, therefore, my Lord, we may safely conclude that there has been a genuine demand on the part of the people for the request that I make in this resolution.

Then comes, my Lord, the second question—is there any justification for this demand? The answer is to be found, my Lord, in the words of the very despatch on which were based the recommendations for the annulment of the partition. I hope I may say this without offence that to ignore the promises that were then made in very clear and definite terms, would be very unworthy of the traditions of the British Government. The partition itself was an example of broken pledges and promises. Will it not be said that one broken pledge was followed by another and that on the basis of broken pledges the Government really wanted to raise its new structure of administrative efficiency. I submit, therefore, my Lord, that there is ample justification for your Excellency's Government to locate some of the Government departments at Dacca.

Then, my Lord, comes the third question which I propose to answer—would it be so unprecedented a measure as to be considered fit to be avoided? As to that the very words of the despatch refer to the cases of Lucknow and Poona, and I think we can do no better than refer to the state of things that prevail in the Lieutenant-Governorship of the United Provinces and Oudh and the Governorship of Bombay. Your Excellency will find that in Bombay, although the acknowledged headquarters are at Bombay, there are the following departments permanently located at the second capital, namely, Poona:—The Department of Agriculture, the Department of the Director of Land Records, the Registrar of Co-operative Societies, the Director-General of Archæological Survey, the Surgeon-General with the Government of Bombay, the Jail Department, the Inspector-General of Prisons, the Inspector-General of Police and the Inspector-General of Registration. I have taken these, my Lord, from the latest directory and I submit them subject of course to correction. We find that the following departments are located at Lucknow:—Director of Land Records, Director of Agriculture, Inspector-General of Civil Hospitals, Inspector-General of Prisons, Inspector-General of Registration and the Sanitary Commissioner. Conditions no doubt vary from province to province and we cannot argue that similar departments may be located at Dacca, but we find that there is a common note running through the distributions of departments both in the Presidency of Bombay and in the Lieutenant-Governorship of the United Provinces and Oudh, viz., that the Government has thought fit to locate departments at the alternative headquarters of Government so as to suit the conveniences of the people and to further the causes of administrative efficiency. I would certainly plead a very bad case if I were compelled to base my request on sentimental grounds only or on what people call, the feeling of local patriotism. I am prepared to put my case on a higher basis. I claim that the Government departments should be located at Dacca, not merely with a view to satisfy the insistent demands of the people of Eastern Bengal but because I honestly believe that by the location of some of the departments of Government at Dacca, your Excellency will certainly be promoting the cause of administrative efficiency. I submit therefore that the third question ought to be answered in the negative. That is to say that your Excellency should direct that some of the departments should be located at Dacca. In this connection I may respectfully add that the mention of secondary capitals of Poona and Lucknow was purposely made in order that your Excellency should approximate in your dealings towards Dacca to what His Excellency the Governor of Bombay does towards Poona or His Honour the Lieutenant-Governor does towards Lucknow. I do not believe that by only a couple of

months' stay of your Excellency in this city your Excellency's Government can satisfy the needs and requirements of this part of the Province which would be in accordance with the spirit of the famous despatch. I submit, my Lord, that something more is needed. Your Excellency would like to bring the administrative heads of departments into closer touch with the people. I will show how, by locating some of the departments at Dacca, your Excellency will really be promoting the cause of administrative efficiency. What are the possible departments which can be located at Dacca? I will say that the Registrar of Co-operative Societies should be located at Dacca. When I suggested this on the last occasion, this is what the Hon'ble Mr. Beatson Bell told me as a reply on behalf of Government :—

'We considered the question of locating him outside Calcutta, in some place where co-operative societies are most numerous. At present in Faridpur there are more co-operative societies than in any other part of the province, but this will not always be so. The Midnapore co-operative work is extending rapidly and it is likely that Western Bengal will soon take widespread advantage of the co-operative movement, just as Eastern Bengal has done.'

I submit, my Lord, that there are two grounds that are urged here—*first* there is no doubt that there is a preponderance of co-operative societies in Eastern Bengal, but in time the Western Bengal societies will also be as numerous as those in Eastern Bengal, I submit that such an argument is wanting in cogency. I submit that we should not base our actions on what is going to be in future but on what the present state of things happens to be. I may mention, for the information of this Council, that the increase of ratio in the number and progress of co-operative societies has been much greater in Eastern Bengal than in Western Bengal, and that within the last three years since these words were spoken by the Hon'ble Mr. Beatson Bell, the Eastern Bengal societies have made much greater strides than we had expected. As a matter of fact, more than 75 per cent. of the societies are situated in the Eastern Bengal Divisions, namely, Dacca, Chittagong and Rajshahi and a little over 25 per cent. in the Western Bengal Divisions. Of the non-agricultural societies 90 per cent. of them are situated in the Eastern Bengal districts. That alone, if nothing else, is a justification for the location of this department here. The reason that was urged about the creation of a provincial bank is also untenable. In the first place, I do not know when that bank is going to be started, and if the report of the committee on co-operation is acted upon, it will take some time before that bank is established; but taking it for granted that it will be established at an early date, I do not see the necessity for the Registrar being tied down to Calcutta in order to look after it. The bank will be under the control of non-officials, men like Sir R. N. Mukerjee, the authorities of the Bank of Bengal and some eminent economists and authorities in these matters will be amongst the directors. These men will be more experienced than the Registrar of Co-operative Societies can ordinarily be expected to be, and I do not think any of these men with such business experience will be in the slightest degree hampered without the daily attendance of the Registrar of Co-operative Credit Societies. I am sometimes told that when the Registrar is in Calcutta, money is forthcoming. I do not understand if it is one of the functions of the Registrar to perform the duties of a broker for procuring money for Co-operative Societies. If, my Lord, the Co-operative movement, after a full 10 years' experiment in this country and after all the fostering care that Government has bestowed upon it, is not now able to attract capital unless the Registrar can induce the people to lend, then it is not a movement which should be promoted. I think it is time that the movement should be declared a failure. I do not think it is part of the Registrar's functions to be going about from broker to

Resolution.

Maulvi A. K. Fazl-ul-Haq.

broker, from *mahajan* to *mahajan*, from capitalist to capitalist inducing them to lend money to the Co-operative Societies ;—rather than that, we should let societies grow spontaneously on their own merits, not on the recommendations of a Government official. For these reasons I think that the objections urged against the location of the Registrar of Co-operative Credit Societies at Dacca are untenable and I urge that for administrative efficiency it should be located at Dacca.

I may be told that a Joint-Registrar is going to be appointed, but that will not serve the purpose. I rather think that the Joint-Registrar, if necessary, might be located at Calcutta, but the Registrar and his office should be permanently located at Dacca just as he is in the other subsidiary capitals in India.

Then, my Lord, there is the Department of Education. I do not wish, living now in Calcutta, to suggest that the Director should come down here and make Dacca his headquarters. The Director of Public Instruction is a most obliging official and for personal reasons I should not like to part company with him : he had better be in Calcutta : but I think the Assistant Director of Muhammadan Education might come here and make Dacca his permanent headquarters.

Then, my Lord, we come to the Department of Agriculture. The Hon'ble Mr. Beatson Bell acknowledged that he was quite ready to listen to me sympathetically so far as this department was concerned. He said : 'We may at once say that if he were purely and simply a Director of Agriculture we would move him to-morrow to Dacca. It stands to reason that pure agricultural work can be much better done in the country than in the town, and Dacca is peculiarly suitable for such work. We have got there the chief experimental farm with a fine laboratory and fine buildings, and a large expert staff on the spot. So far as agricultural work is concerned, Dacca would be the most suitable place for the Director of Agriculture, but unfortunately the Director of Agriculture is overweighted with a mass of work which is only indirectly connected with agriculture. I refer to all his statistical work and to the jute and other forecasts, which he has to publish.' Now, with regard to this argument, I have made inquiries and I find that so far as the preparation of jute forecasts is concerned it is done twice in the year, that is to say, the preliminary jute forecast is made on the 12th July and the final on the 22nd September. I am told that a stay of about three weeks would be quite sufficient for the performance of the Director's duties. Apart from that, your Excellency will consider that during these six years that the Eastern Bengal Government was in existence the Director of Agriculture was permanently located at Dacca. How did business go on then? There is no denying the fact that the principal business of the Director of Agriculture is not the collection of statistics and I submit that it cannot be argued that the presence of the Director of Agriculture is required for jute forecasts. Such an argument is really not one which can stand for one moment. On the other hand, the exigencies of the administration require that he should be at Dacca, where he will have more work for his department than he can possibly have in Calcutta. Your Excellency will be pleased to order that the Department of Agriculture as it is now constituted should be located at Dacca. As regards sericultural and agricultural firms, they are very numerous in the Eastern Bengal districts and a few only in Birbhum and Murshidabad. Except one, all the experimental agricultural firms are in Eastern Bengal and the headquarters are in Manipur at Dacca.

Then comes the Department of Land Records. There can be no doubt that it is extremely unfair that while settlement operations were going on mainly in Eastern Bengal, the Director was making Calcutta his headquarters. Why should he be removed from the main seat of his operations? If there is any meaning in the phrase 'administrative efficiency' then it is very

desirable that the Director of Land Records should have been all the year round at Dacca.

Then there is the Sanitary Commissioner. It is said that the Eastern Bengal districts are most insanitary, but I do not know if the charge is true."

[At this stage the bell rang as the Hon'ble Member had reached the time-limit.]

The Hon'ble MAULVI A. K. FAZL-UL-HAQ said :—

"Will your Excellency kindly allow me a few minutes more to conclude my remarks."

The President said :—

"If the Hon'ble Member will conclude his remarks only on this head I have no objection."

The Hon'ble MAULVI A. K. FAZL-UL-HAQ continuing said :—

"The sanitary conditions of Dacca are none of the best and I submit that in order to look after the sanitary conditions of the eastern capital the Sanitary Commissioner ought to have his headquarters at Dacca."

The Hon'ble MAULVI ABUL KASEM said :—

"My Lord, I have great pleasure in supporting the resolution as it stands and which has been moved by my hon'ble friend Maulvi Fazl-ul-Haq. He said that he suspected that the members from Western Bengal would look with suspicion on his resolution for, if it is carried, the glory of Calcutta would be lost. If Calcutta has not lost its splendour by the removal of the capital, it is not likely that she would be deprived of her glory by the removal of some particular departments to Dacca, and I think I can say without fear of contradiction, that we people of Western Bengal—and I represent the westernmost part of the Province—do not at all object to some of the departments of Government going to Dacca. But I take exception to his proposal of removing the Assistant Director for Muhammadan Education to Dacca. I think that in the interests of the Eastern Bengal Muhammadans themselves, the Assistant Director should be in the same building and in the same place as the Director of Public Instruction, because he has his recommendations given effect to by the Director himself. And this would prove very difficult if the Assistant Director's office is located in Dacca. With this exception, I support everything that has fallen from the Hon'ble Maulvi Fazl-ul-Haq."

The Hon'ble Mr. AMINUR RAHMAN said :—

"My Lord, I have great aversion to the dislocation of a department from one central place as it often leads to unnecessary embarrassment and destroys the solidarity of a system. There are enormous advantages in keeping the machinery of government in a compact form as it generally exists everywhere. If the argument is once accepted that a department should be located at a place where it has been most useful or most active then we must look forward to the day when the various departments are scattered all over the Province and are made to work in isolation. We shall have to urge on that principle that the Police Department be transferred to the most criminal district, the Department of Public Health to the most unhealthy district and so on. That would obviously be a most impossible situation. I do not wish to suggest

that my hon'ble friend is prepared to go so far. He has confined his criticisms to two or three departments and he thinks that the Department of Co-operative Societies should be located in Dacca. I am as anxious as anybody to give this city that position of eminence and importance which it had once before. But my friend does not urge this change on sentimental grounds. He insists that this is the proper sphere of the activities of this department and what is more that it cannot work well where it is. I would be in full agreement with my hon'ble friend if he had said that about the Department of Fisheries. There is no earthly reason why that department of all departments should be located at Kurseong. The Government will be well advised to take immediate steps to bring it nearer home. But I confess I am not in a position to follow my hon'ble friend when he suggests that the Department of Co-operative Societies should be brought to Dacca. It may be that the bulk of the Societies are in Eastern Bengal. It is also true that in Eastern Bengal there are very important centres of home industries. But we also know that these Societies have multiplied and are daily growing more prosperous in spite of the fact that the department was located in Calcutta. This only proves that there is something more than the mere location of a department in a certain place that ensures the success of a scheme. There are two very important considerations why the Department of Co-operative Societies should be located at Calcutta. The enormous sum of money that the late Registrar of Co-operative Societies was able to raise could not, I believe, be raised in any other place except in Calcutta. Calcutta is pre-eminently the place where capital can be raised for such work. The second consideration is that Dacca is not easily accessible from all parts of Eastern Bengal. It is true, as I have already admitted, that there are important centres of home industries in Eastern Bengal. But a district like Rangpur, for instance, is more easily accessible from Calcutta than from Dacca. I would have no objection to support my hon'ble friend's resolution if he could show that the advantages accruing from such a change as he suggests far outweighed those that we derived from the present arrangement. I have a feeling that after all the declarations that have been made by my hon'ble friend—he has not made the most important declaration—that he suggests the change on sentimental grounds. I do not think the Government should undertake the change without serious consideration."

The Hon'ble RAI DEBENDER CHUNDER GHOSE BAHADUR said :—

"After the exhaustive statement made by the Hon'ble Maulvi Fazl-ul-Haq, I do not propose to occupy the time of the Council by any lengthy observations. I have much pleasure in supporting his proposal and I think that Maulvi Fazl-ul-Haq made out a strong case for the location of some of the minor departments of the Government at Dacca. Leaving aside the question of cost I think it stands to reason that the Inspector-General of Registration, the Registrar of Co-operative Credit Societies and the Director of Agriculture should have their offices at Dacca. As for the Sanitary Commissioner's Office, I am not in a position to say anything."

The Hon'ble Mr. BEATSON BELL said :—

"My Lord,—As the mover has pointed out we went over this very subject in this room three years ago.

Once more we have been lightly accused of breaking pledges. As the Hon'ble Member knows perfectly well, no pledge was ever given that any department would be located at Dacca. It was deliberately left to the discretion of the Governor in Council whether he should or should not locate some departments at Dacca. That was one of the first questions which was

Resolution.

Mr. Beatson Bell.

considered when Lord Carmichael came to this province. It was considered with a perfectly open mind. Lord Carmichael consulted every class of the community, officials and non-officials. It was not until the subject had been weighed in the most careful manner that it was decided that no Department should be transferred to Dacca. I freely confess that at one time my local patriotism got the better of my administrative commonsense. At one time I did support the proposal that certain departments should be located at Dacca. I have honestly changed my opinion and I am not ashamed to admit it. The more one sees of the inner working of Government the more difficult does it become to entertain any idea of separating the heads of the departments from the corresponding branch of the Secretariat, and from the Member who is in control of the work. It is not seriously contended that one of the Members should make Dacca his permanent headquarters. Apart from our tours we must stick together, for after all we are a Council Government and must hold our Council meetings. Obviously, then, all the Members must have their headquarters at Calcutta; and if the heads of the departments are to be in real touch with their Members their headquarters must also be at Calcutta. That is our case in a nutshell. If any one wants to separate the head of a department from his member the burden of proof is on him, not on us. Three years ago and again to-day, I have anxiously listened for any solid argument as to why the head of any department should be at some place other than the headquarters of Government. Certain phrases have, of course, been used but they get us no further forward. For example, the Hon'ble Maulvi Fazlul Huq has said that the separation would 'promote administrative efficiency.' In what way will the efficiency of the administration be improved? Is it seriously suggested that the change will bring the heads of departments into closer touch with the people? The Hon'ble Member has been a Government servant. He knows perfectly well how the heads of departments spend their time. He has constantly met me and other heads of departments doing our work in the villages. How would our work have been better, how would our intercourse with the people have been more cordial, if on leaving them we had gone back to one place rather than another for a spell of desk-work? We want facts, not phrases. And facts are exactly what the Hon'ble mover has not given us.

The Hon'ble Member, after shrouding the main question in a mist of generalities, proceeded to particular departments, very much as he did three years ago. Again, I am afraid, no new arguments have been adduced. On this occasion, however, he has practically given up his contention as regards most of the departments and has confined his proposal to the Registrar of Co-operative Societies, the Director of Land Records, the Director of Agriculture and the Sanitary Commissioner.

As regards the Registrar of Co-operative Societies, we remain practically where we were three years ago. It is true that the number of Co-operative Societies is greater in Eastern Bengal than in Western Bengal, but it is still equally true that the needs of Westen Bengal are greater and it is the bounden duty of the Registrar to do all he can for Western Bengal. It is a ludicrous travesty of facts to say that the Registrar is tied down to Calcutta. The Hon'ble mover was himself in that department for several years and he knows as well as I do that the Registrar is constantly on tour not only at district and subdivisional headquarters, but out in remote villages. As regards the suggestion that the Registrar should be removed from Calcutta to prevent him from setting up as a broker whose function is to entice capital from reluctant *mahajans*, the Hon'ble Member again knows as well as I do that the picture which he draws is not based on fact. Far from having to entice capital, capital comes flowing to the Registrar. When he returns to Calcutta from his tours in the villages one of his chief duties is to interview the capitalists who flock to his office and press money upon him. As yet we

Resolution.

Mr. Beatson Bell ; Rai Radha Charan Pal Bahadur.

have no Provincial Bank but these capitalists, who are mainly Calcutta men, practically take the place of the Provincial Bank. It is of very great importance that the Registrar should be in touch with them. I may mention that these capitalists have already deposited in Central Banks, through the medium of the Registrar, more than 22 lakhs of rupees. But after all the essential argument in this, as in all other departments, is that the Registrar should be in touch with the Member. I have now been in charge for several years and I look back with great satisfaction to the hours when Mr. Mitra and I had informal conferences in my Calcutta office. If Mr. Mitra's headquarters had been in Dacca our conferences would have been fewer and our work would have been worse.

As regards the Agricultural Department, here also the problem remains very much as we left it three years ago. It is a fact that the chief farm is at Dacca and that the expert staff is at Dacca, but it is also a fact that Western Bengal has been comparatively neglected and that we are trying to do something to forward its interests. It is still a fact that the Director of Agriculture has important duties in connection with statistics, not only in the case of jute but also in the case of rice, sugarcane and numerous other crops. The Director has to supply information to mercantile gentlemen, European and Indian, who come to his office and desire to have the latest reports about the crops. Calcutta is certainly the most convenient place for this work.

As regards the Director of Land Records, it is hardly necessary that I should say anything. The record-of-rights is practically complete in the Dacca Division and is approaching completion in the Chittagong Division. The district of Rajshahi is also far advanced, and the new districts on the tapis are Bankura, Jessore and Nadia. Surely it cannot be argued that the Director of Land Records should now be transplanted to Dacca.

As regards the Sanitary Commissioner, it is perfectly true that Dacca should be a very unhealthy place. As a matter of fact it is quite healthy. But even if it were as unhealthy as it should be, it is also a fact that the sanitary problems in and around Calcutta are just as difficult and just as heart-breaking as those of Dacca, while in the mufassal of Western Bengal the problems of drainage and the problems of malaria are infinitely more difficult and infinitely more heart-breaking than those in this happy and well-drained country of Eastern Bengal.

In fact, take any department you like and place the burden of proof where it should be placed—namely, on those who demand a change—and the result is always the same. The general arguments in favour of a coherent, instead of a ramshackle, Government remain absolutely intact, while not a single benefit is indicated which will flow to the people in the villages. In truth, what benefit can possibly come to any villager from the fact that the touring officer who talks to him will return to Ramna instead of to Writers' Buildings? The Hon'ble Member has himself admitted that the parallel from other Governments is really beyond our ken. They may have reasons unknown to us for locating particular officers in particular places. It may even be that they find their present arrangements highly inconvenient. Do let us mind our own business. Our departments are now beside our Government ; we find the arrangement quite convenient, and no valid reason has been adduced for a change. As practical men let us leave well alone."

The Hon'ble RAI RADHA CHARAN PAL BAHADUR said:—

"My Lord, it is a great advantage to listen to the official members of this Council when a motion has been moved and after the case has been presented from the point of view of the mover, the Government member should rise and present the views of Government on the subject. This is a procedure which was often followed, so far as I remember, in your predecessor's time. This enabled the non-official members of the Council to consider

Resolution.

Rai Radha Charan Pal Bahadur.

the question from both points of view. To your Excellency we are indebted for calling upon the Hon'ble Sir S. P. Sinha to state the views of Government with reference to the motion of my hon'ble friend Mr. Altaf Ali and the result was that much of the speaking which would have resulted was cut short and the hon'ble member withdrew his motion. This is a suggestion which I submit for your Excellency's consideration.

Now, my Lord, with reference to the motion of my hon'ble friend Maulvi Fazl-ul-Haq. I have listened with great interest to his eloquent speech. He never ceases to mourn over the reunion of Bengal. But, my Lord, although I have followed him with the greatest interest I must say that three-fourths of his speech was more sentimental than substantial. My hon'ble friend nominally belongs to Eastern Bengal, but practically he spends his whole life in Western Bengal. He apprehended that the representatives of Western Bengal would be chary in lending their support to his resolution in the same way as the officials. So far as attendance goes, not a few of the representatives of Eastern Bengal have not attended this meeting and if this motion is lost I do not think he can blame Western Bengal alone. Then, my Lord, with regard to the subject-matter of this motion although he has not made out a very good case for the permanent location of some of the heads of departments of your Excellency's Government at Dacca, I think, we can support the transfer of the office of the Registrar of Co-operative Societies. I was looking into the statistics this morning and I found that there are about 1,100 such societies in Eastern Bengal and 500 or so in Western Bengal. At the same time I must say that Western Bengal requires development and I am sure that your Excellency's Government would provide at a not very distant date a Joint-Registrar to serve the interests of either Western and Eastern Bengal. I do not know why my hon'ble friend is anxious that the Joint-Registrar should be located at Calcutta and that the Registrar should be permanently located at Dacca. I believe, my Lord, that both the Registrar and the Joint-Registrar will be officials occupying the same status and the same pay. For my part I do not care whether the Joint-Registrar is at Calcutta or Dacca so long as he exercises the same power and the same functions as the Registrar.

Then, my Lord, my Hon'ble friend has suggested that the departments of Land Records and Agriculture should be permanently located at Dacca. This proposal has been met by the Hon'ble Mr. Beatson Bell. He has shown quite conclusively that there is a greater necessity for retaining those offices in Calcutta than at Dacca, and as far as I follow my friend he has not been able to show by facts and figures what administrative efficiency would be attained by transferring those offices from Calcutta to Dacca.

Then my friend has not touched upon the Fisheries' Department which might be taken into consideration on grounds of efficiency, and, I believe, if this resolution is carried, it might be considered by Government whether that department can be transferred to Dacca.

As regards the Sanitary Department, I am afraid my Hon'ble friend has made out a very weak case in regard to the transfer of that office to Dacca. In Bengal, I mean Western Bengal, the problem of malaria has engaged the attention of Government and the people for nearly half a century and comparing Eastern Bengal with Western Bengal the latter is decidedly more malaria-striken than the former. I do not think that my Hon'ble friend has seriously urged that the Sanitary Commissioner of Bengal should be transferred to Dacca. I have nothing more to say, my Lord, but, I am sure, that as far as the administrative efficiency is concerned there is great force in the observations of the Hon'ble Mr. Beatson Bell that greater efficiency is obtained by touring amongst the people in the districts and villages than by sitting in official chairs either at Ramna or Writers' Buildings."

Resolution.

Hon'ble Maulvi A. K. Fazl-ul-Haq; Mr. Beatson Bell.

The Hon'ble Maulvi A. K. FAZL-UL-HAQ said :—

"My Lord, I am obliged to my friends from the western part of the Presidency for the very qualified support they have given to my resolution. I thank them for small mercies. In the opinion of the non-official members, I believe, the principle of removal of some of the departments from Calcutta to Dacca is accepted. My real difficulty therefore lies with the members on this side of the House, and that indeed is a real difficulty. I hope, my Lord, I will not cause any offence to anybody—I speak quite freely without meaning to give any offence—that the British people are amongst the most obstinate on the face of the earth. This element of obstinacy is both a source of strength and weakness—I believe, my Lord, that it is owing to this element of obstinacy the British soldier is a terror to his foes ; and it is against this British obstinacy, that the enemies of the Empire are at the present moment hurling themselves in vain. But what is virtue under certain circumstances, becomes somewhat objectionable under other circumstances. What is admirable on the battle-field is open to serious objection in the humdrum duty of civic life. In the battlefield you need not yield, and you may be as obstinate as when Napoleon was forced to remark that these English never know when they are beaten. But the administrator, my Lord, should always be open to conviction and he should from time to time try and adapt himself to the point of view of the non-officials and yield us a point or two, to true reason and justice, if not to the clamour of agitation. It has been said that on the present occasion I have not been able to make out a very strong case, I have only attempted to serve up cold broth warmed again. My friend Mr. Aminur Rahman has also said that he has not been convinced by my arguments and both he and the Hon'ble Rai Radha Charan Pal Bahadur have remarked that I have not mentioned some of the departments that I could have mentioned as likely to be considered favourable from the point of view of the location of some departments at Dacca. The only reply that I can give, my Lord, is that the time at my disposal was not enough. I had not even finished half of my speech when the bell rang as a signal for me to sit down. So far as the objections of the Hon'ble Members go, I would only ask them to consider that there is time-limit. I can assure them that if I had more time at my disposal I would have taken each department one by one and I may be able to convince your Excellency, at least so far as some of the departments are concerned, that the time is come when there ought to be a long deferred compliance with the wishes of the people of Eastern Bengal for the location of some of the departments at Dacca. At present, my Lord, after all these departments are gone we are left only with the lunatic asylum at Dacca. I would crave, my Lord, if these departments cannot be located at Dacca there is no particular reason why the lunatic asylum should be in the headquarters of Eastern Bengal. My Lord, to come to some of these departments, I really wanted to say something about the Department of Fisheries—your Excellency knows very well by this time that Eastern Bengal is intersected by these magnificent rivers and is certainly the best and most suitable place for carrying on the experiments such as can be done by the officer in charge of the Department of Fisheries. Added to this, your Lordship will consider that the total coast line of Bengal stretches somewhere from Saugor point down to Hatiya fully eighty per cent. of the length would be assigned to Eastern Bengal. So far as the Western Bengal is concerned, beyond some rock strewn and barren lands covered with date trees there is hardly any place which can be suitable for the study of the problems with which the head of the Department of Fisheries is concerned."

The Hon'ble Mr. BEATSON BELL said :—

"The Department of Fisheries is not entirely a Bengal department but is also concerned with the Government of Bihar and Orissa."

Resolution.

Maulvi A. K. Fazl-ul-Huq.

The Hon'ble Maulvi A. K. FAZL-UL-HAQ said:—

"That I hope will not create any difficulty. The officer in charge of Fisheries has really so much work to do if he is made a whole-time officer and located in Eastern Bengal I think we could conveniently put him in Dacca to carry on all the experiments that are necessary. That is matter entirely for your Excellency's Government to consider. We the non-official members would only suggest that is one of the departments which might be located at Dacca and your Excellency would consider also whether under the present circumstances if the fishery officer is removed to Dacca he could be entrusted with other duties without any interference with the efficiency of the work with which he is entrusted.

Then, my Lord, it has been said that in Bengal we have a compact government and that we ought to maintain the compactness intact. I think, my Lord, that Bombay and United Provinces are also compact governments and I fail to see why the forces of cohesion between the several heads of departments of Bengal should be so much stronger than those in the other provinces. I submit that argument does not commend itself very much to reason. Unless it be that the removal of some of the departments really interferes with the administrative efficiency, I submit that the experiment can be tried and without any detriment to the interest of administrative efficiency.

Considering once again that the Department of the Registrar of Co-operative Societies it has been said and remarked by my Hon'ble friend Mr. Aminur Rahman that the societies in Eastern Bengal have flourished in spite of the fact that the Registrar has been away from Dacca. I myself remember, my Lord, when I was Assistant Registrar of the Co-operative Societies in Eastern Bengal that there were tremendous difficulties in the way of giving the movement a good start. It was only because the Registrar happened to be at Dacca in touch with the great centres of activities so far as the movements are concerned, that he could rush about from place to place and take the necessary steps. In spite of our numerous drawbacks we could make a headway in the Eastern Bengal with the working of co-operative societies. I did not mean to say that the Western Bengal Divisions should be neglected, but my suggestion is that with the appointment of a Joint Registrar the Registrar should be at Dacca with his department. So far as the Western Bengal Divisions are concerned, they will be as much under the supervision of the Registrar even if he were located at Dacca. The Joint Registrar might live in Calcutta and come to Eastern Bengal and make tours of inspection and between the tours, the work could be conveniently divided so that it might not suffer. I submit, my Lord, that the solution of the difficulty will be found if the Joint Registrar be located at Calcutta and the Registrar at Dacca. I cannot go into the details because I have not the time to do so.

Then as regards the Director of Agriculture. I hope my argument will be met with the objections that have been urged on behalf of Government. I submit that the burden of proof ought not to be on me. And I submit that as the Hon'ble Member in charge has failed to discharge the onus, the verdict ought to be in my favour. So far as this department is concerned I submit that I have made out a case for the transfer of that officer.

Then, my Lord, there remains the Department of Land Records. I can quite see that the work in Eastern Bengal is going to be finished and it is doubtful whether much good will result if that officer is located at Dacca. But at the same time I would ask your Excellency to consider that department also.

Before I sit down I find that we the non-official members are practically unanimous so far as the Registrar of Co-operative Societies and the head of the department of Agriculture are concerned. I would like not to press my case as far as my resolution goes if your Excellency, to begin with, be pleased to direct that the Registrar of Co-operative Societies and the Fisheries Officer

might be located at Dacca. I think that will meet with the wishes of the non-official members of both Western and Eastern Bengal, and although I find the official opinion is against it the non-official opinion is practically unanimous. With these words I beg to commend this resolution to the acceptance of our Excellency's Council."

The PRESIDENT then put the resolution to the vote. The Hon'ble Maulvi A. K. FAZL-UL-HAQ said :—

In asking for a division I would suggest that the votes of the non-official members of the Council only should be taken. That is what, I believe, the Hon'ble Mr. Beatson Bell suggested on the last occasion. I do not think I will have any chance if the official members are allowed to vote on this occasion.

The PRESIDENT said :—

The Hon'ble Member is not entitled to have what he desires. In the opinion of the Chair there are more noes than ayes, and if the Hon'ble Member differs from that opinion he is entitled to have a division.

A division was then taken with the following result :—

LIST OF BUSINESS—ITEMS Nos. 5 & 6.

The HON'BLE MAULVI A K. FAZL-UL-HAQ moved the following resolution :—

This Council recommends to the Governor in Council that Madrassahs, of the type of those at Dacca and Chittagong, be established at all district head-quarters in districts where the Muhammadan population exceeds thirty per cent.

He said :—

"In moving this resolution I do not think I need say very many words. As your Excellency's Government is well aware there are now two classes of

Resolution.

Maulvi A. K. Fazl-ul-Haq; Maulvi Abul Kasem.

madrassahs known as the old type and new type. The old type madrassahs are those of which the Calcutta madrassah is a specimen and the new type madrassahs are those that are now at Chittagong and Dacca. It is, so far as I am aware, the opinion of the Muhammadan leaders that the old type madrassahs are entirely out of date and that it would be a waste of public money to perpetuate them. There are certain obvious advantages in the madrassahs of the new type and it is on account of these obvious advantages that I respectfully submit to your Excellency's Government that some more of these madrassahs should be established in Bengal. As your Excellency is well aware, the Muhammadan community is doing very well in so far as the elementary stages of education are concerned and that it is not in these stages that, as it is often said, the percentage of Muhammadan students is falling off. The reason is that the difficulty in the way of Mussalman students begins after he has gone through the elementary course of education : as he goes higher up he meets with obstacles in his way and the reason for that is that he is generally poorer than brother students of other communities and, secondly, there are certain other obstacles which stand in his way more than in the way of those of other communities. One way in which we can effectively further the cause of Muhammadan education is by an increase, to begin with, in the number of institutions approximating to the type of secondary schools. The madrassahs that I recommend will have the double advantage of leading up these boys to Colleges, as also of imparting to them a thorough grounding in their own classics so as to lay the basis for a type of education in which the best that is in the East and the West will be intermingled and happily blended.

The madrassahs of the present type do not merely give the students education according to the requirements of the University, but they also give them a thorough grounding in most of the classics. It is therefore desirable to have this type of institutions in every part of the Province and I urge strongly that where Government is able to provide funds efforts will be made to organise the institutions of this kind. So far as the Muhammadan community is concerned, poverty stands in their way, and it will be a real boon to the community if some of these madrassahs were established in this Presidency. I myself feel that I have asked a little too much in suggesting that such madrassahs should be established at all district headquarters where the population exceeds 30 per cent. That would include the vast majority of districts. So far as this resolution is concerned, there is an amendment suggested by the Hon'ble Maulvi Abul Kasem and if I am permitted, I would endorse the amendment so that the resolution which I have suggested may be read along with the amendment. I do not wish to take up the time of this Council, but so far as this resolution is concerned it is a matter which concerns my own community and is not likely to interest others, although I know they are in entire sympathy with any movement which deals with the cause of Muhammadan education. With these few words I would commend this resolution to the acceptance of this Council."

The Hon'ble MAULVI ABUL KASEM moved by way of amendment that, in the Resolution (Item No. 5) moved by the Hon'ble Maulvi A. K. Fazl-ul-Haq, for the words "where the Muhammadan population exceeds thirty per cent.", the following be substituted, namely :—

"where the Muhammadan Community think it necessary and where an adequate number of Muhammadan students would be available."

He said :—

"My Lord, as has just been remarked by my Hon'ble friend Maulvi Faz-ul-Haq I have been prompted to give notice of this amendment because I thought that the resolution asks for too much. Senior madrassahs like the

Resolution.

Maulvi Abul Kasem; Sir S. P. Sinha.

ones at Dacca and Chittagong require an adequate number of students and I do not know whether they will be available at all centres or not. I admit that there is a great want of these institutions in certain parts of the Province and it is certainly necessary that there ought to be more than two or three as at present exist. But at the same time, although personally speaking, I agree with him that the old madrassahs such as the Calcutta Madrassah are not very useful institutions for Mussalman education suited to the present time, but there is a large body of opinion and a large number of sensible Muhammadans who think that institutions like the Calcutta Madrassah should also exist for the education of those Muhammadans who want a purely religious instruction and their numbers would not be diminished and that there ought to be an increase, as there are classes of people who would not like the idea of these new institutions rising up in their neighbourhood because that would interfere with some of the old type of madrassahs. In the second place my friend's resolution is limited in one sense because it practically excludes the whole of the Burdwan Division and includes the rest of the Province. I think that wherever the Muhammadans think it necessary, by which I mean where there is a demand on the part of Muhammadans to have their education in madrassahs of this type and a sufficient number of students would be available, an attempt should be made to establish these madrassahs in larger numbers to impart this sort of education.

"I might say that we have in conferences and other public organizations suggested these very reforms to the Director of Public Instruction and we think that they will to a very great extent satisfy the needs of Mussalman education according to modern times. With these few words I do hope and trust that the resolution as amended will be acceptable to this Council."

The Hon'ble SIR S. P. SINHA said :—

"My Lord, I wish it were possible for me to accept this resolution on behalf of Government. I need hardly assure my friends that with their desire for the promotion and advancement of education amongst my Muhammadan countrymen I have the most cordial sympathy and if I am unable to pledge Government, of which I am a member, to this resolution it is principally because of the lack of funds available. But I cannot let this opportunity pass without reminding my Hon'ble friends of what Government has already done and is going to do with regard to the improvement of *madrassahs*. I do not know if all the Hon'ble Members are familiar with the history of what has been called the old type of *madrassahs* and reformed *madrassahs*. I did not know this myself until I saw this particular resolution, and therefore perhaps it would be just as well if in a few words I tell the Hon'ble Members what that is. This reformed scheme came into existence only a very few years ago and the main features of the reformed scheme are the omission of Persian as one of the languages which was compulsory and the inclusion of English as a compulsory subject. These are the outstanding features. It was considered that if the Muhammadan boys had to learn all five languages which it was desirable in many senses that they should, namely, Bengali, Urdu, Arabic, Persian and English—the latter being indispensable for the every day work of life— it would be too much of a strain on boys and the choice was between omitting Urdu or Persian ; and the Government of Bengal, somewhat regretfully, agreed to omit Persian and to make English absolutely compulsory. That is the reformed scheme, and the object of it was that the reformed course—I am reading from the resolution of the 31st July, 1914—should be regarded as preparatory to the Islamic studies of the Dacca University. It is, however, complete in itself and students from *madrassahs*, who wish to take up the University course, will not find themselves hopelessly handicapped by reason of their being taught in the *madrassahs* as was previously the case. When the

Resolution.

Sir S. P. Sinha.

two *madrassahs* in Dacca and Chittagong were started many years ago—I will go so far back as April, 1873—they were established, and the expenditure with regard to them was met from the annual income of the Mohsin Fund. But in 1914 the Government decided and published a resolution accordingly that the Mohsin Fund should be set free so far as the maintenance of these *madrassahs* was concerned and that the provincial revenues should be debited with the cost of maintenance of these *madrassahs*. This is not an inconsiderable sum, because the reformed *madrassahs* cost Rs. 1,720 a month or Rs. 20,640 per annum. The whole of that instead of being debited to the Mohsin Fund, as before, is paid out of provincial revenues. It is somewhat of a relaxation of the principle that was laid down in 1873 that provincial revenues ought not to be debited with the cost of schools, *madrassahs* or *maktabs* or *pathsalas* attended by particular sects. That is the policy which was laid down as early as 1873. But having regard to the state of education amongst the Muhammadans, it was decided by Government that they should spend this additional sum of Rs. 20,640 on these two *madrassahs*. That is not all the help that the Government has given for the purpose of furthering Muhammadan schools. There are, I think, altogether six senior *madrassahs* which receive aid from Government and there are 87 junior *madrassahs* which are also in receipt of it from Government and 18 model *madrassahs* also, and for this purpose there is set apart annually a sum of Rs. 25,000; at any rate, that was the sum set apart last year, so that over and above the amount spent on the maintenance of the two *madrassahs* there is besides the sum of Rs. 25,000 another sum of Rs. 62,000 which is spent on Muhammadan education exclusively under the resolution of the 31st July, 1914, so that we have a sum of about Rs. 1,09,000 which is annually spent for the special and exclusive purpose of aiding Muhammadan schools. I hope the House will realise that that is not an inconsiderable amount to pay for the special purpose, having regard to the policy that was laid down in 1873.

I would also point out to Hon'ble Members that under the resolution of July, 1914, there is a much larger sum which is intended to be worked up to in addition to the sums already spent, and having regard to the present financial stringency, apart from any further relaxation of the principle laid down in 1873, it will be impossible to accept my friend's resolution. But the resolution, he admits himself, is somewhat too extravagant. There are already two senior *madrassahs* of the reformed type at Dacca and Chittagong. If the original resolution of my friend Mr. Fazl-ul-Haq was to be given effect to—there are 15 more districts where the population of Muhammadans is 30 per cent. or more, and, therefore, there would have to be 15 more *madrassahs* of that type which would mean considerable expenditure. Apart from the capital grant necessary for building of schools which would be very considerable—there would be a recurring expenditure of over three lakhs of rupees necessary for the maintenance of these schools, I think myself my friend Hon'ble Mr. Kasem's amendment is really wider than the Hon'ble Mr. Fazl-ul-Haq's, because it says where the Muhammadans of any particular place like they can ask for senior and reformed *madrassahs* of this type which might of course mean that we will have to do it in every possible district, in which case the cost will be very much larger. I think that is absolutely impossible for us to undertake. May I remind my friend of the committee which sat in 1914 and of which he was himself a member and which made 197 recommendations, but this was not one of them, and the only recommendation of this character that was made by that committee was that there should be one *madrassah* of this type in every division, and the Rajshahi junior *madrassah* should be made a senior one. My friend was one of the member of that committee and he subscribed himself to that report. The recommendation was not made because it was impossible to concede to the demand, for the reasons I have stated above. It is for my Hon'ble friends to say whether they will press this motion."

Resolution.

Maulvi A. K. Fazl-ul-Haq.

The Hon'ble MAULVI A. K. FAZL-UL-HAQ said :—

"My Lord, I freely admit that there is much force in the arguments that have been put forward by the Mon'ble Member on behalf of Government in replying to my resolution. I also freely admit that the cause of Muhammadan education will not suffer for want of sympathy, judging at any rate from past results. But if the Hon'ble Member on behalf of Government reads out the list of what has been done, I will join issue with him and I would ask your Excellency's leave to point out what could have been done and has not been done. But I do not propose to do so because there will be time enough to do that when this particular question comes up for discussion. I do not also, as at present advised, wish to enter into unnecessary controversy because I have found out what all controversies lead to. It is much better to be thankful for small mercies and go on asking for more, not in a spirit of hostile criticism, but in a spirit of perfect friendliness. So far as the diversion of the funds for Muhammadan education and the sum of money for the maintenance of madrassahs are concerned, I am indeed deeply thankful to Government. It has been said that a large amount of money is being spent for the award of scholarships and for other purposes. But it is not a very big amount and I always thought, in considering the budget allotment every year, that a much larger amount might be devoted for the purpose of Muhammadan education than is being done at the present moment. There are administrative problems about which there is some time a difference of opinion between member and member, but so far as the subject of Muhammadan education is concerned, members of all communities and classes are unanimous in thinking that special facilities should be given to Muhammadans in order to foster the cause of Muhammadan education. On a matter like this, where there is such an unanimity of opinion, I think Government may very well spend a little more than is being done at the present moment in order to satisfy the insistent demands of my community. It is true that I was one of the members of the committee which was appointed to consider some of the problems of Muhammadan education and that the present recommendation was not a part of my recommendation in that committee. I had to yield in that committee to the opinion of the majority and although I was even at that time of opinion that more madrassahs than there are in each headquarters should be established in this Presidency, my views at that moment were not strong enough to induce me to differ from my colleagues of the committee. I did not like to raise a discordant note at that moment on a matter on which my views were not sufficiently strong, but since the publication of their report I have considered the question and I feel that there is a growing demand on the part of my community that there should be more madrassahs than one and one each at the headquarters of each Division. I myself admit that it will be a costly affair to locate 15 such madrassahs at once and it would land Government in a most ambitious undertaking and it will not be advisable to do so during the present financial stringency. I therefore, before sitting down, beg to say that I am prepared to withdraw my resolution because I know that this particular matter is safe, so long as it is in the hands of the Hon'ble Member who has replied on behalf of the Government, and it cannot be in worthier hands both from the point of view of my own community and the community at large; but at the same time I would respectfully ask him to consider if, while it is not possible to give us all the 15 madrassahs at once, a beginning could not be made with one or two in selected headquarters so that the growing needs of the community may be alleviated to a certain extent. I only press this point because when this matter comes up for consideration before the Hon'ble Member he might think that the time has come when, without detriment to the requirements of other interests, it may be urged upon the attention of Government, so that a beginning might be made by the establishment of some more madrassahs of the type we have got at Dacca. With these few words, my Lord, I wish to withdraw my resolution."

Resolution.

Maulvi A. K. Fazl-ul-Haq; the President.

The resolution, with its amendment, were then, by leave of the President, withdrawn.

LIST OF BUSINESS—ITEMS Nos. 7 & 8.

The following resolution stood in the name of the Hon'ble MAULVI A. K. FAZL-UL-HAQ :—

This Council recommends to the Governor in Council that early steps be taken for the establishment of an Agricultural College for Bengal, and that the said College be located at Dacca.

He said :—

"My Lord, it is desirable that this question should be further considered by us and if your Excellency permits, the consideration of this question may stand over for the sitting of this Council at Calcutta. I make this request and it also meets with the wishes of the other non-official members of this Council and I would pray for leave that the consideration of this resolution be postponed"

The PRESIDENT said :—

"I am not convinced that the grounds on which a postponement is asked are sufficient."

The Hon'ble MAULVI A. K. FAZL-UL-HAQ said :—

"My Lord, the question raises a very important issue so far as the Eastern Bengal districts are concerned and we wish to have more time to consider it. I and my other non-official friends wish to be more fully prepared for a fuller discussion of the question in a much larger house than we have at the present moment. So I have been asked by my friends to ask your Excellency to have the discussion of this resolution postponed."

The PRESIDENT said :—

"The Hon'ble Member has raised a point of some importance. I think it desirable that I should say that I should not consider the mere fact of non-attendance of members at a Council meeting an adequate reason for consenting to postpone a motion which had been admitted for discussion. Hon'ble Members will see for themselves that if I was to allow that as a precedent our discussions would become a farce because all that an Hon'ble Member would have to do would be to put down a motion; he would then wait and when he had a majority on the Council he would bring it up for discussion, but when he saw that he had not a majority he would ask for a postponement and that process might go on from Council to Council interminably. So that I am not prepared to accept the mere fact of Hon'ble Members not attending the Council in large numbers as adequate ground for consenting to postpone a motion. But the Hon'ble Member has given me a loophole in this case by suggesting another ground on which he desires to ask me to have this motion postponed. He says that he has not had an opportunity—or at any rate if the motion is postponed he will have a better opportunity—of obtaining important materials on which to base his discussion. On this occasion I am prepared to accept his reason for assenting to his request that this motion should be postponed as adequate. But I think at the same time I should make it clear that I am stretching the rules to their limit in allowing a postponement. I hope that Hon'ble Members will understand that this should not be regarded as a precedent to be followed in future."

The discussion of the resolution was accordingly postponed to the next meeting of the Council.

Resolution.

Maulvi A. K. Fazl-ul-Haq.

The following item of business was similarly postponed :—

The Hon'ble BABU SURENDRA NATH RAY to move by way of amendment that, in the resolution (Item No. 7) to be moved by the Hon'ble Maulvi A. K. Fazl-ul-Haq, for the words "and that the said College be located at Dacca", the following be substituted, namely :—

"and that a Committee be formed of official and non-official members, principally of experts, to select a suitable site for the location of the College".

LIST OF BUSINESS—ITEM No. 9.

The Hon'ble MAULVI A. K. FAZL-UL-HAQ moved the following resolution :—

This Council recommends to the Governor in Council that Government do undertake the duty of defending all undefended accused persons in cases under section 302 of the Indian Penal Code by retaining the services of a lawyer not less in eminence to the Crown Prosecutor.

He said :—

"My Lord, in moving this resolution I am sure I am not suggesting anything that is either unfamiliar or unprecedented. I believe so far as this practice is concerned, whenever there are accused persons charged under section 302, Indian Penal Code, the Judges do ask the members of the legal profession to undertake the defence of such undefended persons. Sometimes it happens however that when a request is made somebody for some reason or other may not like to accept the task of defending an accused. I have known instances in which prisoners have gone absolutely undefended with the result that the trial ended in conviction, and the extreme penalty under the law was imposed on the accused. When the case came up before the Judges of the High Court, the Judges after scanning the materials would not come to a different conclusion from that arrived at in the Court below. There is one case which happened recently. I would not mention the names of the accused or the pleader, as I believe the matter is still under consideration for mercy, in which the prisoner went absolutely undefended and the capital sentence was passed. I happened to be present in the Court of the District Judge at the time, and after sentence was passed, the accused appealed to me to take up his case in the High Court. I did not know what his case was, but I accepted the *vakalatnama* which I filed in the High Court. When I read the paper-book, I found that it was a case in which there were ample materials for cross-examination of the prosecution witnesses. The accused was undefended till the last moment when the Sessions Judge asked one of the pleaders to take up the case, but it was too late for him to deal properly with the case. In consequence of the scanty materials at my disposal, I could not, however, induce their lordships of the High Court to allow the appeal; but I made an earnest appeal to their lordships for mercy. Even that has been rejected; but so far as the materials before the Judges were concerned, they could not see their way to accept the appeal. In some cases the services of lawyers are secured for the defence of accused persons, but in others although an attempt is made to do so, the attempt does not succeed by reason of the fact that no lawyer is forthcoming. One of the reasons is that the members of the legal profession, like members of other professions, always like to have their pockets filled before they take up any work. It is for this reason, I respectfully submit that in all cases in which the accused either from poverty or other causes is unable to provide for a lawyer to defend him, Government should set apart some money for the purpose. I think that at the most there are about 30 cases on an average, and it would not cost more than Rs. 2,000

Resolution.

Babu Surendra Nath Ray.

or Rs. 3,000 annually. There is no difficulty from the financial point of view to provide this money, and I believe that I have made out a very strong case. With these few words, I would commend this resolution for the acceptance of the Council."

The Hon'ble BABU SURENDRA NATH RAY moved the following amendment, namely :—

That for the words "a lawyer not less in eminence to the Crown Prosecutor" the following be substituted :—

"a competent lawyer or a lawyer to be nominated by the Court."

He said :—

"My Lord, the principal portion of the resolution has my hearty support, but I cannot give my support to the Resolution as it stands. That the much-maligned class of people—the lawyers—are useful in the administration of justice admits of no doubt. I would like to cite only one instance which happened in the High Court about 5 or 6 years ago. A petition of appeal had been sent by a prisoner from jail. There was at first no one to represent his case in the High Court. The learned Judge of the High Court, Mr. Justice Pratt was one of the Judges, went through the records of the case in his Chambers and was about to deliver judgment in the case dismissing the appeal when my friend Babu Atulya Charan Bose asked the permission of the Judge to argue the appeal on behalf of the prisoner as he had just been instructed to appear for them. The result was that the conviction was set aside and the prisoner was discharged. The prisoner, I think, was sentenced to 5 or 6 years' rigorous imprisonment. The unfortunate man would have been obliged to serve out an imprisonment for 5 or 6 years if no lawyer had argued his case. My Hon'ble friend has said to-day in this Council that the British people are very obstinate. But the instance which I have cited clearly shows that the British people are open to conviction and will change their opinion if a proper case is made out. Only you have to make out a proper case. The judicial mind of Mr. Justice Pratt was convinced by the case made out by the learned vakil for the appellant and he set aside the conviction immediately and did not stick to his former judgment upholding the conviction. There is another important reason why the prisoner should not go undefended. Formerly, I mean about 10 or 12 years ago, pleaders used to be appointed as jurors. A trained lawyer can always sift the evidence. From my own personal experience I can state that in a number of cases these lawyer-jurors served the part of defence Counsel. They sifted the evidence in several instances and brought out the real facts of the case. Now under a Government circular the pleaders are no longer appointed as jurors. The accused in Sessions Courts do not get that help which they used to get before in many instances. The man charged with murder, whose life is trembling in the balance, ought not to be undefended. In the High Court Sessions the presiding Judge appoints a Counsel to defend the accused and the Counsel is paid by the Crown. Why should not the same privilege be extended to those who are tried in the mofussil Sessions Courts? I am told that in the United Provinces the accused gets that benefit. As, however, I have already said I cannot support my friend's resolution of the accused being defended by a Counsel of equal eminence to that of the Crown Prosecutor. This will be asking too much of the Government. It is an impracticable suggestion. I shall cite one instance to show how very impracticable the suggestion is. In the case of Charu Chunder Bose who was prosecuted for the murder of the Government Prosecutor, the late Babu Ashutosh Biswas, my esteemed friend Sir S. P. Sinha, who was then Advocate-General, prosecuted. The

accused, I think, was undefended. According to my friend's resolution a man of equal eminence to that of the Advocate-General in criminal cases would probably have been Mr. Jackson. Would the Government have been prepared to spend 100 gold mohurs per diem to defend the accused, and bring down Counsel from the High Court? Why, if the resolution of my friend be carried, all persons accused of murder, whatever his means may be, would never think of engaging a lawyer to defend him because he knew that he would be defended by a lawyer of equal eminence to that of the Government Prosecutor. Would it be reasonable to ask Government to incur that expense? We can always depend upon the Sessions Judge to appoint a competent lawyer to defend the accused if the appointment is left to him."

The Hon'ble SIR S. P. SINHA said :—

"My Lord, I am rather surprised that both my learned friends seem to be labouring under a misapprehension as regards the existing practice. Listening to them one would think that at present it is not the practice for Government to make any provision in its budget for the purpose of providing counsel for undefended accused in murder cases. The contrary is the fact and has been so from at least May 1910, that is to say, for the last 7 years. Under a circular letter of the Government of Bengal, in its Judicial Department, provision is made for the defence of accused in cases under section 302, I. P. C., where the accused are unable to engage counsel for the purpose of defending them at the sessions. Last year's budget, I think, will show that there was a provision of Rs. 5,000 made for the purpose and I believe it is made every year. I think my Hon'ble friends have forgotten the rule which is laid down in this circular and I will trace the history of the matter in a few words.

This circular letter was issued on the 21st May, 1910, from the Government of Bengal to all Commissioners of Divisions, District and Sessions Judges, the Judicial Commissioner of Chota Nagpur and the Chief Presidency Magistrate, Calcutta. It runs thus :—

'I am directed to inform you that His Honour the Lieutenant-Governor has, after consultation with the Hon'ble Judges of the High Court, decided that the defence of persons without pecuniary means who are charged with murder should, in certain cases, be undertaken at the expense of Government.'

I do not suppose that my learned friends desire that people who are able to defend themselves or to pay for their defence, should be compelled to take Government aid for the purpose. The circular also says :—

'The concession should be applied only to cases in which (*i*) the nature of the defence, as disclosed, is such that in the interests of justice the prisoner should have legal aid to make his defence to the charge of murder clear; and (*ii*) the prisoner's means are not sufficient to enable him to obtain sufficient legal aid. If the Committing Magistrate considers a case to be of this character, he should without delay report it to the District Magistrate, with a recommendation that assistance should be rendered to the accused. The District Magistrate may thereupon, if he agrees with the Committing Magistrate, engage a counsel or a pleader to conduct the defence at the Sessions trial, and arrange for such facilities as will enable the accused to instruct the counsel or pleader engaged. The pleader selected should be of sufficient standing and ability to render substantial legal assistance.'

There is no practical test for weighing the abilities of pleaders, and I think that the comparison which was drawn by my Hon'ble friend would probably be resented by Mr. Jackson. It would also be placing on the

Resolution.

Sir S. P. Sinha ; Maulvi A. K. Fazl-ul-Haq.

District Judge a most invidious task to decide as to who is as efficient as the Government pleader. Government has, I submit, followed a course that is practical and treasonable, namely, that the pleader or counsel selected should be of sufficient standing and ability to render substantial assistance. 'The fee allowed should ordinarily be a fee for the whole case and not a daily fee. The arrangement made will in each case require the sanction of the Superintendent and Remembrancer of Legal Affairs.'

Now, there are two conditions which are laid down—first, that the person must be so situated that he is unable to defend himself or to engage a counsel for his own defence; and secondly, that the nature of the defence as disclosed should be such that in the interests of justice the prisoner should have legal aid to make his defence to the charge of murder clear. It might be said that the latter condition about the nature of the defence makes it difficult for prisoners, but as a matter of fact it is taken bodily and in so many words from the Poor Prisoners' Defence Act of England of the year 1903, and as explained by the Lord Chief Justice (Lord Alverston) there need be only an indication of what the defence is. In the language of the Chief Justice which is adopted here it must either be disclosed in cross-examination or by the nature of the statements made by the accused or anything he said in the course of investigation, and it is the duty of the Magistrate to go into these for the purpose of finding out whether there is a plausible defence in the case, and if he finds that out, it is his duty to report that at once to the District Magistrate who in communication with the Legal Remembrancer will get the funds for the purpose. The resolution says that the pleader or counsel must be of sufficient standing to render substantial assistance. My friends know that sometimes lawyers by their cross-examination get a man hanged who might otherwise go off. The matter has been amply provided for during the last seven years. The system has been universally in operation in all the districts. The conditions as to the nature of the defence disclosed before the Committing Magistrate, and as regards the fee to be paid which is not to be a daily fee were laid down on the recommendation of the High Court. They were not laid down at the instance of the local Government. I think, as a matter of fact, the practice that is followed is exactly what my learned friend wants it to be, with the exception of weighing the relative merits of the pleader for the accused and the public prosecutor.

My Hon'ble friend, Maulvi Fazl-ul-Haq, mentioned the case of a man who was undefended at Faridpur and who on appeal was defended by him. I know perfectly well what that case was as I have gone through the records in considering the question of penalty. My friend will probably remember what happened in that case. A counsel was, as a matter of fact, assigned, but the accused persistently refused to have anything to do with him. I think the practice that has been followed is essentially such as my friend would like it to be. It has been followed for the last seven years and money is being paid for the purpose. To accept the resolution in the form in which my friend has moved it, will make the position much worse, and the amendment which the Hon'ble Babu S. N. Roy has suggested is already the existing practice."

The Hon'ble MAULVI A. K. FAZL-UL-HAQ said :—

"My Lord, if I am under any misapprehension as to the existing practice I beg to say that the Hon'ble Member who replied on behalf of Government is also under the same misapprehension as to the existing conditions. It is a fact, my Lord, that in spite of the circular to which he has referred, persons accused under section 302 of the Indian Penal Code do go undefended, and therefore there must be some reason why the circular is not strictly given effect to. The circular lays down that there should be a recommendation by the Committing

Resolution.

Maulvi A. K. Fazl-ul-Haq; Babu Surendra Nath Ray; Sir S. P. Sinha.

Magistrate on the nomination of the District Magistrate and a rather elaborate procedure has got to be followed before an undefended accused is provided with the services of a competent lawyer. My sole object in bringing up this resolution before your Excellency is that the present circular not having succeeded in achieving the object, some steps should be taken which would secure to undefended persons of this character the services of competent lawyers. I know sums are budgetted for annually and if the Hon'ble Member will look into the matter he will find that a rather insignificant sum is alloted for this purpose, not becaus Government is unwilling to spend the money, but the circumstances are such that this expenditure is not at all called for. What happens is this. As soon as A is committed, nobody seems to take any notice of him, if he is one of those unfortunates who have got no relation to look after him, or if he has any, they are of such a selfish character that they would rather see him hanged than saved. There are sometimes cases in which the death of a relative is to pave the way to succession. There is nobody to look after him and the case goes up in due course before the Sessions Judge. The learned Judge finds that the accused under section 302, Indian Penal Code, is going undefended and he generally requests a pleader who may be sitting in the Court to take up the defence. It may be that the pleader thinks that he would have heavy responsibilities in the task and he generally declines to take up the case with the result that the man does go undefended, and it is not a solitary case that a man has gone undefended. There are several cases every year in which the circular has not been given effect to. It is time, therefore, my Lord, that the matter should be reconsidered and if that is done, it will serve my purpose. I have brought this resolution for the consideration of this Council from motives of pure humanity, because I have known of cases in which the accused were undefended while they could have been acquitted had they been defended. As regards the case to which the Hon'ble Member has referred, he has repeated the case correctly, although I did not disclose the name. The person was accused of murder and it is true that he declined to do anything with the pleader and the Sessions Judge tried his best to get him defended by a pleader of his Court. The accused was of an eccentric character and it was for that reason that he did not like to be defended, and it was at the very last moment when the trial was about to close that an application was made on his behalf for having the prosecution witnesses re-examined and three witnesses were cross-examined. That does not show that the circular is given effect to. As I have submitted, the present state of things is such that the circular is not given effect to, and it will serve my purpose if your Excellency be pleased to issue a circular that the spirit of recommendations contained in the circular may be carried out by the Judges or Magistrates. All that I want is that provision be made either by issuing a circular or by any other means that Government think it advisable that accused persons may not go undefended. If the matter be looked into by the Hon'ble Member in charge, I do not think that any useful purpose will be served by taking up your Excellency's time by pressing this resolution. I would only ask for leave to withdraw it."

The Hon'ble BABU SURENDRA NATH RAY said :—

"I would only suggest that instead of the matter being left in the hands of the Commissioners of Divisions the matter be left in the hands of Sessions Judges to appoint competent lawyers."

The Hon'ble SIR S. P. SINHA said :—

"That is the practice."

The resolution, with its amendment, were then, by leave of the President, withdrawn.

List of Business—Item No. 11.

The Hon'ble MAULVI A. K. FAZL-UL-HAQ moved the following resolution :—

This Council recommends to the Governor in Council that immediate steps be taken for the establishment of the proposed Muhammadan Arts College at Dacca.

He said :—

"My Lord, I wish to draw your Excellency's attention to the statements that have been made by the late Government of Eastern Bengal and Assam and also the Government of your Excellency's predecessor with respect to the establishment of an Arts College at Dacca. Before the annulment of partition, it was in contemplation of the Eastern Bengal and Assam Government to establish a Muhammadan Arts College as also a suitable boarding attached to that college and this proposal was accepted by the Government of your Excellency's predecessor. Since then no steps have been taken to establish this college and I submit this question has been too long deferred and it is time that it should be taken up in right earnest. Muhammadan students in large numbers as well as students of other communities find a great difficulty in getting admission to the existing colleges. At one time this statement of mine was generally being contradicted by Government officials, but I think at the present moment there is no difference of opinion on the point that students in larger and larger numbers do find a difficulty in the prosecution of their studies by reason of fact that they cannot get admission into colleges. There is at the present moment practically no chance for a student, who passes the matriculation in the second or third division, to enter a college. So many students really pass in the first division that it is impossible to provide accommodation even for them in a college. This is particularly deplorable in the case of the Muhammadan community because as at present situated, we cannot afford to lose a single student who wants to pursue his studies. One of the arguments against the establishment of a Muhammadan Arts College was the tremendous expense that would be involved both by way of initial expenditure as well as recurring expenditure for the maintenance of the College. In the case of Dacca, we can easily get over one of these difficulties by reason of the fact that your Excellency's government have at their disposal several buildings one of which could be well utilised for the purpose of starting a college. The only question so far as the expenditure is concerned will be the question of recurring expenditure and that will not come up to a very heavy amount. It may be said that a commission is going to sit to investigate the whole question of University education and that we had better wait till this Commission finishes its labours. The objection to that is, in the first place, that we will have to continue to wait on for some reason or other for a long time. We waited and waited when the Eastern Bengal and Assam Government was in existence because the management was not complete or the courses of study were not definitely settled upon, then there was the annulment of partition and we waited and waited again and then this unfortunate war broke out and then again it seems we will have to wait for this Universities Commission. There is no use waiting for the Universities Commission. Supposing a college is established at Dacca, it could easily be absorbed into the proposed Dacca University. The question of the Dacca University, I understand, is being seriously considered by Government with a view to its early establishment and although this Universities Commission is going to begin its labours soon, I submit that that in itself is not any reason why the question ought to be

Resolution.

deferred. The position is really this: that at the present moment there are hundreds of students who cannot prosecute their studies for want of accommodation in colleges and the objections to the establishment of this college so far as the pecuniary aspect is concerned, if I am permitted to say so, are not of a very insurmountable character. Therefore, my Lord, in view of the importance of the question I beg to recommend that immediate steps be taken for the establishment of this college and I have no doubt that this question will receive sympathetic consideration at the hands of your Excellency's government."

The Hon'ble SIR S. P. SINHA said :—

"My Lord, I think it will save time if I at once say what I have got to say on behalf of Government. We have been trying time after time to establish a college for Muhammadans at Dacca even while we are awaiting the results of the pending Commission. But, as my friends will see presently, we are not able to do anything. The Dacca University Committee proposed that the University should include a Muhammadan Arts College with a capacity of admitting 500 students and the idea was that all Muhammadan students in residence at Dacca were to be obliged to join this college. Now that is a proposal which was accepted by this Government and recommended to the Government of India as long ago as the 6th of June 1913. They then pointed out that the scheme was too ambitious and we must modify our scheme so as to make it financially possible. Accordingly, we submitted on the 11th February 1915, a revised and a less ambitious scheme in order that the University might be established without further delay. That included, of course, the Muhammadan Arts College as one of the most essential portions of the original scheme. But we framed our estimates on a smaller scale commensurate with the funds available and we proposed that instead of a separate building being constructed for this college the college should be located temporarily in the old Secretariat building. Now even that was not considered feasible and some time afterwards we submitted what is known in the Secretariat at any rate as the minimum scheme and in that also we proposed that the Muhammadan Arts College should form part of it and be located in the Secretariat building. That was only as early as the 14th of October last year 1916. It will be noticed therefore that we on our part have persistently urged the establishment of a Muhammadan College as part of the University and have pressed for the establishment of the college even on a reduced scale; but the Government of India's last word upon the subject is in their letter to us dated the 8th February 1917. We had proposed a certain scale of expenditure as small as we could make it, but the Government of India informed us that the expenditure did not appear to them to be fully justified by the urgency of the case and as we had already been informed in Finance Department letter dated the 17th January, the provision of 7½ lakhs for 1917-18 proposed by the Local Government had been disallowed by the Government of India. In view of the fact that expenditure on the University scheme must therefore be necessarily postponed, the Government of India decided that the legislation required for initiating the University should also be postponed. The Government of India have no intention of abandoning the scheme, but the Government of India have decided that legislation should not be undertaken until they received the report of the Commission. It is hoped that by this arrangement the Government of India will receive valuable advice to supplement that which is already at their disposal regarding the constitution and management of the proposed University. As a matter of fact, notwithstanding the letter we have tried to see—whether in respect of the question of the University we could not have a Muhammadan Arts College, immediately started at Dacca in advance of the University and the matter was very carefully considered by my predecessor in office,—Nawab Sir Syed Shams-ul-Huda, in

conjunction with Mr. Lyon, and the Director of Public Instruction, and Mr. O'Malley, the experienced Secretary in the Department, but it was found that under present conditions it was absolutely impossible to have such provision made for the institution of a Muhammadan College as was necessary to make it of the same standard as other colleges at Dacca. Nawab Sir Syed Shams-ul-Huda was of opinion, and Mr. Lyon agreed with him, that it would be better not to have an inferior college for Muhammadans and that we must wait until we got a good college and therefore my friends will see that we have tried our utmost and persistently to have this college started as soon as possible."

The Hon'ble BABU KISHORI MOHAN CHAUDHURI said :—

"My Lord, after what has fallen from the Hon'ble Member in charge there is not much to be said. We have always maintained that additional facilities ought to be provided if the existing arrangement is not sufficient—it is not only for Muhammadans, but for all other sections that additional arrangement is absolutely necessary. In moving my resolution on education in March last, I enumerated the reasons for urging upon Government that more facilities ought to be allowed for the spread of education. The proportion of illiteracy to literacy is rather appalling. It is the first business of the State to educate the people committed to its charge, I am glad to learn that Government are trying to arrange for another Arts College for the Muhammadans at Dacca. I hope in whatever shape it be done either for Muhammadans or Hindus or other sections, that early arrangements will be made to have it established. With these few words I commend the resolution to the acceptance of this Council."

The Hon'ble DR. ABDULLA-AL-MAMUN SUHRAWARDY said :—

"My Lord, I have the misfortune of differing from the Hon'ble Maulvi Fazl-ul-Haq on the question of establishing an Arts College for Muhammadans at Dacca. At the last budget meeting I had expressed my views on the subject and with your Excellency's permission I would simply read out a portion from my speech dealing with the Muhammadan Arts College at Calcutta. I said :—"

The Hon'ble MR. BEATSON BELL said :—

"Will the Hon'ble Member be in order in reading out a previous speech."

The President said :—

"On the point of order I do not think the Hon'ble Member is strictly in order in reading out his previous speech. That speech is on record and every member of Council is supposed to be in possession of it. I do not think there will be any objection to his reading out a short extract if he so wishes, but it will hardly be in order for him to read out a previous speech which has already been made."

The Hon'ble DR. ABDULLA-AL-MAMUN SUHRAWARDY said :—

"I was reading only one passage from my speech. I will, however, give a brief résumé of my reasons. In the first place, I am not in favour of a denominational college or University, because in the battle-field of life, Muhammadans will have to compete with non-Muhammadans. In the second place, great insistence is laid on the Arts College, and I do not know whether Government will be in a position to provide funds for a Muhammadan Arts College in every Division. Later on there may be a cry for a Muhammadan Science College, a Muhammadan Commercial College and Engineering

Resolution.

Dr. Abdulla-al-Mamun Suhrawardy ; Maulvi A. K. Fazl-ul-Haq.

College and so on. Therefore, I urge upon your Excellency's attention the necessity of establishing scholarships and stipends in order to enable Muhammadans to avail themselves to the fullest extent of the facilities already existing in non-denominational colleges and institutions. These were my reasons before and I have no reason to change my views which I expressed on that occasion. I waited for my friend, the Hon'ble Maulvi Fazl-ul-Haq, to give some reasons for the urgency of having a Muhammadan Arts College at Dacca in these days of financial stress, because the resolution says that 'immediate steps should be taken to establish a Muhammadan Arts College.' I do not think that he has disclosed any reason why such immediate step should be taken."

The Hon'ble MAULVI FAZL-UL-HAQ said :—

"My Lord, I would not have troubled the Council with any words of mine by way of reply had it not been for a few words which have fallen from my hon'ble friend, Dr. Suhrawardy. I can assure him that I am no less opposed to denominational educational institutions, but at the same time I maintain that in order to bring the Muhammadans up to a level with the other advanced communities in the country, a sort of concession should be given to them so that they may make up their loss. The denominational institutions are not meant for the purpose of separatism of the two communities in the matter of their education. I will be very glad to see as many colleges as can possibly be started for all other communities, but since I find that other communities can take care of themselves, and the Muhammadan community is too poor to provide for its own education—that I am appealing to Government to set apart some money out of public funds for the establishment of a Muhammadan College. I was led to bring up this resolution before the Council by reason of the very earnest and large-hearted sympathy which I received at the hands of the leaders of other communities. They repeatedly assured me that they would only be too glad to see a Muhammadan Arts College established at Calcutta, provided Government could find a means to do so. As regards the reasons for urgency, I would remind my hon'ble friend that as each year passes, hundreds of Muhammadan boys do not find admission into the colleges most of whom might have been successful in their arts or science courses as students, and also fitted themselves for the public life of the country. Each year, therefore, means a year of loss to us and it is for this reason that I want that immediate steps should be taken in this matter.

As regards the reply that has been given on behalf of Government, I am perfectly convinced that so far as your Excellency's government is concerned, all that is possible has been done in order to establish this college. It is only to-day that we have been let into the secret—if I may call it—of what passed between this Government and the Government of India and I find that so far as this Government is concerned, I do not think I can fairly charge this Government with any sort of negligence in this matter. That being the state of affairs and remembering also that the sympathies, of the hon'ble member in charge of education, for Muhammadan education, are marked and well-known, I do not think there will be any useful purpose if I press this resolution. I have brought this up for the consideration of this Council in order to emphasise the importance of the subject and I earnestly hope that as soon as opportunities present themselves no time will be lost for the establishment of this college. I am perfectly sure that my hope in this respect will be realised in the very near future. With these words I beg to withdraw my resolution."

Resolution.

Sir S. P. Sinha; Babu Surendra Nath Ray.

The Hon'ble SIR S. P. SINHA said :—

"My Lord, may I mention a matter which I ought to have mentioned at the very beginning. At the conference which I spoke of when the Hon'ble Mr. Lyon, the Hon'ble Nawab Sir Syed Shams-ul-Huda, the Director of Public Instruction, and Mr. O'Malley discussed the matter, my hon'ble predecessor in office pointed out that inasmuchas a recent concession had been made in favour of Muhammadans whereby Muhammadan students should have a preferential claim to admission to 25 per cent. of places in Government Colleges, that in itself had given general satisfaction to the Muhammadan community, and in these circumstances, it was unlikely that there would be a pressing demand for the starting of a new Muhammadan College in advance of the Dacca University."

The resolution was then, by leave of the President, withdrawn.

LIST OF BUSINESS—ITEM No. 12.

The Hon'ble BABU SURENDRA NATH RAY moved the following resolution :—

This Council recommends to the Governor in Council that Government be pleased to supply Darjeeling Quinine and Quinodine free of charge to the dispensaries maintained by Municipalities and District Boards in the Presidency of Bengal.

He said :—

"My Lord, it may be said that this is not the proper time to move such a resolution as this, that I ought to have moved the resolution during Budget time. Discussions on so many topics crop up during Budget debate and my experience of the fate of the resolutions of the non-official members have made me move this resolution at a cooler time when I feel sure to have a better hearing. I hope my friends will not be wearied because I have to deal with figures and statistics which are always tiresome.

We find from the Budget estimates of 1914-15 that the expenditure in the manufacture of quinine and quinodine was Rs. 2,37,142 whereas the income was Rs. 4,10,258. In the year 1915-16 the expenditure was Rs. 2,01,394, the income was Rs. 5,47,871. In the year 1916-17, the expenditure on the cinchona plantations was Rs. 2,11,000, the income was estimated to be about seven lacs of rupees. In the year 1917-18, the expenditure is estimated at Rs. 2,23,000, and the income is estimated at Rs. 7,32,400, the increase being due to larger sale of quinine to the military and other departments. Even admitting the increase as due to larger sale to the military authorities we can fairly take the income at six lacs of rupees and the expenditure at about two lacs of rupees. It will, therefore, appear that Government makes a profit of about four lacs

Resolution.

Babu Surendra Nath Ray.

of rupees from the sale of what is known in the market as Darjeeling quinine. I find from the resolution of the Government of Bengal on the working of Municipalities in the Presidency that the Municipalities spent Rs. 3,75,817, including plague charges in the year 1913-14, Rs. 3,53,594 in the year 1914-15 and Rs. 3,90,942 in the year 1915-16 on dispensaries and hospitals whereas the District Boards spent Rs. 3,75,887 in 1913-14, Rs. 4,97,698 in 1914-15 and Rs. 5,59,898 in 1915-16, so that we find that the municipalities and District Boards combined spent Rs. 7,51,704 in 1913-14, Rs. 8,51,292 in 1914-15 and Rs. 9,50,840 in 1915-16 on dispensaries and hospitals.

It appears from the information supplied to me by the Secretary to the Government of Bengal, Municipal Department, that altogether seven dispensaries were in receipt of grant from Government during 1914, 1915 and 1916 and that the entire amount of such grant was Rs. 2,010 per annum.

I find from another statement kindly supplied to me by Government that the amount received by Government by sale of quinine, quinodine and tablets to the dispensaries maintained by District Boards and Municipalities in the year 1914-15 was Rs. 31,315-8, in the year 1915-16 Rs. 42,397-14-6 and in the year 1916-17 Rs. 51,389-3. I have put down the average nett profit from the sale of quinine and its preparations at 4 lacs of rupees per annum and the average sale to the dispensaries maintained by Municipalities and District Boards at Rs. 50,000, *i.e.*, one-eighth of the actual profit. I think Government can very well afford to make a grant of one-eighth of the profit derived from the manufacture of quinine and its preparations to these institutions.

It appears from the Report on Sanitation in Bengal for the year 1914 that in Bengal 1,061,041 persons died in that year from fever, which is 74 per cent. of the year's mortality from all causes. Out of those fever cases we can fairly put down 75 per cent. of the cases to malarious fever. This will give a total of 8 lacs of deaths due to malarious fever. From the Sanitation Report for 1915 we find that there were 1,064,159 deaths from fever or 71 per cent. of the deaths from all causes. If we take the same percentage as regards malarious fever, we find that there were again about 8 lacs of deaths from the same cause. In the year 1916, there were 909,880 deaths from fever. If we calculate at the same percentage we find that there were about 7 lacs of deaths from malarious fever or nearly a lac less. Medical men are of opinion that malaria is a preventible disease and that quinine is its only antidote. I need not cite authorities for what I have said. Let me quote only one passage from the Report on Malaria in Bengal (Part I) by the present Sanitary Commissioner of Bengal, Dr. Bentley : "The proper treatment of cases of malaria with quinine which is the most efficient of the alkaloids from cinchona bark, diminishes the spread of infection among a population very greatly. Adequate quinine treatment may be considered, therefore, an effective method of malaria prevention." Unfortunately adequate quinine treatment is not possible under the present financial condition of the Municipalities and District Boards.

About five or six years ago I had a talk with a member of the Indian Medical Service on the subject of administration of quinine to malaria-stricken patients. He told me that the Government insisted that at least 80 grains of quinine should be administered to each patient in order that the medicine may produce its full effect and to see that such an amount of medicine is administered to all patients of dispensaries maintained by Municipalities and District Boards. He told Government that it was impossible for the latter

Resolution.

Babu Surendra Nath Ray.

bodies to administer such a large dose of quinine as 80 grains to patients attending their dispensaries, that their financial condition would not allow them to administer such a large dose. I have collected statistics from some of the dispensaries and I find that the average amount of quinine administered to a patient varies from 5 or 6 grains to 20 grains or about one-fourth of the proper dose which, I am told, is just sufficient to put a stop to the fever only temporarily. This small dose of quinine cannot check the fever for the season and the result is that the patient gets repeated attacks. The reason why the proper dose of 80 grains is not administered and the people have to be satisfied with the temporary good they derive from the small quantity of quinine is that these dispensaries cannot afford to give a larger dose of quinine. A circular letter was issued on the 8th November 1913 by Government to all municipalities enjoining upon them the desirability of the systematic distribution of quinine in the schools and pathsalas. The Sanitary Commissioner of Bengal has only in the month of June last enquired of all municipalities as to the steps taken in this connection pursuant to the above circular. Financially many of the municipalities are not in a position to carry out the instructions of Government in the administration of quinine. I must candidly admit that Government have of late been taking steps to grapple with the question of malaria. They have not only the Malaria Committee but there has been gratuitous distribution of quinine in the more malarious districts. In the year 1914, 24 Sub-Assistant Surgeons were employed on anti-malaria work. Travelling dispensaries, which started in the Malda District during the year 1914, continued its work till September 1915. They afforded relief to a fairly large number of fever-stricken patients living in out-of-the-way places and also served the purpose of popularising quinine. In the year 1916, Government were pleased to supply the District Boards of Birbhum and Murshidabad with quinine to the value of Rs. 1,500 each, those of Dinajpur, Nadia, Bogra, Rajshahi, Malda Jessore and Bankura to the value of Rs. 1,250 each, and Hooghly to the value of Rs. 750, with instructions to distribute the quinine to charitable dispensaries and if thought fit to make them over to peripatetic doctors they might entertain. Besides this, four Mission dispensaries in the district of Nadia and one in the district of Murshidabad were annually supplied with about 100 parcels of quinine treatment for free distribution. One Mission dispensary in the Howrah district, viz., that at Bagnan, was supplied with 20 lbs. of quinodine annually and as a special case 100 parcels of quinine treatments were supplied to a Mission dispensary in Faridpur during 1916. Quinine has also been distributed at Government expense in a number of schools in Hooghly and Burdwan during the past three years.

But while Government have been trying to some extent to cope with malaria, the municipalities and District Boards are not apathetic. We find from the Sanitation Report of 1915, that the District Board of Birbhum purchased quinine worth over Rs. 1,200 for free distribution to malaria-affected localities and also supplied to the charitable dispensaries under its management quinine valued at Rs. 2,000. The District Board of Rangpur spent Rs. 5,000 for the same purpose. The District Board of Howrah also gave a free supply of quinodine to the school children in thanas Singti and Jogutbullubhpore. The District Board of Mymensingh spent Rs. 818 on the free distribution of quinine in the Tangail Subdivision and other malarious parts of the district in 1913-14 and that of Faridpur Rs. 1,000 in connection with a malaria epidemic. The District Board of Dacca distributed quinine for sale to Collecting Panchayets in malarious areas and spent Rs. 427 in order to give the first instalment free, arrangements being made for the recoupment of the stock from the sale-proceeds. The Tippera District Board spent a larger amount than in the previous year on the distribution of quinine, and Patna distributed quinine during a malaria epidemic.

Resolution.

Babu Surendra Nath Ray.

I ought to mention that the District Boards have been to a certain extent properly utilising their increased funds from the Public Works Cess. In 1913-14, the Dacca District Board decided to establish and maintain ten new dispensaries in places where medical aid was not procurable. We find from the Government Resolution on the Reports on the working of the District Boards of Bengal during 1914-15 that the District Boards showed themselves fully alive to their responsibilities for the provision of medical aid for the poorer classes. There was a perceptible increase in the number of dispensaries aided or maintained by the Board. Sixteen additional dispensaries were made a charge on the District Board of Burdwan. Three new dispensaries were opened in the Nadia district. So in the year 1915-16 we find that the Birbhum District Board made a special effort to cope with an epidemic of malarial fever with the help of a Government grant of Rs. 25,000 and opened 12 dispensaries each in charge of a Sub-Assistant Surgeon. Considerable sums were spent by the District Boards during 1914-15 on the free distribution of quinine, notably Rs. 10,000 in Midnapore and Rs. 5,000 in Rangpur. In some cases this free distribution was made through dispensaries, in others by the Boards' doctors direct to villagers in malaria-stricken areas. In reviewing the working of the District Boards for the year 1915-16 the Governor in Council was pleased to observe that the District Boards realised their duties in providing medical relief and that their expenditure on this account increased by over a lac, mainly in West Bengal.

The sale of quinine is becoming more popular among the people of this Presidency. We find for example in the Sanitation Report for 1914 : " It appears from the reports received from the Civil Surgeons that the sale of treatment from quinine is becoming more and more popular and in many districts the sale is increasing very rapidly." We find from the said report that since the introduction of the present system of sale of quinine in tablet form in August 1913, the sale has nearly doubled. We find the following important statement in the Government Resolution on the working of District Boards for 1914-15 : " The Governor in Council is much interested in the rapid extension of the distribution of quinine due to the increased energy and attention recently devoted to this problem by the District Boards. There is a wide scope, not merely for free distribution, the financial limits of which must always fall far short of requisite consumption in malarial areas, but also for the promotion of sales, by the enterprise of local agents and business-like facilities of supply . . . . Considerable sums have been spent by various District Boards during the year on free distribution of quinine."

It is worth quoting the following extract from the proceedings of a meeting of the Provincial Malaria Committee held in January 1913 :—

" The figures quoted both by Dr. Bentley and Major Fry show that the amount of quinine supplied by these dispensaries for the treatment of fever cases is most inadequate, and it was unanimously resolved to draw the attention of Government to this state of affairs.

" The remedy for this was also dicussed. It was pointed out by Mr. Gupta and the President that the matter is largely one of finance. The budget allotment for medicine for these dispensaries is very inadequate.

" It was unanimously resolved that Government be moved to insist that all patients applying for treatment for malarial fever at District Board dispensaries should receive quinine in the form of ' treatments ' and that under no condition less than a complete ' treatment ' should be given to each patient, the breaking of the ' treatment ' being strictly forbidden."

Resolution.

Babu Surendra Nath Ray ; Mr. Beatson Bell.

" It was pointed out by several members that this means an enormous increase in the expenditure of quinine in the Province generally, and it was discussed as to who should be asked to provide this money. Major Fry was strongly of the opinion that the amount which could not be provided by the District Boards should be found by Government.

The above remarks apply also to municipal dispensaries.

The country is becoming more and more insalubrious every year. We find from the report on malaria in Bengal : " There is little room for doubt that the outbursts of epidemic fever which decimated so many districts in the lower delta from 1860 onwards, marked the transition from a comparatively salubrious state, similar to that still observable in parts of Eastern Bengal, to one characterised by a widespread prevalence of malaria, such as we have seen to be the condition existing in many parts of the province at the present time." Whether they are due to the silting up of river beds leaving stagnant pools here and there or insufficient water-way under Railway embankment, the fact is there and we must grapple with the situation as it is.

I think I have made it clear by facts and figures that a large number of people die every year from malaria which is a preventible disease, that quinine is admittedly one of the most potent medicines to check the disease, that Government have been making large profit every year from the sale of quinine which is manufactured in this country, that the resources of the municipalities and District Boards, specially of the former body, are limited and that it is perhaps not asking too much from Government to supply these bodies with quinine free of charge. I hope Government will see their way to accept this modest resolution, more specially as the grant would only benefit the health of suffering humanity."

The Hon'ble MR. BEATSON BELL said :—

" My Lord—As the Hon'ble mover has very correctly pointed out, this motion should properly have come at the time when we consider our budget. We do not, however, raise any serious objection to considering the question to-day. The Hon'ble Member has given us many interesting facts about the prevalence of malaria in Bengal and the attempts of local bodies, both in the Municipalities and in the mofussil, to cope with the ravages of this disease. The Hon'ble Member has not, however, given us much information regarding the system under which quinine is manufactured in Darjeeling and in Madras and is distributed to Government institutions, and incidentally to local institutions, throughout India. The Hon'ble Member is no doubt aware that until the Government of India undertook the manufacture of quinine it mainly came from Java. The bark was cultivated there by planters ; —presumably Dutchmen ; it was shipped to England where it was made into commercial quinine and it was thence exported to India, partly on behalf of Government and partly on behalf of private firms, and was consumed by malaria patients. Afterwards Government established quinine factories of its own, one in Madras and another in Bengal. At first, as usually happens when it engages in such enterprises, Government sustained a considerable loss year by year. The system on which Government conducted its transactions was that it followed the private market and scrupulously avoided underselling private enterprise. Each year the price of Government quinine was based on the average price obtained by commercial quinine from Java, in other words by the well-known " Howard's Quinine." We are told that Government is now making huge profits. As a matter of fact, the bulk of our transactions consist merely in taking money from one pocket of Government and putting it into another. As I have pointed out, our

Resolution.

Mr. Beatson Bell.

quinine plantations were set up in order that Government might supply quinine to its own dispensaries. Between the quinine plantations and the Government Department which runs the dispensaries we keep *pro formâ* accounts showing the profit and loss of the plantations. We do not sell to chemists, druggists or private practitioners. We do, however, allow local bodies, if they so desire, to buy their quinine from our plantations and we do make over large quantities of Government quinine to the Civil Surgeons, in order that they, through the agency of local post-masters, may sell it to the public in the form of pice-packets, or what are known as "treatments."

"As recently as April 1916 the Government of India explained the whole system and reiterated the principles on which Government quinine is manufactured and distributed. The principles are those which I have just described. We must follow the private market and not undersell it, and we must confine our transactions to Government dispensaries, to local bodies and (through Civil Surgeons) to post-offices. As long as that pronouncement of the Government of India holds good, I do not see how we can adopt a policy of giving quinine to local bodies either at cost price or gratis. We recognise, however, that a difficult situation has been reached. Owing to the war, the supply of commercial quinine has gradually dwindled, and the price has gradually risen. All Hon'ble Members who have anything to do with the management of dispensaries must be painfully aware of this fact. The difference between cost price and the price which the plantation charges to local bodies is now so marked that the position demands examination. We propose to consult Major Gage, and having ascertained all the latest facts and figures, to make a reference to the Government of India.

"In the course of the Hon'ble mover's speech, he has given many interesting figures regarding the action taken by District Boards and Municipalities in spreading quinine throughout the country. Government gratefully acknowledges the good work which has been done by these local bodies. They distribute, free of cost, about 3,000 pounds of quinine every year. As against this, the post-offices in Bengal sell annually one million "treatments", or in other words 80 million grains of quinine. That works out to 11,000 pounds of quinine, nearly four times what is distributed by the local bodies. In fact, the quinine which is bought is more popular than the quinine which is received in charity. It is certainly a matter for consideration whether, in the case of a patient who can well afford to pay for his own medicine, the doctor in charge of a charitable dispensary is justified in making him a present, at the cost of the general rate-payers, of a sufficient quantity of quinine to take him through a prolonged treatment. Should he not rather give him a dose sufficient for his immediate need and advise him to go along to the post-office next door and purchase enough quinine to effect a lasting cure? This, I understand, requires five "tubes" costing 4 annas each, and the treatment is spread over three months.

"We should hesitate before we embark on a policy of handing out to every man, rich or poor, who comes to a charitable dispensary five tubes, or even one tube, of Government quinine free of all cost. It would be wrong to make the dispensaries usurp the functions of the post-offices. By all means give the poor man enough quinine, either in one instalment or day by day, to cure him thoroughly. But let us be reasonable in our dealings with the well-to-do.

"There is one other aspect of the case to which I must allude. A few years ago Government presented the District Boards with the P. W. cess, amounting to some 30 lakhs per annum. One of the specific purposes of the grant was to enable these bodies to cope with malaria. It cannot therefore be

Mr. Beatson Bell; Dr. Nilratan Sarkar.

said that Government's only connection with the anti-malarial campaign has been an attempt to make a profit by selling quinine to local bodies. We have given ample funds to every District Board, if it be so minded, to scatter tubes of quinine throughout the country. In many municipalities also we have given liberal allotments for this purpose from the Sanitary grant, and we shall continue to do so.

"The situation must be looked at in all its aspects. From what I have said I hope the House will realise that Government is very far from being indifferent in this matter. We cannot, I am afraid, accept the resolution in the form in which it has been worded. Perhaps in the circumstances the Hon'ble Member will no longer press it but will be content to help us in examining the present system with a view to introducing such changes as are really fair and just."

The Hon'ble DR. NILRATAN SARKAR said :—

"My Lord,—I have very carefully listened to what the Hon'ble Mr. Beatson-Bell has said about the method of supplying quinine to malaria-stricken people in Bengal. My friend the Hon'ble Babu Surendra Nath Ray in moving his resolution has shown that the amount of quinine supplied through the local body dispensaries is inadequate to meet the demands. According to the Surgeon-General's reports 16 lakhs of people suffering from malaria apply for treatment to the dispensaries in Bengal. There are 661 dispensaries and out of this number about 350 are maintained by local bodies. On a moderate computation about 10 lakhs of sufferers went to dispensaries maintained by local bodies for treatment, and during last year—1915—under war conditions these dispensaries or most of them purchased quinine from the Government because Government quinine was cheaper than the ordinary market quinine. But in order to treat 10 lakhs of patients suffering from malaria, according to the Government circular, they would require about 10,000 lbs. of quinine at the rate of 1 lb. per 100. This is a little less than 80 grains per head which is referred to in the Government circular and for this they would require about Rs. 1,30,000 at the rate of Re. 1-3 per lb. Now, instead of that the maximum that they could pay was only Rs. 50,000. That is not an index of the maximum necessity but the minimum amount that they could afford to pay and they got only about 3,850 lbs. of quinine, *i.e.*, a little over one-third the amount. This is, according to the circular, an inadequate supply of quinine to the local body dispensaries. This matter has been very clearly put up by our esteemed friend, the Hon'ble Surgeon-General. I quote from the report of the Surgeon-General :—

" 'Of a good many dispensaries who act up to the instructions issued by this office for the treatment of malaria patients with adequate doses of quinine, very few, however, would give the prescribed quantity of the drug to their patients chiefly owing to lack of funds to meet the extra cost' ".

"My friend Hon'ble Babu S. N. Ray has shown also what the Malaria Committee thought of it. They also held that the supply of quinine was inadequate. Now the Hon'ble Mr. Beatson-Bell doubts whether the present system of distributing quinine through dispensaries is a good one or not. Apart from the business side of it, there is another side connected with medical relief, and that is the more important side in dealing with the population, especially the lower class people of Bengal. The post office system is a nice system and is a very good one and it has distributed quinine throughout the length and breadth of the province. As much as 80 millions of people are sufferers from malaria in Bengal, but still there is a lager number of people who cannot afford to pay anything for quinine and the

services of dispensaries are necessary therefore in the case of those who require charitable medical relief. There are thousands of people in Bengal who cannot afford to spare a couple of pice on medicine. The tube treatment means four annas, and if one purchases 5 grains of quinine he has to pay two pice, but even that small amount he cannot afford to pay and I admit also that on account of both ignorance and apathy even some of them who can afford to pay do not purchase it. But that is a question of education, but so far as the supply goes it is inadequate and it has not been able to reach even a fraction of the sufferers who are victims of this disease. Only 16 lakhs of sufferers from malaria go to the dispensary for medical aid. But so far as one can infer from the death figure about nine times that number remain outside who are suffering from malaria but who do not go to the dispensaries. The death rate is 8 lakhs every year—7½ to 8 lakhs and from malaria we know generally for every 10 to 25 per cent. that suffer one per cent. dies. My Lord, here a very large question of principle is involved, the question, being—if the local bodies are unable to meet the necessities of the situation it is necessary that public funds should come to their aid and should be devoted to this specific purpose. I believe all gentlemen belonging to my profession will agree with me that if there be any purpose to which public funds should be devoted, this is the one. I should therefore most cordially support the resolution of my Hon'ble friend not because I feel that it is enough but because it will give an earnest of what we ought to do in the near future. In any efficient and thorough scheme of eradicating malaria from Bengal our only hope should rest in providing the country with a sufficient supply of quinine just as the Italians did in Italy and the Japs did successfully in Farmosa, and I believe whatever the difference of opinion amongst the experts in regard to the methods of dealing with mosquitos or the drainage, they are all agreed as to the usefulness of quinine in the prevention and eradication of malaria. I hope that your Excellency will take this matter up in right earnest and not as a matter of business or a commercial enterprise but as a question of sanitary duty which must be done in order to make Bengal the best land in India so far as health and comfort go."

The Hon'ble BABU KISHORI MOHAN CHAUDHURI said :—

"My Lord,—The figures and arguments supplied by the Hon'ble Babu Surendra Nath Ray and the Hon'ble Dr. Nilratan Sarkar are convincing and I rise to support their views because I am specially interested in this affair. The Nator subdivision of my district—the district of Rajshahi—is notorious for malaria. The usefulness of quinine in combating the disease is invaluable so the demand of Rs. 50,000 from Government is very modest and not very much. Large numbers of people do not get the advantage of charitable dispensaries because the number of dispensaries is not adequate. I believe some help could be rendered to District Boards and Municipalities ; peripatetic doctors could be appointed and arrangements could be made to grant better relief. District Boards and Municipalities are Government institutions and it is not too much to expect that they should be supplied by Government with quinine either free of charge or at least at the cost price. I think the Government of India should be induced to grant the concession and this modest demand should be met by Government. With these few words I commend the resolution to this Council."

The Hon'ble RAI RADHA CHARAN PAL BAHADUR said :—

"My Lord,—I would just say one or two words. I have been impressed by the lucid speech of the Hon'ble Dr. Nilratan Sarkar and what I should

like to know is this—whether this grant of Rs. 50,000 which is asked for from Government by the Municipalities will be spent in supplementing the free distribution of quinine or on peripatetic doctors. We have not got any information on the subject. I am in entire sympathy with the motion of the Hon'ble Babu S. N. Ray, but I think the members of this Council are entitled to know whether the Rs. 50,000 which is now being spent by the Municipalities will be continued to be spent in addition to the free grant of quinine asked for from Government, that is to say, this Rs. 50,000 will not be diverted for other purposes but be devoted to the relief of malaria-stricken people."

The Hon'ble BABU SURENDRA NATH RAY said :—

"In view of the reply given by the Hon'ble Mr. Beatson Bell I do not think it proper to press my resolution. I beg to withdraw it."

The Resolution was, accordingly, by leave of the President, withdrawn.

LIST OF BUSINESS—ITEM No. 13.

The following resolution stood in the name of the Hon'ble BABU BROJENDRA KISHOR RAY CHAUDHURI :—

This Council recommends to the Governor in Council that steps be taken to introduce a system of regular medical inspection of students of schools and colleges; and that a committee of officials and non-officials be appointed to suggest the lines on which such system should work.

The President said :—

"Gentlemen, the Hon'ble Babu Brojendra Kishor Ray Chaudhuri is not present here to move his resolution. He has, however, written and asked for a postponement for reasons of illness. I think that is a satisfactory reason for his absence and as requested by the Hon'ble Member I postpone the moving of the resolution to the next meeting of the Council."

LIST OF BUSINESS—ITEM No. 14.

The Hon'ble MAULVI ABUL KASEM moved the following resolution :—

This Council recommends to the Governor in Council that the day of the Mussalman festival *Shab-barat* be declared a holiday in Government offices.

The Hon'ble MAULVI ABUL KASEM said :—

"My Lord,—It is with some diffidence that I rise to move this resolution. I feel diffident because I am afraid that a casual observer of these proceedings may carry with him the impression that the Muhmmadan members of this Council bring forward resolutions in season and out of season in which some concession or other is asked for the members of that community and I had the misfortune or good fortune of associating myself with two previous motions which either asked for a holiday or for suspension of work in public offices. I admit, my Lord, that those of us who represent Mussalman constituencies in this Council have felt it their duty to draw the attention of the Government from time to time to the grievances of the Mussalman community, but I am sure that those who have studied the administrative problems

Resolution.

Maulvi Abul Kasem ; Mr. Beatson Bell.

of this Presidency in its various aspects will agree with me when I say that our conduct was fully justified and that our demands have always been moderate and reasonable. Mussalman interests have been allowed to be neglected for such a long time that we would be failing in our duty if we did not avail ourselves of the opportunity given to us as members of this Council to ventilate our grievances and bring forward motions for their removal. I do not mean for a moment to be understood that I hold Government only responsible for the present state of affairs. The members of my community are to a very great extent to blame for not pressing their requests before Government for consideration. The Mussalmans have paid the penalty for their neglect of high education on Western lines in the early days of the British rule and they are paying dearly for their apathy to all questions of public interest, especially those affecting their own community. To speak the truth, the Mussalman community had scarcely any organisation or means of effectively seeking redress of their grievances until the privilege of communal representation in the Legislative Councils was granted to them and it is our unfortunate position to deal with a very large area. I gratefully admit, my Lord, that our prayers have been always received sympathetically by the members of your Excellency's Government and on many occasions been given effect to. Last year about this time I had brought forward a motion for an additional holiday. I had to do this because the ministerial officers belonging to the Muhammadan faith in the district of Birbhum were made to attend office and work on the day of the Id-ul-fitr, although it was notified by Government that Muhammadan employees were to be allowed to absent themselves on that day. I received a sympathetic reply from the Hon'ble Member in charge and the resolution was withdrawn. I understand, however, that effect has been given to the resolution and the prayer made therein has been acceded to. I am obliged to move this resolution to-day because the very same Collector of Birbhum has refused the application for leave presented to him by the Muhammadan employees of his office and they had to work on the day of the Shabibarat. I know, my Lord, that a Government Notification was issued by which Muhammadans were permitted to absent themselves from office on certain days and that the day of the Shabibarat is one of those days. But I am told, my Lord, I do not know how far I am correct, that there is an order of the Board of Revenue to the effect that the Muhammadans who want to avail themselves of leave on any of those days should give a substitute from their own pay for that day. I cannot understand how that order came to be passed."

The Hon'ble MR. BEATSON-BELL said :—

"There is no such order."

The Hon'ble MAULVI ABUL KASEM continued :—

"I am glad to learn that there is no such order. As regards asking for a holiday I may say that Shabibarat is one of the important Muhammadan festivals which have received some attention at the hands of Government. They have recognised that it is necessary for the Muhammadans to have leave on those days and therefore a circular had been issued to that effect, but still we find that the circular as it stands is not very effective as officials can avoid it as has been done by the District Magistrate of Birbhum. Much of the difficulties would be avoided and trouble saved if the circulars issued by Government from time to time are carried into effect in the spirit in which they are issued, but in fact experience has unfortunately shown us that District Officers sometimes take these circulars as an expression of pious opinion on behalf of Government and not meant to be given effect

Resolution.

Maulvi Abul Kasem ; Sir Henry Wheeler.

to, and try to avoid them as best as they can by keeping to the letter of that circular. I think if my resolution is rejected on the ground that we have already got too many holidays, I submit that the whole list of holidays should be revised and so readjusted that it may suit the convenience of the Muhammadans who form a large majority of population in this Presidency along with those of other communities.

The Hon'ble SIR HENRY WHEELER said :—

"My Lord,—As the Hon'ble Maulvi Abul Kasem has admitted, this question of the distribution of public holidays has received a great deal of attention in recent times, and as a result of that attention the present position represents what is regarded as a fair compromise between the interests of different creeds. The predominating factor, from which we cannot get away and which affects the whole question, is that the list of holidays is already a very long one.

"As is probably known to all, the holidays which are now observed fall within three classes, and I would like to make this clear as, judging from a portion of his speech, the Hon'ble Member does not seem quite to realize what the existing orders in regard to the Shabibarat are. There are, first of all, holidays which come under the Negotiable Instruments Act. *i.e.*, holidays on which practically all business is suspended and there is a very general interruption of work. There are, secondly, certain notified days on which nearly all Government offices are closed. That means the interruption of Government work and of private business in so far as it is concerned with Government offices, but these holidays involve less interference with work than those under the Negotiable Instruments Act. Then there is a third category of holidays on which Government offices do not close as a whole, but on which employés of particular creeds—if it is a holiday pertaining to that creed—are allowed to absent themselves from office ; that is to say, on these days Government business goes on, but it goes on with the hindrance resulting from a depleted staff.

"That being the general position, Sir, I would emphasise slightly more than the Hon'ble Member has done, the particular consideration which in recent years has been paid to Muhammadan wishes in the matter of holidays. I do not do so by way of complaint—rather I congratulate my Muhammadan friends that in this matter things have worked out in their interest—but it is only right that the Council should realise that regard has been had to Muhammadan sentiment in these matters. As doubtless will be remembered, this is a subject in which the Hon'ble Mr. Ghaznavi very keenly interested himself, and in 1913 he moved a resolution at Delhi the general trend of which was that more Muhammadan holidays should be given. That resolution was recommended to local Governments for sympathetic attention, and as a result of the discussion that then took place three more Muhammadan days were added to the list of holidays under the Negotiable Instruments Act, two days at the same time being taken away from the Hindu list for the purpose of avoiding an increase in the total number of holidays. Again the Hon'ble Member moved a resolution in September 1916, asking for an extra day on account of the Id-ul-fitr festival, and that too was conceded. So in these two important respects in recent times the requests of the Muhammadan community have been met.

"Now, coming back to the particular case of the Shabibarat, the position is that it now falls under the third category of holidays, that is to say, Muhammadan employés of Government offices may absent themselves from office on that day, and to that extent consideration is already given to their feelings,

Resolution.

Sir Henry Wheeler; Maulvi A. K. Fazl-ul-Haq.

though at the same time the work of Government can go on, with some detriment due to part of the staff being away. But now the Hon'ble Member asks us to go further, and to declare this to be a holiday in the second category, that is to say, a day on which all Government offices should be closed. I understand that he bases this largely on an incident which has been the subject of a question to-day, and which is said to have happened at Birbhum. As has been already said in answer, that case is still under the consideration of Government, and I reserve a final opinion regarding it, though if it is found that the orders of Government are not being properly observed, it may be assumed that the requisite instructions will be issued to the officers concerned But is not the Hon'ble Member a little unreasonable in asking that, on account of his apprehensions based on one incident at one place, the system applicable to the whole province should be changed, thus introducing complications in the rather delicate balancing of the distribution of holidays as a whole? This particular question of the Shabibarat is, moreover, not a new one. It was raised by the Muhammadan Defence Association in 1907, and again in a local address presented to Lord Carmichael in 1915 by certain residents of Tangail, and on both occasions reasons were given expressing inability to meet the wishes of the memorialists. To that decision I must advise the Council to adhere. The principles which guide us in these matters are quite clear; we try to reconcile the interests of public and private business and the interests of members of different creeds. It is not altogether an easy task, and it will be within the recollection of Hon'ble Members that when we made a recent change curtailing the number of Hindu holidays under the Negotiable Instruments Act, it was not altogether favourably regarded by some of our Hindu friends. The whole list hangs together, and we should not interfere with it unless for very strong reasons. The Muhammadan community has a right to expect that we should respect their susceptibilities, which we endeavour to do, and that we should give their community a reasonable share in the total list, which we also try to do, but I am afraid we cannot hold out any expectation of doing more. On behalf of Government we are not prepared to accept this resolution."

The Hon'ble MAULVI A. K. FAZL-UL-HAQ said :—

"My Lord,—I beg to support this resolution because I think that the matter is of such importance to my community that I should not give a silent vote when this question has come up for discussion in this Council. It is true that, as the Hon'ble Sir Henry Wheeler has pointed out, that holidays can be divided into three classes. Those under the Negotiable Instruments Act necessitate a practical cessation of business all round. The recommendation, however, contained in this resolution is not for a holiday under the Negotiable Instruments Act and we therefore need not consider that aspect of the question. Then there are holidays of the second class in which all courts and offices are closed and it is open to private employers of labour and other parties to suspend business or not. So far as the courts are concerned, if it is merely a holiday for the Muhammadans it causes inconvenience to members of that community because there are cases in which the parties happened to be Muhammadans or the legal advisers engaged on either side happened to be Muhammadans and the cases cannot be stopped in the interests of the Muhammadans without stopping the whole business of the court. Therefore, in case of holidays of this class it comes to this: that Government offices and courts and other places of business with which Government have got any concern have to suspend their business on that particular day. Then there comes the third class of cases in which Muhammadans are permitted to absent themselves but the work of the office goes on as usual. Under this class of holidays Muhammadan employees can be allowed to absent themselves from office, but so far as the courts are

concerned the business goes on as usual. Therefore, it will be seen that holidays of the third class in which Muhammadans are allowed to absent themselves do not touch offices of private employers nor do they touch courts or other public places of business with which the Government is concerned. It is only Government offices, for instance the Secretariat, which can be called upon to allow Muhammadan employees to absent themselves on that particular day. I feel that no argument has been advanced on behalf of the Government in refusing to accept this resolution, which I, for myself, can accept as convincing on behalf of the Muhammadan community. The holiday that is asked for is only for one particular day and it is only for a small section of Government officers. If there is to be a dislocation of business at all it would be of such minor character as not to interfere with the work. At the same time it will be a great concession to members of the Muhammadan community because this festival is an important festival after all. The instance which Sir Henry Wheeler has referred to was the one which took place in Birbhum and it caused a sort of indignation amongst the Muhammadans in that part of the country. We are told that there is no order from the Government that in cases of Muhammadan employees absenting themselves they are required to furnish substitutes for themselves. In spite of the absence of such an order the head of the office actually called upon the Muhammadan employees before they could be permitted to leave their work to furnish substitutes This is a most arbitrary procedure and the fact that a thing of this kind could occur, necessitates the taking of some definite action in this matter. In spite of the existence of this circular, a case like this has happened and who knows that a case like this would not occur again elsewhere. Only in this particular case, my friend here was on the alert as soon as he came to know of it and I have no doubt that a thing of this kind will not recur in that district, but there are places where my co-religionists are not so active or wakeful to their interests in which orders like this might be disobeyed. It is true that there is the circular, but it can be more honoured in the breach than in the observance thereof. My Lord, in my opinion the instance that occurred at Birbhum may afford an opportunity not merely to renew the circular so far as that particular district is concerned but it may also be circulated all over the Presidency. A reference might be made and distinct orders issued that things of this kind should not occur. If this is done, I cannot say whether that will be acceptable to my friend or not, but so far as the resolution is concerned, I support it whole-heartedly."

The Hon'ble MAULVI ABUL KASEM said :—

"My Lord,—When I asked for a holiday I never meant that it should be a holiday under the Negotiable Instruments Act. The Hon'ble Sir Henry Wheeler has said that two or three days have been added to the list of holidays at the request of the Hon'ble Mr. Ghaznavi. But if I remember rightly the only thing that was done at the Hon'ble Mr. Ghaznavi's request was to transfer three Muhammadan holidays from Class II to Class I, and so far as this question of Sabibarat is concerned I think my community will be satisfied if some means be provided by which Muhammadan employees of public offices could absent themselves from their offices without incurring the displeasure of the heads of offices and by which the Muhammadan public, by which I mean Muhammadan pleaders, mukhtears and witnesses are not made to attend to their business on that day. If any means can be found for this I think that will satisfy the members of the Muhammadan community, because there is no reason why it should be necessary to give a holiday to the rest of the people in this province who do not want a holiday. I beg to submit to your Excellency one fact that if the circulars are not given effect to and that fact is brought to the notice of the Government or of the public the result is, of course, that

something is done about those circulars. But it also results in the Muhammadans of the locality incurring the displeasure of the District Officers and they are sometimes put to trouble as some of them have been at Birbhum. I hope, my Lord, that Government will protect them from these difficulties. With these words I beg to withdraw my resolution."

The Resolution was then, by leave of the President, withdrawn.

LIST OF BUSINESS—ITEMS Nos. 15—19.

The President said :—

"I have received an intimation from the Hon'ble Babu Akhil Chandra Datta that he cannot be present at the Council meeting to-day and he has asked me whether under these circumstances the resolutions which stand in his name can be postponed. But he has given me no reason for making this request. Under these circumstances, I consider that I should not be acting in accordance with the spirit of the rules or in accordance with past practice if I were to accede to it. I may point out, however, that it is open to any other Hon'ble Member who is present and who takes an interest in the motions which stand in the Hon'ble Babu Akhil Chandra Datta's name to move them in his place if they so desire."

The Hon'ble MAULVI A. K. FAZL-UL-HAQ said :—

"Will your Excellency kindly permit me to say a word. I know that after a resolution is moved or is withdrawn no similar resolution can be moved within a period of one year. But I do not know what happens if a member is absent and cannot move his resolutions. In such a circumstance, is it permissible to bring them up again?"

The President said :—

"If they are not moved then the resolutions go by default. That is equivalent to a resolution being withdrawn. That is why I brought to the notice of the Council that if any member wishes to move these resolutions he is entitled to do so."

The Hon'ble RAI RADHA CHARAN PAL BAHADUR said :—

"If the resolutions go by default can they be moved either in this form or in any other form within a year?"

The President said :—

"No, I do not think I could accede to that request because that would be equivalent to reversing the ruling I have just given. I want to make this point quite clear. The postponement of a resolution after it has once been admitted for discussion rests with the discretion of the President. The practice has been that the postponement shall not be permitted unless the mover who desires to have his resolution postponed gives an adequate reason for his request. In this particular instance the Hon'ble Member has given no reason at all. Under these circumstances, I consider that I have no option but to refuse his request."

Resolution.

Babu Surendra Nath Ray.

LIST OF BUSINESS—ITEM No. 15.

The Hon'ble BABU SURENDRA NATH RAY, in the absence of the Hon'ble BABU AKHIL CHANDRA DATTA, moved the following resolution :—

This Council recommends to the Governor in Council that the annual exodus of the Government of Bengal to Darjeeling be discontinued.

He said :—

"My Lord, in January last I wanted to move the following resolution in this Council : 'This Council recommends to the Governor in Council that a Committee be formed consisting of official and non-official members of Council and report (1) as to whether the annual exodus to Darjeeling of nearly all the offices under the Government of Bengal, with their departmental heads, as is the practice at present is necessary, and (2) if necessary, what steps should be taken to curtail as far as possible the expenditure on such exodus.'

The above resolution, which was quite a modest one, was however disallowed under Rule 9 of the Resolutions Rules. I was therefore obliged to discuss the question of the exodus to Darjeeling in my last Budget speech in this Council. The question that I then raised was whether it was advisable to incur a large amount of money, nearly a lakh of rupees per annum, for the exodus to Darjeeling. The question practically remained unanswered by Government. It seems to me that the Government are very reluctant to appoint committees whose deliberations might bring to light many facts which Government may not like. The cost of the exodus to Darjeeling is increasing every year. During the administration of Sir Stuart Bayley in the years 1889 and 1890 the cost amounted to Rs. 29,786 and Rs. 29,780, respectively, while it was Rs. 96,568 in 1913 and Rs. 91,843 in 1915. In the year 1914, however, it was Rs. 68,749. The reason for this increase, from Rs. 29,000 to about a lakh of rupees, is not far to seek. While formerly only the Lieutenant-Governor and his Secretaries and occasionally the members of the Board of Revenue used to go to Darjeeling, now every head of a department, even the Inspector-General of Police, the Registrar of Co-operative Societies and the Director of Agriculture whose work is wholly in the plains thinks it necessary to run up to Darjeeling twice every year in order to do the work 'efficiently.' While the District officials, the European covenanted Subdivisional Officers, even the Commissioners of Divisions and District Judges, the Chairman of the Calcutta Corporation and the Improvement Trust, can work in the plains ungrudgingly from year's end to year's end and have done so from the time that the British Raj was established and before the expensive innovation was introduced, why should not the officers of Government, who have been fortunate enough to be heads of departments, think it necessary to go to Darjeeling to do their work. Is the work done by the heads of European mercantile firms or of the Banks in Calcutta less onerous than that of those Government officials who go up to Darjeeling? Unfortunately this theory that more work is done at Darjeeling than in Calcutta or that the work is done more efficiently was exploded by His Excellency Lord Carmichael in his reply to the address of the Darjeeling Municipality on the 1st November last. He said, 'I am afraid I cannot agree with those who profess to think that far more work is done in the hills than in the plains. In Bengal, at any rate, that is certainly not the case. When dealing with these files from which there is never any escape, I have often wished that Darjeeling were nearer Calcutta so that I might have got the information I needed quickly, but I was pleased to move for my enjoyment and for the sake of my health. Though I know that if I had been in the plains I could have done more work. I know, too, that many of my friends, especially of those who seem to me to work hardest, think the same thing and I cannot see why

Resolution.

Babu Surendra Nath Ray; Maulvi A. K. Fazl-ul-Huq.

we should not say so.' The *Englishman*, the leading Anglo-Indian journal of Calcutta, said at the time that 'the annual migration was a waste of money.' New healthy Calcutta, with its electric fans, is not what it was a quarter of a century ago. It is necessary that Government should always remain in touch with the people, should be in the midst of public opinion, should be in the centre of political life of the country and should be in the midst of men of business. To issue Resolutions and Communiques or mandates from the cool heights of the Himalayas does not unfortunately serve any useful purpose.

I for my part do not see any objection to your Excellency going to Darjeeling occasionally with your personal staff and a Secretary. We object to the annual migration to the hills. We object to the Government of the country being carried on from Darjeeling for more than one-third of the year because we believe that the Government of the country cannot be conducted in the sublime heights with the same efficiency as in the city and the centre of life of Bengal. There is no one to take care of the affairs of the people of Calcutta at a critical time, no one to whom the people could represent their grievances. The people in the mufassal can go to the District Magistrate or the Subdivisional Magistrate for the redress of their grievances, but the people of Calcutta nowhere."

The Hon'ble Maulvi FAZL-UL-HAQ said :—

"MY LORD—I beg to associate myself with what my hon'ble friend Babu S. N. Roy has said and to support the resolution because not only am I in sympathy with the spirit of the resolution but because I really confess that I wish to have a revenge on the Government for having rejected my first resolution. It is somewhat difficult to understand that I, an advocate of separatism, should stand up now and support a resolution which means in effect the recommendation for keeping the entire body of heads of departments at Calcuta. But, my Lord, after the rejection of my resolution things have changed and I must accept the position to which I have been driven and I must also admit that although I held a different opinion—very possibly I was wrong in the interests of administrative efficiency that all the departments should be located at Calcutta and there should be no break in the machinery of Government. I really fail to see when these two resolutions were in the agenda, Government did not see their way to accepting mine and thus converting me from an enemy to an earnest supporter. All that I would say is that the very same arguments that have been advanced against me could be advanced in favour of this resolution. Briefly speaking, the one argument that is advanced in favour of the Darjeeling exodus is the ground of benefit to the health of the heads of departments concerned. My friend who has moved this resolution on behalf of the Hon'ble Babu Akhil Chandra Datta has pointed out that high Government officials such as Commissioners of Divisions and also merchants and heads of mercantile firms stay all the while in the plains and carry on their work and it is rather inexcusable why heads of departments should be induced to leave Calcutta and go up to Darjeeling for the purpose of what they call the greater facility for the carrying on of administrative work. My hon'ble friend has not mentioned the High Court Judges who stay in Calcutta throughout the year and are none the less worse for the fact that they have carried on their work under somewhat unfavourable climatic conditions. If therefore all these high officials can carry on their work it is not quite easy to see how this argument of benefit to health can be put forward. It may also be pointed out that when this exodus to the hills was first decided on, Calcutta was much less healthier than it is at the present moment. The climatic conditions have improved. The difficulties which a European meets with in passing his

days in Calcutta and the inconveniences owing to weather conditions have minimised to a great extent, and it is at the present moment not so uncomfortable, even in the hottest days of the year to live in Calcutta, owing to the amenities of electric fans. That argument therefore does not hold water at all at the present moment and there can be no question, although I was at one time not disposed to accept it, that the separation of some of the parts of the administrative machinery from the main part does to a certain extent injure the administrative machinery. In these circumstances and in view of the fact that public opinion is growing steadily against the Darjeeling exodus, it is time that the whole matter should be reconsidered and out of deference to public opinion, this exodus to Darjeeling should be abandoned. My friend has pointed out that it entails an expenditure of about a lakh of rupees and it is also a problem to be considered whether in the present time of financial strigency when many a scheme has had to be withheld on the ground of want of funds, a lakh of rupees should be allowed to be spent simply to allow the heads of departments a little holiday—if I may say so—in the hills at the public expense. I am told by some who know much better than myself that the Secretaries cannot do so much work at Darjeeling as they can at Calcutta. I do not know whether that is a fact—I may be mistaken. At any rate, it is an agreeable passage from the heat of Calcutta to the cool hill-station of Darjeeling. I hope, however, that the heads of departments should be prepared a little to forego it in the interests—if not for anything else—of financial considerations which are involved in this question. With these few words, I beg to support this resolution."

The Hon'ble MR. ALTAF ALI said :—

"My Lord, I had no wish to take part in this debate at this hour of the day, but I cannot help speaking a few words in connection with the resolution that has just been proposed by the Hon'ble Babu Surendra Nath Ray. My Lord, I do not really understand on what grounds the Hon'ble Member recommended that this exodus as he calls it should be discontinued. I could not also quite understand my friend Maulvi Fazl-ul-Haq's argument. I understood this much that they were going more on the financial question. After the establishment of the Presidency of Bengal when Your Excellency's stay for two months at Dacca was settled then Mr. Fazl-ul-Haq was anxious that some important departments of the Government, if not all the departments, should come up to Dacca every year and make a stay of two months here. In fact this morning we had a resolution to this effect. I think this move of all the heads of departments with their offices from Calcutta to Dacca entails certain amount of expenditure. I am not in a position to say whether the trip to Darjeeling costs more than this move to Dacca. Apart from that, being a resident of the Rajshahi Division, I feel it my duty to strongly oppose the resolution on the ground that if the trip to Darjeeling is discontinued we would miss Your Excellency and the several Secretaries and other high officials of Government and particularly miss them from within the Rajshahi Division."

The Hon'ble RAI MAHENDRA CHANDRA MITRA BAHADUR said :—

"My Lord, as I was listening to the admirable speeches I thought I need not speak at all, but as the Hon'ble Babu Akhil Chandra Datta is absent and the Hon'ble Babu Surendra Nath Ray, so to say, I as been delegated to speak in support of his favourite resolution, I think it my duty to support it, and I do support it on various grounds. The first ground is that being a Calcutta man I like Your Excellency and Your Excellency's Council and all heads of

Resolution.

Rai Mahendra Chandra Mitra Bahadur : Mr. Aminur Rahman.

departments to be in Calcutta just as my friend the Hon'ble Maulvi Fazl-ul-Haq likes to move them all to Dacca. My idea is quite different and I like them to stay in Calcutta. Secondly, this question involves a very important point and it requires very serious consideration. If at the present time Your Excellency's Government can save a lakh of rupees annually it will be a great gain. On the other hand, it will be argued that the health of the heads of Government may be affected, but I am not inclined to accept that. Work can be done in Calcutta very successfully and in Dacca. My second ground is that although it involves a question of some importance it may be tried even for a year and the work may be allowed to be carried on in Calcutta. The third ground is that the heads of the important offices cannot consider that they have got a prescriptive right—a right which has been enjoyed for many years—but they should adapt themselves to circumstances. My humble submission before Your Excellency is that they may consider whether the proposition is worth consideration or not. My fourth ground is an appeal to the officers themselves whether they can forego this concession. This will be of great advantage at this critical time. I lay great stress on this particular point and I do emphasise that it is for them to consider whether on such an occasion this trip to Darjeeling should not be discontinued. My Lord, I speak in support of my friend's resolution because I am persuaded to support it."

The Hon'ble MR. AMINUR RAHMAN said :—

"My Lord, the proposal made in this resolution has been the subject of acrimonious discussion on the platform and in the press. The findings of the Mesopotamian Commission have raised the question in all its fury again and I am not sure if this resolution has not suggested itself in circumstances which are familiar to us. It is difficult to say why the officials thought it advisable to migrate annually to a hill-station with all the paraphernalia of Government and in spite of the enormous expenditure that the exodus entailed. It may be that members of the governing body, once they had a taste of the cooler atmosphere of Himalayan heights, thought it would be a good thing if they adopted a policy by which they could perpetuate a method of enjoying the beauties and advantages of a hill-station. I do not think that there is much in the argument often adduced in most responsible quarters that officials can do better work during the hot season in Simla or Darjeeling than they can in the plains. This practice of carrying the whole establishment of Government from Calcutta to Darjeeling is of very recent growth. It is not even 30 years old. It is difficult to understand how the older members of the Civil Service who came to this country before the introduction of this practice ever carried on their work in the sweltering heat of Calcutta without even uttering a word of protest, and it is strange and curious that in all criticisms that are levelled against the Government we find a consensus of opinion that the older type of civil servants who used to carry on their work with touch of human sympathy moving about amongst the people were far more efficient and better loved and respected than any other body of men. Even now the district officers go on doing their work year in and year out with very little leave in the plains often in scandalously unhealthy districts. If the plains are good enough for these hard-working and responsible Government officials surely they are good enough for men who have passed the best years of their life as District Magistrates. We do not grudge a short respite from the strain and stress of their official life to men who have grown grey in the service of the State. But it is a different thing, which is open to very serious objection, when the whole body of officials go over to a place far away from the centre of the various activities of the people and live a life of comparative ease and comfort for very nearly half the year."

Resolution.

Rai Debender Chunder Ghose Bahadur; Rai Radha Charan Pal Bahadur.

The Hon'ble RAI DEBENDER CHUNDER GHOSE BAHADUR said :—

"My Lord, my personal sympathies are with those who go to Darjeeling. I have been going to Darjeeling for the last 40 years. So far as I can remember Government officials were in the habit of availing themselves of the climate of Darjeeling at least for some weeks every year. I remember Sir Richard Temple spending a summer there and it was he and Sir Ashley Eden who brought Darjeeling within easy reach of Calcutta. That being so, I do not share the feeling of resentment expressed by some members who make it a grievance that a good deal of money is spent in the exodus of members of Government to Darjeeling. I believe that you can do more work in the hills than you can do in the plains in summer. That is a belief which is not based on other people's knowledge, but on personal experience. That being the case, I think it stands to reason that in the interest of public service we the tax-payers should not grudge the members of Government and others responsible for the administration of the country from enjoying the bracing climate of the hills in order that they might be able to do better work there and when they came down to the plains. I can quite understand the growing feeling amongst some against the exodus because of the increasing expenses connected with it as has been shown by my Hon'ble friend Babu S. N. Ray. But so far as I know, it is not a fact that every official who goes to Darjeeling does so at Government expense. My information is that the heads of departments go to Darjeeling at their own expense and they go for a limited time only. The cost of the exodus has increased no doubt, and the increase is due to various reasons. It has no doubt increased since Sir Stuart Bayley's time. But then the number of officers who used to go to Darjeeling was considerably smaller than what it is now. There are other officers now who go to Darjeeling some time every year to seek the advice of Government and this is also one of the causes for the increase. I think that the cost may be cut down, but if we are to recommend to the Government that the exodus should be stopped wholesale, it would be preposterous. There is another thing to be considered. If it were resolved to stop the Darjeeling exodus it would be very difficult to persuade English statesman to come out and take up the Governorship of this Presidency. I would therefore vote against the proposal."

The Hon'ble RAI RADHA CHARAN PAL BAHADUR said :—

"My Lord, I was not prepared to speak on the subject until this morning because some of us believed that the discussion of this resolution would be taken up at a later meeting of the Council, but unfortunately the rules stand in the way. My Lord, it is at an unfortunate moment that this Mesopotamian inquiry has been taken up and have commented against the annual exodus of Government to the Hills. I do not exactly remember whether they have made any specific recommendation, but so far as I know the observations of the commission in their report have given rise to the agitation. I should not at the same time gainsay the fact that it is not the first time that the agitation has arisen, as I remember that in the year 1884 this question was taken up by public bodies and notably by the Chamber of Commerce and the British Indian Association. My Lord, the Hon'ble Babu Surendra Nath Ray has given some figures of the growing expenditure on the Darjeeling exodus. I remember in the days of Sir Ashley Eden and before him when people had to travel in carts and tongas, and when other inconveniences existed, the Lieutenant-Governor and his staff used to spend a month or six weeks at Hazaribagh or some such place when it was very hot in Calcutta. But of course the development of the railway system has changed all that. I believe the Darjeeling-Himalayan Railway was opened in 1880, and I remember that there was a grand fête at Darjeeling on that occasion to which many notable persons were

Resolution.

Rai Radha Charan Pal Bahadur; Sir Henry Wheeler.

invited. Since that time Darjeeling attracted many people. But in those times all the heads of departments had not the privilege of going to Darjeeling. Except a few Secretaries none stayed with the Government at Darjeeling. But now most of the heads of departments follow Government to Darjeeling and stay there. Many of my own countrymen have to migrate annually to Darjeeling, but I do not think that all of them would like to go there. My Lord, it has been urged that if we want to have a nobleman from England as our Governor we should not give up Darjeeling. We must certainly consider the health and convenience of our Governor and in that respect I confess it is rather difficult to accept the resolution as it stands and that is the reason why we wanted to consider the matter. Further, there is another point on which we might have some information from the Hon'ble Member in charge as to whether it is intended to curtail the expenditure incurred by the Darjeeling exodus. I must confess that Englishmen, even when fresh from England, have always shown enough self-sacrifice whenever the exigencies of the State demanded it. I remember Lord Northbrook, who was in Simla when the terrible Bengal Famine of 1874 broke out, and he came down to Calcutta with his staff including Major Baring (afterwards Earl Cromer) and, accompanied by Sir Richard Temple, toured in the province during the prevalence of famine and both stayed in the plains throughout that period. Personally, my Lord, I would prefer to go to Darjeeling for one month when it is very hot in Calcutta instead of staying there for some months, and I sympathise with all those and specially with my Hon'ble friend, Mr. Bompas, who has to walk from gully to gully during the hot weather in Calcutta, but I do not know whether he would like to stay down in the plains when he becomes a member of the Executive Council. It is not strictly correct to say that more work can be done in Darjeeling than in Calcutta. Sir Henry Harrison who held the office of the Chairman of the Calcutta Corporation for ten years spent the whole of that time in Calcutta with occasional leave, of course, and he used to work from early morn till late at night for he was a very laborious man. So I do not think the work will in any way suffer if it is carried on in Calcutta, but at the same time I must say that although we wish that there should be curtailment of expenditure in connection with the exodus, I think that facilities should be given to officers to avail themselves more often of privilege leave so that they may maintain their health.

The Hon'ble SIR HENRY WHEELER said :—

"My Lord, the resolution we have now before us raises a very old controversy, and like all old controversies it has attracted around itself in the course of time a certain amount of misconception and, possibly, a certain amount of unconscious prejudice. We have had an amusing instance to-day of a frank avowal of conscious prejudice on the part of Mr. Fazl-ul-Haq, when he tells us that his attitude towards this resolution will be decided by the treatment accorded to another and different resolution but by unconscious prejudice I refer to the kind of feeling—perfectly human and intelligible—which is engendered by a residence in the plains on a hot day in May, when one may well say in exasperation : 'Why should I be grilling here while others are enjoying the coolness of the hills.' But, although the controversy is an old one and one which in some ways divides the official and non-official communities, it is a matter of satisfaction to me this afternoon that I have found support from at least two Hon'ble Members who recognise some of the factors in our position, thus relieving me partially from the odium of standing here alone as a mere selfish defender of vested interests.

In the descriptions which we have had from certain speakers of the so-called exodus we have heard, it is true, some of the adjectives which are ordinarily applied to that move, but I cannot but express a certain amount of disappointment that in the matter of word-painting Hon'ble Members

Resolution.

Sir Henry Wheeler.

have not risen to the heights which are usually associated with the occasion. For instance 'Himalayan eyries,' 'hill-top Government,' 'Olympian heights,' 'basking on the mountain sides' are all hallowed words in this connection of which we might well have expected the repetition, while it is almost a disappointment not to have found ourselves called 'lotus-eaters.' From what we hear and read about this subject we might indeed draw a picture of a Government which at the first sign of a thermometer rising above 90 degrees, gathers together its manservants and maidservants throughout the province and betakes itself to a high mountain, expressing the cheerful hope as it leaves the Sealdah station that it may have the good luck to find the province still surviving when it comes down again in the cold weather. Arrived on the mountain tops it sinks into a complacent slumber, disturbed only by occasional midnight revels or bumble-puppy gymkhanas. Meanwhile the toiling millions remain below, alone, untended and unheeded.

That is the kind of picture which really sums up much of what is said on the subject, and I would ask the Council to consider whether the real facts are quite as bad as they are painted. What are the real facts? The real facts are that the district machinery of Government remains intact throughout the year in the districts and in Calcutta. I must say that the remarks of the Hon'ble Babu Surendra Nath Ray filled me with some astonishment when he said that in Calcutta there is no one in the hot weather before whom the people can lay their grievances. Surely there are the same local officers who are present in the cold weather, and what is really involved in the rather high-sounding word 'exodus' is that certain officials, mainly Members of Council, Secretaries and Heads of Departments, go to the hills from about the middle of April to the middle of June, and again from about the beginning of September to the end of October, and are permitted to do their work in Darjeeling. The number of these happy officials, by the latest figures I have before me, is about 34, and the cost, also on the last year's statistics, is about Rs. 91,000. These are the facts. It is not even for the whole hot weather that Government goes away, nor is it the whole of the Government that goes away, but merely a section of it which goes for two short periods divided by the period of their residence mainly in the town in which we now find ourselves.

Well, my Lord, these being the facts, what are the conditions which have brought about the present practice. It seems to me obvious that if work could not be carried out in these circumstances, the system could never have grown up; it would have broken down under its own weight. It happens, however, that Secretariat work is such as can be done for a part of the year in Darjeeling. As is well known to most Hon'ble Members, Secretariat work is largely concerned with reports. We have various agents scattered throughout the province, doing the first-hand business of Government and things from them come up in the form of reports for information, sanction, approval, and what not. That is one large field of Secretariat activity. Apart from that, there are such matters as projects of administrative reform and legislation, which are all worked up on the basis of reports collected from a wide field of official and non-official opinion, while, in addition, there is the general running of the administrative machinery in so far as it is concerned with cadres, appointments, finance and the whole centralised business of the province. Much of that work is paper-work. Anybody taking an efficient part in the work of Government must of course have the experience which comes from knowledge of men and contact with them, but my point is that that knowledge and contact are not destroyed by this four months' absence during which the Secretariat finds itself in Darjeeling.

That being the character of the work, I would next emphasise the continuous strain of it. I have been told that it was a saying of the late Mr. Gokhale

Resolution.

Sir Henry Wheeler.

that the Secretariat wheels certainly grind slowly but not always very small ; but I do not think the strain involved in keeping the wheels going round at all is quite appreciated. The stream of files, cases and papers which come before the Secretariat is almost unceasing, and unfortunately, with the development of administration in recent times, it shows little sign of diminution. That means that for the efficient handling of these papers, steadily and regularly, men must come to office and remain in office working hard and incessantly, day after day, with their faculties very much on the *qui vive*. The work is continuous and there is very little relaxation. Further, it scarcely needs elaboration to show that the work is responsible. The affairs of a large province like Bengal and decisions on matters affecting its whole area cannot but entail issues of extreme importance.

Therefore, you have continuous and responsible work, and next you have that work done, for the most part, by men who, inevitably, are not unfortunately in the first flush of youth. Members of Council, Secretaries and Heads of Departments will naturally be the senior men in the Services, and for the preservation of their energy in full flood they require a treatment which a younger man can do without. These are the three classes which form the greater part of the officials who go to the hills. Junior officers, such as Under-Secretaries, under a recent order only go up for part of the time, and this order is evidence of the desire of Government to reduce expenditure on this move as far as possible. Again it is only right to emphasise the point, which has been noticed by one of the speakers to-day, that Heads of Departments do not go to the hills at the public expense. They pay their own expenses.

That is the kind of work you have done in the Secretariat and the class of men who do it. The only other point is that the work for its efficient performance requires continuity of tenure. We often hear a great deal about transfers, and transfers are undoubtedly a hindrance to administration. But as far as possible in the Secretariat and in the cases of Heads of Departments an endeavour is made to avoid changes by expecting a certain length of tenure. Thus the Head of a Province and a Member of Council ordinarily stay for five years, and Secretaries and Under-Secretaries for three years. It is essential for the smooth working of the machinery that there should not be constant absences or short breaks among the personnel, and that answers the suggestion of the Hon'ble Rai Radha Charan Pal Bahadur, that all difficulties could be met if men in the Secretariat were constantly absenting themselves on short privilege leave.

These being the conditions under which work is done, we come to what, to my mind, is the justification of the present practice. Work of the kind explained can be done more efficiently by allowing the men who are doing it to go to the hills for these two short periods. It seems to me obvious—and in fact it has been admitted this afternoon—that the bodily health and mental vigour of men who can escape from the plains in April and May and in September and October are enhanced by this respite from the heat, while better health and keener energy should ensure a higher standard of work done. That is the kernel of the case for the move to the hills, that it makes for efficiency ; that the work does not suffer by the practice ; and that whatever cost is entailed in the move is recouped by the better quality of the work which is turned out. That seems to me to be an adequate justification.

The disadvantages which are alleged have mostly been referred to this afternoon. The first is possibly based largely on the stories of a well-known writer and is to the effect that Government spends its days in the hills in one round of idle gaiety. That is a charge which I am not prepared to admit, nor do I think that it is admitted by men who have any real experience of the system, and I have known the system both at Simla,

Resolution.

Sir Henry Wheeler.

which is supposed to be the burden of that particular author's song, and at Darjeeling.

Another argument that is often urged is based on the total cost involved, but if my contention is correct that you gain in efficiency all round, then I maintain that the price paid is by comparison trifling. I would like to correct an impression which might be created by a remark by one Hon'ble Member that the cost of the move is steadily increasing. That is not correct. It is true that the cost of the move is greater now than what it was in the earlier days of the province, but that is largely the sequel to the general increase in the cost of administration owing to the appointment of more men to deal with the new activities on which Government is constantly embarking and the increasing volume of work. But the present figure, Rs. 91,000, which I have already mentioned, compares favourably, for instance, with Rs. 98,000 which was incurred in 1904 and Rs. 1,17,000 in 1907. It is not the case that the cost of the move is growing in a constantly ascending scale.

Then, Sir, another argument is that business is very badly dislocated while the officers are in transit. I do not think any Hon'ble Member has referred to this point, though I happened to see it mentioned in a well-known reprint which one of the Calcutta papers produced the other day. It was stated that the dislocation caused by the move practically put the work of Government out of gear for, I think it was calculated, several weeks in the course of the year. I can only say that under arrangements such as are now in force at the time of the move to Darjeeling there is no reason why there should be any appreciable interruption in the conduct of business.

Then we come to another point of which we have heard much this afternoon, namely, that the move to the hills takes Government out of contact with the people whose affairs it is supposed to manage. Here, again, there is frequently much misconception. In the first place what are the practical limitations of this contact which is so essential to good government. It is clearly impossible for Government to be present bodily at every place or even at every important place in the province. The best it can do is to have its headquarters somewhere from whence it can move, either as a whole or by the agency of individual members, to the various parts of its jurisdiction as the necessity for so doing may arise. What the argument about maintaining contact really means, as in fact has been admitted to-day, is that Government should always remain in Calcutta. Well, Sir, my first point is that Government is already in close contact with Calcutta, accessible to people there, and known to people there, thus fulfilling the conditions which are essential for efficiency, while its absence for these two short spells does not break that contact. Secondly, Sir, even while Government is away, that touch can be maintained. In modern days like these it is obvious that even at a distance contact can be kept up. The post office, telegraphs, the press, public meetings are all ready channels of communication available for keeping Government apprised of the doings and thoughts of people who are actually at some distance from them. Finally, it is an arguable point in so far as the question of contact reduces itself practically to the contention that Government should always be in Calcutta, whether it is not advantageous for Government during some period of the year to be away from Calcutta. Calcutta is and always must be the most important city in the province, and, as we all like to think it, the most important city in India; but it is not the whole province. Its problems and conditions are peculiar to itself, while the problems of the districts are peculiar to the districts, and it does not necessarily follow that by judging all problems through the spectacles of Calcutta we are best serving the interests either of the administration or of the people. I say this without any disrespect, for, or want of appreciation of, the importance of

Resolution.

Sir Henry Wheeler ; Babu Surendra Nath Ray.

Calcutta. It is the predominant factor in the administration of the province, but there is the other side.

Well, Sir, that is the defence that I would take as regards this move to the hills. That work there is done effectively ; it is not done at a disproportionate cost, and the disadvantages—which we are told the system entails—are not so real as some Members would like us to think.

Of the details which have been raised in the course of debate there are few which are not covered by what I have already said. A reference has been made to the views of Lord Carmichael, and it would not be proper that I should pass them by in silence, as they are entitled to the respect due to his great experience, sagacity and judgment. But they were his personal views. I do not think they are shared by the majority of men who are concerned with work at the headquarters of Government and whose experience of this country is longer than Lord Carmichael's. It is noticeable that within a few months of Lord Carmichael's statement the Hon'ble Mr. Lyon, my predecessor in office, expressed a directly contrary opinion.

Then, Sir, we have had the case of the High Court mentioned, but one Hon'ble Member has already pointed out that the conditions are in no sense analogous in so far as the judges betake themselves to Europe for about ten weeks, and this total absence from the country must surely cause a larger dislocation of business than anything that can be attributed to the move to Darjeeling.

The whole thing comes down, I think, to a question of practical fact. Is it the case that since the practice of spending a portion of the year on the hills has been in force Government is divorced from the interests, affairs and sentiments of the province? Is it the case that Government is not reasonably aware of what is passing in the minds of the inhabitants of the province and of the conditions appertaining to their welfare? These are the practical questions, and to ensure a condemnation of the present practice, they should be answered in the affirmative, while I submit that the contrary is the fact. For all these reasons, I would put it to the Council that there is more to be said for the present system than perhaps some of them are inclined to believe."

The Hon'ble BABU SURENDRA NATH RAY said :—

My Lord, I was very much surprised to hear the speech of my Hon'ble friend, Rai Debender Chunder Ghose Bahadur, on the question of the Darjeeling exodus, but when I remember that he has been fortunate enough to lead an easy life for the last 25 years my surprise became less. He must have worked for nearly 40 years, but does he think that the District Judges with whom he worked were doing their work inefficiently because they were doing it at Alipore and not at Darjeeling? There are about 29 districts in the Presidency of Bengal at the present time and there are, I think about 20 European covenanted members of the Civil Service who are Judges in charge of them. I think they work from year's end to year's end without going to Darjeeling, but do you mean to say that these conscientious Judges do their work inefficiently? There are five Commissioners of Divisions of which only one is fortunate enough to go to Darjeeling now and then and is it to be said and is it a fact that all the other Commissioners of Divisions do their work less efficiently than any head of department under Government? Subdivisional Officers who are covenanted members of the Indian Civil Service are sometimes promoted as Under-Secretaries to Government. They can then go to Darjeeling though I think Under-Secretaries are only allowed to go up now for six weeks or two months in the year. The same Under-Secretary is then promoted to a District Magistracy and as a District Magistrate he has to work in the plains and not at Darjeeling. Are we to be told

Resolution.

Babu Surendra Nath Ray.

that this District Magistrate works less efficiently than when he was Under-Secretary? Secretaries to Government are promoted to Commissionerships. Are we to be told that they work more efficiently as Secretaries than as Commissioners of Divisions? This is happening every day. What we object to is that all heads of departments should think it necessary to accompany the Government to Darjeeling twice every year. There is no doubt great force in the argument that posts and telegraphs have annihilated distance. Yes, they have annihilated distance, but if we carry this argument to its logical conclusion it leads to this: We have a Viceroy at Simla and instead of a Governor in each Presidency, let there be Deputy Governors and let them with their offices and heads of departments have their headquarters all at Simla and do their work from there because posts and telegraphs have annihilated distance. Within the course of two or three hours telegraphic messages can be sent and replies received and letters can reach only in two days. These are facts to be remembered about the exodus question. What I say is that the Government of a province ought to be in the capital so that the officials may come in contact with the people so that the latter may lay their grievances before them.

Resolution.

Rai Radha Charan Pal Bahadur; Mr. Mackenzie.

LIST OF BUSINESS—ITEM No. 16.

The Hon'ble Rai RADHA CHARAN PAL BAHADUR, in the absence of the Hon'ble Babu AKHIL CHANDRA DATTA, moved the following resolution :—

This Council recommends to the Governor in Council that Government do take into consideration the amendment of the Bengal Municipal Act, 1884 (Ben. Act III of 1884), and of the Bengal Local Self-Government Act of 1885 (Ben. Act III of 1885), with a view to abolishing the system of appointment and nomination of members in the Municipal, District and Local Boards and to constitute them on a purely elective basis.

He said :—

"My Lord, I was under the impression that this resolution would stand over till the next meeting so as to enable the Hon'ble Member, who is the author of it, to move it himself. But I find that, according to Your Excellency's ruling, it will be deemed to be withdrawn and cannot be moved within a year. I have thought it my duty to move it formally, with a view to elucidate the views of Government on the matter embodied in this resolution."

The Hon'ble MR. MACKENZIE said :—

"My Lord, I am sorry to inflict myself on the Council at the end of a very long day, but I feel it is my duty to oppose this resolution.

I do so mainly in the interests of the Mill Municipalities on the banks of the Hooghly.

With the resolution in its wider application I do not feel competent to deal.

I can say, however, with confidence that so far as the Mill Municipalities are concerned no case can be made out in favour of any change from the present system of nomination.

These mill towns owe their existence entirely to the growth of industrial enterprise chiefly connected with the jute trade.

Where a little over 20 years ago there was little but jungle we now have a series of thriving towns, steadily growing in importance and population. It would be safe to say that of the entire population over 95 per cent. is dependent, either directly or indirectly, on the Mills for their livelihood. To give an idea of the importance of some of these towns I cite Titagarh which is purely a mill area and which, according to the Census of 1911, had a population of no less than 72,776. The population of Titagarh is now probably close on 100,000, earning wages in the mills that cannot be far short of a crore of rupees a year.

The percentage of taxpayers in these mill towns is very small. I find on referring to the Bengal Administration Report for 1915-16 that whereas the percentage of ratepayers residing within municipal limits averaged 16·11 over the whole province it varied from 35·8 in Bogra to 3·5 in the mill town of Titagarh.

Some of the Mill Municipalities originally formed part of other municipalities as, for example, Titagarh which I have just mentioned and Garulia which formed parts of the South and North Barrackpore Municipalities, respectively. These Municipalities then as now were constituted on the

Resolution.

Mr. Mackenzie; Maulvi Abul Kasem.

elective basis. At that time there was continual trouble over the administration of the mill areas.

The Mill authorities found it impossible to make proper conservancy arrangements or to carry into effect reforms which they considered absolutely essential for the sanitation of the mill bustees.

As a result of representations made to Government the mill areas were eventually formed into separate Municipalities, Government nominating the Municipal Boards, the Chairman usually being the manager of one or other of the local Mills. These men brought to the Boards technical and engineering knowledge and experience which has proved of the utmost value and the record of progress made by these Municipalities under the *régime* then instituted is within the knowledge of Government. Indeed it stands to reason that the present system must be conducive of the best results. The bulk of the taxes are paid by the Mills who are therefore interested to see that their money is spent to the best possible advantage. One of the chief aims of successful Mill Management is to maintain a healthy and contented labour force and the interests of the workers are therefore synonymous with those of the Mills themselves.

Quite apart from what has been done by the Municipalities the Mills themselves have done a tremendous amount of valuable work for the improvement of the mill areas by the installation, at great cost, of septic tank latrines, by the provision of filtered water for drinking, by the lighting of the streets and by valuable contributions to the improvement of the drainage and the construction of roads.

I should just like to read what is said in the Administration Report of Bengal for the year 1915-16 regarding the working of these Municipalities. It is as follows :—

"The Administration of the Mill Municipalities such as Titagarh, Naihati and Bhatpara which have had their resources augmented by substantial help from the Mills was business-like and efficient."

By way of contrast I might read what is said regarding certain other Municipalities :—

"Other small rural Municipalities, however, were unsatisfactory."

And again :—

"The record of the Municipalities in the Burdwan district is generally unsatisfactory. Of Burdwan it is reported little good can be said : the roads are bad, the drains are not flushed, the water-supply is abused with impunity, the finances are mismanaged and in confusion, the Municipal Board is rent by faction."

"I am not here, however, to decry other Municipalities. I am only concerned to maintain that so far as the Mill Municipalities are concerned, no change is either necessary or desirable, on the contrary to my mind is most undesirable. To suggest as an elective substitute for the present business-like and efficient management a body elected by the votes of an almost negligible minority of the population, most of them illiterate, and to suggest that such a body represents either the taxpayer or the population is to my way of thinking to suggest an absurdity.

On these grounds therefore, my Lord, I strongly oppose the resolution."

The Hon'ble MAULVI ABUL KASEM said :—

"My Lord, although I have every sympathy with the motive which actuated my Hon'ble friend to give notice of this resolution, I am sorry I cannot support it as it stands. In the first place, the resolution asks us to

Resolution.

Maulvi Abul-Kasem; Babu Surendra Nath Ray; Rai Mahendra Chandra Mitra Bahadur.

abolish the system of nomination and demands to have Municipalities and Local Boards to be on a purely elective basis. As it is, it is impracticable. First, because a certain amount of official experience is necessary in conducting the affairs of District Boards and Municipalities, and secondly, because this resolution does not take into consideration the Muhammadans wherever they are in a minority. I think time has come, my Lord, when some further advance should be made in the direction of increasing the number of elected members, but I am not prepared to say that the time has come yet when the elected principle could be introduced wholesale in District Boards and Municipalities. I will not say more on this occasion because I have a resolution on the same subject, but in another form for the next Calcutta meeting. With these few words, I oppose this resolution."

The Hon'ble BABU SURENDRA NATH RAY said :—

"I shall say only a few words with reference to this resolution. I endorse everything that has been said by the Hon'ble Mr. Mackenzie. I represent the Municipalities of the Presidency Division in this Council and I think I have greater experience of mufassal municipalities than any other member of this Council. I have been connected with Municipalities for the last thirty years and I know what the mill-owners have done on both sides of the Hooghly. The mill Municipalities which have been created by their exertions, are being financed by them and in fact they owe their very existence to these mill-oweners. If these mill-owners had not financed these Municipalities they would have been nowhere. I am therefore sorry, my Lord, that I cannot support the resolution of my Hon'ble friend for I know that these mill Municipalities cannot be constituted on a purely elective basis. Then the interest of minorities will also have to be taken into consideration both with reference to District Boards and Municipalities. With these few words, I oppose this resolution."

The Hon'ble RAI MAHENDRA CHANDRA MITRA BAHADUR said :—

"My Lord, as regards the observations of my friend, the Hon'ble Babu Surendra Nath Ray. I may say that I have got a little experience of Municipalities too. I have been a Chairman not of one Municipality but of several Municipalities and I have seen their working for the last 40 years. It cannot be denied that mill authorities have done something for riparian Municipalities, but at the same time I must say that as far as I know the mill authorities are virtually the persons who decide the fate of the ratepayers. Even if the elective system be introduced it would be of no use because the mill employees will be elected as Commissioner of those Municipalities. In fact, if I understand properly the administration of riparian Municipalities I can very safely submit to your Excellency that this is the case. I may refer to the Bhatpara Municipality which is practically a mill Municipality. The mill-owners are busy men, they have got little time to spare and they cannot devote their energy to municipal work although they have money. These are circumstances which ought to be considered by your Excellency's Government. No doubt reports are coming in to your Excellency's Government that the work is very satisfactory, that the drainage works and waterworks are carried on satisfactorily by the mill authorities, but they do not say anything about the grievances of the taxpayers. So far I can say that there is a feeling in mill Municipalities that their Municipalities ought to be constituted on the elective basis. So far as regards mill Municipalities.

As regards mufassal Municipalities which are not mill Municipalities and in which the principle of election was introduced long ago and the elective system is in operation, I would point out that in them two-thirds

Resolution.

Rai Mohendra Chandra Mitra Bahadur; Babu Kishori Mohan Chaudhuri; Dr. Abdulla-al-Mamun Suhrawardy.

of the Commissioners are elected and one-third nominated. The principle of nomination was accepted by Government on the idea that all classes of people would be represented in the Municipal Board. That principle even now is accepted. But the question has arisen whether the elective system is to be introduced *in toto* and it is for your Excellency's Government to decide it. A few of the Commissioners are of opinion that the number of nominated Municipal Commissioners should be reduced from one-third to one-fourth, but in no case I consider that the nomination principle is now to be discontinued because in the mufassil Municipalities we find that the leading men do not come forward on the election ground to be elected as Commissioners, and it is necessary in the interest of Municipalities that they should be and should continue to be Commissioners. Therefore, I do submit to your Excellency that the working of the mill Municipalities is not satisfactory so far as it goes, and I also submit that the elective system as recommended in the resolution does not meet with the approval of all; and if it is thought desirable that the number of nominated Commissioners should be reduced to a certain extent, I would submit that before the question is settled by this Council it is necessary that the opinion of the Municipalities should be taken. It is a very important question and therefore nothing ought to be done in hot haste. The opinions of Magistrates, public bodies and of Commissioners themselves should be taken on the subject."

The Hon'ble BABU KISHORI MOHAN CHAUDHURI said :—

"My Lord, I have been listening with interest to the various opinions expressed by my Hon'ble friends. I am the representative of Municipalities of the Rajshahi Division in this Council and I think that the time has come when the elective principle should be introduced in all Municipalities. Since 1884 the elective principle has been introduced in the majority of Municipalities and since 1885 in the majority of District Boards. There is no reason why after thirty years' experience the people should not be educated enough to know their rights and to be able to manage their own affairs. Even if the elective principle be introduced it will not deprive the District authorities from all control over the working of these institutions. Some of my friends are very anxious to see the nomination system continued, but I do not see where is the advantage of it. If the elective system is introduced people will understand how to manage their affairs, and the affairs that are under the control of the local bodies, I mean District Boards and Municipalities, are of such importance that it is impossible to carry on the work without additional help even when it is under the direct control of the District authorities. So I think that an advance should be made and the elective system introduced if not in its entirety but at least some of the Municipalities and District Boards should be selected and given a right of election *in toto*. Of course, I sympathise with the views expressed by my Hon'ble friend, Rai Mahendra Chandra Mitra Bahadur, that the opinions of local bodies concerned should be taken. But I would remind my Hon'ble friend that time is ripe for us that we should get the elective system at an early date. And if the right of election is granted, I am sure, people will be able to manage their own affairs under the supervision of the authorities. If there be any misconduct the right can be taken away from that local body. It is not right to say that we are not fit to manage our own local affairs."

The Hon'ble DR. ABDULLA-AL-MAMUN SUHRAWARDY said :—

"My Lord, in the interest of the Muhammandan community I oppose this resolution. The abolition of the system of nomination in District and Local Boards would, I am afraid, result in a total disregard of the interests of minorities. It is quite obvious, that even under the existing systems, the

Resolution.

Dr. Abdulla-al-Mamun Suhrawardy: Sir S. P. Singha.

Muslim element is so weak in the Municipalities and District Boards that out of 12 members representing these bodies in this Council there is only one Muhammadan member and, if I am not mistaken, in the Corporation of Calcutta, but for the system of nomination there would not have been a single Muhammadan member. Whatever be the virtues of the elective principle, nomination has its advantages. But for nomination we would not have in this Council the advantage of having the Hon'ble Dr. Nilratan Sarkar as a member, and but for the system of separate electorate, this Council, would not have had the benefit of the presence of my Hon'ble friends, Messrs. Fazl-ul-Haq and Abul Kasem, and without them it seems the work of the Council would not have proceeded far to-day. These are my reasons for opposing this motion."

The Hon'ble SIR S. P. SINHA said :—

"My Lord, on the main discussion I may refrain from saying anything because with the exception of the Hon'ble Babu Kishori Mohan Chaudhuri the House seems entirely opposed to this resolution. I think it is necessary to say a few words. But notwithstanding the diversity of opinion between non-official members of the House Government of its own motion intends to extend the system as far as possible. What are the facts? Under the Municipal Act there is a schedule which at the time when the Act was enacted contained 36 names of municipalities, this is the first schedule, and with regard to these municipalities it was enacted that all the Commissioners were to be appointed by the Local Government, but it was open to the Local Government to remove as often as they liked municipalities from that schedule, that is to say, from a non-elective basis to such elective basis as the Act allowed. The facts are that Municipalities have been steadily removed from the first schedule, and the elective principle has been introduced steadily into municipalities where it had not been in force before, until now of the 36 which were contained in the schedule when the Act was passed, six only remain. Five were removed only as lately as 1915-16, viz., Darjeeling, Nawabgunge, Netrokona, Patuakhali and Jhalakati, so that throughout, from the very year the Act was enacted there has been a steady advance in the way of introducing the elective principle where it did not exist before and Government contemplates going on in the same direction as long as it is necessary and whenever it is possible. But it will be idle to suggest that the elective principle can be wholly introduced in the sense of doing away with all nominations. The Hon'ble members are aware of the object of keeping a certain number out of the whole number of Commissioners eligible not by election but by nomination firstly for the purpose of having some amount of official experience represented on the Boards which might not be otherwise possible, and secondly, of providing for the representation of minorities—in some municipalities Hindoos are in the minority and in some Muhammadans are in the minority and it is absolutely impossible that we can do away with the principle of nomination altogether. But that when the further amendment of the Municipal Act is taken up we hope to extend the amount of election that is permissible under the Act (under the Act it is two-thirds and one-third) and when the minority will not require representation, we may be able to reduce the number of nominations to that extent and to increase the number of elected members, but that will depend upon the circumstances that will arise and it is not possible for me to pledge the Government as to the extent to which we shall be able to extend the number of elected members.

"So far as District Boards are concerned the Hon'ble Members know that under the Act it is only where Local Boards have not been established throughout the area of the district that District Boards are filled not by elected members but by nominated members. When the whole of a

Resolution.

Sir S. P Sinha; Rai Radha Charan Pal Bahadur.

district has been mapped out into Local Boards then a certain number must be elected, the rest being nominated. Well, as a matter of fact, the only districts which have no Local Boards now are Chittagong, Bogra and Malda, so that with the exception of these three and two others which have no Local Boards throughout the area, that is, with the exception of five, the elective system does obtain in every district. It has been in contemplation for some time past to introduce Local Boards into the three districts where there are none and in the other two districts to have Local Boards throughout their areas. If we have not done anything up to now it is because there is soon going to be a change with regard to Local Boards themselves. They are going to be supplanted by Circle Boards and it is hardly any use making a change when we are doing away altogether with Local Boards in the near future. It will be clear to the Hon'ble Members that the Resolution does not recognise the fact that elective principle does exist in almost all the districts, and that the exigencies of the circumstances require a certain amount of nomination to secure official experience and representation of minorities. But the moment this necessity does not exist we will be able to diminish the number of nominated members, but I cannot state when we shall be able to do away with the right of nomination or when we shall increase the number of elected members or the precise way by which we shall be able to increase it.

"It is hardly necessary for me to oppose this resolution, because the non-official members themselves say that it does not commend itself to them: but with regard to the larger question of the enlargement of the elective system, I thought it necessary to tell the House what the intentions of Government are."

The Hon'ble RAI RADHA CHARAN PAL BAHADUR said :—

"My Lord, I am not the author of this resolution, but I am only its foster father. I am glad, however, that this resolution has given rise to an interesting debate. It will serve two purposes. Firstly, in these days when the air is ringing with the cry of larger self-government and home rule, your Excellency's Council will be agreeably surprised to note the tone of moderation and wisdom which prevails in the utterances of non-official members of this Council. They quite appreciate the necessity of powers being vested in the hands of Government to nominate a certain number of representative men on the Municipalities and District Boards to protect the interests of minorities. It also shows that the demand for larger self-government in these matters is quite consistent with the principle of steady and progressive development of the policy of complete self-government within the Empire. Secondly, I am glad that it has given an opportunity to the hon'ble member representing the Government, Sir S. P. Sinha, to explain so lucidly, ably and sympathetically the attitude of Government with regard to the question of the expansion of self-government. Ordinarily I would not have said anything further on this subject, but for the remarks of the Hon'ble Mr. Mackenzie. I have listened with some interest to his speech. We have also listened to the speeches of one of the veteran Municipal Chairmen of mufassal municipalities of long standing and experience, viz., the Hon'ble Rai Mahendra Chandra Mitra Bahadur who has been successively for many years the Chairman of the Naihati, Hooghly and Chinsurah Municipalities. I do not know whether in all the mill municipalities or in some of them the system of nomination prevails. I am informed on the high authority of my hon'ble friend, Mr. Mackenzie, that the nomination system pure and simple prevails, and the result is that notwithstanding the best intentions of Government and even the sympathy of the Hon'ble Mr. Mackenzie who represents the non-official European community of Bengal, the mill

managers, their assistants, clerks and employés swell the Municipal Boards, whereas other people who are interested are more or less excluded. This defect will, I hope, receive the attention of Government and especially of the hon'ble member in charge. It was nearly 33 years ago that the principle of two-thirds nominated and one-third elected members was laid down, and surely the angle of vision has changed in the meantime. Although I am the foster father of this resolution, I do not advocate the entire abolition of the nomination system at this stage, but I hope that before long the proportion will be changed to three-fourths elected and one-fourth nominated members. These are my observations and I am glad that this resolution has been so well and thoroughly discussed and I beg to withdraw it."

The resolution was then, by leave of the President, withdrawn.

LIST OF BUSINESS, ITEM No. 17.

The Hon'ble RAI RADHA CHARAN PAL BAHADUR, in the absence of the Hon'ble BABU AKHIL CHANDRA DATTA, moved the following resolution :—

This Council recommends to the Governor in Council that the right of electing their own Chairman be extended to the Commissioners of all those municipalities in Bengal which do not at present enjoy that right.

The Hon'ble SIR S. P. SINHA said :—

"My Lord, I shall be very short over this resolution. Here, again I will first refer to the Act. Just as there is a schedule in the Municipal Act with regard to municipalities where there were no elected members and of which the Commissioners were all appointed by the local Government, there is another schedule which gives a list of municipalities in which the Chairman shall be appointed by the local Government, all others being left to elect their own Chairmen. In the original list in the Act as passed, there were about 60 municipalities which were in the position of having their Chairmen appointed by the Government. Their number is now 15, so that 45 have been removed from that schedule during these 34 years. From this my hon'ble friends will see what progress has been made with regard to the question of local self-government, as out of 60, 45 have been given the right to elect their Chairmen and only 15 now remain without that right.

"Now, my hon'ble friends may ask as to why even these 15 municipalities still remain where they are. Well, last year a special enquiry was made in order to see whether of these fifteen, we could take off a certain number and confer upon them the right to elect their own Chairmen. Seven out of these fifteen refused to have that right, and my hon'ble friends will hardly ask us that we should thrust upon them the privilege which they they themselves do not desire. With regard to the rest, most of them were until recently in the first schedule, that is to say, they had no elected Commissioners at all, all the Commissioners being nominated. I think, hon'ble members will hardly suggest that municipalities just emerging from that state should have the right of electing their own Chairmen. As regards the other municipalities which have lately emerged from that state, we are not yet convinced that it will be in the best interests of ratepayers that they should have this privilege conferred upon them. Thus, within 30 years it is a good record to have 45 municipalities taken out of a list of 60. In these circumstances, I do not think that it will commend itself to the house that this right should be extended to all municipalities, there being only 15, of which 7 have refused the right and 8 have just emerged from the state of having no elected Commissioners at all."

Resolution.

Rai Radha Charan Pal Bahadur; Akhil Chandra Dutta; Sir S. P. Singha.

The Hon'ble RAI RADHA CHARAN PAL BAHADUR said :—

"My Lord, I am grateful to the hon'ble member in charge for his sympathetic reply and beg to withdraw the resolution."

The resolution was then, by leave of the President, withdrawn.

LIST OF BUSINESS, ITEM No. 18.

The following resolution, which stood in the name of the Hon'ble BABU AKHIL CHANDRA DUTTA, was not moved and went by default.

This Council recommends to the Governor in Council that in exercise of the discretion vested in him by law, he be pleased to direct that all District Boards in Bengal shall elect their own Chairmen.

LIST OF BUSINESS, ITEM No. 19.

The Hon'ble RAI RADHA CHARAN PAL BAHADUR, in the absence of the Hon'ble BABU AKHIL CHANDRA DUTTA, moved the following resolution :—

This Council recommends to the Governor in Council that Local Boards be established in the Sadar and Cox's Bazar Subdivisions of the Chittagong District on an elective basis and that the system of election be introduced in the Local Boards of the districts of Tippera and Noakhali.

He said :—

"My Lord, when this motion has been admitted, I am sure the Government must have investigated into the matter and is in a position to accept it. If not, there must be some good reasons why it cannot accept it."

The Hon'ble SIR S. P. SINHA said :—

"My Lord, I may take it that my hon'ble friend will withdraw this resolution. But again to assure the House that our intentions are of the best and that we are entirely in agreement with hon'ble members in the idea that local self-government should be developed as much as possible and as speedily as possible, I will mention a few facts.

The resolution, mentions the district of Chittagong as not having Local Boards in the Sadar subdivision and in the Cox's Bazar subdivision. This fact was represented to His Excellency Lord Carmichael when he visited Chittagong some time ago in 1912, and he promised an enquiry into the matter, and it was decided afterwards to start these Local Boards in the Chittagong District, but the formation was deferred till next year and that for a simple reason. The District Board of Chittagong had been constituted since September 1911, so its life would last till September 1914, and we could not alter its constitution until after that District Board came to an end. The matter was again taken up in 1914, but inasmuch as we were then considering the report of the District Administration Committee, which recommended that Local Boards should be altogether done away with, the view taken was that there was not much use in creating Local Boards for the purpose of being abolished after a short time. That is the reason why this has been done.

With regard to the other two districts, viz., Tippera and Noakhali, the resolution asks that the system of election be introduced in the Local Boards

Resolution.

Sir S. P. Sinha.

of the districts of Tippera and Noakhali. Now, Local Boards have been established in each subdivision of Tippera and Noakhali, so far as Tippera is concerned in 1887 and Noakhali in 1896. But from that time, no question was raised with regard to the elective system being introduced into these Local Boards, and it was only for that reason that the question was not taken in hand here. We are now, however, perfectly convinced that there is no reason why the elective system should not be introduced so far as the Local Boards of Tippera and Noakhali are concerned, and the moment Circle Boards are established we propose to institute Circle Boards not only in the two subdivisions of Chittagong and Cox's Bazar, but also for the districts of Tippera and Noakhali on an elective basis. We do not want to establish Local Boards in Chittagong, because they are going to be replaced by Circle Boards. We do not introduce the elective system into the Local Boards of Tippera and Noakhali for the same reason. But there are other places with reference to which the same question arises, though they are not mentioned in the resolution of the Hon'ble Babu Akhil Chandra Dutt. The intention of Government is to introduce the elective system not only in Tippera and Noakhali, but also in the three districts of Rangpur, Dinajpur and Jalpaiguri. So we propose to go further than the hon'ble member asks us to do. We want to wait till the passing of the village self-government bill which I hope will not very long delayed, and then to introduce the elective system in all these districts, including the districts mentioned in the resolution."

The resolution was then, by leave of the President, withdrawn.

ADJOURNMENT.

The Council was then adjourned *sine die*.

CALCUTTA, *the 20th August 1917.*

CHINA SEA—YANGTZE RIVER, SOUTH CHANNEL ENTRANCE.

(*1*) *Position of Wreck of SS. "Shaohsing."*
(*2*) *Wreck-marking buoys to be established.*
(*3*) *Caution for night navigation.*

No. 224 (*first publication*).—The following Notice to Mariners (No. 640 of 1917) issued by the Coast Inspector, Shanghai, is republished :—

"Referring to Special Notice to Mariners No. 484, notice is hereby given that the position of the wreck of the SS. *Shaohsing* has been verified, and that from the wreck the *Tungsha* Light-vessel bears N. 42° W., magnetic, distant 2¼ miles.

The wreck, which lies in the fairway of the South Channel Entrance to the Yangtze River with her head pointing N.E by N. ¼° N., is submerged with the exception of her masts and funnel.

Immediate steps are being taken to establish two *green* wreck-marking Buoys, each exhibiting an occulting *white* light every 8 seconds, thus—

Light	...	...	4 seconds.
Eclipse	...	...	4 ,,

One of these Buoys will be moored at a distance of 6½ cables N. 48° W., magnetic, from the wreck and the other will be moored at a distance of 6½ cables S 48° E., magnetic, from the wreck. These Buoys will be approximately in line with the southern extremity of the wreck.

When these Buoys have been placed in position the Revenue Steamer, which has been acting as a temporary wreck-marking vessel, will be withdrawn.

CAUTION.

Vessels are urged not to navigate this locality at night-time without a pilot."

REPORT ON THE STATE OF THE SALT MARKET FOR THE FIRST QUARTER OF THE YEAR 1917-18.

FINANCIAL DEPARTMENT.

SEPARATE REVENUE BRANCH (SALT).

No. 2089S.R.

Dated Calcutta, the 27th August 1917.

THE following report on the state of the salt market for the first quarter of the year 1917-18, comprising the months of April, May and June 1917, in the Presidency of Bengal, is published for general information.

2. The quantity of salt of every description cleared during the quarter amounted to 2,064,019 maunds (including 1,406,671 maunds issued under the credit system), as compared with 3,000,406 maunds (including 1,534,724 maunds issued under the credit system) in the previous quarter and 2,815,838 maunds (including 2,176,478 maunds issued under the credit system) in the corresponding quarter of the previous year. The net amount of duty levied was Rs. 26,46,672 (including Rs. 19,71,704 adjusted under the credit system), as against Rs. 36,80.713 (including Rs. 20,60,318 adjusted under the credit system) in the previous quarter, and Rs. 33,14,308 (including Rs. 25,44,082 adjusted under the credit system) in the corresponding quarter of the previous year.

3. The subjoined table I shows in detail the importations into the port of Calcutta and the total clearances of sea-imported salt during the quarter, compared with the figures of the corresponding quarters of the two previous years :—

* Inclusive of 1,406,671 maunds of salt issued under the credit system. Besides this quantity 9,169 maunds of salt were issued under the credit system to inland bonded warehouses.

Compared with the corresponding quarter of the previous year and the same quarter of 1915-16, importations were less by 46·3 and 49·6 per cent., and clearances by 29·9 and 27·4 per cent., respectively. As compared with the corresponding period of the previous year, the increased imports from Madras and the decreased imports from United Kingdom, Spain, Port Said, Aden, Massowah and Bombay are specially noticeable.

4. Table II shows the quantity of sea-imported salt remaining in the warehouses at the close of the quarter as compared with the preceding four quarters :—

REPORTS ON THE WORKING OF THE SHIPPING OFFICES IN BENGAL FOR THE YEAR 1916-17.

NOTIFICATION.

The 16th August 1917.

No. 76Marine.—The following annual reports on the working of the Shipping Offices in Bengal for the year 1916-17 are published for general information.

F. A. A. COWLEY,
Secy to the Govt. of Bengal.

No. S-1463, dated Calcutta, the 7th August 1917.

From—CAPTAIN DUNCAN F. VINES, R.I.M., Shipping Master of Calcutta,
To—The Secretary to the Government of Bengal, Marine Department.

I HAVE the honour to submit herewith for the information of Government the Annual Report of the Calcutta Shipping Office for the year 1916-17.

A comparative statement of the number of seamen shipped and discharged under European and Indian Articles for the years 1915-16 and 1916-17 is given below, from which it will be observed that the number of seamen shipped and discharged under European Articles has increased, while the number shipped and discharged under Indian Articles shews a large decrease. This is due to the dislocation of shipping owing to the war. Appendix I shows further details.

Shipped.

Articles.			1915-16.	1916-17.	Increase.	Decrease.
European	...	...	1,089	1,300	211	...
Indian	...	...	39,438	37,198	...	2,240
	Total	...	40,527	38,498	211	2,240

Indian	...	...	31,597	30,665	...	932
	Total	...	32,429	31,831	334	932

There were 40 Eurasians shipped on European and 363 on Indian Articles during the year, as compared with 61 and 375 in the previous year.

The figures below represent the number of seamen of various nationalities shipped and discharged at the Consulates, details of which are given in Appendix II.

These figures are not included in Appendix I.

			Shipped.	Discharged.
British	...	...	3	2
Chinese	...	...	27	18
Brazilian	...	...	...	1

Javanese	...	...	1	...
Italians	...	...	...	1
Indians	...	...	8	...
Norwegians	...	...	13	11
	Total	...	75	58

The number of seamen on European Articles who deserted their vessels and failed to join was 92, and the number on Indian Articles 584. The majority were replaced by substitutes.

Repatriation of distressed seamen.—The total number of seamen repatriated during the year was 72, of whom 53 were repatriated owing to sickness, 3 on termination of agreement, 3 on account of imprisonment, 1 who missed his vessel, 2 on account of venereal, and 10 by mutual consent.

Relief to seamen.—The work-house afforded relief to 6 seamen at a cost of Rs. 248. Of these 4 obtained employment, 1 absconded, and 1 is still in the work-house. Twenty-six seamen were relieved in the Alms House by the District Charitable Society at a cost of Rs. 1,827-8. Seventy-two destitute seamen were admitted into the Sailors' Home during the year, and a loss of Rs. 156 was sustained owing to some of the seamen being unable to pay their board.

A special feature of this year's report is the payment of wages to the crews of enemy vessels captured at the outbreak of war, and the payment of bonus and compensation to the surviving members of crews of vessels sunk through hostile action.

The payment of wages of crews of enemy vessels commenced in April 1916, and up to the 31st March 1917 amounted to Rs. 88,864-8-11.

Compensation to seamen of the sunken vessel.—Rupees 14,110 was paid by the Government of Bengal for loss of effects to the surviving members of crews of vessels sunk through hostile action, and Rs. 30,782-4 by the Indian Relief Fund through this office as further compensation to these crews.

Relief to the dependents of interned seamen.—The amount of relief given to the dependents of seamen interned in Germany by the Indian Relief Fund through this office amounted to Rs. 1,093.

Administration of Trust Funds.—Appendix III shows the transactions during the year of funds held in trust under different heads.

Stamped papers to the value of Rs. 39-14 were used on account of security in disposing of the estates of deceased seamen.

The balance of accumulated funds at the commencement of the year was Rs. 23,451, and the receipts during the year Rs. 63,395.

The payment from the funds amounted to Rs. 56,766, and Rs. 3,484 lapsed to Government. A balance of Rs. 26,596 was left in deposit at the close of the year.

Transaction with Board of Trade.—Rupees 1,07,823 represents the transactions with the Board of Trade, of which Rs. 88,864 was paid on account of enemy vessels. As compared with the figures of the previous year, this shows an increase of Rs. 74,503.

European seamen's money-orders.—A sum of £311 was remitted by seamen to their relatives in England, as compared with £1,768-10 of the previous year.

Financial results.—The figures below give the financial result of the office for the last five years :—

Year.	Receipts.	Disbursements.	Savings.
	Rs.	Rs.	Rs.
1912-13 ...	1,18,739	65,009	53,730
1913-14 ...	1,23,047	69,875	53,172
1914-15 ...	1,04,854	61,509	43,345
1915-16 ...	94,319	57,669	36,650
1916-17 ...	94,074	69,288	24,786

A comparison in the savings of the present and the previous year shows a decrease of Rs. 11,864, partly due to the small number of vessels having visited the port.

Expenditure and receipts.—Appendix IV details particulars of the receipts and expenditure during the year.

Administrative Changes.—The following changes have taken place in this office during the year :—

Mr. C. H. Sharp, Assistant Shipping Master, Kidderpore, was granted 7 months' combined leave from the 27th February 1917. Mr. C. S. Cameron, Head Assistant, has been acting in his place since 19th April last.

No. $\frac{2798G.}{XV-12}$, dated Chittagong, the 27th June 1917.

From—K. C. DE, ESQ., C.I.E., I.C.S., Offg. Commissioner, Chittagong Division,
To—The Secretary to the Government of Bengal, Marine Department.

I HAVE the honour to forward herewith, in original, the Administration Report of the Chittagong Shipping Office for the year 1916-17.

No. 288., dated Chittagong, the 21st June 1917.

From—The Shipping Master, Chittagong,
To—The Commissioner of the Chittagong Division.

I HAVE the honour to submit herewith the Annual Administration Report of the Shipping Office for the financial year 1916-17, together with appendices (I to III), and in doing so to remark that the shipping during the year under review has been considerably affected by the present war.

2. **Financial results.**—The amount received during the year was Rs. 718 and that expended was Rs. 923. The accompanying Statement I shows the required particulars of the receipts and expenditure of the last two years, with explanation of the principal fluctuations.

3. **Trust funds.**—There was no opening balance of the year under review : the receipts amounted to Rs. 47,923, or Rs. 10,914 in excess of that of the previous year ; the payments were Rs. 47,689, leaving a balance Rs. 234 at the close of the year, as shewn in Statement II annexed.

4. **Seamen shipped and discharged.**—The number of seamen of all nationalities shipped and discharged during the year under report was 150 and 507, respectively, against 144 and 304 in the previous year, as shown in Statement III annexed.

5. **Inspection of vessels.**—The number of ships which arrived at this port during the year 1916-17 was 72 (excluding regular coasting steamers), against 138 in the previous year; of these 4 ships were manned by Europeans, 7 ships were manned by Japanese, 51 ships were manned by Europeans, Asiatics and Indian lascars, and 10 ships were manned exclusively by natives of India. All the foreign-going ships were inspected by the Port Health Officer

6. **Condition of seamen.**—There were 17 seamen admitted into the Chittagong General Hospital, against 27 during the preceding year. Of the total admissions 11 were discharged as cured, 1 relieved, 4 discharged otherwise, and 1 died. There were no cases of scurvy or death resulting from bad or insufficient food on board ships during the year under report.

7. **Seamen's money-order.**—No remittances of wages were made to the United Kingdom by means of Seamen's Money Order.

8. **Deserters.**—Two lascars deserted during the year, against 8 in the previous year. There were no deserters among European seamen.

9. **Deaths.**—No death occurred at this port during the year under report, against 4 in the previous year.

10. **Offences.**—No cases were tried by the Magistrate under the Indian Merchant Shipping Act I of 1859, during the year under report.

Secy. to the Govt. of Bengal.

DISTRICT REPORTS ON WEATHER AND CROPS

For the week ending on the 27th August 1917.

Summary.—During the week under report, light to moderate rain fell generally all over the province. More rain is needed especially in North Bengal for the steeping of jute and for the transplanting of winter paddy. Harvesting of autumn crops is proceeding; the outturn is expected to be fairly good. Transplanting of winter paddy is nearing completion: weeding continues. Prospects of standing crops are reported to be generally satisfactory. Scarcity of fodder is reported from parts of the 24-Parganas, Dacca and Mymensingh districts. Cattle-disease exists in ten districts. The average price of common rice for the Province has fallen by 0·63 per cent. as compared with that of the previous week.

No. 5163Com.—The 3rd September 1917.—The following prospectus and form of application issued in connection with the Madras Exhibition of Indian Arts and Industries, to be held in the cold weather of 1917-18, are published for general information.

J. DONALD,
Secy. to the Govt. of Bengal.

MADRAS EXHIBITION OF INDIAN ARTS AND INDUSTRIES, 1917-18.

Objects of the exhibition.—In view of the shortage of shipping and the restrictions imposed on exports from the United Kingdom, it has been decided to hold an exhibition in Madras in the cold weather of 1917-18. The exhibition will be organized on more or less the same lines as the exhibition which the Women's Branch of the Bombay Presidency War and Relief Fund proposes to hold in Bombay in November next, but the scope of the exhibition will be somewhat wider. The special purposes of the exhibition will be to encourage the production and distribution of articles which are or can be made in India and which can take the place of articles hitherto mainly imported from abroad. But while this purpose will be kept chiefly in view, the exhibition will also be open to the arts and industries of India, and it is hoped that the exhibition will serve not only to advertise existing Indian substitutes for imported articles, and to stimulate the production of new substitutes, but also to obtain a wider market for the artistic and industrial products of India generally.

2. *Scope of the exhibition.*—With these objects in view, the exhibition will comprise five main sections organized on the following lines:—

(i) *Articles of food and drink and tobacco.*—Examples: Tinned meat, tinned fish, biscuits, flour, tapioca, sago, arrowroot, jams, preserved fruits, pickles and condiments, sugar, golden syrup, confectionery, sweets, chocolates, breakfast foods, tea, coffee, beer, rum, and other beverages, bacon, cheese, butter, vegetable butter, salad, and other edible oils, vinegar, cigars, cigarettes, pipe tobacco and other similar articles.

(ii) *Household requisites and wearing apparel.*—Examples: Cotton, silk, and woollen goods including apparel, hosiery, blankets, table linen, sheets, bed spreads, towels, dusters, derries and carpets, soap, matches, brushes, brooms, lamp and other glassware, china and earthenware, furniture, cutlery, candles, buttons, combs, celluloid articles, boots, shoes, sandals, boot polish, blacking, furniture polish and so on.

(iii) *Metals and machinery including tools, mill and factory stores and general hardware—Minerals.*—Examples: Oil-engines, rice mill machinery, sugarcane crushing machinery, centrifugal and other pumps, motor and other castings, paints, varnishes, lubricating and other oils, greases, leather belting, bobbins, ropes, picking sticks and so on.

(iv) *Chemicals, drugs and medicines—Chemical manures—Surgical instruments.*

(v) *Miscellaneous* including paper, stationery of all kinds, strawboard boxes, pens, pencils, inks, toys, fancy leather goods, saddlery and harness, bangles, ropes, mats, baskets, etc.

3. *Agricultural and Forest sections.*—Sections will also be allotted to the Madras Agricultural and Forest Departments which will arrange displays of the agricultural and forest products of the Madras Presidency.

4. *Date of exhibition.*—The exhibition will be held in Christmas week.

5. *Place of the exhibition.*—The exhibition will be held in the People's Park, Madras. The proposed site is about 2 furlongs from the Madras Central Station, 2 furlongs from the Salt Cottaurs and about a mile from Egmore Station. The exhibition will be held in conjunction with the annual People's Park Fair, which is very numerously attended.

6. *Organization.*—The exhibition will be organized, with the support of the Government of Madras, by the Department of Industries, which will be assisted by advisory general and executive committees. The Chairman of the Executive Committee is Mr. C. A. Innes, I.C.S., and the Secretary Rao Bahadur T. Vijayaraghava Acharya.

7. *Exhibits.*—Exhibits will be confined to products of Indian arts and industries, and all exhibits must be either produced or manufactured in India. The committee, however, will be prepared to arrange, free of charge, for the exhibition of small imported articles, the manufacture of which might be taken up in India, if it were known that they were in demand.

8. *General arrangements.*—Space at the exhibition will be charged for at the rate of Re. 1 per square foot. Applications for space must be made to the Secretary, Executive Committee, Madras Exhibition, Post Box No. 454, Vepery, Madras, not later than 15th October 1917. Exhibitors must arrange for the conveyance of their exhibits to the exhibition at their own cost. They must also arrange for the reception and arrangement of their exhibits at Madras and for the supply of suitable stands or tables. The committee, however, will be prepared to render assistance as far as possible.

9. *Arrangements for exhibitors from outside the Madras Presidency.*—If desired, the committee will be prepared to make arrangements for the reception and arrangement of exhibits sent by exhibitors from outside the Madras Presidency. A charge will be made at the rate of Re. 1-4 per square foot, subject to a minimum of Rs. 5.

10. *Conditions.*—All exhibits will be at the risk of the exhibitors.

No exhibit can be withdrawn or stall closed before the end of the exhibition without the permission of the committee.

Exhibitors under clause 8 must make their own arrangements for packing and removing their exhibits.

At the close of the exhibition, exhibits under clause 9 will be packed and returned by the committee at the cost and risk of the exhibitors.

Exhibits under clause 8 not removed by a date to be notified, and exhibits under clause 9 which are not required to be returned, will be sold for the benefit of the Madras War Fund.

11. *Sales.*—Orders may be booked at the exhibition, but articles, if sold, may not be removed until the close of the exhibition, without the special permission of the committee.

12. *Lighting.*—It is hoped that arrangements can be made to light the exhibition by electric light. General lighting charges will be met by the Executive Committee, but a charge will be made for electric light supplied to exhibitors' stalls.

13. *Catalogue.*—Intending exhibitors are requested to notify before the 15th October 1917 full details, including prices, of their exhibits for inclusion in the official guide and catalogue of the exhibition.

14. *Catalogue advertisements.*—Rates for advertisements in the catalogue may be ascertained on application to the Secretary to the Executive Committee.

15. *Prizes.*—Particulars of prizes and diplomas to be awarded will be announced later.

16. *Forms of application* are attached.

Secy. to the Govt. of Bengal.

The 3rd September 1917.

No. 81Marine.—In exercise of the power conferred by section 9 of the Indian Petroleum Act, 1899 (VIII of 1899), and with the previous sanction of the Governor-General in Council, the Governor in Council of the Presidency of Fort William in Bengal is pleased to make the following amendments in the Rules for regulating the importation, possession and transport of petroleum, published under Bengal Government Notification No. 143Marine, dated the 30th November 1914.

F. A. A. COWLEY,
Secy. to the Govt. of Bengal.

Amendments.

1. *For* rules 14 and 15, Chapter II, Part II, the following shall be *substituted*, namely :—

"14. Petroleum which has been imported into any port specified in rule 1 of Part III and which has not been tested at the port of import in accordance with the rules contained in that Part, shall not be transported to any other port save one at which importation is permitted under rule 1 of Part III, and the provisions of all the rules of that Part, except rule 22, shall be deemed to apply to such petroleum when it arrives at such other port.

Transport by sea of petroleum which has not been tested.

15. Petroleum which has been tested at the port of import may be transported to any other port, and the provisions of rules 2, 3, 4, 14 (except the proviso), 16, 19 and 20 of Part III shall apply to such petroleum when it arrives at such other port."

Transport by sea of petroleum which has been tested.

2. *For* rules 20 and 21 of Part III, the following shall be *substituted*, namely :—

"20. When petroleum imported otherwise than in bulk is landed at a port, it shall be landed either at jetties provided for the purpose, or in cargo-boats, and except where electric light is exclusively used, only after sunrise and before sunset, and only at such place or places as the Conservator of the port shall direct, subject to any Customs Notification that may, for the time being, be in force :

Landing of petroleum otherwise than in bulk

Provided that the precautions laid down in rule 21A of this Part shall be observed.

21. Petroleum may be transhipped from one ship to another for conveyance to any other port, whether within or beyond the limits of British India, provided that the petroleum shall not be transhipped between sunset and sunrise, except when electric light is exclusively used, and provided further that the precautions laid down in rule 21A of this Part shall be observed.

Transhipment of petroleum.

21A. The following precautions shall be taken by all vessels and cargo-boats loading or unloading petroleum, whether for transhipment or otherwise :—

Precautions to be observed in loading or unloading petroleum.

(*1*) Vessels discharging or loading petroleum shall have fire-hoses connected and all fire-extinguishing appliances in readiness for immediate use, and, if the petroleum is dangerous petroleum, shall have their awnings furled.

(*2*) No fire or light of any description (other than lights required by the port or harbour rules), or any detonating article or substance whatsoever, or matches, shall be, or shall be taken, on board any cargo-boat used for the transport of dangerous petroleum, or, within the limits of any port, for the transhipment of non-dangerous petroleum to or from any vessel.

(*3*) No cargo-boat used for the carrying of dangerous petroleum shall be fitted with a caboose for cooking purposes when engaged in such work.

(4) Dangerous and non-dangerous petroleum shall not be conveyed to the shore or to another ship at the same time on the same cargo-boat.

(5) Leaky tins containing dangerous petroleum shall not be discharged into a cargo-boat containing sound tins.

(6) The bilges of every cargo-boat which has carried a cargo of petroleum shall, immediately after the cargo-boat has been unloaded, be thoroughly cleared of all traces of such petroleum and dried and the holds shall be thoroughly ventilated."

No. 30.—The following Statutes are published for general information :—

ROYAL NAVAL VOLUNTEER RESERVE ACT, 1917.

[7 AND 8 GEO. 5, CH. 22.]

CHAPTER 22.

AN ACT TO EXTEND DURING THE PRESENT WAR THE TERM OF SERVICE OF MEMBERS OF THE ROYAL NAVAL VOLUNTEER RESERVE.

[10th July 1917.]

BE IT ENACTED by the King's most Excellent Majesty, by and with the advice and consent of the Lords Spiritual and Temporal, and Commons, in this present Parliament assembled, and by the authority of the same, as follows :—

Extension of term of service.

1. The power under section five of the Royal Naval Reserve (Volunteer) Act, 1859, for His Majesty on any emergency by Proclamation to declare that such volunteers as may at the date of such Proclamation be in actual service shall continue in such actual service for a period of five years from the date of their respectively coming into actual service if their services be so long required, shall, during the continuance of the present war, notwithstanding anything in section one of the Naval Forces Act, 1903, extend to the Royal Naval Volunteer Reserve as it extends to the Royal Naval Volunteers. 22 & 23 Vict., c. 9. 3 Edw. 7, c. 6

Short title

2. This Act may be cited as the Royal Naval Volunteer Reserve Act, 1917.

MILITARY SERVICE (CONVENTIONS WITH ALLIED STATES) ACT, 1917.

[7 and 8 Geo. 5, ch. 26.]

CHAPTER 26.

AN ACT TO ENABLE HIS MAJESTY IN COUNCIL TO CARRY INTO EFFECT CONVENTIONS WHICH MAY BE MADE WITH ALLIED AND OTHER STATES AS TO THE MUTUAL LIABILITY OF HIS MAJESTY'S SUBJECTS AND SUBJECTS OF THE ALLIED AND OTHER STATES TO MILITARY SERVICE.

[10 July 1917.]

BE IT ENACTED by the King's most Excellent Majesty, by and with the advice and consent of the Lords Spiritual and Temporal, and Commons, in this present Parliament assembled, and by the authority of the same, as follows :—

Carrying out of mutual arrangements with Allied countries as to military service obligations.

1. His Majesty may by Order in Council, signifying that a convention has been made with a foreign country allied or otherwise acting in naval or military co-operation with His Majesty in the present war (in this Act referred to as the contracting country) which imposes a mutual liability to military service on British subjects in that country and on subjects of that country in the United Kingdom, direct that this Act shall have effect with respect to the contracting country and the subjects of that country, and on any such Order in Council being made, this Act shall have effect accordingly: Provided that—

(*a*) No such Order in Council shall be made unless the convention secures to His Majesty's Ambassador or other public Minister in the contracting country power to grant to British subjects in that country exemption from military service, and such Ambassador or Minister shall grant such exemption in any case where a British subject proves that he is not domiciled in the contracting country, and that before proceeding to the contracting country he was ordinarily resident in some part of His Majesty's dominions other than Great Britain:

(*b*) No such Order in Council shall be made unless the convention contains provisions to the effect that British subjects in the contracting country and subjects of the contracting country in the United Kingdom shall, before becoming liable to military service, have an opportunity, if they make an application for the purpose, of returning to the United Kingdom or the contracting country, as the case may be:

(*c*) An Order in Council shall not be made until the expiration of thirty days from the date when the convention has been laid before Parliament.

Application of Military Service Acts

2.—(1) Where this Act is so applied with respect to any country, subjects of that country shall, if they have not, within twenty-one days after the convention has been laid before Parliament, made an application in such manner as may be prescribed by a Secretary of State to return to the contracting country, or if, having made such an application, they have failed to avail themselves of an opportunity to do so, be liable to military service under the Military Service Acts, 1916, in the same manner as British subjects; and those Acts shall apply accordingly, subject to the following modifications :—

5 & 6 Geo. 5, c. 104.
6 & 7 Geo. 5, c. 15.

(*a*) The appointed date shall, as respects subjects of the contracting country who come within the operation of the Military Service Acts, 1916 and 1917, on the application of this Act in respect of that country, be the thirtieth day after the date of the Order in Council applying the Act, and as respects subjects of the contracting country who come within the operation of the Military Service Acts, 1916 and 1917, after that date, be the thirtieth day after the date on which they so come within the operations of those Acts, except that when such subjects come

7 & 8 Geo. 5, c. 12.

within the operations of those Acts, by reason of their failing to avail themselves of an opportunity of returning to the contracting country, the appointed date shall be the date of such failure:

(*b*) A subject of the contracting country who has not made such an application as aforesaid to return to that country shall have the same rights with regard to exemptions and exceptions conferred by the Military Service Acts, 1916 and 1917, other than the exceptions mentioned in paragraph (1) of the First Schedule to the first mentioned Act, as he would have if he were a British subject, and, whether he has made such an application or not, shall be deemed to be within the exceptions under the Military Service Acts, 1916 and 1917, if he is the holder of a certificate of exemption for the time being in force granted by the Ambassador or a duly authorised public Minister of that country in the United Kingdom:

(*c*) Regulations issued under the Military Service Acts, 1916 and 1917, may provide for the establishment of special tribunals for dealing with applications or appeals for exemption in respect of men who are rendered liable to military service by virtue of this Act and for the appointment of additional members to tribunals when dealing with such applications or appeals:

(*d*) Any British subject arriving in Great Britain from the contracting country after the date of an Order in Council applying this Act to the subjects of that contracting country shall, if not ordinarily resident in Great Britain, be deemed for the purposes of the Military Service Acts, 1916 and 1917, to be ordinarily resident in Great Britain as from the date of his arrival, unless he shows that the part of His Majesty's dominions in which he last resided was some part other than Great Britain.

(*2*) For the purposes of the limitation on the number of aliens who may serve together at any one time in any corps of the regular forces imposed by section ninety-five of the Army Act subjects of a contracting country who become liable to military service by virtue of the application of this Act in respect of their country shall not be reckoned in that number.

(*3*) For the purposes of this Act the expression "convention" includes an agreement.

Short title and citation.

3. This Act may be cited as the Military Service (Conventions with Allied States) Act, 1917, and shall be included amongst the Acts which may be cited as the Military Service Acts, 1916 and 1917.

NOTIFICATION.

Simla, the 3rd August 1917.

No. 1927-I.B.—In exercise of the powers conferred by Section 13 of the Indian Defence Force Act, 1917 (III of 1917), as applied to the Civil and Military Station of Bangalore, the Governor General in Council is pleased to direct that the following amendments shall be made in the Indian Defence Force (Bangalore) Rules, 1917, namely:—

(1) For rule 41 of the said Rules, the following shall be substituted, namely:—

Execution of sentence of fine.

"41. When a sentence of fine is imposed by a Court-martial constituted under these rules or by an officer acting in pursuance of an order made by the Commander-in-Chief in India under section 14 of the Act, a copy of

such sentence, signed and certified by the President of the Court or by the Officer imposing the fine, as the case may be, may be sent to the District Magistrate, and in that case such Magistrate shall cause the fine to be recovered in accordance with the provisions of the Code of Criminal Procedure, 1898, for the levy of fines as if it were a sentence of fine imposed by such Magistrate."

(2) In clause I of Schedule II of the said Rules, after the words "actual military duty", the words "or when wearing His Majesty's uniform" shall be inserted.

RULES FOR THE GUIDANCE OF PRIVATE CANDIDATES FOR THE MATRICULATION EXAMINATION OF 1918.

THE following rules for the guidance of private candidates for the Matriculation Examination are published for general information.

2. Private students are those who have not attended any recognised or unrecognised school for at least one year previous to the examination. The term "private students" includes *bond fide* school masters.

3. Private students must appear at the Test Examination of one of the following institutions on the dates mentioned against it :—

Name of School.	Date of Test Examination.
(1) Comilla Zilla School	3rd, 4th, 5th, 6th and 7th December 1917.
(2) Noakhali Zilla School	
(3) Chittagong Collegiate School ...	
(4) Rangamati High English School ...	

Each private student will pay a fee of Rs. 3 to the head of the institution in which he appears for the Test Examination. No private student will be admitted to the Test Examination unless he is accompanied for the purpose of identification by some person known to the Head Master of the institution at which he appears.

4. Application for permission to appear must be sent in time to reach this office not later than the 5th November 1917. The information to be given and the documents to be appended in original are the following :—

(*a*) The name of the school in which the candidate last studied.

(*b*) The Transfer Certificate in original granted to the candidate by the Head Master of the school in which he last read ; or

(*c*) In the case of a candidate who previously appeared at the Matriculation Examination, the Registrar's receipt in original for the fee paid.

(*d*) Age of the candidate. No candidate who has not completed the age of 16 years on the first day of the Matriculation Examination will be allowed to appear at it.

(*e*) In the case of school-masters a certificate of good conduct from the Secretary or proprietor of the school in which he is serving or from the Deputy Inspector of the district concerned.

(*f*) A certificate from a respectable gentleman to the effect that the candidate has prosecuted a regular course of study and has been subject to proper discipline and that he has not read in any school since the last Matriculation Examination.

(*g*) A statement by the candidate giving the following facts :—

(i) Residence.

(ii) Father's name.

(iii) Second language besides English.

(iv) Vernacular language for composition.

(v) Vernacular language from which translation is to be made into English in the first English paper.

(vi) Which of the following subjects he has taken up :—

(1) Additional Mathematics.

(2) Additional paper in the classical language.

(3) History.

(4) Geography.

(5) Elementary Mechanics.

(vii) The name of the school at the test Examination of which the candidate wishes to appear must be stated.

N.B.—A student who failed to pass or appear at the annual examination for promotion to class X at the end of the session 1916 and then left the school can, under no circumstances, be allowed to appear at the examination.

5. The Inspector on being satisfied will countersign and return the application, which will then be the candidate's passport for admission to the Test Examination.

6. Every candidate must deposit his fee for the Test Examination with the Head Master of the institution in which he intends to appear, at least 15 days before the date of that examination. The Head Master will deposit the amount realized by him into the local Treasury and forward a copy of the Treasury chalan to this office. He should also submit to this office an account of the charges incurred by him (including remuneration to examiners) for conducting the examination of private candidates, together with vouchers in support of the charges, on receipt of which the Director of Public Instruction will be moved to sanction the expenditure.

7. The Head Masters of the institutions named above should direct private students who satisfy the test to appear before them in due time with their applications for admission to the Matriculation Examination and to sign them in their presence. They will then grant the necessary certificates and forward the application to the Inspector for countersignature, after which they will be sent by the Inspector direct to the candidates.

8. In no circumstances should the fee for the Matriculation Examination be sent to the Inspector's office. It should be sent to the Registrar by the candidates themselves, together with the countersigned applications.

9. Private students must understand that the Test Examination of any school other than those named above will not be accepted by the Inspector.

10. The Matriculation Examination will be held in March 1918.

11. Applications and fees for admission to the examination must reach the office of the Registrar on or before the 17th January 1918.

Advertisement of Sale.

NOTICE is hereby given that the undermentioned plots of land, no longer required by Government, situated along the Barharwa-Azimgunj-Katwa Railway, in the district of Burdwan, will be put up to sale at 12 o'clock on Wednesday, the 10th October 1917, corresponding with the Bengali 24th Aswin Fusli, at Katwa Railway Station.

The purchasers of the several plots of land will be subject to the following conditions :—

1st.—The purchasers will have no power to make any excavations on the land nearer than fifteen feet from the railway boundary or to plough the land nearer than three feet from the same.

2nd.—If the amount of purchase-money does not exceed Rs. 100 the whole amount must be paid down at once.

3rd.—If the amount of purchase-money exceeds Rs. 100 one-fourth of the amount must be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale shall be cancelled, the sum deposited being forfeited to Government and the lot again put up for sale at the risk of the defaulting purchaser, after issue of advertisement as in the case of original sale.

4th.—The plots of land will be sold revenue-free to the highest bidders.

5th.—The purchasers shall be put in possession on receipt by the Collector of the orders of the Commissioner confirming the sale.

Notice.

THE Bengal and Madras Service Family Pension Fund which is provisionally managed and assisted by Government has for its object the provision of monthly pensions for the maintenance of the widows and children of subscribers and is open, with certain exceptions, to all active and pensioned members of the Uncovenanted Service of Government (except those serving under the Government of Bombay), and to Local Fund servants earning pensions from Government. Some of the special features of the Fund are—(1) that widowed daughters incapable of remarriage or children labouring under such mental or bodily infirmities as incapacitate them from earning their livelihood or preclude the possibility of marriage (in case of a daughter) are admitted to its benefits; and (2) that subscribers to the Widows' and Daughters' branches are entitled to a refund of 30 per cent. of the premia paid, should the nominees predecease them after five years of admission. The Fund is now of ten years' standing and has a balance of over three and-a-half lakhs with Government on four per cent. interest. For forms of applications and rules of the Fund apply to the Comptroller, India Treasuries, Imperial Secretariat Buildings, Calcutta.

THE INDIAN LAW REPORTS.

Published in FOUR SERIES viz.

CALCUTTA, MADRAS BOMBAY AND ALLAHABAD.

THE Indian Law Reports, published under the authority of the Governor-General in Council are printed in monthly Parts, which are issued, as soon as possible after the first of each month, at Calcutta, Madras, Bombay and Allahabad, respectively.

The Reports comprise four Series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court.

The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depôt; and the Madras, Bombay and Allahabad Series are distributed direct from Madras, Bombay and Allahabad, respectively.

Persons desiring to subscribe for or purchase the Reports should apply to—

the Officer in charge Bengal Secretariat Book Depôt, Calcutta, or

the Superintendent, Government Press, Madras, or

the Superintendent, Government Central Press, Bombay, or

the Curator of Government Books, United Provinces of Agra and Oudh, Allahabad.

Position.—Lat. 22° 16½′ S., long. 166° 27½′ E.

Noumea wireless telegraph station transmits every day, including holidays, on the wave-length of 2000 metres, two meteorological reports, one at 11 a.m. and the other at 11 p.m. Greenwich mean time, which are made up as follows :—

I.

The reports contain the date of the meteorological station of the peninsula of Point Venus, followed by a group of 8 figures.

The first three figures give the atmospheric pressure in millimetres and tenths of millimetres, the figure denoting hundreds of millimetres being omitted; as a general example the figure 542 would indicate 754·2 millimetres.

The fourth and fifth figures indicate the direction of the wind (Table A).
The sixth figure gives the strength of the wind (Table B).
The seventh figure gives the state of the sky (Table C).
The eighth figure gives the state of the sea (Table D).
In cases where any of the particulars are not known each of the relative figures is replaced by the letrer X.

Table A.—Direction of the Wind.

4th and 5th figures.

02 = N.N.E.	10 = E.S.E.	18 = S.S.W.	26 = W.N.W.
04 = N.E.	12 = S.E.	20 = S.W.	28 = N.W.
06 = E.N.E.	14 = S.S.E.	22 = W.S.W.	30 = N.N.W.
08 = E.	16 = S.	24 = W.	32 = N.

Table B.—Strength of the Wind.

6th figure.

0 = calm.	5 = fresh breeze.
1 = light air.	6 = strong wind.
2 = light breeze.	7 = gale.
3 = gentle breeze.	8 = storm.
4 = moderate breeze.	9 = hurricane.

Table C.—State of the Sky.

7th figure.

0 = clear.	5 = rain.
1 = slightly cloudy.	6 = snow.
2 = cloudy.	7 = mist.
3 = very cloudy.	8 = fog.
4 = overcast.	9 = thunderstorm.

Table D.—State of the Sea.

8th figure.

0 = calm.	5 = rough.
1 = very smooth.	6 = very rough.
2 = smooth.	7 = high.
3 = slightly disturbed.	8 = very high.
4 = moderate.	9 = violent.

The report is preceded by the following signal : "Tahiti Observatoire."

II.

Notice to navigators concerning alterations of light-vessels or light buoys, the presence of derelicts, and the disappearance of light-buoys or important buoys, and any other information in regard to navigation, will be added, as occasion arises, to the report. It will be sent out in English and French.

III.

The reports will be transmitted three times in succession ; the first time transmission will be made rapidly, the second and third times slowly.

IV.

A safety signal will be transmitted to ships at any hour of the day or night, repeated at short intervals ten times on full power : "Tahiti T.T.T.," followed by advice of cyclones, typhoons, or derelicts, or any sudden changes

in the position or form of fixed obstructions or of land marks. The message will be repeated three times with intervals of ten minutes.

Note.—A note, "*W.T. & Wireless Storm Sigs.*" is to be inserted on the undermentioned chart.

Delagoa Bay—Pilot Hulk to be inserted on Charts; Caution.

No. 237 (first publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 701 of 1917), are republished :—

Position.—In the entrance to South (Cockburn) channel, at a distance of 2½ miles, 331° (*N. 12° W. Mag.*), from Cape Inhaca lighthouse.

Lat. 25° 56′ S., long. 32° 58¼′ E.

Description.—As described in Africa Pilot, Part III, quoted below.

Caution.—Vessels entering the Port of Lourenco Marques should make the Pilot hulk situated as given above. It is not advisable for vessels to use the North (Cutfield) channel, as the channel is not buoyed.

Attention is drawn to the cautionary note on the chart with regard to the frequent changes in the channels; mariners are also warned that the information given in the sailing directions cannot be exclusively relied upon in consequence of these changes.

See also Admiralty Notice to Mariners No. 656 of 1917. (*This office No. 213 of 1917.*)

Note.—The note on the charts with reference to the Pilot hulk is to be expunged.

Variation.—17° W.

CHINA SEA—YANGTZE RIVER, SOUTH CHANNEL ENTRANCE.

(*1*) *Position of Wreck of SS. "Shaohsing."*

(*2*) *Wreck-marking buoys to be established.*

(*3*) *Caution for night navigation.*

No. 224 (second publication).—The following Notice to Mariners (No. 640 of 1917) issued by the Coast Inspector, Shanghai, is republished :—

"Referring to Special Notice to Mariners No. 484, notice is hereby given that the position of the wreck of the SS. *Shaohsing* has been verified, and that from the wreck the *Tungsha* Light-vessel bears N. 42° W., magnetic, distant 2½ miles.

The wreck, which lies in the fairway of the South Channel Entrance to the Yangtze River with her head pointing N.E. by N. ¼° N., is submerged with the exception of her masts and funnel.

Immediate steps are being taken to establish two *green* wreck-marking Buoys, each exhibiting an occulting *white* light every 8 seconds, thus—

Light	...	...	4 seconds.
Eclipse	...	...	4 "

One of these Buoys will be moored at a distance of 6½ cables N. 48° W., magnetic, from the wreck and the other will be moored at a distance of 6½ cables S. 48° E., magnetic, from the wreck. These Buoys will be approximately in line with the southern extremity of the wreck.

When these Buoys have been placed in position the Revenue Steamer, which has been acting as a temporary wreck-marking vessel, will be withdrawn.

CAUTION.

Vessels are urged not to navigate this locality at night-time without a pilot."

NOTIFICATION.

No. 6536Agri.—The 31st August 1917.—Extracts from the report on the working of the Government Cinchona Plantations and Factory in Bengal for the year 1916-17 are published for general information.

L. BIRLEY,
Secy. to the Govt. of Bengal.

FIFTY-FIFTH ANNUAL REPORT OF THE GOVERNMENT CINCHONA PLANTATIONS AND FACTORY IN BENGAL FOR THE YEAR 1916-17.

1. **General.**—*Cinchona.*—All blocks put out during the last 5 years continue to do well and in every way justify the expenditure that has been put on them. A 5-year old block of 25 acres has produced in round figure 23,300 lbs. of dry bark : the value of this is almost double that of the expenditure that has been put on the block. And what is still more satisfactory

the 25 acres is still well covered with Cinchona. Only a small acreage of Cinchona of 9 years old and over is now left on the Mungpoo plantation. From that and with thinnings from the younger blocks 150,000 lbs. dry bark each year may be harvested for the next 2 years.

Other medicinal plants.—Digitalis and Chenopodium ambrosioides have been grown this year and have done well. An order for 210 lbs. dried leaf of Digitalis has come from the Medical Store Department, Calcutta.

Ipecacuanha.—From December till March a very cold season was experienced which was very bad for Ipecacuanha. The white frost lying on the ground at 1,500 feet where the Ipecacuanha nurseries are situated caused much damage to the weakest cuttings put out in 1915-16 ; even the stronger cuttings and well rooted plants of 2 years old have had a set-back from which they are now recovering as the hot season advances. To guard against this danger from cold in coming years the method of cultivation has been somewhat altered.

The areas under Cinchona have been increased to 2,405½ acres as against 2,295 acres of the previous year, and attempts have been made to extend the plantations gradually. Systematic seed collection based on analysis of parent trees has been practised as in previous years. Owing to the European war the unit rate of bark has much increased, the average market unit-rate for 1916-17 being 20·60 cents. Large numbers of Cinchona trees at Munsong have arrived at maturity, but on account of the insufficiency of money it was found impossible to harvest a large quantity of dry bark for the factory, the budget grant having been fixed to a limited amount for 5 years.

For the total expenditure during 1900—17, of Rs. 44,84,100 Government has received Rs. 51,24,900 and has acquired entirely within the 1905—17 portion of the period and possess now (*a*) additions to factory buildings and machinery that have quintupled its 1900 output capacity, bungalows and other plantation buildings, (*b*) 2,738 acres afforested with a full complement of selected timber and fuel trees, the trees only valued at Rs. 49,560, (*c*) 2,405·5 acres planted with a full complement of Cinchona, the trees only valued at Rs. 28,22,474, (*d*) a reserve of about 132,000 lbs. of quinine valued at Rs. 34,98,000 at the average market rate of Rs. 26-8 per pound, (*e*) other manufactured products, bark and chemicals valued at Rs. 2,71,700—making a total of Rs. 66,41,734. The total return of the Rs. 44,84,100 expenditure is therefore in cash and readily realisable assets Rs. 1.17,66,634. In this estimate nothing is claimed for value of factory and other buildings and machinery. In the stock account the various items have been valued as prescribed in Instruction XV of the revised memorandum of instructions for the maintenance of the accounts of the Cinchona plantations. The gross surplus over the period is Rs. 72,82,534. Deducting from this the value of Cinchona trees, Rs. 28,22,474, and Rs. 2,71,700 for value of stock on 31st March 1917, the value of reserve stock of quinine being excluded, the net surplus is Rs. 41,88,360, equivalent to an average annual surplus of Rs. 2,46,374 over an annual average expenditure of Rs. 2,63,770. Assuming that the actual expenditure of Rs. 44,84,100 over the whole period were entirely "Capital" invested in the department, then the surplus mentioned is equal to a return of 5 per cent. per annum on the sum invested each year from the year of its investment to the end of the period.

2. **Extensions, acreages and crop.**—(*a*) *Mungpoo.*—The weather conditions were not very satisfactory during the year. The rainfall was very heavy—nearly 143″ against the average 120″ for 38 years. The heavy rain, however, caused nothing serious in the way of land-slides. Two-thirds of Mungpoo is now under forest, and this of course reduces the danger from land-slides to a minimum. 35 acres of *C. ledgeriana*—22 on Mungpoo and 13 on Sittong divisions—were planted at a cost of Rs. 2,800. The seed was from parent trees of not less than 9 per cent. Quinine sulphate contents. 106 acres of Cinchona plants consisted of 88½ acres *C. ledgeriana*, 1 acre *C. succirubra* and 16½ acres *C. hybrid* were cut out during the year. The area under Cinchona, * * * is now 458 acres. The dry bark crop was 158,053 lbs., being 121,772 lbs. *C. ledgeriana*, 2,837 lbs. *C.*

succirubra, and 33,444 lbs. *C.* (*ledger* × *succirubra*). 43,400 mds. of firewood of value exclusive of cutting and carriage, Rs. 2,604 were supplied to the factory. The afforested area was increased by 200 acres at a cost of Rs. 2,000, bringing the total now up to 2,618 acres. The stock of Ipecacuanha plants was decreased by 8,085. This is due to mortality through cold. The total stock on 31st March 1917 was 40,000.

(*b*) *Munsong.*—The rainfall was 98·56 inches as against an average of 94·34 inches for the past 16 years. There were no heavy falls, but from 5th June till 30th September there were only 5 days on which rain did not fall. Extensions were 250 acres at a cost of Rs. 16,650 and consisted of 185 acres *C. ledgeriana*, 20 acres *C. officinalis*, 40 acres *C. hybrid* (*ledger* × *succirubra*), and 5 acres *C. succirubra*. The *ledger* seed was from trees of not less than 10, hybrid from trees of not less than 9, and the *officinalis* from trees of not less than 8 per cent. Quinine sulphate contents. 68½ acres of Cinchona plants, of which 62 acres *C. ledgeriana*, 3 acres *C. officinalis*, 2½ acres *C. succirubra*, and 1 acre *C. hybrid* were cut out during the year. The area under Cinchona, * * * is 1,947½ acres. The dry bark crop was 341,364 lbs., being 319,998 lbs. *C. ledgeriana*, 11,992 lbs. *C. succirubra*, 3,762 lbs. *C.* (*ledger* × *succirubra*), and ',612 lbs. *C. officinalis*. 120 acres of Cinchona land were re-afforested during the year. Extension has been made to Sangser division of the plantation, and 60 acres of Cinchona (55 acres *C. ledgeriana* and 5 acres *C. succirubra*) were planted out.

(*c*) *Plantation as a whole.*—The total area with a full complement of Cinchona is 2,405½ acres. * * * * The estimated total number of trees is 4,936,220, being 4,277,950 on Munsong and 658.270 on Mungpoo. The total bark crop was 499.417 lbs. The estimated total amount of bark in the living Cinchona trees is 3,163,442 lbs., of which 593,885 lbs. are on Mungpoo and 2,569,557 lbs. on Munsong.

3. **Factory work.**—126,300 lbs. of Mungpoo and 333,300 lbs. of Munsong bark with respective average Quinine sulphate percentages of 4·64 and 4·75 were used up, or a total of 459,600 lbs., with an average percentage of 4·695, equivalent to 21,713 lbs. Quinine sulphate theoretically available. 20,903½ lbs. were extracted, or 96·2 per cent. of the theoretically possible. In addition 1,400 lbs. Quinoidine, 118 lbs. 2 ozs. Cinchonidine sulphate, and 123 lbs. Cinchonine sulphate were manufactured. The factory has been designed for an output of 50.000 lbs. annually, but the bark supply from the plantation was only sufficient for about 21,000 lbs.

Improvements have been made both in the building and the plant of the grinding house. The roof has been raised along the centre ridge to provide better ventilation and a belt conveyer arranged to carry the powdered bark from below the three disintegrators to the top of the sifting machine from which it is delivered directly into sacks.

4. **Cost and value of plantation bark.**—The total expenditure on Munsong from its beginning up to the 31st March 1917, including its proportion of general charges, is in round figures Rs. 8,98,302. The sum of the acreages under Cinchona at the end of each year of the plantation's existence is 15,110½, so that the average annual expenditure per acre is Rs. 59·4. The yield of bark from Munsong during the year is equal to an annual average dry bark increment per acre of 445 lbs. over an average period of 13 years. The cost of Munsong bark is therefore almost 2 annas per pound. The cost of Mungpoo bark is 1¾ annas per pound. So the cost of 341,364 lbs. of Munsong bark at 2 annas per pound and of the 158,053 lbs. of Mungpoo bark at 1¾ annas comes to a total of Rs. 59,957-8-9 including all charges to godowns for the quantity harvested. The average market unit rate for the year was 20·60 Dutch cents, and the average quinine percentage of the bark was 4·695. Deducting 14,829 lbs. of *C. succirubra* bark the value of the *ledger*, *officinalis* and hybrid barks harvested is $\frac{20\cdot60 \times 4\cdot695 \times 484.588}{5 \text{ cents.} \times 1\cdot107 \text{ lbs.} \times 16}$ annas =Rs. 5,31,623·15. or nearly Re. 1-1 per pound. Valuing the 14,829 lbs. *C. succirubra* at 2·5 annas per lb., the value of the total harvest is Rs. 5,33,940-2-9. This shows a difference to the advantage of Government

of about Rs. 4,73,982-10 *plus* cost of freight and carriage between the actual cost and what it would have cost Government to buy the bark.

5. **Cost and value of quinine produced.**—(*a*) *Cost in bark.*—The 333,300 lbs. of Munsong bark at 2 annas per pound and 126,300 lbs. of Mungpoo bark at 1¾ annas per pound—total 459,600 lbs. used up in producing 20,903½ lbs. Quinine sulphate—cost Rs. 55,476-9, so that the Quinine sulphate cost Rs. 2-10-6 per pound in the bark.

(*b*) *Cost of extraction, purification, packing and delivery to railway.*—The factory expenditure *plus* share of general charges *plus* depreciation on buildings and machinery was Rs. 98,831-11-8. Subtracting from this Rs. 11,645-0-9 the value at cost price *plus* carriage of the chemicals, etc., saved from the quantities purchased during the year, the total charges of all factory products were Rs. 87,186-10-11. Deducting Rs. 4,464-8, the cost of manufacturing products other than Quinine sulphate, the cost of manufacture and packing of the 20,903½ lbs. Quinine sulphate is Rs. 82,722-2-11, or Rs. 3-15-6 per pound.

(*c*) *Total cost of manufacture.*—This is Rs. 55,476-9 (cost in bark) + Rs. 82,722-2-11 (cost of extraction, etc.)=Rs. 1,38,198-11-11 or $\frac{\text{Rs. } 1,38,198\text{-}11\text{-}11}{20,903\frac{1}{2} \text{ lbs.}}$ =Rs. 6-10 per pound.

(*d*) *Value.*—The average wholesale market rate for 1916 was Rs. 26-8 per pound, giving a valuation of Rs. 5,53,942-12 for the Quinine made, or a difference between cost and value to the advantage of Government of Rs. 4,15,744-0-1.

6. **Sales and selling rates.**— * * * The total issues of all products were 63,202 lbs. 5 ozs., of which 54,171 lbs. 9 ozs. were Quinine sulphate. Of the latter quantity 12,848 lbs. were distributed as tablet treatments. The rates for Quinine sulphate were Rs. 26-8 per pound on credit to Medical Depôts and Rs. 21-8 to Rs. 23 according to the quantity taken by cash purchasers. Products other than Quinine sulphate were sold at the same rates as for last year.

7. **Expenditure and receipts.**— * * * The total expenditure on the whole department was Rs. 2,18,494-10-8. The total gross receipts were Rs. 12,77,308-15-6, of which Rs. 82,419-9-4, being two-fifths of Rs. 2,06,048-14, the receipts for sale of tablets were credited to the Prison Department to cover cost of conversion of bulk Quinine into tablets and of distribution of the latter, leaving Rs. 11,94,889-6-2 as net receipts for the Cinchona Department. The year's surplus is therefore Rs. 9,76,394-11-6.

8. **Stock account and quinine reserve.**— * * * The Quinine reserve on the 31st March 1917 was 131,976 lbs. 11 ozs., worth Rs. 34,97,382-3-6. The value of stock of all sorts on 31st March 1917 was Rs. 37,69,113-7-9.

9. **Block account.**— * * * The areas under Cinchona are valued, except for the year's extensions—the cost of which is taken as their value—on their estimated dry bark content and average Quinine percentage at the average unit rate for bark for the year. To err on the safe side, in estimating the value of the Cinchona trees, bark increment has been disallowed to all blocks of Cinchona beyond their tenth year. The total value of the planted Cinchona and forest trees, buildings and machinery is Rs. 30,84,293-8-7.

10. **Profit and loss account.**—* * The profit balance on the year's working is Rs. 38,10,004-2-4.

11. **Land rent.**—Rupees 4,662-8-3 were paid into the Darjeeling Treasury, but no credit is taken for this in the Cinchona accounts.

12. **Staff.**— * * * * * *

RESOLUTION ON THE TRIENNIAL REPORT ON THE WORKING OF THE HOSPITALS AND DISPENSARIES UNDER THE GOVERNMENT OF BENGAL FOR THE YEARS 1914, 1915 AND 1916.

FINANCIAL DEPARTMENT.

MEDICAL.

CALCUTTA, THE 31st AUGUST 1917.

RESOLUTION—No. 1478Medl.

READ—

The Triennial Report on the working of the Hospitals and Dispensaries under the Government of Bengal for the years 1914, 1915 and 1916.

SURGEON-GENERAL G. F. A. HARRIS, M.D., C.S.I., I.M.S., held charge for the first fifteen months of the triennium, and was succeeded, on his retirement, by the Hon'ble Surgeon-General W. R. Edwards, C.B., C.M.G., M.D., I.M.S.

2. The period under review has been one of much stress and strain. The outbreak of war brought a call for medical assistance from Bengal, and before the end of 1916, 35 Indian Medical Service officers, 29 military assistant surgeons, 3 civil assistant surgeons and 69 sub-assistant surgeons had proceeded on military duty. This was a heavy demand, particularly on the superior service, yet, in spite of it and the difficulties in the recruitment of temporary officers to fill vacancies, the work of the department was carried on successfully and some important administrative reforms were effected. The Governor in Council notes with pleasure Bengal's contribution of sub-assistant surgeons to military duty. The number of sub-assistant surgeons in Bengal is small, as local bodies employ their own medical officers in their dispensaries, but the percentage of Government officers of this class deputed to military duty in proportion to the total cadre strength, as compared with the percentages elsewhere, is higher than that of any other province except the Punjab.

3. With the passing of the Bengal Medical Act, VI of 1914, and the Indian Medical Degrees Act, IV of 1916, and the establishment of the State Medical Faculty, a great advance has been made. By Act VI of 1914 there was established a Council of Medical Registration in Bengal, entrusted with the maintenance of a register of medical practitioners in possession of adequate titles or qualifications, and endowed with certain disciplinary powers over registered practitioners. The Indian Medical Degrees Act restricts, to institutions recognised by Government, the power to confer degrees, titles, diplomas, etc., implying proficiency to practise Western medicine, and has put an end to the system by which ill-equipped and insufficiently staffed institutions conferred diplomas on men after an entirely insufficient and unsatisfactory course of training. The State Medical Faculty was established in 1914 for the purpose of examining candidates from all recognised schools and colleges, and by its recognition under the Medical Degrees Act has been given the power to confer diplomas on those who succeed in passing its examinations.

4. In the course of the discussions relative to the above measures attention was forcibly drawn to the fact that the number of qualified medical practitioners in Bengal is inadequate for the needs of the population, while at the same time, the facilities for imparting sound medical education are insufficient. Both these questions are receiving the earnest attention of Government. His Excellency in Council recognises that the medical needs of the Presidency require the supply of doctors in numbers greater than can be obtained from the existing institutions, and, while he is making arrangements to admit a larger number of students to the Campbell and Dacca Medical Schools, he

is also considering the possibility of establishing schools in connection with the larger district hospitals. Further facilities for education of a higher standard have been secured in the Belgachia Medical College, which, with financial assistance from Government, has been enabled to secure affiliation up to the 1st M. B. Examination of the Calcutta University.

5. The introduction of honorary medical officers and their appointments to the staff of the Sambhu Nath Pandit and the Mayo Hospitals has so far proved a success, but further experience of the arrangement by which certain House appointments in the Medical College Hospitals are reserved for medical men outside the ranks of Government service tends to show that, while these appointments may be of value to the practitioners holding them, the system is not to the advantage of the hospitals, while it is distinctly detrimental to recruitment for Government service. The experiment has now been given a sufficiently long trial, and the Governor in Council will again examine the position.

6. The arrangements for the training of Indian nurses, initiated by Lady Carmichael, were introduced at three centres, the Sambhu Nath Pandit Hospital in Calcutta, the Victoria Hospital in Darjeeling, and the Charteris and other hospitals at Kalimpong. It is still too early to judge whether the scheme will be successful or not, but it is already evident that the training of hill girls at the hospitals in Darjeeling and Kalimpong will not further the original object in view, namely, the provision of nurses for *mufassal* hospitals, since these girls will not work in the plains. There is, of course, room for private nursing in the hills, and the training of hill girls will be continued. But two separate centres in the hills do not seem to be required for this purpose, and the question of abolishing one of them is under consideration.

7. The Serological Department has now been made a permanent institution, and under Lieutenant-Colonel Sutherland deals with references, chiefly in medico-legal cases, from the whole of India.

8. **Calcutta Hospitals and Dispensaries.**—The dearth of medical officers and conditions—financial and otherwise—arising out of the war have prevented the opening of the Tropical School of Medicine. The building has been completed, but the necessary equipment cannot be obtained; the staff has been sanctioned but cannot be brought together till the war ends. Meanwhile, thanks to the praiseworthy efforts of Sir Leonard Rogers and to much public liberality, funds have been raised for the construction and endowment of a Hospital for Tropical Diseases to be connected with the school. The hospital is approaching completion, but the equipment is not at present procurable. In this connection the Governor in Council desires cordially to acknowledge the liberality of the three commercial Associations, which have each promised an annual contribution of Rs. 20,000 for a period of five years for research work at the Tropical School in the diseases which are most prevalent in the labour force employed on tea gardens, on the coal-fields, and in jute mills.

Including the expenditure on the School and Hospital of Tropical Medicine, which amounted to Rs. 10,15,000, the expenditure on new buildings and repairs during the three years under report amounted to Rs. 18,28,392. Several of the larger building schemes have been abandoned on account of the war, while others have been held in abeyance. The most important works carried on during this period were the construction of a diphtheria ward as an annexe to the Medical College Hospital at a cost of Rs. 22,229, the provision of a new ward for plague cases in the Campbell Hospital, the expenditure on which amounted to Rs. 21,827, the acquisition of land for a new Eye Hospital at a cost of Rs. 2,28,000, and the provision of nurses' quarters at the Presidency General Hospital at a cost of Rs. 30,000. Financial conditions have unfortunately prevented further progress with the Eye Hospital, and this much needed improvement still remains to be carried out. During the three years the maintenance charges of the Calcutta hospitals steadily continued to rise and amounted to Rs. 36,10,356. The income of class I (State) hospitals was Rs. 12,21,521, of which 72·16 per cent. was contributed by Government. The Government subvention to class III and IV institutions

amounted to 25·09 per cent. of their total income. The amount of subscriptions and donations received from the public, which in the case of Europeans amounted to 11·54 per cent. and in the case of Indians to 6·6 per cent. of the total income, shows an improvement during the period under review, as compared with the figures in the previous triennium, and it is hoped that the authorities in charge of these institutions will continue to represent to the well-to-do the obligation that is upon them as citizens of Calcutta to contribute more liberally towards these charitable institutions.

The average yearly number of indoor patients at the Calcutta hospitals was practically the same as in the previous triennium : 95,740 in all were admitted. The number of beds increased, and the percentage of mortality during the three years showed an appreciable decline, the figures being 9·99, 10·84 and 9·97 per cent., against 12·16, 11·32 and 10·95 in the preceding three years. The nursing arrangements at the various hospitals continue to be satisfactory, and the efficiency of the hospitals is largely due to the effective supervision that has been exercised by the Nursing Sisters. The general conditions of service of the nurses entertained by the Calcutta Nursing Association are under consideration. Certain improvements have been effected, but others must await the end of the war. Meanwhile the Committee of the Association are to be congratulated on the result of their efforts to secure additional contributions from the general public. The thanks of Government are also due to those ladies of the St. John Ambulance Association who have regularly attended and rendered assistance in the out-patient work of the Sambhu Nath Pandit Hospital.

The number of out-patients during 1916 was 342,460 against 322,652 in 1913, and bears testimony to the fact that the value of Western medicine is being appreciated by the public.

9. **Hospitals and Dispensaries outside Calcutta.**—At the close of the triennium there were, outside Calcutta, 700 hospitals and dispensaries, of which 19 were State public, 45 State special, 253 District Board, 96 Municipal, 6 Local Fund, 82 private aided, 148 private non-aided, and 51 Railway. During this period 76 new hospitals and dispensaries came into existence. The increase in the number of *mufassal* medical institutions fails, however, to keep pace with the increasing demand in rural Bengal for the provision of medical assistance, and His Excellency in Council must again impress upon District Boards the paramount necessity of recognising that the alleviation of human suffering is one of their primary duties. Government have recently augmented the financial resources of these bodies by ceding to them the receipts from the Public Works cess, and it is expected that they will make an earnest endeavour to establish new hospitals and dispensaries in areas standing in need of medical relief. The Governor in Council is convinced that it is only by the establishment of rural dispensaries that the solution of the problem of medical relief in rural Bengal can be found.

The *mufassal* hospitals had to treat as an annual average 5,725,611 outdoor and 61,402 indoor patients, against 4,968,689 and 54,279 patients during the previous triennium. There was a marked increase in the total expenditure on classes I, III and IV dispensaries, which rose from Rs. 9,92,962 in 1913 to Rs. 12,83,261 in 1916, while the total receipts of this year amounted only to Rs. 12,50,070 : of this sum the Government subsidy accounted for 12·77 per cent., the Municipality and District and other Local Fund contributions were 16·77 and 41·31, respectively, while subscriptions and donations from the public came to 20·56 per cent.

10. The thanks of His Excellency the Governor in Council are due to Surgeon-General Edwards for his efficient administration of the department during a period of much difficulty, and to all medical officers, in particular the members of the Indian Medical Service, who, in spite of reduced numbers, have laboured unsparingly in the medical work of the Presidency.

By order of the Governor in Council,

J. DONALD,
Secy. to the Govt. of Bengal.

RESOLUTION ON THE REPORT ON POLICE ADMINISTRATION IN THE BENGAL PRESIDENCY FOR THE YEAR 1916.

POLITICAL DEPARTMENT.

POLICE.

CALCUTTA, THE 3RD SEPTEMBER 1917.

RESOLUTION—No. 11709P.

READ—

The Report on Police Administration in the Bengal Presidency for the year 1916.

READ ALSO—

The Report on Police Administration in the Bengal Presidency for the year 1915 and the Resolution of Government thereon.

MR. R. B. HUGHES-BULLER, C.I.E., held the post of Inspector-General of Police during the first three months of the year. He then went on long leave and was succeeded by Mr. C. W C. Plowden, C.I.E., who held charge for the remainder of the year and has submitted the annual report.

2. No permanent additions were made to the superior cadre of the police force during the year, but two temporary appointments of Superintendent of Police were sanctioned for the Intelligence Branch, and four temporary appointments of Deputy Superintendent were made against vacancies in the rank of Assistant Superintendents caused by the stoppage of recruitment for the Indian Police in England owing to the war

In consequence of the transfer to the jurisdiction of the Government of Bihar and Orissa of the portion of the East Indian Railway line running through that province, there was a nominal decrease of 165 in the strength of the subordinate police, but excluding the Railway police there was an actual increase of 4 inspectors, 10 sub-inspectors, 19 head-constables and 82 constables, due mainly to the opening of seven new investigating centres during the year. The proportion of police to population is still much lower in Bengal than in other provinces, and the need for a further increase both in the effective strength of the force and in the reserve is rightly emphasized in the Inspector-General's report. A scheme for increasing the reserve is under consideration and will, it is hoped, be sanctioned shortly. Not less urgent is the need for splitting up unwieldy investigating centres, especially in Eastern Bengal, and provision for nine more schemes of this nature has been made in the budget for the current year.

3. The Governor in Council is glad to find that the remarks made in last year's Resolution on the importance of refraining from burdening the police with enquiries into noncognisable crime and other miscellaneous duties have borne some fruit, but every endeavour should still be made to afford them further relief. The District Magistrate of Howrah has introduced an excellent rule that Magistrates should ask for police investigation only if a cognisable case or connection with a cognisable case is suspected, and this instruction might well be followed in other districts, such as Nadia, Midnapore, Mymensingh and Rajshahi, in which a tendency to burden the police unduly with enquiries into petty crime is apparent. The experiment made in the Dacca Division of entrusting to circle officers the duty of submitting the weekly weather and crop reports hitherto compiled by the police promises to be successful, and it is in the extension of the circle system that the real remedy is to be sought.

4. Recruitment during the year was on the whole satisfactory, and the vacancies in the sanctioned strength, which caused anxiety a few years ago, have now practically disappeared. The number of resignations has also materially decreased. It is a fair inference that the raising of the pay of constables effected two years ago is beginning to bear fruit. Particularly gratifying is the increase in the number of local recruits, especially in the Dacca Range, where out of 873 recruits, 689 were local men, 475 being Muhammadans. The Inspector-General gives various reasons for anticipated increased difficulties in future years in enlisting up-country men, with the result that reliance will have to be placed more and more on those available locally. *Prima facie* the latter should be best fitted for work in a country which they know and among people with whose ways they are acquainted. Difficulties have been experienced in the recruitment of head-constables owing to the paucity of constables with the necessary qualifications. Direct recruitment for 50 per cent. of the vacancies in the rank of head-constables has been sanctioned as a temporary measure, but the position is by no means satisfactory, and the Inspector-General's further proposals are awaited. In respect of this rank the expectations of the Police Commission have not been fulfilled, and similar results have been experienced in other provinces. The enhancement of pay sanctioned in 1914 has evidently proved insufficient.

The health of the force shows a notable improvement, consistently with the healthiness of the year, and the distribution of 2,000 mosquito-nets and 1,304 iron cots to the most unhealthy districts has had good results.

5. The discipline of the force was on the whole satisfactory. An increase in departmental offences was accompanied by a decrease in major punishments awarded. The number of criminal complaints brought by private persons against the police was 409 as compared with 449 in the previous year. Out of 373 cases disposed of by the Courts, only 67 ended in conviction, and the remainder in acquittal or discharge. Only two superior officers were convicted,—a sub-inspector of bribery, and a probationary sub-inspector of torture. One head-constable and four constables were convicted of bribery, three constables of torture and extortion, while three head-constables and fifty-nine constables were convicted on minor charges of assault and wrongful confinement. The high proportion of acquittals shows that the practice of bringing false and frivolous charges against the police still persists, but the small number of serious offences proved and of superior officers implicated may fairly be claimed as evidence of improvement in the general *morale* of the force and of the effectiveness of the supervision exercised over the subordinate ranks by gazetted officers. Out of 31 civil suits instituted against the police, 3 were withdrawn, 3 decreed, and 15 dismissed.

It is satisfactory to find that more than 4,000 officers and men, or about 20 per cent. of the force, earned rewards or good service marks during the year.

6. The provision of suitable accommodation for the police in the mufassal has long been recognised as one of the most urgent needs of the Department, but, owing to financial stringency, only Rs. 9½ lakhs could be allotted for this purpose during the year. The building allotment for the current year has, however, been raised to Rs. 16 lakhs, most of which will be spent on urgent schemes for housing the subordinate police. Much, however, remains to be done in this connection, and the building projects administratively approved will cost more than 90 lakhs of rupees. This leeway can only be made up gradually by steady provision of funds each year.

7. The Dacca Military Police Battalion has again earned the commendation of the military authorities for its high state of efficiency and has rendered valuable service to the Civil police in the maintenance of order on several occasions. The keenness and prestige of the battalion have been much enhanced by the acceptance of a force of over 100 men for service at the front. The Governor in Council, in congratulating Captain Macpherson and Captain Dallas Smith on the satisfactory state of the Battalion, desires also

to thank them for their services in connection with recruiting for the Bengali Battalion and for other extra-regimental duties cheerfully undertaken and efficiently performed.

8. The River Police, who had been mobilised for special duty in August 1915, again became available for ordinary work in January 1916. The Meghna and Barisal divisions were then established and five new police-stations were subsequently opened. The fleet was increased by four new floating stations, but two stations were transferred to the Assam Administration in consequence of the transfer of jurisdiction over the rivers flowing through that province. Three station launches and two inspectors' launches were taken over by the military authorities before delivery, and the former only were replaced temporarily by hired vessels. It is satisfactory to find that the influence of the river police extends to the tracts bordering on the rivers, which are often inaccessible to the officers of police-stations on land, but co-operation between the river police and the land police requires to be further developed. The link between them is the system of station boats, by which the work of the river police is continued through the network of smaller waterways into which the vessels of the river police cannot penetrate. The Inspector-General describes an excellent piece of work performed in the capture of a dangerous gang of Gain river thieves after a chase and an engagement in which shots were exchanged and one of the gang was killed. The gang was broken up and two of the leaders sentenced to transportation for life.

9. There have been no important changes in the village police system, and the matter is rather in abeyance until Government are in a position to give effect to the scheme of village self-government which is now under consideration. A Bill dealing with the whole question has recently been submitted to the Government of India, and it is hoped that its introduction in the Legislative Council will not be long delayed. The proper utilisation of the chaukidari force is one of the oldest problems of provincial police administration, and no final solution has been yet arrived at No service can be regarded as in a satisfactory state in which, as now, about half its members are punished annually, and more discriminating methods require to be found of developing the potential usefulness of the village chaukidars. These potentialities exist, and several instances are given in the report in which chaukidars and dafadars arrested or attempted to arrest armed dacoits at the risk of their lives, and in which the telegraph was successfully used to secure the arrest of criminals. The excessive balances at the credit of the Chaukidari Fund in some districts suggest illiberality in rewarding good work, and still more unsatisfactory are the heavy arrears of pay in Bakarganj, Mymensingh, Midnapore, Rangpur and Pabna. The Governor in Council desires to impress on District Officers and Superintendents of Police the necessity of a close and intelligent supervision of chaukidari administration, and he trusts that police officers of all ranks will bear in mind the Inspector-General's observations that the most efficient station officer is he who recognises that the best results are obtained where a genuine effort is made to secure the assistance of the chaukidars by treating them with consideration.

10. The criminal statistics show that crime is still in excess of the standard of pre-war days. There has, however, been a satisfactory improvement in dacoity cases, which fell to 516, or 137 less than in 1915. In Bakarganj, where dacoities in 1915 were so numerous that a Special Commission under the Defence of India Act had to be constituted to deal with them, the number of cases fell from 158 to 36. The liberal distribution of rewards for the capture of dacoits has done much to stimulate the co-operation of the public in dealing with this form of crime. The figures regarding other forms of serious crime show a slight increase, but the Inspector-General is probably justified in attributing this mainly to better reporting due to the opening of new police-stations, which afford the sufferers from petty burglaries and thefts greater facilities for bringing their losses to notice. There was also a slight increase in rioting cases, but it is noteworthy that in

Mymensingh, where land disputes have in the past constantly led to serious riots and loss of life, the record of rights recently prepared has brought about a substantial diminution in this form of crime.

11. In the matter of detection there is little variation from the figures of previous years, so far as the Presidency as a whole is concerned, but there are marked differences between different districts which are not easily explained. In Howrah and Hooghly, for instance, 60 per cent. of the cases investigated were sent up for trial, while in Midnapore and Birbhum less than 30 per cent. were sent up. This matter might well receive further attention from Deputy Inspectors-General. The Governor in Council recognises the difficulty under which ordinary station officers labour in dealing with professional criminals whose operations extend over more than one district, and in the 24-Parganas, where crime of this kind is rife, a special detective staff has recently been sanctioned. Arrangements have also been made to establish a training school on modest lines, where officers who have shown an aptitude for detective work will be instructed in modern methods.

12. The results of the cases tried by the Courts compare favourably with those of other provinces in India and afford a satisfactory indication of the care with which cases are prepared and of the thoroughness with which the evidence is tested by superior officers. It is, however, unsatisfactory to find that, although 334 cases were found by the Magistrates to be maliciously false, prosecutions were undertaken in 39 cases only. Attention has frequently been called to this matter, but little improvement can be expected until Magistrates and police officers realise that the declaration of a case as deliberately false should not be regarded as the normal termination of the proceedings, but should ordinarily be followed by the prosecution of the complainant.

13. Another matter in which Magistrates might help the police more than they do is in the prompt disposal of cases and the discouragement of unnecessary remands. District Magistrates must see that subordinate Magistrates entrusted with police cases are not overburdened with other work, and that they so arrange their attendance in Court as to cause the least possible inconvenience and delay to the parties and their witnesses.

14. The resources of the Criminal Investigation Department were severely strained during the first half of the year in getting under control the unprecedented outbreak of dacoity which occurred in 1915. In the districts chiefly affected, the existence was discovered of 44 gangs responsible for no less than 240 dacoities, or preparations for dacoity, and 230 burglaries. Of the cases with which the Department was concerned, 57 ended in the conviction of 136 persons on specific charges, while 288 persons were bound down under the preventive sections of the Criminal Procedure Code. The results of this action are apparent in the decrease of dacoities which has already been noticed, and will, it is hoped, lead to further improvement during the current year.

Sixteen more criminal tribes or gangs were brought within the operation of the Criminal Tribes Act during the year, but towards its close action was wisely retarded in order to consolidate the work already begun. It is recognised that, without proper arrangements for surveillance, the mere declaration of tribes and the registration of their members have little value. The whole question is now under the consideration of the Inspector-General. The organisation of the Karwal Nut settlement at Saidpur under the Salvation Army is not yet complete, but the progress which has been made in inducing the people to settle down to peaceful pursuits is not unsatisfactory, especially in view of the opinion expressed by the Salvation Army authorities that of all the tribes whom they have handled the Karwals are the most defiant and unruly.

15. Twenty-four outrages were committed by persons connected with the revolutionary conspiracy, as compared with thirty-six in the previous year. Eight persons were murdered, including five police officers, the headmaster of the Malda zilla school and two persons who were suspected of aiding the police. There were 18 dacoities in the course of

which seven persons were killed or fatally wounded. In one of the dacoities in the Tippera district, the villagers offered a stout and plucky resistance. Five of them were killed and five wounded, while one of the dacoits, who was subsequently identified as a man who had absconded from the domicile assigned to him under the Defence of India Act, died as a result of the injuries inflicted upon him by the infuriated villagers. Liberal provision has been made for the families of the murdered villagers and for those who were wounded.

One of the murderers of the Malda headmaster was convicted and sentenced to transportation for life, while convictions were obtained in nine other cases connected with the conspiracy. A number of other persons implicated in outrages committed have been placed under restraint, and the Governor in Council has no hesitation in saying that, but for the measures taken under the Defence of India Act, the year's record would have been much blacker than it is.

16. The Governor in Council has again to record his high appreciation of the courage and devotion with which all ranks of the Intelligence Branch have carried out their difficult and dangerous duties and his deep regret at the loss of so many brave police officers. Since the long fight with murder and outrage began ten years ago no less than 22 police officers have been assassinated and the work of the Bengal Police stands out as a shining example of courage and self-sacrifice. Among those who have laid down their lives, the name of deputy superintendent Babu Basanta Kumar Chatarji will long be remembered, not only for the courage and tenacity with which he stuck to his post, though he well knew that his life had been declared forfeit by his enemies, but also by reason of his high personal qualities.

17. In conclusion, the Governor in Council desires to express his thanks to Messrs. Hughes-Buller and Plowden for their administration of the Bengal Police during the year. There are now signs of the beginnings of a recovery from the abnormal conditions caused by the war. The tide of crime is beginning to recede, though it has not yet been forced back into its old limits. Progress has also been made in organization and administration, so far as financial conditions have allowed. But much still remains to be done, and the Inspector-General is rightly insistent in urging the needs of his Department. The Governor in Council has read with pleasure the long list of officers of all ranks who have been commended by the Inspector-General for good work done during the year.

ORDER.—Ordered that copies of the Resolution be forwarded to the Inspector-General of Police, the Commissioner of Police, Calcutta, and all Commissioners of Divisions for information.

Ordered also that the Resolution be published in the *Calcutta Gazette*.

By order of the Governor in Council,

J. H. KERR,

Chief Secy. to the Govt. of Bengal.

RESOLUTION ON THE ANNUAL REPORTS OF THE VETERINARY COLLEGE AND OF THE CIVIL VETERINARY DEPARTMENT, BENGAL, FOR THE YEAR 1916-17.

REVENUE DEPARTMENT.

AGRICULTURE.

CALCUTTA, THE 30TH AUGUST 1917.

RESOLUTION—No. 6528Agri.

READ—

The Annual Reports of the Veterinary College and of the Civil Veterinary Department, Bengal, for the year 1916-17, with the Director of Agriculture's review thereof.

LIEUTENANT-COLONEL A. SMITH, Principal, Bengal Veterinary College, continued to hold charge of the College as well as of the office of Superintendent, Civil Veterinary Department, throughout the year, Mr. P. J. Kerr and Mr. A. D. MacGregor being still absent on military duty. All touring and inspection work of the department was performed by Babu Sarat Chandra Pal, Deputy Superintendent, who was on tour for 118 days. As in the previous year, seven veterinary assistants of the department were on military duty. The Governor in Council notices with regret the death of Babu Jagman Singh which occurred while he was on leave from military duty.

2. The number of students at the Bengal Veterinary College at the end of the session was 148. There has been a steady increase in the number of students, the figures for the previous three years being 91, 96 and 135, but there remains a demand in the Presidency for qualified veterinary assistants which is not yet satisfied by the supply of candidates. The course at the Bengal Veterinary College affords an opening to an honourable career for a young man who is not afraid of hard work in the open air, and the Governor in Council is persuaded that if the opportunities which it offers were better known the demand for candidates would be supplied. The Principal's report shows that of the students who passed out of the College during the past three years 57 are in the service of Government or of local bodies, 5 are in private service, and none are unemployed, while during the year under report 12 departmental posts of veterinary assistants were vacant for want of qualified candidates. The steady expansion of expenditure on veterinary work incurred by local authorities indicates an increased interest in the subject and a probability of a further demand in the near future. The course at the Veterinary College extends over three years, and no fees are charged for tuition: the total annual expenditure for hostel fees and messing charges amounts to about Rs. 114. Government provide 24 scholarships ranging from Rs. 5 to Rs. 10 per month, and District Boards provide 25 ranging from Rs. 12 to Rs. 15 per month. The initial pay of a veterinary assistant employed by a District Board or municipality is Rs. 30, and this rises to Rs. 70 by quinquennial increments of Rs. 5. Candidates for admission to the College are required to have passed the Entrance Examination of the Calcutta University or to have completed the High School course, or to pass a special examination conducted by the Principal of the College. Applications are required to reach the Principal not later than April the 15th. Out of 148 students at the end of the session of 1916-17 only 54 were Bengalis. The Governor in Council gives prominence to these details in the hope that Bengal will make an effort to supply its own requirements in the matter of veterinary assistants.

3. During the year under report important changes were introduced in the extension of the Glanders and Farcy Act and in the provision of greater facilities for the use of the Act in places to which it was extended. At the same time the statutory rules of Western and Eastern Bengal were co-ordinated, and the law and the rules are now uniform throughout the

Presidency. In Western Bengal the Act was extended to the whole province in 1910, whereas in Eastern Bengal its application was restricted to certain localities, because it was held that the Veterinary Department was not strong enough to administer the Act in all places. The strengthening of the department, the success of the policy adopted in Western Bengal, and the serious inconvenience which arose when an outbreak of disease made it necessary to extend the Act hastily to the affected area led Government to adopt the Western Bengal system throughout the Presidency. Important duties under the Act are assigned to officers who are notified as "Inspectors" and as "Practitioners" under the Act: The duties of an "Inspector" have now been entrusted to all veterinary assistants, and those of a "Practitioner" to Deputy Superintendents and Inspectors of the department.

4. The disease which accounts for the loss of the largest number of cattle in Bengal is rinderpest. During the year under report this disease was less prevalent than usual in the mufassal. The following figures illustrate the fluctuations of rinderpest during the past four years :—

	Number of deaths reported.	Number of outbreaks attended.	Number of animals inoculated.	Average number of animals inoculated at each outbreak attended.
1913-14 ...	10,318	210	23,836	113
1914-15 ...	13,662	340	37,813	111
1915-16 ...	8,893	284	38,950	137
1916-17 ...	5,443	161	20,498	127

In Calcutta and its suburbs there were 57 outbreaks of rinderpest compared with 28 in the previous year.

5. The figures for the past four years show a general increase in the activity of the Veterinary Department and in the interest taken by local bodies in veterinary work :—

	Expenditure by Government.	Expenditure by local bodies.	Total expenditure.	Number of hospitals and dispensaries.	Animals treated at hospitals and dispensaries.	Number of veterinary assistants.	Animals treated by veterinary assistants on tour.
	Rs.	Rs.	Rs.				
1913-14 ...	1,93,627	61,371	2,54,998	18	21,503	75	50,598
1914-15 ...	1,95,982	73,531	2,69,513	24	24,049	81	53,287
1915-16 ...	2,28,639	93,134	3,21,773	24	29,349	94	61,386
1916-17 ...	1,89,081	1,19,904	3,08,985	25	37,785	82	57,462

Shortage of officers accounts for the decreased expenditure by Government in the year under report and for the decrease in the number of veterinary assistants employed. The Governor in Council views with satisfaction the steadily increasing expenditure of local bodies and the growing popularity of their hospitals and dispensaries.

6. The number of stud bulls kept by Government and local bodies decreased from 83 to 71. The report mentions applications from District Boards which could not be supplied and unsuccessful attempts of the department to procure suitable bulls from the Garo Hills. The Rangpur Cattle Farm is unfortunately not expected to have bulls ready for distribution in the near future or until experimental work has given satisfactory results.

7. Lieutenant-Colonel Smith has his time very fully occupied by his duties as Principal of the College and Superintendent of the department, and the unavoidable shortage of officers, both on the teaching staff of the College and in the mufassal, has thrown an additional burden on the department. The Governor in Council congratulates Lieutenant-Colonel Smith and his staff on the good work which has been done under these conditions.

By order of the Governor in Council,

L. BIRLEY,

Secretary to the Govt. of Bengal.

DISTRICT REPORTS ON WEATHER AND CROPS

For the week ending on the 3rd September 1917.

Summary.—During the week under review, light rain fell generally throughout the province, excepting in some districts of North Bengal. More rain is urgently needed for agricultural operations. Reaping, steeping and washing of jute and harvesting of other autumn crops continue. Outturns appear to be generally good. Transplanting of winter paddy has almost been completed; weeding continues. Prospects of standing crops are generally promising, but more rain is required for their growth. In the eastern districts, however, the abnormal lowness of rivers is causing some apprehension regarding prospects of broadcasted winter paddy. Cattle-disease is reported from ten districts. The average price of common rice for the province has fallen by 0·65 per cent., as compared with that of the previous week.

DEPARTMENT OF STATISTICS, INDIA.

CALCUTTA TRADE FLUCTUATIONS.

THE following tables are intended to show the trade of the Calcutta Block* in certain selected articles during the months of April to June, 1917, by all routes, *i.e.*, by rail, river, canal, road, and sea. The statistics have been compiled from returns furnished by the Collector of Customs, Calcutta, Railway Audit Offices, Steamer Companies, the Commissioners for the Port of Calcutta, the District Magistrates of the 24-Parganas and Howrah, and the Assistant Engineer, Calcutta Canals.

General Summary.

Imports.—The imports of rice, including paddy†, into Calcutta by rail river, canal, road and sea (coastwise) during April to June, 1917, amounted to 2,154,000 maunds as against 4,209,000 maunds in the corresponding period of the preceding year—a decline of 49 per cent§. There was a decrease (11 per cent) in the imports of coal and coke (25,522,000 maunds as against 28,651,000 maunds last year). The imports by rail, river, road and sea (coastwise) of Indian cotton piece-goods showed a decrease of 8 per cent, the total value amounting to Rs. 86,58,000 as against Rs. 93,81,000 in 1916. The quantity of indigo imported by all routes during April to June, 1917, fell by 50 per cent (600 maunds as against 1,200 maunds last year), the decline being mainly due to the absence of any supply from Madras. The imports of raw jute amounted to 481,000 bales as against 383,000 bales—an increase of 26 per cent. The importations of gunny bags also showed an increase of 23 million bags or 26 per cent (113 million bags as against 90 millions in the preceding year). The total imports of oilseeds (linseed and rape and mustard seed) decreased by 47 per cent (1,812,000 maunds as against 3,429,000 maunds). There were increases in the imports of tea and sugar; the former rose by 19 per cent (413,000 maunds as against 347,000 maunds), and the latter by 13 per cent (207,000 maunds as against 183,000 maunds).

Exports.—The exports of cotton piece-goods, foreign, from Calcutta by all routes during April to June, 1917, increased by 14 per cent (Rs. 6,41,69,000 as against Rs. 5,62,33,000 last year). The exports of gunny bags (excluding exports by sea to foreign countries) increased from 24·7 million bags to 28·5 million bags. The shipments of gunny bags to other Indian ports increased by 1,35,000 in number in the period under review (No. 6,725,000 as against No. 6,590,000). The quantity of kerosene oil despatched from Calcutta and Budge-Budge by internal routes and by sea (coastwise) increased from 1,430,000 maunds to 1,441,000 maunds.

---

* The Calcutta block consists of the town of Calcutta with Howrah and Kidderpore Docks.
† One maund of paddy is equivalent to 25 seers of rice.
§ The import of Burma rice into Calcutta has been prohibited with effect from April, 1917.

"	76	"	"	"	"	"	of 3½	"	"	"	"
"	92	"	"	"	"	"	of 4	"	"	Conversion Loan converted	

together with such further amount of War Loan as may be required to make up an exact multiple of Rs. 100, subject to the payment in cash of this further amount less one anna in the rupee.

4. Conversion rights may be exercised at any time after the 1st November 1917 but not later than the 15th January 1918. Conversion warrants will be negotiable and will be issued in Bearer form.

5. Securities of War Loan 1929—1947 issued by conversion will bear interest from the 15th August 1917. No interest will be paid separately in respect of the cash payments made under clause 3 above.

6. Holdings of War Loan 1929—1947, War Bonds 1920, and War Bonds 1922, do not carry any right of conversion into any future issue that may be made by the Government of India.

Applications.

7. Applications for War Loan 1929—1947, War Bonds 1920 and War Bonds 1922 (other than applications through the Post Office under the procedure described in clauses 20 to 23 of this Notification) should be in the form appended (Annexure A), and may be presented any day from Thursday, the 15th March 1917, to Friday, the 15th June 1917, to any of the following officers or persons :—

(1) The Controller of Currency, Calcutta, or any Provincial Accountant-General or Comptroller,
(2) The Secretaries and Treasurers, Banks of Bengal, Bombay and Madras, at their Head Offices, or the Agents of these Banks at any Indian Branch, and
(3) Officers in charge of Government treasuries at district head-quarters.

8. Applications must be for sums of Rs. 100 or multiples of that sum.

9. Applications for the sum of Rs. 100 only must in all cases be accompanied by full payment, namely, Rs. 95 in the case of War Loan 1929—1947, and Rs. 100 in the case of War Bonds 1920 and War Bonds 1922.

10. Applications for sums of Rs. 200 or more in War Loan 1929—1947, War Bonds 1920 or War Bonds 1922 may be either for—

(*a*) Fully paid allotments, or
(*b*) Instalment allotments.

11. Applications for Post Office 5-year Cash Certificates will be regulated by the procedure described in clauses 32 to 40 of this Notification.

Brokerage.

12. A commission of one-eighth per cent. will be allowed to recognised bankers and brokers on allotments made in respect of cash applications bearing their stamp, but this commission will not be allowed in respect of applications received through the Post Office, including applications for Post Office 5-year Cash Certificates, or in respect of applications for conversion.

Supplementary provisions.

Fully paid allotments.

13. Applications for fully paid allotments must in all cases be accompanied by payment of the full amount payable. Fully paid Allotment Letters, exchangeable in due course for Securities, viz., Stock Certificates, Promissory Notes, or Bearer Bonds, will be issued in respect of such allotments. Interest due from the date of payment to the 14th August 1917 will be payable by warrant at the time of the issue of Securities, which will bear interest payable half-yearly commencing from the 15th August 1917.

Instalment allotments.

14. Applications for instalment allotments must in all cases be accompanied by payment of the first amount of the instalment stated above to be payable in respect of such applications. In the case of default in the payment of any instalment by its proper date, any instalments previously paid will be liable to forfeiture. Allotment Certificates exchangeable in due course for Securities, viz., Stock Certificates, Promissory Notes, or Bearer Bonds, will be issued in respect of such allotments.

In the case of instalment allotments paid in full on or before the 15th August 1917, the interest due on the instalments from the date of actual payment to the 14th August 1917 will be payable by warrant at the time of issue of Securities, which will bear interest payable half-yearly commencing from the 15th August 1917.

In the case of instalment allotments paid in full after the 15th August 1917, the interest due on the instalments from the date of actual payment to the 14th February 1918 will be payable by warrant at the time of issue of Securities, which will bear interest payable half-yearly commencing from the 15th February 1918.

Method of payment.

15. Applications must be accompanied either—

(1) By a receipt for the amount payable thereon, from the Head Office, or any Indian Branch Office, of the Banks of Bengal, Bombay and Madras, or from an officer in charge of a Government Treasury at district headquarters, or

(2) By a cheque, for the amount payable thereon, drawn in favour of the officer to whom, and on a Bank in the place at which, the application is presented, or

(3) By whole currency notes for the amount payable thereon.

Subsequent instalments may be paid into the Head Office, or any Indian Branch Office of the Bank of Bengal, Bombay or Madras, or into any Government Treasury at district headquarters to be named by the applicant in his application.

Conversion procedure.

16. Conversion warrants will be issued by the Public Debt Office, which in this connection means the Presidency Banks of Bengal, Bombay and Madras, respectively, at their Head Offices, on presentation of the Allotment Letters or of the Allotment Certificates (after these latter have been fully paid up) referred to in clauses 13 and 14 above.

17. Applications for conversion duly completed should be made within the dates prescribed in clause 4 to—

(1) The Public Debt Office, as above defined, or any Indian Branch Office of a Presidency Bank ; or

(2) A Government Treasury at district headquarters, for transmission to the Public Debt Office,

and should be accompanied—

(1) By the necessary Conversion warrants,

(2) By the securities (duly receipted) tendered for conversion and

(3) By the cash payment, if any, referred to in clause 3.

18. The same warrant may be used partly for the conversion of securities of the 4 per cent. Conversion Loan and partly for the conversion of securities of the 3½ per cent. or the 3 per cent. Rupee Loans. Where the securities thus converted do not exhaust the full amount of conversion rights allowed by the Conversion warrant the holder may apply to, and will then receive from, the Public Debt Office a fresh warrant for the difference.

19. On application by the holder a warrant will be sub-divided by the Public Debt Office into two or more warrants on payment of a fee of 4 annas in respect of each of the warrants issued in exchange.

POST OFFICE SECTION.

(SPECIAL PROVISIONS FOR APPLICATIONS THROUGH THE POST OFFICE.)

20. Applications for War Loan 1929—1947, War Bonds 1920, and War Bonds 1922 will also be received at any Post Office authorised to transact savings bank business from Thursday, the 15th March 1917, to Monday, the 15th October 1917, from any person whether previously a depositor in the Post Office savings bank or not: subject to the conditions stated in the following clauses.

Form of application.

21. Applications must be made in the special form prescribed in Annexure B.

Maximum and minimum amounts.

22. Applications through the Post Office must be for sums of Rs. 25 or any multiple thereof. The same person may not apply for or hold through the Post Office more than Rs. 22,500 in all under this Notification, of which

not more than Rs. 7,500 may be in War Loan 1929—1947; not more than Rs. 7,500 may be in War Bonds 1920 and War Bonds 1922 singly or together; and not more than Rs. 7,500 may be in Post Office 5-year Cash Certificates—see clause 37.

Notes.—(1) Applications through the Post Office under this Notification will be permitted irrespective of any holdings of other securities previously obtained through the Post Office.

(2) Amounts of War Loan 1929—1947 obtained by conversion will not be taken into account in applying the above limits.

Amounts payable.

23. Amounts applied for must be paid in full with the application and are not payable in instalments. But the same person may present more than one application, provided his aggregate applications do not exceed the limits prescribed in clause 22.

Method of payment.

24. The payments due as in the preceding clause may be made in either of the following ways or partly in each :—

(*a*) By transfer from any balance in cash standing at the credit of the applicant's savings bank account if he has one;

(*b*) By a payment in coin or currency notes, or by a crossed cheque drawn on a recognized Bank in favour of the Head Postmaster of the place at which such Bank is established.

Securities.

25. Securities in respect of applications made through the Post Office will be issued either in the form of Promissory Notes or Stock Certificates. Securities thus issued may be left in the custody of the Accountant-General, Posts and Telegraphs.

Income-tax.

26. Interest payable on War Bonds 1920 and War Bonds 1922 is exempt from income-tax. Securities of the War Loan 1929—1947 are specially exempted from income-tax if deposited with the Accountant-General, Posts and Telegraphs, and for so long as they are so deposited.

Interest.

27. Interest due from the date of payment of the amount applied for to the next regular date of half-yearly payment of interest (15th August 1917 or 15th February 1918 as the case may be) will be paid in cash at the time of issue of the Securities. Future interest will begin to accrue

from the 15th August 1917 when payment of the amount applied for is made on or before the 15th August 1917 and

from the 15th February 1918 when payment of the amount applied for is made after the 15th August 1917.

Conversion.

28. An applicant for War Loan 1929—1947 through the Post Office will receive a negotiable Conversion warrant (together with forms of application for conversion) enabling him to exercise the rights specified in clause 3 above either in the manner stated in clause 17, or through the agency of the Post Office as in clause 29.

29. Conversion of securities of the 3 per cent., of any of the 3½ per cent. Rupee Loans or of the 4 per cent. Conversion Loan, 1916-17, will, subject to the cash payment, if any, referred to in clause 3, be effected by the Post Office in all cases in which the securities tendered for conversion are already in deposit with, or were originally purchased by the convertor through, the Accountant-General, Posts and Telegraphs, on presentation at any Post Office savings bank office, after the 1st November 1917 and before the 15th January 1918,

(*a*) Of the necessary Conversion warrants (whether obtained through the Post Office or not) and the form of application for conversion duly filled up; and

(*b*) Of the securities (if any) endorsed to the Accountant-General, Posts and Telegraphs.

30. If the securities thus converted do not exhaust the full amount of conversion rights covered by the Conversion warrant, the holder will receive from the Post Office a fresh warrant for the difference, unless the unutilised amount is less than Rs. 500, in which case the warrant for the difference will be issued only on special application being made.

31. A Conversion warrant issued through the Post Office may be sub-divided on application by the holder to the Public Debt Office, in the manner stated in clause 19.

Post Office 5-year Cash Certificates.

CERTIFICATES FOR Rs. 10, Rs. 20, Rs. 50 AND Rs. 100 PAYABLE FIVE YEARS AFTER ISSUE.

32. Post Office 5-year Cash Certificates may be obtained at any time on and after the *1st April 1917* at all Post Offices at which savings bank business is transacted.

33. These Certificates will be in the form shown in Annexure C attached, and will be in four denominations:—

Rs. 10	obtainable on payment of	Rs. 7-12.
Rs. 20	"	"	Rs. 15-8.
Rs. 50	"	"	Rs. 38-12.
Rs. 100	"	"	Rs. 77-8.

34. The full amount shown in the Certificate will be payable five years after the date of issue. But at any time within the five years period the holder will be entitled to payment in cash at the rates prescribed in the table attached as Annexure D.

35. Such payment will ordinarily be made at the Post Office of issue and on presentation of the Certificate. But on application to the Postmaster of the office of issue and on cause being shown, payment at any other Post Office conducting savings bank business may be permitted.

36. No income-tax will be levied on these Certificates.

37. The maximum holding of these Certificates by any single individual shall not exceed Rs. 7,500 irrespective of any holdings of securities obtained by him through the Post Office of 3 per cent., 3½ per cent., or 4 per cent. Rupee Loans, or of War Loan 1929—1947 or War Bonds 1920 or War Bonds 1922.

38. These Certificates may not be transferred except by permission of the Postmaster-General of the Circle in which the Post Office of issue is situated.

39. These Certificates will be kept, if so desired, in the custody of the Accountant-General, Posts and Telegraphs.

40. Forms of application for these Certificates may be obtained from any Post Office.

By order of the Governor-General in Council,

J. B. BRUNYATE,

Secy. to the Govt. of India.

BY THE KING.

A PROCLAMATION

DECLARING THAT THE NAME OF WINDSOR IS TO BE BORNE BY HIS ROYAL HOUSE AND FAMILY AND RELINQUISHING THE USE OF ALL GERMAN TITLES AND DIGNITIES.

GEORGE, R. I.—

WHEREAS We, having taken into consideration the name and title of Our Royal House and Family, have determined that henceforth Our House and Family shall be styled and known as the House and Family of Windsor :

AND WHEREAS We have further determined for Ourselves and for and on behalf of Our descendants and all other the de-cendants of Our Grandmother Queen Victoria of blessed and glorious memory to relinquish and discontinue the use of all German Titles and Dignities :

AND WHEREAS We have declared these Our determinations in our Privy Council :

NOW, THEREFORE, We out of our Royal Will and Authority, do hereby declare and announce that as from the date of this Our Royal Proclamation Our House and Family shall be styled and known as the House and Family of Windsor, and that all the descendants in the male line of Our said Grandmother Queen Victoria who are subjects of these Realms, other than female descendants who may marry or may have married, shall bear the said name of Windsor :

AND do hereby further declare and announce that We for Ourselves and for and on behalf of Our descendants and all other the descendants of Our said Grandmother Queen Victoria who are subjects of these Realms, relinquish and enjoin the discontinuance of the use of the Degrees, Styles,

Dignities, Titles and Honours of Dukes and Duchesses of Saxony and Princes and Princesses of Saxe-Coburg and Gotha, and all other German Degrees, Styles, Dignities, Titles, and Honours and Appellations to Us or to them heretofore belonging or appertaining.

GIVEN at Our Court at Buckingham Palace, this Seventeenth day of July, in the year of our Lord One thousand nine hundred and seventeen, and in the Eighth year of Our Reign.

RULES FOR THE GUIDANCE OF PRIVATE CANDIDATES FOR THE MATRICULATION EXAMINATION OF 1918.

THE following rules for the guidance of private candidates for the Matriculation Examination are published for general information.

2. Private students are those who have not attended any recognised or unrecognised school for at least one year previous to the examination. The term "private students" includes *bonâ fide* school masters.

3. Private students must appear at the Test Examination of one of the following institutions on the dates mentioned against it :—

Name of School.	Date of Test Examination.
(1) Comilla Zilla School	3rd, 4th, 5th, 6th and 7th December 1917.
(2) Noakhali Zilla School	
(3) Chittagong Collegiate School ...	
(4) Rangamati High English School ...	

Each private student will pay a fee of Rs. 3 to the head of the institution in which he appears for the Test Examination. No private student will be admitted to the Test Examination unless he is accompanied for the purpose of identification by some person known to the Head Master of the institution at which he appears.

4. Application for permission to appear must be sent in time to reach this office not later than the 5th November 1917. The information to be given and the documents to be appended in original are the following :—

(*a*) The name of the school in which the candidate last studied.

(*b*) The Transfer Certificate in original granted to the candidate by the Head Master of the school in which he last read ; or

(*c*) In the case of a candidate who previously appeared at the Matriculation Examination, the Registrar's receipt in original for the fee paid.

(*d*) Age of the candidate. No candidate who has not completed the age of 16 years on the first day of the Matriculation Examination will be allowed to appear at it.

(*e*) In the case of school-masters a certificate of good conduct from the Secretary or proprietor of the school in which he is serving or from the Deputy Inspector of the district concerned.

(*f*) A certificate from a respectable gentleman to the effect that the candidate has prosecuted a regular course of study and has been subject to proper discipline and that he has not read in any school since the last Matriculation Examination.

(*g*) A statement by the candidate giving the following facts:—

(i) Residence.

(ii) Father's name.

(iii) Second language besides English.

(iv) Vernacular language for composition.

(v) Vernacular language from which translation is to be made into English in the first English paper.

(vi) Which of the following subjects he has taken up:—

(1) Additional Mathematics.

(2) Additional paper in the classical language.

(3) History.

(4) Geography.

(5) Elementary Mechanics.

(vii) The name of the school at the test Examination of which the candidate wishes to appear must be stated.

N.B.—A student who failed to pass or appear at the annual examination for promotion to class X at the end of the session 1916 and then left the school can, under no circumstances, be allowed to appear at the examination.

5. The Inspector on being satisfied will countersign and return the application, which will then be the candidate's passport for admission to the Test Examination.

6. Every candidate must deposit his fee for the Test Examination with the Head Master of the institution in which he intends to appear, at least 15 days before the date of that examination. The Head Master will deposit the amount realized by him into the local Treasury and forward a copy of the Treasury chalan to this office. He should also submit to this office an account of the charges incurred by him (including remuneration to examiners) for conducting the examination of private candidates, together with vouchers in support of the charges, on receipt of which the Director of Public Instruction will be moved to sanction the expenditure.

7. The Head Masters of the institutions named above should direct private students who satisfy the test to appear before them in due time with their applications for admission to the Matriculation Examination and to sign them in their presence. They will then grant the necessary certificates and forward the application to the Inspector for countersignature, after which they will be sent by the Inspector direct to the candidates.

8. In no circumstances should the fee for the Matriculation Examination be sent to the Inspector's office. It should be sent to the Registrar by the candidates themselves, together with the countersigned applications.

9. Private students must understand that the Test Examination of any school other than those named above will not be accepted by the Inspector.

10. The Matriculation Examination will be held in March 1918.

11. Applications and fees for admission to the examination must reach the office of the Registrar on or before the 17th January 1918.

M. P. WEST,

Offg. Inspector of Schools, Chittagong Division.

CHITTAGONG, *the 23rd August 1917.*

NOTIFICATION.

TEST EXAMINATION OF PRIVATE CANDIDATES FOR MATRICULATION EXAMINATION, 1918.

A TEST EXAMINATION of private students, who have not attended any school, recognised or unrecognised, for at least one year previous to the ensuing examination, will be held at the office of the Inspector of Schools, Presidency Division, Calcutta, from Monday, the 3rd December 1917. *Such candidates only as reside in any of the districts of the Presidency Division, including Calcutta, will be admitted to the examination.* The term "private student" includes schoolmasters.

2. Private candidates are students who have not attended any school for at least one year previous to the Matriculation Examination. They should produce proof that they have not attended any school for such period. They should also produce certificates of conduct and progress in studies from the authorities of the last school where they read, and also a certificate from other reliable authorities regarding conduct and progress in studies after leaving school. The transfer certificates granted to them by the authorities of the schools in which they studied last, or the Registrar's receipt for the fee paid in the case of those candidates who previously appeared at the Entrance or the Matriculation Examination, must be submitted in original along with the application for permission to appear at the Test Examination. A statement of antecedents of the candidate should accompany his application. He should state whether he read in any unrecognised school, and if so, in what school and in what year. A student who failed to pass the annual examination for promotion to the first class at the end of the year 1916 and then left school will, under no circumstances, be allowed to appear at the Matriculation Examination of 1918.

3. *Bonâ-fide* teachers employed in any of the schools in the Presidency Division may be admitted to the examination; they must produce certificates of service and character from their employers or from the Deputy Inspector of Schools of the district concerned.

4. No one shall be admitted to the Matriculation Examination unless he completes the age of sixteen years on the first day of the month in which the Matriculation Examination is held.

5. Each candidate should submit to the Inspector of Schools, Presidency Division, and *not to the undersigned personally*, not later than the 1st November 1917, his application for admission to the Test Examination, with the following particulars:—

(1) age, (2) residence, (3) father's name, (4) whether he appeared at any previous Entrance or Matriculation Examination, (5) second language besides English, (6) vernacular language, and (7) which two of the following optional subjects he has taken up:—

(*a*) Additional Mathematics.

(*b*) Additional paper in the classical language.

(*c*) History.

(*d*) Geography.

(*e*) Elementary Mechanics.

6. The admission-fee for the examination is Rs. 6 for each candidate, and is to be remitted with the application on or before the prescribed date, after which a fine of Rs. 2 is to be imposed for each week's delay. Under no circumstances the admission-fee will be refunded.

7. No private student will be admitted to the Test Examination unless he is satisfactorily identified.

8. Candidates who are sent up by this office must appear at the Calcutta Examination centre.

9. Those who reside at a distance from Calcutta may, with special permission, present themselves at the Test Examination held by the headmaster of the nearest zilla or Government high school within the Presidency Division on condition that they appear at the centre selected by the candidates from that institution. The headmaster of such schools is hereby authorized to sign the applications, which must afterwards be countersigned by the undersigned. The fees and fines paid by these candidates as per paragraph 6 above should be utilized in meeting the cost of the examination.

10. The date of the Matriculation Examination in 1918 will be notified hereafter.

11. Applications and fees for admission to the examination must reach the office of the Registrar on or before the date to be fixed by the University.

12. *Programme of Examination*—

INTERMEDIATE AND B. A. EXAMINATIONS IN 1918.

Deputy Inspectors, Sub-Inspectors and *bonâ-fide* teachers of English schools in the Presidency Division, who have been employed as such for at least three years preceding the examination, will be admitted to the above examinations on production of certificates of character and length of service (with dates) from their employers. Laboratory assistants and demonstrators and librarians of affiliated colleges will be treated as teachers. *Their applications must reach this office on or before the 4th December 1917.*

1. In accordance with section 9, Chapter XV, of the revised Regulations dealing with the registration of University students, all candidates who intend to appear at any of the ensuing examinations of the University of Calcutta otherwise than as students of some affiliated institutions, and who have applied for or have obtained the special permission of the Senate for the purpose, are required to apply to the Registrar of the Calcutta University for the registration of their names as University students. No person will be deemed a "University student" unless and until his name has been duly registered, and none but "University students" will be eligible for admission to any University examination other than the Matriculation. A registration fee of Rs. 2 must accompany every application.

2. Candidates for the B. A. Examination must send to the Inspector of Schools, Presidency Division, and *not to the undersigned personally*, their F. A., I. A., or I.
